

# Wildland Fire vs. Prescribed Fire

- Wildland Fire and Prescribed Fire look the same on the ground
- A lot of the processes and terminology are the same – while this is a good thing it can also be confusing when ordering interagency resources
- The key difference for ordering interagency resources are agreements

# Resources for Wildland Fires

 Fire start  
Dispatch places orders for interagency partners

Agreements are in place – somewhat behind the scenes

- Allows sharing of resources and a billing mechanism

# Resources for Prescribed Fires

- Project is planned
- Home unit identifies resource types and numbers
- Requires Inter-Agency Agreements to be in place in order to use partners

## Inter-Agency Agreement (between federal agencies)

- BIA, NPS, FSW, FS
- [https://usdagcc.sharepoint.com/sites/fs-r09-fam/SitePages/TEst\(1\).aspx](https://usdagcc.sharepoint.com/sites/fs-r09-fam/SitePages/TEst(1).aspx)

## State Master Coop Agreements

- Agreement must identify Rx fire as an activity
- A Supplemental Project Agreement (SPA) is tiered to the state master agreement

# Resources for Prescribed Fires

## Inter-Agency Agreements (IAA) within in Eastern Area

- **Forest Service** Rx Burns
  - FWS can send resources
  - BIA can send resources
- **FWS** Rx Burns
  - FS can send resources
- **NPS** Rx Burns in NPS Midwest Region
  - FS can send resources

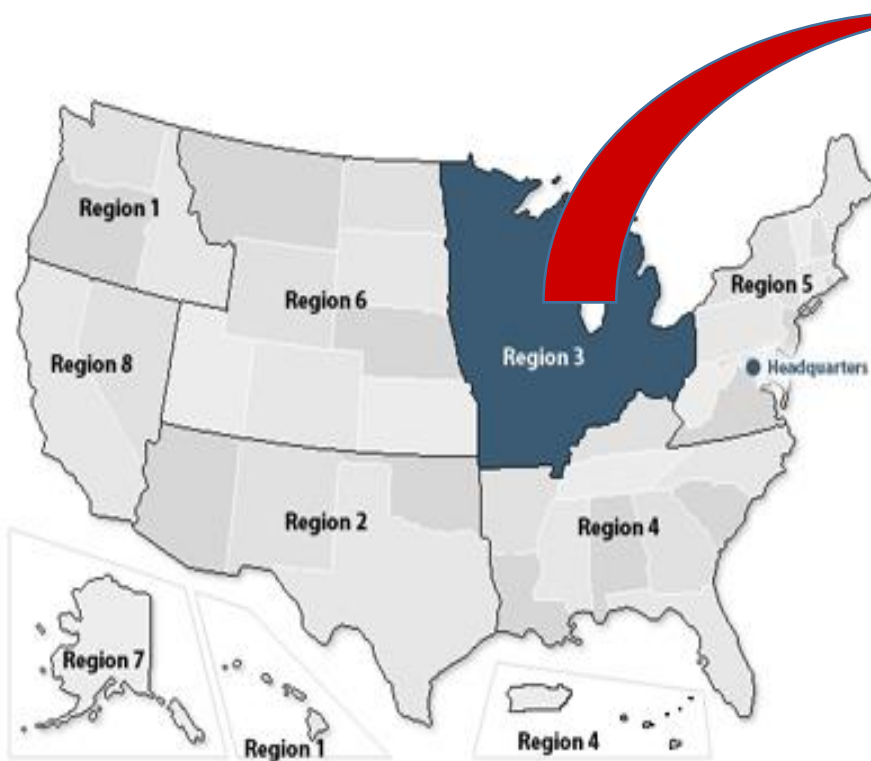

## Supplemental Project Agreement with State

- There are currently no SPAs in place for Rx Fire
- RO exploring piloting with a few states in 2020

# IAA FWS R3 Fuels Support to FS R9

18IA11090100008

Expires 12/31/2019

POC: Dan Laber, ZFMO
