Mission

The mission of the Teton Interagency crew is to provide local, geographical area (GBCC) and national incident crew support.

Objectives

1. Provide a qualified suppression and prescribed fire crew to assist with local, geographical area (GBCC), and national incident management efforts throughout the fire season.
2. Provide a skilled Type 2 IA crews that meets the National Mobilization Guide standards during the fire and prescribed burn season.
3. Provide training opportunities for Crew Boss and Squad Boss trainees, in addition to on-the-job training for all crewmembers during the fire and prescribed burn season.
4. Provide increased capability for the local Teton Dispatch Area throughout the fire and prescribed burn season.

Pre-mobilization

A crew of 20 regular firefighters from the Teton Interagency Dispatch area will be assembled periodically throughout the fire season that meets or exceeds Type 2 IA minimum standards described in Chapter 13 of the Interagency Standards for Fire and Aviation Management Operations. The "Teton Interagency Type 2 IA Crew Rotation" section of this operating plan will guide the make-up of the crew from the home units located in the Teton Interagency Dispatch Area. Mobilization of the crew process is:

1. The Park and Forest Duty Officers determine when to make a crew available, in consultation with the Zone Duty Officers.
2. TIC Steering Committee Coordinator or North Zone Duty Officer begins process of assembling names from other zones and park into a draft manifest located on the Teton Fires Webpage.
3. Once identified, the CRWB/CRWB(T) will finalize coordination with all Duty Officers to finish the manifest.
4. All individual qualification red cards will be provided to the CRWB or CRWB(t) during the manifesting process.
5. CRWB or CRWB(T) will coordinate with the TIC Steering Committee Coordinator or North Zone Duty Officer if manifest is less than 20 people or does not meet Type 2 IA minimums to discuss any additional personnel needs.
6. Teton Interagency Dispatch will make the crew available in IROC.
7. Manifest will provide phone numbers for crewmembers, as well as emergency contact phone number for all crew members.

8. CRWB/CRWB(t) completes Mobilization Notification check list in Appendix I.

Availability Expectations

1. Provide current contact information to your Duty Officer.
2. If any identified crew person is unreachable, a replacement will be sought through the dispatch zone and beyond. The identified unreachable crewperson may not be allowed to be assigned to future Teton Interagency Crew assignments if determined to be negligent.
3. Identified crew members must be able to respond to their duty station or an identified location within 2 hours of call-up, fit for duty, including off hours and weekends.
4. All gear is to be packed and ready to go once a crew person is identified to be on the crew.

Mobilization

1. Teton Interagency Dispatch will contact the CRWB/CRWB(T) along with Forest and Park Duty Officers with assignment information.
2. The CRWB/CRWB(T) will contact the following upon mobilization:
 - Zone/Park Duty Officers
 - Interagency Cache Manager
 - North Zone Duty Officer (to determine when and where the crew is meeting).
 - Squad leaders from each Zone and GTNP
3. The Duty Officers will contact the TIC Steering Committee Coordinator or North Zone Duty Officer if there are changes to their squad configuration and document the changes in the roster on Teton Fires webpage.
4. The TIC Steering Committee Coordinator or North Zone Duty Officer will coordinate with the CRWB/CRWB(T) and other Duty Officers as necessary to ensure an accurate and adequate final manifest.
5. The CRWB/CRWB(T) is responsible for a final and accurate manifest being delivered to TIDC and the TIC Steering Committee Coordinator/North Zone Duty Officer prior to mobilization. The Manifest form can be found in the Teton Crew section of the Teton Interagency Fire website.
 - a. Include information on any crew members not staying with crew the entire tour to facilitate demob in IROC.
 - b. Short term crew member assignments will be for local assignments only – all crew members will need to be committed for entire tour for off-unit assignments.
6. The crew will typically mobilize at the Bridger-Teton National Forest Supervisor's Office in Jackson. Exceptions may be made for local mobilization or if sufficient traveling efficiencies would be gained by the crew meeting up at a different location within the Teton dispatch area.
7. TIDC will arrange alternative transportation if transportation is needed for mobilization (in coordination with identified CRWB).
8. CRWB/CRWB(t) completes Mobilization Notification check list in appendix I.

