

# Coeur d'Alene Interagency Dispatch Center Mobilization Guide 2023

## CDC INTERAGENCY MOBILIZATION GUIDE

### IDAHO PANHANDLE NATIONAL FORESTS, USFS IDAHO DEPARTMENT OF LANDS, STATE COEUR D'ALENE TRIBE, BIA COEUR D'ALENE FIELD OFFICE, BLM

This guide is intended to supplement the National and Northern Rockies Mobilization Guides. Subjects in the National and Northern Rockies guides have not been duplicated here except when needed to emphasize items.

Users of this guide should become familiar with the National, Northern Rockies, and this mobilization guide.

#### RECOMMENDED BY THE INTERAGENCY OPERATIONS COMMITTEE:

<u>Isl</u> <u>Haley Schelin</u> Haley Schelin, Coeur d'Alene Dispatch -CDC, Chair	<u>06/14/2023</u> Date
<u>Isl</u> <u>Ryan Nipp</u> Ryan Nipp, Idaho Panhandle NFs-CZ FS, Vice	<u>06/21/2023</u> Date
<u>Isl</u> <u>Mitch Prophet</u> Mitch Prophet, Idaho Panhandle NFs- NZ FS	<u>06/15/2023</u> Date
<u>Isl</u> <u>Gregory A Juwan</u> Gregory Juwan, Idaho Panhandle NFs- SZ FS	<u>06/21/2023</u> Date
<u>Isl</u> <u>Chris Myers</u> Chris Meyers, Idaho Dept. of Lands-CZ FS	<u>06/28/2023</u> Date
<u>Isl</u> <u>Dave Thornton</u> Dave Thorton, Idaho Dept. of Lands-NZ FS	<u>June 15, 2023</u> Date

## CHAPTER 10 – OBJECTIVES, POLICY AND SCOPE OF OPERATION

---

### PURPOSE

The CDC Interagency Mobilization Guide (Guide) identifies standards which guide the operations of multi-agency logistical support activity throughout the coordination system. This Guide is intended to facilitate interagency dispatch coordination; timely and cost effective emergency response providing incident support services. It is designed to accommodate amendments as needed and will be retained as current until amended. This Guide tiers to and is to be used in conjunction with the National and Northern Rockies Mobilization Guides; generally it does NOT specifically reference or repeat information contained in those guides.

### MISSION STATEMENT

The mission of the Coeur d'Alene Interagency Dispatch Center (CDC) is to be a service organization providing support first to the firefighter on the ground and on up through the fire management organization for each participating member agency, while also providing a service to the public and keeping firefighter and public safety as the highest priority. In doing so, CDC will strive to provide safe, cost effective mobilization of emergency incident resources and to promote efficient operations through interagency cooperation and standardized procedures.

### Total Mobility

The Coeur d'Alene Interagency Dispatch Center Manager, Assistants and dispatchers have been delegated authority from the line officers and cooperating agency administrators to move personnel and equipment throughout the CDC Dispatch Zone, geographically and nationally to meet fire preparedness, fire suppression, and all risk incidents needs.

#### Coeur d'Alene Interagency Dispatch Center will:

- Dispatch personnel, crews, equipment, aircraft, and supplies.
- Maintain status of personnel, crews, equipment, aircraft, transportation, and supplies.
- Keep agency administrators and Northern Rockies Coordination Center (NRCC) informed of potential, current and critical fire situation within the dispatch boundaries.
- Provide situation and resource status information for the CDC Dispatch Area by collecting and distributing information.
- Encourage and practice close cooperation in the sharing of resources with other areas and protection agencies for mutual benefits.

### Priorities

When multiple IA and large fires are occurring and resources become scarce, prioritization becomes critical. Priority setting is delegated to the CDC Center Manager (in coordination with the Federal Fire Duty Officer and the IDL Fire Bureau Duty Officer) until a North Idaho Multi-Agency Coordinating (MAC) Group is activated.

### SCOPE OF OPERATION

#### General

Coeur d'Alene Interagency Dispatch Center has responsibilities for the following districts/areas:

#### **North Zone:**

Forest Service: Priest Lake, Sandpoint, and Bonners Ferry Ranger Districts

IDL: Pend Oreille, Priest Lake, and Kootenai Valley Fire Protective Districts

#### **South Zone:**

Forest Service: Coeur d'Alene River and St. Joe Ranger Districts

IDL: Mica, Cataldo, and West St. Joe Fire Protective Districts

CDT: Coeur d'Alene Tribe

Coeur d'Alene Interagency Dispatch Center also has coordination and support responsibilities for the following:

Idaho Panhandle National Forests, Supervisor's Office and Nursery  
 Idaho Department of Lands, Coeur d'Alene Staff Office  
 Bureau of Land Management, Coeur d'Alene Field and District Office  
 Coeur d'Alene Interagency Fire Cache  
 U.S. Fish & Wildlife Service, Kootenai National Wildlife Refuge

### Fire Management Plans

- The **Idaho Panhandle National Forests Spatial Fire Management Plan (SFMP)** identifies resource values and conditions that are critical to wildland fire management in the IPNF and recommends strategies for response to unplanned ignitions, use of wildland fire (unplanned and planned), non-fire fuels treatments, emergency stabilizations and rehabilitation, and natural resource management and protection, in conformance with the IPNF Land Management Plan 2015 Revision.
- The **Idaho Department of Lands Fire Mobilization Guide** and the **Idaho Department of Lands Fire Management Handbook** have been developed to assist the IDL Fire Management organization.
- The **Bureau of Land Management Coeur d'Alene Field Office Fire Management Plan** has been developed to assist the BLM fire management organization.

### Disaster and Emergency Plans

- **Coeur d'Alene Interagency Dispatch Center Occupant Emergency Plan** (Appendix G of CDC Office Procedures Guide)
- **Bureau of Land Management** – Policy and Direction for disasters and emergency situations can be found in the Coeur d'Alene District Incident Procedures Plan.
- **Coeur d'Alene Tribe** – Reserved.
- **Forest Service** – Policy and direction for disasters and emergency situations can be found in National Response Plan, FSM 1590, the Northern Region Emergency and Disaster Plan, and the IPNF Critical Incident Management Guide.
- **Idaho Department of Lands** – Direction may be found in the IDL Emergency Response and Safety Plan.

### Response to Non-Fire Incidents

**FS:** A Presidential Disaster Declaration must be in place before the **Forest Service** is authorized to respond to an all risk incident, i.e. prepare for, respond to and recover from terrorist attacks, major disasters and other emergencies.

If life and property are threatened and there is no Presidential Declaration, the Forest Supervisor has the authority to authorize FS employees to respond to the incident. The FS employee will charge their time to their normal project work code. FS employees will be released as soon as the agencies with jurisdictional responsibility can fully assume those responsibilities.

