The 3.4-million-acre Bridger-Teton National Forest is the second largest National Forest in the United States outside Alaska. It lies in Western Wyoming, adjoining Yellowstone, and Grand Teton National Parks and within the Greater Yellowstone Ecosystem, the largest remaining area of undeveloped land in the 48 conterminous United States. It is noted for its scenery and natural features, large and diverse wildlife populations, and habitat for threatened and endangered species. There are six districts on the Forest: Kemmerer, Afton, Big Piney, Pinedale, Jackson and Blackrock. The Supervisor's Office is in Jackson. See below for description of duty stations.
