

MAY 21ST WILDFIRE WEBINAR

Reduce the Ire from Wildfire: Best Practices to Reduce Risk to You and Your Home

Join us for a conversation on wildfire risk reduction! We will look at best practices to manage the Home Ignition Zone, a discrete area around occupied structures. This will include voluntary vegetation management practices, as well as home hardening. Additionally, we will discuss challenges in and the trajectory of wildfire risk reduction practitioners' work.

Robb Sgroi
Land Resources Specialist,
Teton Conservation District
