Vendor/Contractor

The State of Nevada will be processing the contractor/vendor payments for this fire. If you have not completed a "Vendor Registration" form for the State this year please follow this link to register: http://controller.nv.gov/VendorServices/Vendor_Services.html. You may choose either "Electronic Vendor Registration" or download and print the PDF version. The PDF version can be filled out and mailed to the Controller's office.

This is a very important step in the payment process. The Nevada Division of Forestry cannot process payment packages until contractors are registered vendors.

If you are already a **registered vendor** with the State you do not need to re-register.

Thank you

Mary Wells