**Expenditure of Funds:** Obligations incurred are considered payable out of currently available funds only, without expectation of reimbursement. In the event the Parties agree to reimbursement, an appropriate Agreement Instrument will need to be developed and processed through the Grants & Agreements Specialist. A reimbursable management code will be established prior to any charges being incurred. It is not appropriate to charge to a P- or F-job code. The authorizing legislation for federal employees to support all risk incidents is the Stafford Act.

**IDL:** A Governors' Disaster Declaration must be in place for the **Idaho Department of Lands** to respond to an all risk incident, i.e. prepare for, respond to and recover from terrorist attacks, major disasters and other emergencies such as local county flooding, train derailment.

### **MOBILIZATION / DEMOBILIZATION**

CDC will coordinate movement of all national shared resources through NRCC. CDC will coordinate the movement of all resources, including aircraft, within the CDC dispatch area across unit and agency boundaries.

#### **Initial Attack Procedures**

***Coeur d'Alene Dispatch initial attack procedures are outlined in the CDC Operations Procedures Guide (OPG).***

CDC may order resources directly from cooperating agencies within the CDC dispatch area, from neighboring units (MT-KDC, MT-MDC, ID-GVC, WA-NEC, and OR-BMC) and from NRCC.

#### **National Resources**

The Idaho Panhandle Interagency Hotshot Crew (IHC) is assigned to the IPNF, dispatched by CDC, and located in Coeur d'Alene, Idaho.

Two national Type 2 IA crews (Miller Timber Services) are hosted by the IPNF, dispatched by CDC, and located near Coeur d'Alene, with an August 1 - September 15 mandatory availability period.

Coeur d'Alene Dispatch supports the Coeur d'Alene Tanker Base and the national tankers that are periodically assigned here.

#### **Notification of Commitment of National Resources**

When dispatching national resources, CDC will notify NRCC if the order did not come from there. Neighbor out-of-GACC requests for national air tankers assigned here will require NRCC verbal approval.

#### **State Notification/Authorization**

The IDL Statewide Duty Officer will be notified of any out-of-area dispatches of the IDL Single Engine Air Tankers (SEAT), Amphibious Water Scooping (AWS) 'Fire Boss' and Type 2 helicopter during periods of low or moderate fire danger. The IDL Statewide Duty Officer will authorize out-of-area dispatches during periods of high or above fire danger.

#### **Federal Duty Officer Notification**

The Federal Duty Officer will be notified of any National mobilization of national resources. Prior requests for out of area mobilization of the IPNF exclusive use helicopter will be approved by the Federal Duty Officer.

### **WILDLAND FIRE WEATHER FORECASTS**

CDC is responsible for communicating fire weather information in a timely manner to firefighters and incident management personnel. All weather watches or warnings will be broadcast over the radio utilizing Red Flag Warning protocols. CDC will read fire weather information received from the National Weather Service daily during the fire season at 1030 and 1530.

### **COST CODING**

All statistical fires, regardless of jurisdiction will be assigned a fire number, generated by WildCAD.

A FireCode will be assigned to all fires. A unique FireCode will be gotten for all fires except IPNF ABCD lightning-caused fires that will use the P1EKS5 code.

### **State Reporting Procedures**

Upon dispatch of any IDL resource for out-of-area assignment, a copy of the completed resource order will be emailed to the respective duty officer. Orders for all Coeur d'Alene Staff Office, Dispatch, or Fire Cache resources will be emailed to the IDL Fire Bureau Duty Officer (idldutyofficer@idl.idaho.gov). Specific procedures are addressed in the **CDC OPG**.

### **FIRE PREPAREDNESS PLAN**

Preparedness Levels (PL) are established by the Center Manager in consultation with the IDL Fire Bureau Chief and Federal Fire Program Manager (or local MAC when activated), guided by the North Idaho Interagency Fire Danger Operating Plan.

#### **North Idaho Interagency Fire Danger Operating Plan**

The North Idaho Interagency Fire Danger Operating Plan (FDOP) guides fire management decisions made by agency administrators, fire managers, dispatchers, and firefighters. It establishes interagency planning and response levels using the best available scientific methods and historical fire occurrence and weather data, outlines procedures for developing seasonal risk analysis, and defines fire severity trigger points.

An appropriate level of preparedness to meet fire management objectives is based on an assessment of vegetation, climate, and topography using National Fire Danger Rating System (NFDRS) modeling. This document is the Fire Danger Operating and Plan for the four primary wildland fire management agencies (USDA Forest Service, Bureau of Land Management, Idaho Department of Lands and Coeur d'Alene Tribe) in North Idaho.

#### **Representative Weather Stations:**

Northern Mountains – Priest Lake (100204)  
North Valley – Bonners Ferry (100101)  
Southern Mountains – Nuckols (100423)  
South Valley – Potlatch (100603)

### **Conference Calls**

Weekly conference calls between the NRCC and Northern Rockies Dispatch Centers will be every Wednesday at 0930 hours PDT, starting mid-June or as determined by NRCC.

CDC zone Fire Manager conference calls may be conducted as deemed necessary, requested and/or based on preparedness levels; consider conference calls at local PL 3.

### **Resource Availability**

Each district office will submit a resource status / availability list to CDC. Local government may submit resource availability either through the IDL Area Offices or directly to CDC. IPF Casual Hires (AD's) and vendors with contracted equipment are responsible to maintain their status in IROC, but may call CDC to verbally status their availability, if not set up to self-status.

### **NORTH IDAHO MULTI-AGENCY COORDINATION (MAC) GROUP**

In multiple wildfire situations, project or complex fires, and periods of competition for resources, a North Idaho Multi-Agency Coordination Group (MAC) will be activated to ensure efficient and effective use of critical personnel and equipment.

**INCIDENT SUPPORT ORGANIZATION (ISO), CDC EXPANDED**

The Coeur d'Alene Interagency Dispatch Center Manager is responsible for expanding the dispatch organization as incident activity increases. The CDC Center Manager will advise all affected units as necessary when the dispatch organization is expanded.

Reference: **CDC Expanded Dispatch Plan**

**ROLES AND RESPONSIBILITIES OF DISPATCH CENTERS**

Reference: **CDC Standard Operating Procedures**

**MOBILIZATION PROCEDURES FOR CANADA SUPPORT****Idaho Department of Lands**

NORTHWEST WILDLAND FIRE PROTECTION AGREEMENT (Northwest Compact). This cooperative operating plan is to facilitate assistance in pre-suppression and control of wildland fire. The Northwest Compact and its operating plan do not override or supersede any existing cooperative wildland firefighting arrangements such as federal/state agreements or the Canada/US Reciprocal Forest Fire Fighting Agreement. NW Compact resource exchanges are not part of the national mobilization process, but need to be coordinated as soon as practical for strategic planning purposes. All NW Compact resources used on joint US Federal/State fires will be considered agents of the state that originally ordered them.