Demob (at home unit) checklist (appendix E)

Ensure the crew disbanded in a timely fashion with crewmembers returning to home units with the proper pay documents, travel, personnel evaluations, and other documents. Follow the checklist in Appendix E. CRWB/CRWB(t) will make sure full demob will be completed and individual units will be able to travel back to home units within identified work/rest shift requirements and will adhere agency driving standards.

The CRWB is responsible for contacting the Teton Interagency Cache Manager and Teton dispatch when demobing from incident and returning home.

Standard Operating Procedures

- White hardhats, crew tents, and one saw kit will be dispersed to the zones/park, to be assigned to crewmembers directly from the home unit for mobilization. These are then turned back in at the home unit and readied for use by the next squad/crew.
- Crewmembers will be responsible for bringing their own personal gear (red bag). Personal gear will be limited to each crew-members red bag. Only crewmembers in an overhead position will be allowed a spare "boss bag" for mission specific items.
- Line packs should be black or green and provided by the zone or Teton Interagency Fire Cache.
- Extra saw kits are available at the Interagency Fire Cache. Crew Boss and trainee are responsible for ensuring that saw kits are refurbished completely to include part and equipment purchases (Crew boss needs to ensure S#'s for fire replacement, actual purchasing responsibility of each zone or cache).
- Each local zone will complete an updated Teton Crew Truck Inventory sheet the day of mobilization to be handed to CRWB/CRWB(t). Any needs will be communicated to CRWB/CRWB(t) and procured from the cache, if available, prior to departure.

VEHICLE STANDARDS

1. Vehicles should have no known mechanical history, have preventative maintenance checks up to date and safely seat 5-6 people.
2. Vehicles for the crew need to be four-wheel drive and have reasonable clearance.
3. Vehicles need to have ample room for personal gear, hand tools, chainsaws, fuel and other equipment.
4. Vehicle should have space for gear to be safely secured.
5. Vehicle should have bins/boxes that allow gear to be easily organized and moved on and off the truck.
6. Vehicles should have mobile radio should be installed and operable.
7. Care must be taken to not exceed the GVWR of any truck; all vehicles must accommodate total gear and crewmember weight.

8. A maximum of 5 vehicles are authorized to be make up the Teton crew.
(No Engines are to be used as crew vehicles.)
9. Vehicle milage will be complete for each vehicle by the 15th of each month, photos of the updated milage will be sent to Teton Dispatch to be disseminated to each home unit.

Crew Bosses and Squad Bosses will ensure that vehicle logbooks are updated during assignments. Vehicle preventative maintenance checks should occur and be documented in the vehicle logbook before shift every day the vehicle is in use while on assignment. FS employees will provide OF-346 documentation if they are to be a driver.

Self Sufficient

The crew will be as self-sufficient as possible. This will include:

1. Crew members being personally self-sufficient with a credit card and/or cash.
2. CRWB or other crewmembers will either come with a government purchase card or a designated purchasing agent will be established that is accessible 24 hours a day during crew mobilization. (the receiving dispatch/incident should have purchase agent available, with TIDC as a backup)

Radios

A minimum of one KNG/BKR-5000 radio cloning cable will be attached to the CRWB/CRWB(t) kit.

The crew will use 163.100 or 168.350 as a travel channel. Travel channel use will be minimized to necessary traffic only and monitor the frequency for possible local use while traveling. On assignment, the crew will establish a crew net channel if needed in coordination with the incident or local unit if staged for Initial Attack.

Available travel frequencies, not intended for use on an incident:

National	163.1000
Primary	168.3500
Secondary	168.6125

Cell Phones / Satellite Phones

A satellite phone will be dedicated for Teton Crew use, this phone is stored in the NZ Teton Crew vehicle, the crew boss must ensure proper use and security of the satellite phone. Each crewmember will follow agency policy on cell phone use while driving, and on any incident.

Roles and Responsibilities

CRWB/CRWB(T)

The Crew Boss is responsible to ensure the squad configuration will function safely and the crew operates as one cohesive unit despite the multiagency/multizone makeup of the crew.

