Organizational Chart

<p>13. Values at Risk: (circle those that apply)</p> <p>Houses Improvements Cultural/Historical Other:</p>
<p>14. Hazards: (circle those that apply)</p> <p>Snags Hazardous Materials Power lines Cliff lines Urban Interface Other:</p>
<p>15. Cause:</p> <p>Protect Origin! Unknown Cause – Order FINV!</p>
<p>16. Additional Resources Needed:</p>
<p>17. Accidents That Occurred:</p>

<p>9. Does every fireline supervisor have a copy of the Incident Response Pocket Guide (PMS #461)?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)</p>
<p>10. Does every fireline supervisor on Type 3 – 5 wildland fires have a copy of the host unit's Fire Danger Pocket Card?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)</p>
<p>11. Have all fireline qualified individuals received training in entrapment recognition, deployment protocols, and in recognition & selection of safety zones when such training has not been provided by the home/host Units?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.</p>
<p>12. Were personnel mobilized by their Home Unit fully qualified for their assignment?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)</p>
<p>13. Are personnel only assigned to fireline positions for which they are qualified, as certified by their employing agency?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)</p>
<p>14. Are firefighters complying with the NWCG work/rest guidelines?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.</p>
<p>15. On fires that exceed one operational period, has the IC monitored compliance with work/rest guidelines and documented the following information in the daily record :</p> <p>a) Descriptions of actions taken to monitor work/rest cycles; b) Every incidence where work/rest guidelines were exceeded; c) Actions taken to ensure compliance with the guidelines?</p>	<p><input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.</p>

Incident Name:	Incident Commander:
Line Officer:	Date:
Monitoring Questions	Accomplishment
1. Was a complexity analysis prepared at the time of initial attack as part of size up and there after as appropriate?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.
2. Have the safety & welfare of all personnel & the public been addressed and mitigation identified and completed?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records (optional)
3. Are firefighting actions in full compliance with the Ten Standard Fire Orders?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)
4. Is mitigation of the applicable Watch Out Situations being accomplished?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)
5. Did arriving ground fireline personnel on Type 3 – 5 wildland fires have positive & documented contact with appropriate incident mgt. personnel & receive an adequate briefing?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.
6. Do all resources know the name of their immediate supervisor and on Type 3 – 5 incidents the name of the assigned IC?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)
7. Is the IC's identity and all changes in command (ICs) evident in the incident records?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records.
8. On Type 1 – 3 wildland fires, does the IC have no collateral duties, except for those of unfilled command & general staff positions?	<input type="radio"/> Yes <input type="radio"/> No (see notes) <input type="radio"/> Documented in Incident Records. (optional)

Communications Plan

	NET	TX Frequency	RX Frequency	TX Tone	RX Tone
1	Region 8 Fire	169.900	169.900		
2	North Zone	164.9125	164.9125	103.5	103.5
3	Triangle Mt Rpt	170.475	164.9125	131.8	103.5
4	Cave Run Rpt	170.475	164.9125	103.5	103.5
5	Koomer Ridge	170.475	164.9125	156.7	103.5
6	South Zone	164.800	164.800	103.5	103.5
7	McKee Rpt	172.225	164.800	103.5	103.5
8	Mt. Victory Rpt	172.225	164.800	110.9	103.5
9	Wiborg Rpt	172.225	164.800	123.0	103.5
10	Redbird Zone	164.9375	164.9375	103.5	103.5
11	Cherry Tree Rpt	170.525	164.9375	110.9	103.5
12	Lucinda Rpt	170.525	164.9375	146.2	103.5
13	Peabody Rpt	170.525	164.9375	167.9	103.5
14	Common User 1	168.6125	168.6125		
15	Common User 2	163.7125	163.7125		
16	Air Guard	168.625	168.625	110.9	110.9
Mobiles: 1-16 plus 17-23 weather channel including					
17	NWS-Lexington		162.400		103.5
20	NWS-Jackson		162.475		103.5
23	NWS-Somerset		162.550		103.5

Complexity Analysis for Type 5, 4 or 3 Fires

*If complexity moves toward a Type 2 fire, use 2009 Complexity Analysis form

Date/Time _____

Y or N

Fire Behavior

Fuels are extremely dry and susceptible to long range spotting. _____

Currently experiencing extreme fire behavior. _____

Weather forecast indicating no significant relief or worse conditions. _____

Current or predicted fire behavior dictates indirect control strategy, with large amounts of fuel within planned perimeter. _____

Firefighter Safety

Performance of firefighting resources affected by cumulative fatigue. _____

Overhead overextended mentally and/or physically. _____

Communication ineffective with tactical resources or dispatch . _____

Organization

Operations exceed the span of control. _____

Incident action plans, briefings, etc. missing or poorly prepared. _____

Variety of specialized operations, support personnel or equipment. _____

Unable to properly staff air operations. _____

Limited local resources available for initial attack. _____

Heavy commitment of local resources to logistical support. _____

Resources unfamiliar with local conditions and tactics. _____

Values to be protected

Urban interface: structures, developments or potential for evacuation. _____

Fire burning or threatening more than one jurisdiction and potential for unified command with different management objectives. _____

Unique natural resources, special-designation areas/ T & E species, etc. _____

Sensitive political concerns, media involvement, or other controversy _____

Total number of elements checked: _____

If you have checked "Y" on 3 to 5 of the analysis boxes, consider requesting the next level of incident management support

Remarks and/ Decision Rationale.

Risk Management Process

Step 1 Situation Awareness

Gather Information

Objective Communication Previous Fire Behavior
 Who's in Charge Weather Forecast Local Factors

Scout the Fire

Step 2 Hazard Assessment

Estimate Potential Fire Behavior Hazards Look Up/Down/Around

Identify Tactical Hazards Watch Outs

What other safety hazards exist?

Consider severity vs. probability

Step 3 Hazard Control

Fire Orders > LCES Checklist > MANDATORY

Anchor Point Downhill Checklist (if applicable)

What other controls are necessary?

Step 4 Decision Point

Are controls in place for identified hazards?

NO – Reassess situation YES – Next Question

Are selected tactics based on expected fire behavior?

NO – Reassess situation YES – Next Question

Have instructions been given and understood?

NO – Reassess situation YES – Initiate action

Step 5 Evaluate

Personnel: Low experience with local factors? Distracted from primary tasks?

Fatigue or stress reaction? Hazardous attitude?

The Situation: What is changing?

Are strategy and tactics working?