The IDL Fire Bureau Duty Officer is the point of contact for the State of Idaho for all NW Compact orders. All orders for NW Compact resources to be deployed in Idaho will be placed through CDC as well as all orders from NW Compact agencies for State of Idaho resources.

A courtesy notification to NRCC should be made any time compact resources are mobilized. NW Compact order and manifest forms will be filled out. Currently, NW Compact orders are encouraged, but not required, to be placed through IROC. Canadian NW Compact resources brought into Idaho will be entered into IROC following a pre-designated naming convention to readily identify them as such.

**Idaho Panhandle National Forests****NORTHWEST BORDER ARRANGEMENT FOR FIRE PROTECTION**

This Arrangement is to provide a framework under which fire management resources may be exchanged to allow for cooperative fire suppression along the United States/ British Columbia border.

**US/BC BORDER OPERATING GUIDELINES**

The purpose of this guide is to clearly describe the procedures and operating guidelines to insure safe and efficient operations.

**NW Border Arrangement Steering Committee Member**

Matt Butler, IPNF-North Zone FMO, 208-443-6849

**ORDERING CHANNELS****Coeur d'Alene Interagency Dispatch Center (CDC)**

Under one cooperating unit, CDC is an interagency dispatch facility that serves:

USDA Forest Service, Idaho Panhandle National Forests (IPF)

Coeur d'Alene Tribe (CDT)

Idaho Department of Lands (IDS, North Operations)

CDC provides coordination support to:

Bureau of Land Management Coeur d'Alene District and Field Office (COD)  
Kootenai National Wildlife Reserve (KOR)

Specific information on CDC office operations is contained in the **CDC Standard Operating Procedures (CDC SOP)** and/or the **CDC Office Procedures Guide (CDC OPG)**.

### **Ordering Procedures**

CDC may order resources from neighboring units for initial attack, extended attack, large fire support, and non-fire incidents. CDC can go direct to the following units and dispatch centers, as long as the requirements of the geographic area mobilization guide are met:

**Idaho Panhandle National Forests Districts (ID-IPF)**

**Idaho Department of Lands Fire Bureau and Area Offices (ID-IDS)**

**Coeur d'Alene Tribe (ID-CDT)**

**Bureau of Land Management, Coeur d'Alene District and Field Office (ID-COD)**

**Kootenai National Wildlife Reserve (ID-KOR)**

**Kootenai Interagency Dispatch Center (MT-KDC)**

**Grangeville Interagency Dispatch Center (ID-GVC)**

**Missoula Interagency Dispatch Center (MT-MDC)**

**Northeast Washington Interagency Coordination Center (WA-NEC)**

**Blue Mountain Interagency Communication Center (OR-BMC)**

With the State of Idaho being split between two geographic areas (Northern Rockies and Great Basin, procedures are in place for in-state movement of IDL resources. For the movement between geographic areas of ONLY IDL resources (including IDL compacted resources, Idaho Fire Service Organizations, and IDL exclusive use contractors), dispatch offices in the Northern Rockies (CDC and GVC) will send requests for Southern Idaho IDL resources to the Great Basin Coordination Center (UT-GBC). Dispatch offices in the Great Basin will send requests for North Idaho IDL resources to the Northern Rockies Coordination Center (MT-NRC). The special needs block will clearly state for "IDL Resource".

Movement of resources between units and requests for shared or off-unit resources will be coordinated through CDC. The Fire Warden/District FMO, in coordination with CDC, will initiate actions to fill in behind committed resources considering total area/forest capabilities.

CDC will consider all available individuals for Off-Forest/Area incident assignments that have a current Incident Qualification Card (Red Card). Requests will be processed by CDC.

IDL employees who are members of an incident management team assigned to a non-fire incident are required to obtain authorization from their immediate supervisor, or if the supervisor is unavailable, the IDL Fire Bureau Duty Officer, prior to accepting the assignment. Unless otherwise authorized by the IDL, all incident assignments will be for a 14-day period. If the incident team is requested to stay longer than 14 days, consideration will be given to a rotation.

## CHAPTER 20 – OVERHEAD AND TEAMS

---

### INCIDENT QUALIFICATIONS and CERTIFICATION (IQCS) POSITION CODES

A list of agency personnel and their fire job qualifications is available at CDC.

### OVERHEAD MOBILIZATION AND DEMOBILIZATION

Out of area resource mobilization will be coordinated by CDC.

A communication plan will be established for ground travel that requires an overnight stay prior to arrival at the incident. A Chief of Party may be identified for multiple resources travelling together.

CDC will arrange commercial air travel for emergency incidents only.

Non-emergency travel, administrative, detail, etc., will be coordinated by the employee at their local unit and travel itinerary provided to CDC if the employee was requested through IROC.

FS Details: Reference **R1 Guide to Detail Assignments for FS Employees**

([http://fsweb.r1.fs.fed.us/fire/new\\_site/2013/DetailAssignmentGuideforEmployees.pdf](http://fsweb.r1.fs.fed.us/fire/new_site/2013/DetailAssignmentGuideforEmployees.pdf))

Upon receipt of a **severity** request, confirm the details and specifics.

- IDL employees do NOT need special approval to accept severity assignments.

Confirm the charge code associated to **All-Risk** requests.

- IDL employees may accept All-Risk assignments **with prior approval** from their supervisor and/or the IDL Fire Bureau Duty Officer.

A passport is required for mobilization requiring crossing an international boundary.

Government-issued photo identification is required for commercial air travel.

### INCIDENT MANAGEMENT TEAMS

The Finance Section Chief should have all known financial issues and concerns resolved and have contacted and coordinated with local budget and financial personnel regarding financial packages. The financial package needs to be ready for submittal prior to the release of the IMT Finance Section.

#### **Type 3 Teams, Coeur d'Alene Dispatch Zone**

The North Idaho Zone hosts one Type 3 IMT to manage extended attack fires on local jurisdictions. The intent is to have an organization of overhead identified that can be quickly mobilized to manage wildland and urban interface complex fires or fires that have large fire potential. Reference: **North Idaho Type 3 IMT Plan** (posted on CDC website)

## WILDLAND FIRE MODULES

The IPNF have 2 certified Type 2 WFM.

Wildland Fire Module	Type	Unit	Location
St. Joe	WFM2	St. Joe Ranger District	Avery
Kaniksu	WFM2	Sandpoint Ranger District	Sandpoint

## SMOKEJUMPERS

All smokejumper requests will be coordinated through CDC. CDC can place smokejumper requests directly to the dispatch center (ID-GVC) if ordering from GIC. If ordering from MSJC (Missoula Smokejumper Base or NCSB (North Cascades Smoke Jumper Base) the order must be placed with NRCC. The jump ship will make initial radio contact with CDC and communications will be established with the IC before the jump ship leaves the area.