1. It is required the individuals assigned as FFT1's by Duty Officers remain in that position during the crew's full assignment. The Forest and Park will provide the Crew Boss with a Crew Boss briefcase (kit) that will be housed in the S.O. Cache in Jackson. The Crew Boss must complete the SOP Checklist located in the briefcase (see pages 14 and 15) and forward pertinent information to Teton Dispatch.
2. Crew Boss's will ensure that an atmosphere of open communications is established and maintained throughout the assignment.
3. Crew Boss's will ensure that fire time is sent to Teton Dispatch during assignments at the end of pay periods. Dispatch will forward time on to the zone and park duty officers, as well as the Forest Duty Officer (for SO employees that may be on the crew), duty officers ensure that time gets forwarded to appropriate supervisors. Also, Crew Boss's will ensure all crewmembers are released to their home unit with final timesheets.
4. When the crew is disbanded, crew boss's will ensure that all crewmembers will have a travel worksheet to be provided to their travel preparer for reimbursement of travel related expenses incurred while on assignment. (See Appendix F for an example worksheet).
5. Crew Boss's should ensure that all information needed to update IQCS experience records is obtained and relayed to the crew before disbanding. Appendix G is a form to document fire experience.
6. Crew Bosses are responsible for equipment rehab and the return of tools/saws in proper condition for the next mobilization. Crew Bosses are responsible for returning all equipment back to the Cache Manager in operable status and for signing it back in.
7. Crew Boss's and Squad Bosses are responsible for timely completion of AAR's, Individual Performance Evaluations, and completing any trainee taskbooks.

8. Crew Bosses are responsible for collecting all Crew evaluations and submitting them to the Teton Crew Coordinator/North Zone Duty Officer. Individual evaluations will be shared directly with the employee's zone/park duty officer that will then ensure IQCS is updated accordingly.
9. Crew Boss's should make any suggestions for changes to this operating plan to the Teton Interagency Crew Steering Committee Chair.
10. Crew Boss's should write a summary of lessons learned, using the standard Teton Interagency Crew AAR Form (Appendix C), which shall be forwarded to zone FMO's and Steering Committee members upon return to home unit within 1 week following completion of R & R. The AAR Form will be updated in the Google drive available through Teton Fire Dispatch Website.
11. Crew Bosses are responsible for coordinating gear and equipment rehabilitation, that includes saw kits located on each zone.

Trainers/Trainees:

1. Trainees should have their taskbooks initiated prior to mobilizing for a crew assignment.
2. Trainees are responsible for bringing their taskbooks when mobilizing and while they are on assignments.
3. The trainer and trainee will frequently review taskbook tasks, to provide for a quality training assignment. The trainer is ultimately responsible for the trainee's performance of the position and should interact with the trainee throughout the assignment.
4. If crew operations will not be compromised (transport, oversight, capabilities, etc.) individuals on the crew can accept single resource assignments (trainee or qualified) separate from the crew.

Fallers/Swampers:

5. Designated lead fallers will be certified as a FAL2 or higher.
6. Swampers are recommended to be minimally qualified as FAL2 restricted when staffing permits.
7. Duty officers should make attempts for the extra FFT1 to be Qualified as FAL2 or higher to act as a Lead for saw teams when staffing allows.

EMT:

1. Duty officers will strive to ensure at least one EMT is mobilized with the Teton Crew for each assignment.
2. EMTs will ensure they carry all required paperwork while on assignment to function as a EMT responder.
3. EMTs will work directly with CRWB/CRWB(t) to ensure medical gear is brought with the crew on the line of incidents.

AD Firefighters:

AD's assigned to the crew must have their AD FFT # prior to dispatch.
AD's will need a separate resource order for any Fire Codes they are assigned to.

Duty Officers

1. Duty officers are responsible for identifying Crew Boss's, Crew Boss trainees, ICT5, Squad Boss's and FFT1 trainees for each zone based on the rotation listed in this plan.
2. It is expected that the individuals assigned as FFT1 by Duty Officers are to remain in that position during the full length of the assignment.
3. Duty Officers and FMO's will select crewmembers physically fit for the job and who have a work ethic that reflects the crew values and expectations.
4. Duty officers ensure qualifications of squad members and alternates are accurate. IQCS will be checked.
5. Duty officers will ensure that all equipment and gear is properly rehabilitated and maintained for next crew mobilization.
6. Duty officers will ensure that saw kits are inventoried and necessary parts are purchased.

