

Long Duration Fire Assessment Planning Workshop

The purpose of this workshop is to instruct fire managers, incident commanders, planning section chiefs, operations section chiefs and those desiring to participate on Long Term Plan Development Teams techniques to effectively prepare and update Long Term Implementation Plans. It will increase the capability of long duration fire management by providing Information transfer to IMTs and Fire Managers from the Northern Rockies, Rocky Mountain, Southwest and Great Basin. Objectives include:

- Prepare, implement and update a Long Term Implementation Plans
- How to develop, implement and revise decision support tools in support of LTIPs
- Policy update and review (expected policy updates from spring 08)