## INCIDENT SUPPORT TEAMS

### Local Buying Teams

As incident activity dictates, local Buying Teams may be organized as agency Buying Teams, USFS, IDL or as interagency teams. The teams may be located either at the IPF Supervisor's Office, IDL Bureau Office, CDC or CDK.

### USFS/BLM Burned Area Emergency Response (BAER) Teams

**IPF and COD:** The incident Agency Administrator will determine the need to order a BAER Team. An interdisciplinary BAER assessment is necessary on all wildfires that exceed 500 acres (FSM 2523.03). When expertise or assistance is required, the IPNF BAER Team Coordinator, Chandra Neils, Forest Soli Scientist, office: 208-765-7445, will be notified and will identify the Team members; CDC will process a resource order for the Team.

NOTE: Once assigned to the Burned Area Emergency Response Team, resources will not be released until the Forest Supervisor or their representative either determines that emergency rehabilitation is not needed or a burned-area report is accepted.

### Critical Incident Stress Debriefing (CISD) Teams

When requested, CDC will utilize the process identified in the Northern Rockies Mobilization Guide Chapter 20 to obtain a Critical Incident Stress Debriefing (CISD) Team for fire related incidents (an incident with a suppression code assigned). The Incident Commander or Agency Representative may contact the CDC Center Manager who will place an order with NRCC to the Peer Group Coordinator to process.

With concurrence from the Peer Group Coordinator, the CDC Center Manager may utilize a local critical incident stress debriefing team.

Kootenai County Fire & Rescue  
Spirit Lake Fire Department

For non-fire related incidents, the agency involved will utilize their agency procedures to obtain a CISD Team. CDC may or may not be involved in non-fire related requests.

## SPECIALIZED PERSONNEL

### Blasters

The IPNF maintains a blasting program including fireline and hazard tree operations. The Forest Blaster is Steve Petesch, Bonners Ferry RD; Waylon Meek, Priest Lake RD, is also certified.

**IPNF Chainsaw/Crosscut Saw Program**

The IPNF Chainsaw Coordinator is Waylon Meek, Priest Lake RD (see Ch 70 for contact info).

**Initial Attack Modules**

CDC has established “MODULE – IA – agency identifier” suppression module (squad) resources in IROC for mobilization within the CDC dispatch zone or for out-of-area assignments.

**Helitorch Modules**

The IPNF maintains a helitorch program and may be able to supply helitorch modules.

**LAW ENFORCEMENT****Forest Service**

Consult local law enforcement personnel, who will determine the need for state, local or other types of investigation. The IPF Patrol Captain should be consulted about any situation for which an investigation is needed.

<b>Forest Service</b>	<b>Name</b>	<b>Office #</b>
Special Agent IPNF Supervisor's Office	Vacant	208-765-7205
Patrol Captain North Idaho Zone	Martin Badertscher, FS-28	208-765-7289
Law Enforcement Officer Coeur d'Alene RD, Fernan Office	Daniel Schneider, FS-19	208-769-3010
Law Enforcement Officer Coeur d'Alene RD, Silver Valley Office	JD Boguslawski, FS-38	208-783-2121
Law Enforcement Officer Sandpoint RD	Ariel Rodriguez, FS-21	208-263-6607
Law Enforcement Officer Bonners Ferry RD	Adam Nadeau, FS-23	208-267-6707
Law Enforcement Officer Priest Lake RD	Vacant	208-443-6813
Law Enforcement Officer ID-CWF, Kamiah	Andrew Young, FS-34	208-476-8238
Law Enforcement Officer ID-CWF, Grangeville	Phillip Legg, FS-82	208-983-4054

**IDL**

Contact local sheriff office for law enforcement support. IDL Fire Bureau Duty Officer and Area Supervisor need to be notified when law enforcement is ordered.

**DETECTION PERSONNEL****Lookouts**

Staffing may be affected by weather and budget.

## CHAPTER 30 – CREWS

---

### **TYPE 1 INTERAGENCY HOTSHOT CREW**

The Idaho Panhandle has one Interagency Hotshot Crew stationed at the Interagency Natural Resources Center Warehouse, Coeur d'Alene, Idaho. All orders for the Type 1 IHC will be placed through CDC.

Days off: Sunday – Monday

The Interagency Hotshot Crew Operations Guide (page 3) states:

“Variances from the crew size standards for the purpose of crew effectiveness, pilot studies or training opportunities are acceptable. Such variances must have approval from the responsible Geographic Area Coordinating Group and the Sponsor Agency Fire Director.”

### **TYPE 2 / TYPE 2 IA AGENCY CREWS**

Type 2 crews (regular and/or initial attack) may be composed of employees from one or more areas / districts and one or more agencies to form an 18-20 person crew. Rotations will be by agency (IDL/IPF) prior to Run Cards being turned on in June.

#### **Mission**

The mission of the NIZ Interagency Crew is to provide local, regional, and national incident management support.

#### **Objectives**

1. Provide and highly qualified and skilled Type 2 IA crew used to support local, regional, and national incident management efforts.
2. Provide training opportunities at the Crew Boss and Squad Boss level
3. Provide increased crew experience for firefighters on the North Idaho Zone

#### **Pre-mobilization**

The goal is a crew of at least 20 that meets or exceeds the National Type 2 IA standard and follows as close as possible to the guidelines outlined in the Mobilization section of this operating plan.

1. Zone Duty Officers working in conjunction with the Forest Duty Officer will determine when to make a crew available
2. Crew Boss committee will put together a list of the NIZ's trainees and submit it to the OPS committee for approval before the field season
3. Crew Boss will be selected based on a zone rotation
4. Crew Boss will be pre-identified and given to dispatch in advance
5. CRWB trainee will be selected from the top of the priority trainee list based on availability
6. Manifest in advance, when possible, especially in the slower times of the year
7. The Duty Officer of the qualified CRWB will be the POC/coordinator for manifesting the crew

#### **Crew Boss Rotation**

Qualified crew boss will rotate on a zone-to-zone basis based on last zone that provided the qualified. 2023 rotation will be:

1. South Zone
2. North Zone
3. Central Zone

If a zone cannot provide a qualified CRWB than it rotates to the next zone on the list.

### **Mobilization**

1. Each zone will try and provide 6 firefighters to every NIZ crew that goes out that meets the following guideline
  - 1 – FFT1/ICT5
  - 1 – FFT1 (trainee)
  - 1 – FALB (separate from the above FFT1's)
  - 1 – At least 1 full year experience
  - 2 – Duty officers' discretion
2. One firefighter from the Panhandle Helitack crew (if available)
3. Ideal crew makeup would look like this
  - 1 – CRWB (Based on above CRWB rotation)
  - 1 – CRWB trainee (Based on priority trainee list)
  - 6 – NZ Firefighters
  - 6 – CZ Firefighters
  - 6 – SZ Firefighters
  - 1 – Panhandle Helitack
4. Built in model for a crew of 21

### **Vehicle Standards**

1. At least 4 trucks that can carry up to 5 personnel.
2. Trucks outfitted with at least the following
  - 2 saws w/ chaps
  - 2 saw kits
  - 5 hand tools
  - 48 hours of food and water for 5 people
  - 2 full dolmars
  - 2 drip torches
  - Mobile radio
3. Ability to lock up equipment and crew gear

### **Requests for Self Sufficient**

Every effort will be made to accommodate requests for self-sufficient crews.

