<b>SITE Met Standard?</b>	<b>PASS</b>
---------------------------	-------------

**OVERALL COMMENTS**

This site has a nice, soft appeal upon initial entry onto the site and generally follows the format established in the initial IG. Some of the pages are directed to the AFS site, which presents no problem except the left-side menubar will change.

Need to add a few links to left menubar such as Related Links, Software, etc.

Page is generally in compliance with template rules. However, there are two websites to view - AICC and AFS. They generally look alike with the AICC in red and the AFS in blue. The left menus change order, which can be a bit confusing if one is not paying attention. **RECOMMENDATION:** Consider make the AICC and AFS pages more distinct beyond just color.
