

Great Smoky Wildland Fire Module

Great Smoky Wildland Fire Module, established in 1998, is hosted by Great Smoky Mountains National Park, and is based out of Gatlinburg, TN.

Vision Statement: The Great Smoky Wildland Fire Module is a force multiplier that provides professional leadership in planning and implementation of wildland fire operations. Through leadership, teamwork, respect, and commitment to excellence, the Module leads today while developing the future of National Park Service wildland fire management. The module upholds the core leadership values of duty, integrity, and respect and focuses on customer service and employee development.