- IDL purchase cards:
  - May not be used to purchase meals for IDL or other personnel.
  - May be used to purchase motel rooms for IDL and other agency personnel if necessary, but full documentation must be kept.
- FS micro-purchase cards:
  - May be used for motel rooms and meals for FS and other agency personnel ONLY in cases of emergency response (including severity orders).

- **May not** be used to provide meals and lodging on detail assignments or in the performance of project work.

Card holder should include the resource order and manifest as documentation for reconciliation.

**All offices will ensure that crews dispatched:**

- Are weighed (if travelling by air) and a manifest forwarded to CDC.
- Have a lunch with them, unless otherwise instructed.
- Have government issued photo ID.
- Are briefed and checked for hazardous materials compliance, if traveling commercially.
- Are provided any available fire behavior information.
- Check in daily with CDC while in travel status, if traveling by ground.
- Have current Incident Qualification Cards

**Colville NF Cooperative Staffing**

The Newport and Sullivan Lake Ranger Districts (Kaniksu Fire Zone), Colville National Forest in Region 6 and the Priest Lake Ranger District (North Zone), Idaho Panhandle National Forests in Region 1 have a working relationship that has fostered crew cohesion and an opportunity for cooperatively filling engine or Type 2 crew rosters, as well as an opportunity for assistance with local project work. The dispatch center filling the crew/engine request will notify the supporting dispatch center and supply a copy of the resource order. The Fire Management Officer supplying the personnel will notify their dispatch center with names of the supporting personnel.

**INMATE CREWS**

The Idaho Correctional Institution Orofino (ICIO) fire crews (Red Hots) are ordered through Grangeville Interagency Dispatch (GVC). Requesting units may be asked to provide a CRWB. ICIO project work crew orders are not handled by the dispatch system. The Southern Idaho Correctional Institution (SICI) crews, located in the Eastern Great Basin Geographic Area, are ordered through Boise Dispatch Center for IDL fires.

**CONTRACT CREWS**

CDC currently hosts two National Type 2 IA Crews from Miller Timber Services, Inc., NCC – 11A and NCC – 11B. CDC will utilize agency and cooperator crews prior to use of any contract crews.

**INCOMING CREWS**

Order a CREP specific to the crew's agency, as needed.

## CHAPTER 40 – EQUIPMENT AND SUPPLIES

---

### EQUIPMENT / SUPPLIES

All equipment and supply orders will follow established ordering procedures.

References: **NIZ Incident Business Plan (USFS)**  
**IDL Business Operating Guide**  
**Coeur d’Alene Interagency Fire Cache User’s Guide**  
**Idaho Cooperative Mobilization Agreement**

### EQUIPMENT MOBILIZATION

Equipment “E” orders will go through CDC. Commonly used fire equipment may be available through Dispatch Priority Lists (DPL), Resource Lists (RL) or Emergency Equipment Rental Agreements (EERA), depending on agency and availability. All requests for equipment which cannot be filled locally or through dispatch neighbors will be placed via IROC to NRCC. Dispatchers will use the following references when filling orders for non-agency equipment:

#### Equipment mobilization priorities:

1. Agency and cooperator resources
2. Competed Resources (Dispatch Priority Lists or Resource Lists)
3. IDL EERAs (IDL only unless co-signed by federal contracting officer)
4. FS Incident Only agreements (resource list resources)

For Competed Resources, the point of hire and travel route will determine the inspection site, if needed CDC can assist with the coordination of a pre-use inspection.

Private vendors with a signed agency agreement for competitively contracted resources (dispatch priority lists and/or resource lists) can self-status their resources in IROC, or may request CDC to update status; chippers, dozers, engines, excavators, fallers, feller bunchers, hand wash stations, heavy equipment task forces, mechanics, masticators, potable water trucks, road graders, skidders, skidgines, tents/canopies/yurts, toilets, transports, water tenders, and weed wash units.

Idaho Department of Lands may utilize Northern Rockies competed resources or locally established EERAs.

### **Mobilizing of Water Handling Equipment Competitive/Non-Competitive Agreements**

All out-of-area requests for water handling equipment will be distributed to non-agency/cooperators based on the out-of-area Dispatch Priority List (DPL) by NRCC after agency and cooperator resources have been depleted.

#### **Local Government**

As a cooperator, local government resources will be mobilized prior to contract resources. Local Government miscellaneous overhead and equipment will be ordered directly from the FD with a notification to the local Supervisory Area Office.

### **NATIONAL INTERAGENCY SUPPORT CACHE ORDERING PROCEDURES**

The Coeur d’Alene Interagency Fire Cache (CDK) is located at 3328 W. Industrial Loop, Coeur d’Alene, Idaho 83815. CDK is a Type 2 National support cache supporting the IPF, CDT, BLM and the IDL. CDK stocks sufficient firefighting supplies and equipment for a force of 1250-1500 firefighters at one time without restocking from outside resources with the National Cache System.

All “S” numbers will be acquired through CDC for local incidents.

IMT's may place supply "S" orders for project fires directly to CDK, provided the direct ordering criteria has been met as identified in the Incident Business Plan.

Districts should submit all non-incident related orders directly to CDK.

### **Incident Replacement**

The incident agency may authorize, through written documentation, replacement of government property items that have been consumed, lost, damaged, or rendered otherwise unserviceable while being used on the incident. The replacement of consumable (expendable), durable (non-expendable) or non-standard cache items is limited and will follow the direction in the SIIBMH, and its' NRCG supplements. IMTs will not authorize replacement of durable (non-expendable) or non-standard cache items.

Prior to release from the incident, resources will prepare an Incident Replacement Requisition (OF-315) for items that have been consumed during the incident. For items that have been lost, damaged, or rendered unserviceable on the incident a Property Loss or Damage Report – Fire Suppression (OF-289) and the Supplement to the OF-289 must be completed before any approval will be granted. An AD-112 must be completed for accountable or sensitive property and forwarded to the Property Management Officer. As a reminder the approved AD-112 does not authorize replacement being charged to the fire, it only addresses the damage or loss of the property. The OF-289 and Supplement to the OF-289 facilitates the documentation and approval/disapproval process for property loss and damage for durable and non-standard cache items. Approved items will be issued S#s on the specific incident the items were consumed, lost, damaged, or rendered unserviceable.

