\*\*\* Notes of Significance \*\*\*

# Evening Brief

Date/Time Stamp: **Monday, August 22, 2016 - 11:32 PM**

## Weather Summary

A dry cold front will push across ID/WY today and further south into UT/NV Tuesday. This will bring drier WNW winds across much of the region, including many areas that are expected to be impacted by lightning. Drier air spreads south Wednesday with most lightning confined to southern UT/southern NV.

Another cold front will drop into ID on Wed/Thu and may bring showers and thunderstorms to the Central ID Mountains into southeast ID/WY. Storms may be drier on Wednesday before additional moisture may increase on Thursday.

Moisture quickly spreads north again Thursday through the weekend with showers and thunderstorms across UT and at times in NV.

Thunderstorm activity is expected to be **wet** across the southern half of UT/NV through this week and drier further north.

## Preparedness Levels

### Current:

|             |   |
|-------------|---|
| Great Basin | 4 |
| National    | 4 |

### **Great Basin Fire Activity: Light Initial Attack**

**New Fires and Acres: 23 fires for 7 acres / 22,476 acres Large Fire Growth**

## Great Basin Fire Potential Summary

ERC's are still above the 90-95th percentile over the northern 2/3 of the Great Basin, and above the 97th percentile across the Sierra Front into northwest Nevada and across portions of northern Nevada and Idaho where conditions have remained very dry. Recent, and expected future wet thunderstorms over southern Utah, the Arizona Strip and southern Nevada, should keep fire danger low in those areas.

Some of our driest fuels are across western and northern NV, where drier lightning is expected.

**A Fuel and Fire Behavior Advisory** is also in effect for the Northern half of Nevada, Southern Idaho and Northwest Utah.

\*\*\* Please refer to our fuels page for more detailed information \*\*\*

For more detail, see [Great Basin 7-Day Fire Potential Outlook](#)

For additional information go to: [Great Basin Coordination Center Website](#)

## Resources:

- Roide's IMT 2 and Early's BUYT being ordered for WY-GTP Berry
- Helicopters within the Great Basin
  - 14 Type 1 Helicopters
  - 14 Type 2 Helicopters
  - 26 Type 3 Helicopters
- 90 Crews are committed within the Great Basin

## Current Incident Details
