NORTHERN ROCKIES INCIDENT MANAGEMENT TEAM USE AND COMPOSITION STATISTICS

For the 2019 season, the Northern Rockies Coordinating Group (NRCG) sponsored and provided oversight responsibility for:

- 2 Type 1 Incident Management Teams
- 4 Type 2 Incident Management Teams
- 1 Wildland Fire Management Team

All Teams are managed at the geographic area level (NRCC).

HISTORY

The NRCG Board of Directors decided at their April 2001 meeting (Decision and Action Item 2001-11) that there should be interagency support to provide equipment and supplies for the Northern Rockies Incident Management Teams (IMTs). In addition, at the fall 2001 meeting, the Board also requested that information be gathered to identify how many IMT members each agency is providing.

RELEVANCY

Each agency's financial support of the teams is based on the agency's use of Northern Rockies teams over a 10-year period. Each individual agency can use this information to compare its use of IMTs with its participation on the teams.

Included are tables reflecting IMT usage and composition. Both the information on IMT usage by agency and agency unit and the information on Type 1, Type 2 IMT and WFMT composition covers the ten year period, 2010-2019.