Teton Interagency Crew (TIC) Steering Committee

The Steering Committee will meet at least twice per year (spring and fall) to revise this Operations Plan and send for signatures (in the spring). The fall meeting will be an interactive AAR with crew bosses, steering committee, cache manager and dispatch. The minimum for spring meetings is one representative from each zone, GTNP, and the coordinator or designated acting. Designated members for 2025 are:

Overall Coordinator: Patrick Tenney

North: Brent Loomis

East: Wade Laster

West: Mike McEwen

BTSO: Josh Erickson

Park: Bill Mayer

TETON INTERAGENCY TYPE 2 IA CREW ROTATION 2025

	GTNP	BTNF North	BTNF East	BTNF West
1st CREW	SQUAD 1	SQUAD 2	SQUAD 3	SQUAD 4
2nd CREW	SQUAD 2	SQUAD 3	SQUAD 4	SQUAD 1
3rd CREW	SQUAD 3	SQUAD 4	SQUAD 1	SQUAD 2
4th CREW	SQUAD 4	SQUAD 1	SQUAD 2	SQUAD 3

- Each crew will be available for a two-week period. Crews are available until dispatched, or the two weeks is up. If two weeks go by without a dispatch, the next crew configuration will be manifested and made available. Repeat rotation for crew 5 and beyond.
- Unless negotiated prior to manifesting, crew boss trainees will be identified for every crew. The Forest and Park have a priority list established for crew boss trainees. The trainee will be picked off the list, starting at the top and working down until the first available trainee is identified and manifested. The trainee list is in Appendix H.
- FFT1's are to be identified by Zone Duty Officers prior to mobilization and should not be assigned as FAL2 in addition to FFT1.
- FAL2 should be fully qualified as FAL2 or higher with no restrictions.
- Zones will negotiate for trainee positions if the zone cannot meet the need.
- Teton Crew Coordinator/NZ Duty Officer will work directly with the Crew Boss and trainee to ensure include 1 qualified EMT or Wilderness First Responder (WFR) on each crew manifest. EMTs or WFRs will be identified on the crew manifest with the appropriate mnemonic.
- An ICT4 should be considered for each manifest but is not required.
- It is desired to have at least one FAL1 on the crew, either manifested as such, or within the overhead structure of the crew.
- Attempts should be made for the 3rd FFT1 to be qualified as a FAL2 or higher.

CRWB and CRWB(t) – From Forest/Park Priority List

FFT1 trainee

FFT2

FFT2 rookie/cooperator

The Crew Boss will ensure that all type 2 IA minimums are met or exceeded as the manifest is built or modified. (Must have minimum of 3 ICT5's, 3 sawyers, and at least 60% of crew must have 1 season or more of firefighting experience. Third ICT5 in above configuration would be CRWB(T) if a shortage of ICT5's exists. See 2025 Red Book for minimum type 2 IA crew requirements.

Suggested Gear for Fire Assignments

Person

- Current Red Card, Comfortable Boots, Wallet, Cash (\$100)

Initial Attack/Fireline Gear Contents

- New Generation Fire Shelter
- 4-6 quarts water
- Headlamp with batteries
- Leather Gloves
- Hardhat
- Eye Protection
- Food for 24 hours (1MRE + snacks)
- Roll of Flagging
- Radio with 9 extra aa batteries
- Radio Harness
- Compass
- Flat file
- Light Rainwear
- Warm layer
- Space Blanket
- 4 Fusees
- Meds/ toothbrush
- Matches/lighter
- Cook cup/coffee/tea
- Pen/pencil/pad
- Spork
- Knife
- First Aid Kit
- Toilet Paper
- Sunscreen/bug rep.
- Incident Response Pocket Guide
- Roll of Fiber Tape

Red Bag Contents (be prepared for a 14-day assignment)

- Work Clothes (4 T-shirts, 2pr Nomex Pants)
- Personal Clothes (Jeans/Shirt)
- Exercise Clothes
- Running Shoes
- Tent
- Sleeping Bag
- Therma Rest/ Pad
- Book
- Flip flops/ Sandals
- Socks/Underwear (14 + days)
- Warm “puffy” Coat or the like
- Long underwear
- Beanie/ Warm Gloves
- Sweatshirt
- Writing Materials
- 2 Extra Garbage Bags-Heavy Duty
- Supplements/Vitamins/Meds
- Toiletries/Hygiene Needs
- Small Towel

