**MESSAGE:**

**VA crewmember (see our 8/22 PM report) will depart MSO 8/24 at 0735 on Delta flight4511, arriving Salt Lake City at 0905, departing Delta 14 at 0940, arriving Atlanta at 0324, departing Delta5151 at 1727, arriving Bristol TN at 1831. His family will meet him at the airport. He does not need agency transportation. He is doing very well and has no adverse affects from the bee sting, and has enjoyed his assignment and time with his crew and regrets having to leave them. It is evident that the crew will miss him...**

The Demob request for VA crewmember who was unable to extend beyond 14 days, was submitted by his crewboss this evening, for demob on his 14<sup>th</sup> shift day 8/26 and travel on 8/27. We will provide details when the flight arrangements are completed and provided to us.

Jim and I visited the Incendiary Creek and the Ought-7 ICPs today. The NC-NCS crew assignment was changed from the Incendiary to the Ought-7 fire when that fire broke yesterday (lightning strike from storm system). The NC-NCF crew was loaned to the Ought-7 fire today to help complete work in a critical area on the fire, due to threatened structures. The Ops chief commented to us how much he appreciated their work, attitude, and enthusiasm. This is typical of the positive responses we have been receiving for all the crews in this module, both in Alaska and here.

Jim has obtained all IC signatures on the extension requests for the VA and TN crews on the Lolo Complex, the NC-NCS crew on the Ought fire, and the NC-NCF crew on the Incendiary Creek fire. The forms have started working their way through the NRCC and to Southern Region.

On 8/24 Jim will visit the Wise River RD where the MS crew is assigned to work the Kelly fire and to provide IA for the District. He will obtain appropriate signitures on the Extension request form for the MS crew then.
