| 2 | TOP BANNER | a. | Yes From individual pages. |
| | | b. | No |
| | | i | Yes GACC title is there, but the GACC letters are not. |
| | | ii | Yes Located in center of banner. |
| | | c. | Yes |
| | | d. | No These links are there, except they are on the top of the banner instead of underneath. Also, there is a lage picture extending from the banner down into the main area of the screen. While this is aesthetically pleasing, it does not fit the GACC standards for the banner and front page. The picture also offsets the welcome page, so the links are further down the page. |

OVERALL COMMENTS

Very nice looking site and would have possibly been a good template to initially follow. However, if we want to standardize the GACC sites, we need folks to follow, at least the basic outline. Does not meet 508 compliance with fixed size fonts.

Overall, I think the site looks pretty goo, but would be improved if the GACC standards were employed throughout the site.

None

This site is center justified, where other sites I review are left justified. Also, the font size for this site should be a little larger.

Very nice looking new site. Would recommend main pages for each main header in left-side menu (i.e. PS, Logistics/Dispatch, etc) provide information for users, especially new users of the site. Would recommend site be fixed to where it opens up to fit whole page.

Professionally done website. A few additional menu items appear in the main navigation (left-side) menu, but does not affect the use of the site.