Teton Interagency Crew Boss Check List

- ☐ PPE: All Crew personnel have proper boots, hard hat and nomex clothing, etc. Did all crewmembers receive deployment training for the version of fire shelter they are carrying?
- ☐ Tools:
 - Check chainsaw kits are complete.
 - Crew should have at least one Fire Weather Kit.
 - Ensure adequate hands tools including extras.
 - Do all squad bosses have radios?
 - First aid kit for the crew.
- ☐ Communication with Teton Interagency Dispatch:
 - Check out with dispatch when crew starts travel.
 - When traveling notify dispatch of location of RON (remain overnight) stops.
 - Notify dispatch after arrival at fire assignment.
 - Notify dispatch when leaving fire assignment or transfer to another fire.
 - Notify dispatch when crew has returned.
- ☐ Manifest all crew members. Manifest should be faxed or emailed to dispatch before departure. wytddc@firenet.gov **Teton Interagency Dispatch FAX: 307-739- 3618**
- ☐ Check Crew Boss Kit: Crew and individual evaluations, extra fire fighter time sheets, crew time reports, general message forms, etc.
- ☐ Phone numbers for Teton Interagency Dispatch. **TIDC Phone: 307-739-3630**
- ☐ Medical Concerns:
 - Check for allergies to bee stings and other medical conditions. Be considerate of privacy concerns!
 - Are there any EMT's/ First responders on the crew?
- ☐ Check Red Card of crew members: How experienced is the crew? Are sawyers qualified?
- ☐ Flagging: Hot pink for escape routes, yellow with black stripes for hazards. See ISFFAO 2025 (Red Book) 07-15 – 07-16
- ☐ Crew members should have MRE's or other food for at least two meals when on the fire line.
- ☐ Will crew travel by vehicles or Bus?
 - Do drivers meet work/rest guidelines?
 - No travel after 2200 while in travel status to incidents or back to home base. (Plan accordingly to ensure that this requirement is met)
- ☐ Check resource order: Phone numbers for incident, location for check-in, etc.
- ☐ Brief crew: Make expectations for crew known before crew leaves. Have crew members sign the two-page expectations document.
- ☐ Check out a Satellite Phone if the Fire Cache has one available.
- ☐ Ensure fuel and any hazmat are properly stored for travel.

Upon Checking all boxes, please sign and date.

Crew Boss Signature _____

Crew Boss(T) Signature _____

Expectations/SOPs/Crew Values – ALL

- You must have a **current red card** with you on all fires, as the card will be checked during mobilization.
- Individuals interested in assignments must have a full understanding of what is required and realistic expectations concerning wildland fire assignments. Physical and mental preparedness and a positive attitude are essential.
- Being properly prepared, physically, and mentally, for any type of assignment is the responsibility of the individual firefighter and is the deciding factor in the success of your assignment.
- The time commitment of an assignment is usually 14 days, excluding travel. This could change depending upon fire activity. You must be prepared to stay for the duration of the assignment including additional travel days.
- Whatever the work task assigned anticipate and expect long hours, constantly changing operational periods, hard work, little rest, and an on-going change regarding plans and objectives. You must be flexible and properly prepared.
- Assignments may place you in hazardous situations such as the fire itself, crew members using tools, machines, moving parts (dozers & engines), aircraft, bees/snakes and other hazardous bugs/animals, steep terrain, high altitude, electrical storms, and hot/dry climates. Everyone's safety is of utmost importance and is your responsibility.
- You are accountable for your actions and responsible for your safety and interaction with the team. Take pride in the crew and its recognition!
- If you are assigned to a large fire, you will be living in a fire camp. Fire camps will range from small and simple to very large and complex. They will provide you with food, possibly showers, and infrequent laundry services.
- It is possible that you will be moved from one fire to another. At the end of your assignment, the crew will be demobilized. The demobilization process is often slow and requires patience. During this time, ensure that your time sheets are correct and bring a copy home with you.
- The chain of command is to be followed by all crewmembers.
- There is no tolerance for hazardous actions, any form of harassment, or poor work ethic.
- Please maintain a professional attitude when blogging or posting photos and video to the internet. Be aware of the potential consequences before posting anything. In the age of social media, items posted to the internet can spread rapidly and are nearly impossible to correct or remove. Use good judgment and be accountable for what you post, especially if it pertains to accidents or other potential investigations. Your photos or video could be subpoenaed, and your postings could lead to disciplinary actions. General fire photos and video are fine, but if you are in doubt, ask your supervisor before posting anything from an assignment.
- The entire crew is under the direction of the crewboss at all times and for the duration of the assignment, whether you are on the clock or not.
- It is important that you realize these working and living conditions and carry on your assignment with a positive attitude.
- Misconduct of any kind by a crewmember may result in the entire crew being immediately demobilized from the incident.

