Incident Business Committee (IBC)

July 1, 2014

To: Incident Business Committee

From: Ron Schilz, Chair, IBC

Subject: Frequently Asked Question documents on Lend/Lease of Resources, Rental Vehicles and Federal Agency Vehicle Property Damage

In an effort to answer some common questions regarding the subjects above the Incident Business Committee has developed three documents for your use while on incident assignments.

The Lend/Lease of Resources document discusses how Incident Commanders can temporarily lend or lease firefighting resources between incidents that are relatively close to each other for a period of time to fulfill critical missions.

The Rental Vehicle document provides general guidance regarding obtaining and the appropriate use of rental vehicles by both regular and casual employees on incident assignments.

The Federal Agency Vehicle Property Damage document provides guidance regarding damage to government vehicles during incident assignments and what can be charged to the incident.

The FAQ documents will be posted to the Incident Business Committee web page at:

<http://www.nwcg.gov/branches/pre/ibc/index.htm>
