Demonstrated knowledge of BLM Driving Policy per the Interagency Standards for Fire and Fire Aviation Operations. Completed an initial driver walk around. Demonstrated knowledge of completing a vehicle inspection utilizing the Fire Equipment Maintenance and Procedure Record (FEMPR) or equivalent. Demonstrated how to properly start up and shut down the vehicle. Ensured gauges are functioning properly. Allowed glow plugs to warm up. Ensured seat belts were worn. Performed driver adjustments. Released/engaged parking brake. Demonstrated the following correct urban driving skills: Started and stopped the vehicle on a flat surface, incline, and decline. Merged with traffic. Controlled vehicle speed for various road and traffic conditions while using proper gears. Properly backed up the vehicle. Correctly parked the vehicle. Maneuvered in city traffic. Demonstrated the following off-highway driving skills: Maneuvered along a two-track road. Maneuvered through washouts and draws. Maneuvered through vashouts and draws. Maneuvered through rocky terrain utilizing a spotter. Maneuvered or ongh, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	Task	A *	B *	C*	D*
Completed an initial driver walk around. Demonstrated knowledge of completing a vehicle inspection utilizing the Fire Equipment Maintenance and Procedure Record (FEMPR) or equivalent. Demonstrated how to properly start up and shut down the vehicle. • Ensured gauges are functioning properly. • Allowed glow plugs to warm up. • Ensured seat belts were worn. • Performed driver adjustments. • Released/engaged parking brake. Demonstrated the following correct urban driving skills: • Started and stopped the vehicle on a flat surface, incline, and decline. • Merged with traffic. • Controlled vehicle speed for various road and traffic conditions while using proper gears. • Properly backed up the vehicle. • Correctly parked the vehicle. • Maneuvered in city traffic. Demonstrated the following off-highway driving skills: • Maneuvered along a two-track road. • Maneuvered through washouts and draws. • Maneuvered nrough, steep slopes, and side hills. Maintained situational awareness. • Utilized spotters. • Established communication between spotter and driver. • Accounted for personal safety. • Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.

Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	Merged with traffic.				
 Correctly parked the vehicle. Maneuvered in city traffic. Demonstrated the following off-highway driving skills: Maneuvered along a two-track road. Maneuvered through washouts and draws. Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	 Controlled vehicle speed for various road and traffic conditions while using proper gears. 				
 Maneuvered in city traffic. Demonstrated the following off-highway driving skills: Maneuvered along a two-track road. Maneuvered through washouts and draws. Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	Properly backed up the vehicle.				
Demonstrated the following off-highway driving skills: • Maneuvered along a two-track road. • Maneuvered through washouts and draws. • Maneuvered through rocky terrain utilizing a spotter. • Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. • Utilized spotters. • Established communication between spotter and driver. • Accounted for personal safety. • Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	 Correctly parked the vehicle. 				
 Maneuvered along a two-track road. Maneuvered through washouts and draws. Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	Maneuvered in city traffic.				
 Maneuvered through washouts and draws. Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	Demonstrated the following off-highway driving skills:				
 Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	Maneuvered along a two-track road.				
 Maneuvered through rocky terrain utilizing a spotter. Maneuvered on rough, steep slopes, and side hills. Maintained situational awareness. Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	Maneuvered through washouts and draws.				
Maintained situational awareness. • Utilized spotters. • Established communication between spotter and driver. • Accounted for personal safety. • Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.					
 Utilized spotters. Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	 Maneuvered on rough, steep slopes, and side hills. 				
 Established communication between spotter and driver. Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	Maintained situational awareness.				
 Accounted for personal safety. Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. 	Utilized spotters.				
Utilized mirrors. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water. Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	 Established communication between spotter and driver. 				
Discussed proper methods and procedures for maneuvering through streams, waterways, or standing water.	Accounted for personal safety.