- Individuals involved in acts of misconduct may face disciplinary action from their home unit.

Inappropriate Behavior:

It is extremely important that inappropriate behavior be recognized and dealt with promptly. Inappropriate behavior includes all forms of harassment including sexual and racial harassment. Harassment in any form will not be tolerated. When you observe or hear of inappropriate behavior, you should:

- Inform and educate subordinates of their rights and responsibilities.
- Tell the harasser to stop the offensive conduct.
- Provide support to the victim.
- Report the incident to your supervisor and the individual's supervisor if the behavior continues. Disciplinary action may be necessary.
- Develop appropriate corrective measures.
- Document inappropriate behavior and report it to the appropriate incident manager or agency official.

While working in and around private property, recognize and respect all private property.

Drugs and Alcohol:

- Non-prescription unlawful drugs are not permitted at any time. Possession or use of these substances will result in disciplinary action.
- During off incident rest and recuperation periods, personnel are responsible for proper conduct and maintenance of fitness for duty. Drug or alcohol abuse resulting in unfitness for duty will result in disciplinary action.
- Report any observed illegal drug use/possession or alcohol misuse to your supervisor.
- No alcohol will be carried in government vehicles.

I have read, I understand, and I agree to the above-described incident behavior responsibilities, expectations, SOP's, and crew values:

Minor Injury Minor Cuts, Minor Bruises, Minor Sprains, etc.			
Report Injury to Supervisor – On a fire that means: Crew Boss (or Crew Boss - Trainee) Crew Boss must assure that injured person receives treatment and completes paperwork <i>(Call ASC for advice before seeing a chiropractor)</i>			
In Fire Camp:	Not in Fire Camp:		
Go to Medical Unit, Comp /Claims Unit or Finance Section Chief. The Incident Compensation for Injury Specialist (INJR) or Finance Section Chief (FSC-1or2) issues the CA-16 to the medical provider and will assist you with filing your claim with Workers' Comp (through ASC).	If the Employee Needs Medical Care		If the Employee Just Wants the Paperwork Filled out in Case there are Future Problems
	During Business Hours M-F 7am – 6pm	Outside Business Hours, On Weekends or if ASC is Closed	Enter the Injury Information into eSafety - (even if the employee does not receive treatment)
	Call ASC for CA-16 Supervisor and/or personnel representing the agency may give verbal authorization for treatment at an E.R. Get Treatment. Complete CA-1 Call ASC for advice <u>Give claim number to all medical providers.</u> (See: "Serious Injury" - page 1 - for more paperwork guidelines)	Supervisor and/or personnel representing the agency may give verbal authorization for treatment at an E.R. Get Treatment. Call ASC for CA-16 within 48 hours or first business day Complete CA-1 Call ASC for advice <u>Give claim number to all medical providers.</u> (See: "Serious Injury" - page 1 - for more paperwork guidelines)	If unable to access eSafety: Submit handwritten CA-1 or CA-2 form within 48 hours and enter information into eSafety as soon as possible. Injured employee and supervisor complete CA-1 , marking the first box in block 39: "no lost time and no medical expense: place this form in employees medical folder (SF-66-D)" Follow the instructions on the CA-1

Forms and Acronyms:

ASC – HR	Albuquerque Service Center – Human Resources
CA-1	(a U.S. Department of Labor form) - Federal Employees Notice of Traumatic Injury and Claim for Continuation of Pay/Compensation
CA-16	(a U.S. Department of Labor form) - Authorization for Examination And/Or Treatment
CA-2	(a U.S. Department of Labor form) - Notice of Occupational Disease and Claim for Compensation
COMP	Compensation/Claims Unit Leader
COP	Continuation of Pay – <i>(For COP information see: Yellow Book Chapter 10 section 15.1-4)</i>
FS-6100-16	Agency Provided Medical Care Authorization and Medical Report
FSC1 or 2	Finance/Administration Section Chief
HRM	Human Resources Management
INJR	Compensation for Injury Specialist
OWCP	Office of Worker's Compensation Programs
WC	Workers' Compensation