All damaged items will be turned over to the host agency before replacement authorization will be granted.

IDL resupply requests shall have Warden or Assistant Warden approval.

For IPNF Type 3-5 and Support incidents, approval for replacement of consumable and durable NFES items and the following regularly utilized non-NFES/Nonstandard items: freeze dried meals, canned food, up to a pallet of water or Gatorade, jet boil fuel, bar oil, e-clips, chainsaw air filters, bearings, sprockets, bar nuts, loops of chain, fuel caps, office supplies, toner cartridges, and plotter paper is limited to the Agency Administrator, District FMO, Unit Aviation Officer, Dispatch Center Manager, Forest level Duty Officer or IBS/INBA. Approval of all other non-standard or non-NFES items is restricted to the Agency Administrator, Forest level Duty Officer, or IBS/INBA.

For Type I and II incidents, approval of consumable NFES items is limited to the Supply Unit Leader, Logistics Chief, Incident Commander, Agency Administrator or their Representative. Approval of durable, non-standard or non-NFES items is restricted to the Agency Administrator, Forest level Duty Officer, or IBS/INBA.

Note: Approval for non-standard items is limited to the dollar value identified through mandatory sources of supply (e.g. DOD EMall, etc.); costs beyond this amount should be the responsibility of the home unit. The dollar value will be identified on the S# resource order. Prototype equipment will not be replaced with suppression funds.

Per policy, incident replacement must be processed within 30 days of control of the incident.

Non-fire (project/hard dollar) orders may be placed directly to the cache (CDK) by districts.

**NATIONAL INTERAGENCY RADIO SUPPORT CACHE (NIRSC)**

**Prepositioned Radio Systems**

An NFES 4390 Starter System kit is pre-positioned at CDK. To order this kit, place an IROC supply order to NRCC.

**Locally Available Communication Equipment**

CDK has Type 3 IMT radio kits and repeaters for local Type 3 and 4 incidents:

**ENGINES AND WATER TENDERS**

**Engine Rotation**

A formal engine rotation for the dispatch zone has not been maintained due to a lack of use and equipment availability; the majority of requests in recent years have been agency specific or name requests. However, CDC will track and rotate between agencies and districts as best possible, based on availability status, for unrestricted orders.

The following is a list of agency engines and water tenders in the CDC Dispatch Zone.

**Idaho Department of Lands**

**CHAPTER 50 – AIRCRAFT**

---

Reference: **CDC Office Procedures Guide, Appendix C**

**AIRCRAFT**

All requests for IA aircraft services except for Run Card dispatching of exclusive use helicopters will be directed through the CDC Aircraft Dispatcher or Floor Supervisor. Reference the **Northern Rockies Mobilization Guide** for a complete list of contracted and call-when-needed aircraft available and further definition of aircraft policies.

All requests for project aircraft services for IDL projects will be directed to the IDL Aviation Officer and IPNF/BLM project requests will go to the CDC Aircraft Dispatcher or Floor Supervisor, with aircraft recommendation and Project Aviation Safety Plan from by the IPF/BLM Unit Aviation Officer.

**FEDERAL AIRTANKERS**

The following operational guidelines will be used for ordering air tankers:

- Incident Commanders or Duty Officers will order large air tankers directly from CDC.
- Extended or overnight dispatch will be coordinated between CDC and NRCC.
- Request for costs associated with aircraft will be directed to the IPF UAO or Tanker Base Manager.

**SINGLE ENGINE AIR TANKERS (SEAT/AWS)**

There are normally two Idaho Department of Lands Amphibious Water Scoopers (AWS) based at the Coeur d'Alene Air Tanker Base. Orders for these aircraft will go through CDC. There are normally also two Idaho Department of Lands SEATs based at the Grangeville Air Center and one at the McCall Air Tanker Base. Orders for these aircraft will go through CDC; CDC will then place the request with Grangeville Dispatch (GVC) or through Great Basin to Payette Dispatch (PAC).

IDL may pre-position these aircraft anywhere in the state.

Contact the IDL State Duty Officer for approval for IDL Firebosses requests outside the CDC Dispatch Zone when in 'high' or greater fire danger.

**HELICOPTERS - EXCLUSIVE USE**

The IDL has two Type 2 helicopters on exclusive-use contacts, one based at Coeur d'Alene from mid-June through mid-September. These helicopters will come with an HMGB and an IA module. Orders for the Coeur d'Alene helicopter will be placed with CDC. IDL may pre-position these helicopters anywhere in the state.

The IPF has an exclusive use Type 3 helicopter with a helitack crew stationed at Coeur d'Alene from mid-July until mid-September. Orders for these resources will be placed with CDC.

**EMERGENCY MEDICAL SERVICE (EMS) HELICOPTERS****Agency Personnel**

Agency personnel requests for Emergency Medical Services (EMS) helicopters should be made through CDC, who will order LifeFlight and coordinate with the local sheriff's office.

### **Extraction Helicopters**

Requests for extraction capability for agency personnel will be made to CDC. Extraction options include USAF Fairchild 36<sup>th</sup> RQF, Spokane County Sheriff's Office Rescue 3 and Two Bear Air, as well as any agency helicopters with short-haul capability that are assigned in the area. The EHE Source List for 2019 is available at: <http://www.nwccg.gov/publications/512>.

### **Private Citizens**

All requests for resources will be processed through the appropriate County Sheriff's Office. The county is responsible for all private search and rescue and all associated costs.

## **AIRCRAFT ACCIDENT AND INCIDENT INVESTIGATION**

References: **North Idaho Interagency Aviation Mishap Response Guide and Checklist**  
**IPF Aviation Management Plan**

## **AIRSPACE AND FREQUENCIES**

### **Automated Flight Following (AFF) Procedures**

AFF is the standard means of flight following with the CDC zone; WildCAD timers attached to incidents are generally used for documenting flight following. Local flight following may occur with positive handoff to/from the CDC Aircraft Desk.

### **Agency Unmanned Aircraft Systems (UAS) Tracking**

Pilot will call CDC in advance of the mission with details including time and location, then call on radio when operations commence and when operations are complete. Local flight following is used for UAS flights; CDC will notify other aircraft in the area of any UAS activity.

### **TFR Intrusions (including UAS)**

All TFR intrusions and fire area incursions will be reported using the FAA's Aircraft Conflict Report form and the *UAS Incursion Protocol for Wildland Firefighters*.

### **Resource Tracking**

Resource tracking of aircraft moving between dispatch zones is frequently recorded by using a Flight Request form (Flight Schedule) for Non-Tactical/Point-to-Point flights. Tactical/Mission flights are generally recorded with the resource order (ROSS). CDC zone aircraft vendors at SFF (Spokane Felts Field) are considered to be within the CDC zone and do not require flight schedules for local use.

