

NORTHERN UTAH INTERAGENCY FIRE CENTER

INITIAL ATTACK RUN CARDS 2014

Northern Utah Interagency Run Cards, 2014

Effective June 1 through October 31.

Notifications will occur at any time of year.

The Interagency Run Cards are developed by a group of interagency representatives to provide instructions to the Northern Utah Interagency Fire Center for initial attack dispatching wildland fire management resources within pre-identified geographic areas (Run Card Zones).

The run cards are used when a wildfire is reported and nothing else is known about it. **When a NWCG qualified Incident Commander is on scene of the fire, they may adjust the initial attack response** by either cancelling resources currently en-route (or about to be dispatched) or ordering additional resources.

Discretionary Smoke Reports:

If any of the following smoke reports are received, the appropriate Duty Officer will need to be contacted to determine the response.

- Federal Aviation Administration (FAA) Report
- Abandoned Campfires, when clearly stated that it is still within the ring
- Incidents that Local and/or Volunteer Fire Departments have responded to, or are on scene and are requesting no additional resources
- During periods of large/multiple fire activity, when there are not enough resources to fill the Run Cards, the Duty Officers from FF&SL, USFS and BLM will be available to NUIFC to assist in initial attack incident prioritization.

After Hours Dispatch Procedures:

BLM: After resource duty hours, dispatchers will contact the BLM Duty Officer who will determine the level of response for BLM fires. Dispatchers are still responsible for making all notifications per the Run Card.

STATE: After resource duty hours, dispatchers will notify the State Area FMO and/or Duty Officers who will determine the level of response for state and private fires. If unable to make contact with the Area FMO / Duty Officer, contact the State Duty Officer (Matt Snider 801-875-1096 or Shane Freeman 801-560-1072). Dispatchers are still responsible for making all notifications per the Run Card.

USFS: After resource duty hours, dispatchers will notify the USFS Duty Officer who will determine the level of response for USFS fires. If unable to make contact with the Duty Officer, contact the District AFMO. Dispatchers are still responsible for making all notifications per the Run Card.

Notes:

- Volunteer and City Fire Departments (or any other resource not dispatched by NUIFC) will not be counted as meeting the Run Card requirements for numbers of resources during the initial attack dispatch.
- The Northern Utah Interagency MAC group will convene and prioritize extended attack fires or as warranted.
- Any resource listed in parenthesis should be dispatched only if they are available locally.
- When the local Preparedness Level is 3 or higher, Summit and Wasatch County Fire Wardens can be used as closest resources only if approved by the State Northeast Area Duty Officer.

Oversight Committee Approval

2014 Runcards approved by the Northern Utah Interagency Fire Center Oversight Committee.
