

Complex Reporting

using ICS209

1. When reporting a complex of incidents, you must complete and **save** all all required blocks in the header tab first, select the **Complex** radial button and then click **Complex by Incident** located beneath the drop-down list area in Block 7.

*7. Current Incident Size or Area Involved (use unit label - e.g., "Acres", "Square Miles"):

9,000

☐ Single
☒ Complex

Size By Unit **Complex By Incident** Merge Incident

The following pop-up window appears.

Add Incident for Complex Breakout

Filters: GACC: <Any GACC> State: <Any State> Dispatch Office: AK - Upper Yukon Tanana (M)

Incidents: Purple Potato - 701985
Rain Shadow - TAD-4006
RED ENCHILADA SAUCE - 100001
Red Hill Fire - 000094
Red Hill Fire - 000179
Relish - 400156
Seventy Mile - 000183
Shook Complex - 100003
Silly Slug - TAD-6001
Snicker Creek - 000333
92 incidents matched.

Submit Close

2. To add another existing incident into the complex, click **+Add Row**.

3. The **Add Incident for Complex Breakout** window pops-up with a list of existing incidents within the dispatch zone the complex has been created in. Select the incidents to include in the complex and click **Submit**.

If the incident you are attempting to add to your complex does not exist in IRWIN, it will not be available in the pick list. You must create and approve an individual 209 for the incident before it will be available to add as a child incident to the complex.

4. To remove an incident from the complex, select the row and click **Delete Selected Rows**.

5. To edit an incident in a complex, select the incident, then select the field under the desired header and complete any changes.