### **Temporary Flight Restrictions 91.137**

**All** temporary flight restrictions (TFR) will be ordered through CDC and coordinated through the UAO or CDC Floor Supervisor. NRCC will process TFRs.

### **Canadian / US Border Aircraft**

Notify AMOC (DHS Air Marine Operations Center) and Border Patrol when flights are within 10 miles of the Canadian border, 1-866-247-2878.

### **Communications / Frequencies**

Reference the **CDC Dispatch Area Frequency Guide**

Initial attack communication zones are used for initial attack air-to-air frequencies and are now based on dispatch zone boundaries. The frequency for the CDC zone is shown below. This is an

AM air-to-air frequency utilized by tactical aviators to maintain discrete communications and avoid conflict over or near an incident.

Zone ID-06: 124.625

Two additional air-to-air frequencies have also been assigned to the CDC zone and can be used as needed.

If an initial attack fire becomes an extended attack effort, and if an IMT is assigned, the IMT will release the initial attack frequency during the team’s initial transition and request a replacement frequency.

**Transponder Codes**

A transponder code of 1255 has been established for firefighting aircraft. All aircraft on an incident are encouraged to use this code especially in high air traffic density areas.

**Fire Traffic Area (FTA) – The 3 C’s**

The CDC Aircraft Dispatcher will coordinate air traffic on unstaffed fires until a ground contact or aerial supervision is on scene.

**MISCELLANEOUS INFORMATION**

**Explosive Transport**

Authorization should be obtained through the responsible agency Aviation Officer prior to explosives-laden aircraft landing at a designated airport. FS policy and 49 CFR should also be consulted for specific handling requirements.

**Fueling**

Fueling of aircraft is the prerogative of the individual contractor. Dispatchers may assist by calling a specific fuel vendor on the contractor’s request. Following are phone numbers for known fuel vendors.

<b>Stancraft</b>	
Office	208-772-6404
Self-serve 24 hr. fueling station	

**SUNRISE / SUNSET TABLES**

(This page left blank intentionally)

---

**CHAPTER 60 – PREDICTIVE SERVICES**

---

**PREDICTIVE SERVICES**

References: **CDC Intel SOPs**

**INCIDENT STATUS SUMMARY (ICS-209)**

Incident Management Teams (or district fire managers) will submit their Incident Status Summary (ICS-209) electronically by 1700 hours Pacific Time daily for those incidents within the CDC dispatch area meeting requirements. District fire managers will submit an ICS-209 weekly by 1700 on Thursdays for non-full suppression incidents meeting requirements.

**CDC SITUATION REPORT**

A weekly report displaying local fire information updates for internal use will be prepared by the CDC Intel section and distributed from July 1 until significant fire activity/fire danger ends for the season.

**INTERAGENCY SITUATION REPORT**

Information for the interagency situation report will be collected from the Initial Attack Zone Dispatchers through the CDC Fire List access database, entered into the SIT program and transmitted to NRCC no later than 1700 Pacific Time daily from May 15 through September 29 and on any other days when wildland fire activity occurs.

**WILDLAND FIRE DECISION SUPPORT SYSTEM (WFDSS) / WILDLAND FIRE SITUATION ANALYSIS (WFS) AGENCY POLICY AND PROCEDURES**

Reference: **Local Annual Operating Plan**

The Wildland Fire Decision Support System, used locally for all federal and tribal fires, provides decision support analysis tools, documents fire management decisions and provides a long term operational plan as needed for unplanned wildland fires.

Initial WFDSS data is populated from other data source programs (FireCode, or WildCAD) through IRWIN, eliminating the need for dispatcher entry. Fires not requiring analysis (successful initial attack) normally need no further entry; further data entry is precluded once the “out” date is populated from WildCAD through IRWIN.

**Forest Service**

District personnel will complete any needed WFDSS analysis and documentation for all FS incidents, including wildland fires on FS lands, FS lands under IDL protection, state and private lands under FS protection.

**Coeur d’Alene Tribe**

CDT officials will complete any needed WFDSS analysis and documentation for all fires on lands under CDT protection.

**Bureau of Land Management**

BLM personnel will participate with the protecting agency in WFDSS analysis and documentation for any fires on BLM ownership requiring analysis.

**Idaho Department of Lands**

The WFS will be used as needed, for wildland fires under IDL protections. Supervisory Area Offices will facilitate the WFS process.

**NRCC DISPATCH CENTER CALL-AROUND**

The CDC Intel Lead or Assistant Center Manager-Intel/Logistics will facilitate and provide NRCC’s afternoon intelligence updates (approximately between 1400 and 1500 hours Pacific Time) as requested.

## CHAPTER 80 – COOPERATIVE AGREEMENTS

---

### COOPERATION

Successful fire management within the Coeur d’Alene Interagency Dispatch Area requires close cooperation among several agencies, cooperators and organizations. Dispatchers and fire personnel must be knowledgeable of the abilities and needs of cooperators. Copies of cooperative agreements and operating plans must be available to dispatchers and fire managers.

### INTERNATIONAL AGREEMENTS / OPERATING PLANS

#### BRITISH COLUMBIA & NW UNITED STATES WILDFIRE RESPONSE BORDER ARRANGEMENT

British Columbia Ministry of Forests  
 USDA Forest Service  
 National Park Service  
 Bureau of Land Management

The Purpose of this Arrangement is to provide a framework under which fire management resources may be exchanged to allow for cooperative fire suppression along the United States/British Columbia border.

### NORTH IDAHO ZONE INTERAGENCY AGREEMENTS / OPERATING PLANS

#### IDAHO COOPERATIVE FIRE PROTECTION AND STAFFORD ACT RESPONSE AGREEMENT

State of Idaho, Department of Lands  
 USDI Bureau of Land Management, Idaho  
 National Park Service, Pacific West Region Office,  
 Bureau of Indian Affairs, Northwest Region  
 U.S. Fish and Wildlife Service, Pacific Region  
 USDA Forest Service Pacific Northwest, Intermountain and Northern Regions.

#### STATEWIDE ANNUAL OPERATING PLAN

IDL, FS, BLM, NPS, BIA, F&WS

#### LOCAL ANNUAL OPERATING PLAN

North Idaho Operations Area of Idaho Department of Lands, Idaho Panhandle National Forests, Bureau of Indian Affairs - Coeur d’Alene Tribe, Bureau of Land Management – Coeur d’Alene District, Fish and Wildlife Service – Kootenai Refuge

#### PROJECT and FINANCIAL PLAN #09-FI-11010400-020

Idaho Department of Lands, Idaho Panhandle National Forests

#### INTRA-GOVERNMENTAL ORDER between BLM-Coeur d’Alene District and IPNFs

Service First Agreement to provide annual shared services and funding for dispatch services through Coeur d’Alene Dispatch Center and oversight of Fire and Fuels Management program and Aviation program through shared Fire Management Officer and Aviation Officer.