Illness (Muscle Strain that developed over more than one day or shift, Infections, Cold, Flu, Strep Throat, Carpal Tunnel Syndrome, Valley Fever, Lyme Disease, Stress or Psychiatric Conditions)	
Report Illness to Crew Boss (or Crew Boss - Trainee)	
Supervisor should NOT give verbal authorization for treatment. Only the Department of Labor can determine if an illness is work-related based on the medical documentation. Do NOT issue a CA-16 for an occupational disease or illness.	
<i>Occupational Disease or Illness (OWCP) - rarely allows agencies to authorize medical treatment related to an occupational disease or illness. The employee is responsible for the cost of treatment and can file a claim.</i>	
In Fire Camp:	Not in Fire Camp:
Go to Medical Unit, Comp/Claims Unit or Finance Section Chief. INJR advises individual of rights, benefits, and responsibilities. INJR authorizes appropriate APMC (Agency Provided Medical Care), using a FS-6100-16 , for first aid treatment for illnesses such as respiratory illness, colds, sore throats, and similar conditions associated with exposure to smoke, dust, and weather conditions, etc. Treatment of more significant illness/disease conditions are not authorized and must be submitted to OWCP for adjudication. COMP/INJR faxes and mails original injury/illness forms, supporting documentation and medical treatment records to ASC within two days of receipt of the CA-2.	Individual completes form CA-2, "Notice of Occupational Disease and Claim for Compensation" as soon as possible and preferably within 48 hours. Supervisor completes and signs reverse side. (The CA-2 is completed in eMedical and faxed to ASC just like the CA-1. See: "Serious Injury" – page 1 – for paperwork guidelines). The employee needs to work closely with the case manager in Workers' Comp to file their CA-2 claim. Leave blocks titled "Occupational code", "Type code", "Source code", "OWCP Agency Code", and "OSHA Site Code" blank. ASC is responsible to complete.
Supervisors should be trained in the difference between illness and injury. "Occupational Disease or Illness. A condition produced by the work environment over a period longer than a single workday or shift. It may result from systematic infection, repeated stress or strain, exposure to toxins, poisons, or fumes, or other continuing conditions of the work environment." (From the Yellow Book)	
PRESCRIPTIONS – Utilize local pharmacies that accept the Department of Labor (DOL), Office of Workers' Compensation Programs (OWCP) Fee Schedule and bill directly. Pharmacies/Medical providers not enrolled with DOL, OWCP, Division of Federal Employees Compensation (DFEC), should contact DOL, Affiliated Computer Services (ACS) https://owcp.dol.acs-inc.com .

Appendix B

Teton Crew Incident Injury Treatment and Reporting Procedures National Park Service

Follow these guidelines no matter if it is during business hours, outside business hours or on weekends.

1. Injury is reported to you as the supervisor (CRWB).

- Seek Medical Treatment!!
- If cell phone service is available call the Grand Teton N.P. Human Resources Office at 307-739-3441/3442/3446 to advise them of injury. If it is after hours or on a weekend leave a message for the HR Office.

2. Contact the official NPS supervisor of the injured employee to advise them of the injury and the need for medical attention.

- The NPS supervisor will call the Chief Ranger who will call the NPS Superintendent to advise them of the injury.

3. Fill out appropriate paperwork.

- Fill out CA1 or CA2 (hard copy is fine).
- On the CA-1/CA-2 the supervisor is the CRWB or CRWB(T).
- Take a CA-16 to the doctor's office to receive care, return the completed CA-16 or equivalent evaluation form to the HR office, form can be faxed to the HR office if necessary, at 307-739-3307.
- The employee and NPS supervisor need to file the claim, CA-1/CA-2, online with the Safety Management Information System (SMIS). When you advise the employee's NPS supervisor of the injury the supervisor may start filing the claim electronically for the employee while the employee is out on assignment.

4. Employee has been treated.

- Inform the supervisor (CRWB and NPS Supervisor) immediately of any medical limitations or restrictions (these should be specified in writing by the physician).
- Does individual need to be released from crew and sent home?

