

APPENDIX 2.11

GEOGRAPHIC AREA CORDINATION CENTERS

Website Evaluation West Great Basin - WGBC

		Evaluation Comments			
1	OVERALL	a.	Yes		
		b.	Yes		
		c.	Yes		
		d.	Yes		
		Met Standard?	Pass	Except for a couple of odd things: (1) Under the "Administrative" header, clicking on the "Policy and Reports" section will created two new links under the same header. They are the "GB Coordination Group" and "GB Committees / Groups" respectively. The former does not comply with the standard, while the latter one does. (2) Clicking on "Publications" under the "Related Links" section changes the links under that same header, but both are inactive.	
2	TOP BANNER	a.	No

OVERALL COMMENTS

Site needs to add <alt> tags for all graphics. Site needs to correct the 'related links' part of the menubar. Some pages have "Publications" and "Job Opportunities" links. Correct "About Us" link within a paragraph on Welcome page. Clean-up "fire restrictions," some are out-of-date. Create "PS" page to describe program. Intell page: UTF/CORD Report should be under Resources header. Intell page: Create a header "YTD / Historical" and place all YTD files under this header. Intell page: move WGBC Current Large Fires and National Large Fire Map under "Maps and Satellite Imagery"... Move Satellite Imagery link to Weather page. Weather page: Create WGBC Header: add Daily Outlooks, etc. Good site overall.

This site needs to be improved a bit as there are some broken links and a few weird things that occur with the links on the left-side menubar. Otherwise, I think this site looks good and offers the user a good amount of information: it generally complies with the national standard.

News & Notes updated regularly.

Minimally meets the standards with exceptions noted above.