#### INTERAGENCY AGREEMENT between BLM, COEUR D’ALENE DISTRICT and USFS, IDAHO PANHANDLE and NEZ PERCE-CLEARWATER NATIONAL FORESTS

To provide Service First: Shared Preparedness and Fuels Management resources.

#### NORTH IDAHO ZONE ANNUAL OPERATING PLAN

The North Idaho Zone (NIZ) is an interagency group with the overall responsibilities of coordinating the fire management activities of participating agencies. The plan will establish operational procedures and guidelines to facilitate the fire management program of all the participating agencies; the groups’ charter is included as an appendix. (Pending)

**PROJECT and FINANCIAL PLAN**

Document each party's obligation for guard school expenses.

**COOPERATION PACIFIC NORTHWEST****PNW COOPERATIVE FIRE PROTECTION AGREEMENT, NORTHWEST OPERATING PLAN**

BLM, NPS, BIA, F&WS, USDA, States of Oregon and Washington

**NEWICC DISPATCH ZONE/CDC DISPATCH ZONE LOCAL OPERATING PLAN**

Colville National Forest  
 Okanogan-Wenatchee National Forest  
 Idaho Panhandle National Forests  
 Idaho Department of Lands  
 Coeur D'Alene District Bureau of Land Management  
 Spokane District Bureau of Land Management  
 Washington Department of Natural Resources  
 Northwest Regional Office Bureau of Indian Affairs

To provide wildland fire management activities in the safest and most cost effective manner as directed by agency policies, across Forest, State, Regional, and GACC administrative boundaries. Replaces multiple individual agreements.

**IDL – CDA TRIBE DISPATCH COOPERATIVE AGREEMENT**

Idaho Department of Lands  
 Northwest Regional Office Bureau of Indian Affairs

To provide dispatch services for the Coeur d'Alene Tribe through Coeur d'Alene Dispatch Center

**STATES****NORTHWEST WILDLAND FIRE PROTECTION AGREEMENT (Northwest Compact) COOPERATIVE OPERATING PLAN**

Canadian Provinces (Alberta, British Columbia, Northwest Territories, Saskatchewan, Yukon)  
 States of Alaska, Idaho, Montana, Oregon, Washington

This cooperative operating plan is to facilitate assistance in prevention, preparedness, prescribed fire use, training, pre-suppression and control of wildland fires between the member agencies.

**ANNUAL OPERATING PLAN and FINANCIAL PLAN between IDOC and IDL**

Idaho Department of Corrections and Idaho Department of Lands

Allows IDOC to provide offender labor to assist IDL in meeting its fire suppression, prescribed fire, and resource project work objectives.

**MEMORANDUM OF UNDERSTANDING between IDL and ITD**

Idaho Department of Lands and Idaho Transportation Department

Ensure the safety and efficient passage of motorists, fire fighters and equipment along state highways where fire management activities necessitate the establishment of temporary traffic control zones.

**MEMORANDUM OF UNDERSTANDING between City of Coeur d'Alene and Idaho Department of Lands (Mica)**

To provide protection measures and initial fire suppression response actions on all encroachments extending from the shorelines of Lake Coeur d'Alene and the Spokane River within its jurisdiction. IDL will assist in Wildland protection as requested.

**OTHER****MEMORANDUM OF UNDERSTANDING between EAST PEND OREILLE FIRE DEPARTMENT and ID-IPF**

This MOU provides documentation for sharing radio frequencies for communications to support the protection of life and property.

**COOPERATIVE FIRE PROTECTION AGREEMENT between WEST PEND OREILLE FIRE DISTRICT and ID-IPF**

Provide cooperation in prevention, detection and suppression of wildland fires.

**COOPERATIVE FIRE PROTECTION AGREEMENT between WEST PRIEST LAKE VOLUNTEER FIRE DISTRICT and ID-IPF**

Provide prevention, detection and suppression of wildland fires.

**COOPERATIVE LAW ENFORCEMENT AGREEMENTS**

Emergency and Disaster Assistance with County Sheriff's Departments. R1 Law Enforcement & Investigations and individual county sheriff's offices. (No longer kept at CDC)

Boundary County, Kootenai County, Shoshone County

Bonner County, Benewah County, do not exist at this time

**USDA FOREST SERVICE****INTRA-AGENCY AGREEMENT between US FOREST SERVICE units NORTHERN REGION (R1) and SOUTHWESTERN REGION (R3)**

R1/R3 Agreement to maintain or increase each region's individual wildland fire management capability in a flat or declining budget situation. Resource sharing outside of large fire support. Agreement is formulated to facilitate the exchange of fire suppression resources rather than transferring money between Region 1 and Region 3 of the Forest Service.

**USDI BLM, COEUR D'ALENE DISTRICT OFFICE**

Agreements related to ID-COD, outside of Coeur d'Alene Dispatch Zone

**TRI-REGION AGREEMENT between ID-NCF, ID-PAF, OR-WWF, and ID-COD****DISPATCH SHARED SERVICES between ID-COD and ID-GVC****GVC ANNUAL OPERATING PLAN****PAF ANNUAL OPERATING PLAN****SWIDEO ANNUAL OPERATING PLAN**

---

**MEDICAL RESPONSE**

CDC Medical Response Plan

Reference: **CDC Emergency Response Guide ( Pink Book)**

Reference: **NCF/IPNF Emergency Response Plan**

Includes Medical Incident Report

Reference: **IRPG pp. 118-119**

In the event a serious injury occurs to agency personnel or cooperators, the Crew Leader, Incident Commander or a designated individual will take the lead in implementing the response plan. The following procedure will be used:

1. Administer appropriate first aid.
2. Immediately advise Crew Leader/IC of situation.
3. Request assistance through appropriate channels.

**Within the CDC Dispatch Zone**

4. Contact CDC via radio or phone. It is the responsibility of the Crew Leader/IC to ensure that there is adequate communication via radio or cell phone to notify CDC or Area/ District Office immediately in case of emergency.
5. CDC will assist with any emergency travel needs or notification to the receiving medical facility.
6. CDC will notify the appropriate unit Duty Officer and employing agency staff Duty Officer.

**Out-of-Area, off the CDC Dispatch Zone**

4. Contact the incident dispatch center via radio or phone.  
It is the responsibility of the Crew Leader/IC to ensure that there is adequate communication via radio or cell phone to notify the incident dispatch center immediately in case of emergency.
5. The incident dispatch center will notify CDC, providing incident details.
6. CDC will then notify the employee's appropriate unit Duty Officer and employing agency staff Duty Officer.
7. If needed, CDC will assist with any emergency demobilization needs.

**ALL ACCIDENTS / INCIDENTS SHALL BE ROUTED THROUGH DISPATCH**

Incident Management Teams will have an Incident Medical Plan