If you are in fire camp and need medical assistance, go to the Medical Unit where they will coordinate the necessary treatment and issue the appropriate forms. Be sure to make necessary contacts to the employee's official NPS supervisor so agency administrators can be informed of the injury.

Appendix C

Teton Crew AAR Format

Date/time: **Length of Assignment:**

Fire Name: **Fire Number (i.e. WY-BTF-123):**

**This will be an AAR with crew bosses, trainees, and crew members to revisit the Teton Crew assignment. We will try to focus on positive ways to make the crew more effective for future years. From this AAR we should be able to come up with a list of items which can be brought forward during the off season to be addressed at FMO meetings (or meeting).
Standard AAR Format:**

What was planned?

What actually happened?

Why did it happen?

What can we do next time?

Overall discussion of items per ICS functional group related to the functioning of a Type 2IA crew:

Operations – crew day to day ops, tools, saws, quals, training assignments, fitness of the crew etc.

Logistics – crew mob/demob, travel, vehicles, radios, quality/age of gear, daily logistical needs of the crew

Finance – crew time reporting, before, during and after the assignment. Purchasing on assignments.

Plans/situation – technical savviness of the crew such as: GPS, other technical stuff which makes the crew stronger.

Safety – anything

TETON CREW EMERGENCY CONTACT LIST

APPENDIX D

TETON CREW EMERGENCY CONTACT LIST

[illegible]

Appendix E Demob checklist

Crew Demobilization Checklist (after travel back from incident):

- ☐ Fire time updated for all crew members and released crew members have timesheet.
- ☐ Travel worksheets complete for all crewmembers.
- ☐ Fire Experience/IQCS documentation complete for all crewmembers.
- ☐ Chainsaws refurbished, saw kits refurbished and orders placed for replacement parts.
- ☐ Tools refurbished, Full complement of tools available to next crew.
- ☐ Fire replacement requisitions complete.
- ☐ Notify Cache Manager upon Demob and return cache items.
- ☐ Vehicles cleaned, refurbished and any deficiencies or damage documented and repairs scheduled as needed. Or ensure vehicle owners are aware and will follow up.
- ☐ Trainee position task books filled out as appropriate, performance evaluations complete for trainees.
- ☐ Any other damaged equipment has replacement or repair process in the works.
- ☐ Documentation squared away for any individual crewmember medical or injuries.
- ☐ Dispatch notified of crew status.
- ☐ Crew AAR done. Necessary AAR documentation complete.
- ☐ Crewmembers released.

Crew Boss Trainees as Identified by Forest and Park 2025

Qualified Crew Boss

Names	Park/Forest
1-Patrick Tenney	North Zone
2-Rylan Lynam	North Zone
3- Alex Drinkhard	North Zone
4-Mike Greer	East Zone
5-Danny Chappel	East Zone
6-Titus Perkins	East Zone
7-Mike McEwen	West Zone
8-Tyler Kulla	GTNP
9-Adam Johnson	GTNP
10-Lorin Eikenberry	Helitack
11- Morgan Thomson	Helitack

Teton Crew Trainee Priority	Park/ Forest
1- <u>Theresa Froseth</u>	Forest
2- Rachel Helmerichs	Forest
3- Cody Norton	Forest
4- Preston Foote	Forest
5- Jacob Noren	Forest
6-	
7-	
8-	
9-	

The Process

1. Initial Ranking based on total of 1st three columns, Based on nomination forms.
2. # of previous assignments accounted for to offset initial rankings.
3. Other qualifications (i.e. ICT4), Agency and program needs, IDP and other intangible criteria used during discussions to identify the trainee priorities.
4. Priority column identifies the Trainees numerical ranking.
5. This prioritization should be revisited each time the Teton crew is manifested.

North Zone Duty Officer		
Teton NP Duty Officer		
West Zone Duty Officer		
East Zone Squad		
West Zone Squad		
North Zone Squad		
Teton NP Squad		

**Appedix J:
Ability to Roster Type 2**

Starting in 2025 the Teton crew steering committee voted and allowed the rostering of Type 2 qualified hand crews. This is due to short staffing and the inability to always find the requisite qualifications to roster a Type 2 IA crew. The intention is for Teton crew to always be Type 2 IA, but in rare cases it can be sent out as Type 2.
