

Five Steps to Getting IROC Access

1 Authenticate

Authenticate to the FAMIT Dashboard (<https://iwfirp.nwccg.gov/#dashboard>) using either eAuth or Login.gov depending on which one you have. If you have both, use eAuth.

2 Select IROC

Select IROC from the FAMIT Dashboard of available applications.

3 Request a NAP

If you don't have an existing NAP account, you'll need to request one at this point. If you already have a NAP account, you'll skip this step.

4 Request access to

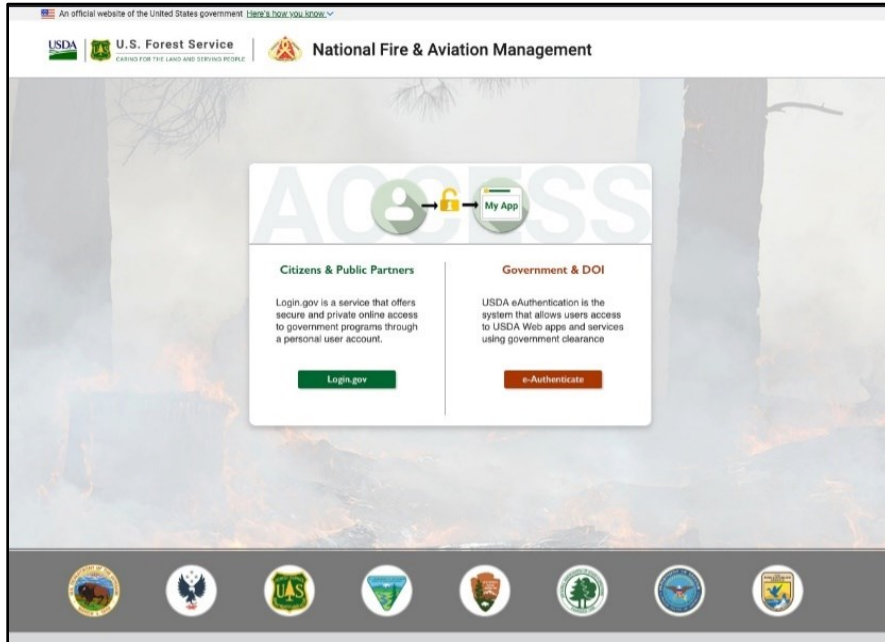

If you don't have an existing IROC account, you'll need to request one at this point. If you already have an IROC account, you'll skip this step.

5 Access IROC

When you get to this step, you'll be logged into IROC directly. If you don't see the IROC portal, you'll need to request that your Dispatch Manager grant you the appropriate access.

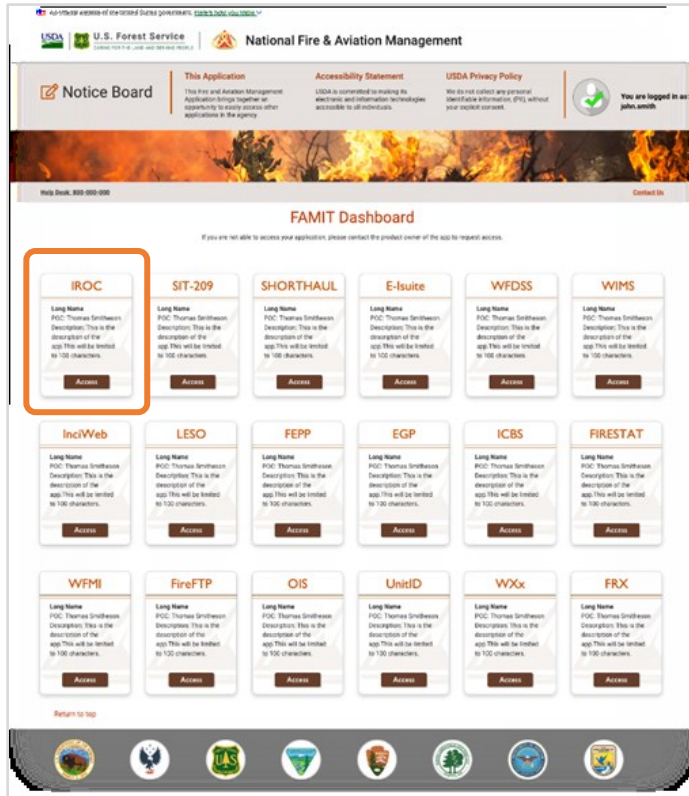

Authenticating into the FAMIT Dashboard

FAMAuth is an authentication portal for Fire and Aviation Applications. IROC will be using FAMAuth to authenticate users when logging in. There are two paths of authentication: e-Authentication (eAuth) and Login.gov. The URL for the FAMAuth dashboard is <https://iwfirp.nwcg.gov/#dashboard>.

- If you have a federated PIV card (Lincpass), you will use the eAuth method.
- If you do not have a PIV card, you will use Login.gov.
- If you have both an eAuth account and a Login.gov account, you should use eAuth and your PIV card to authenticate. Even if a PIV card reader doesn't exist, you will have the ability to use your eAuth username and password to access applications.

Selecting IROC from the FAMIT Dashboard

After login, you will be presented with a tile page of available applications. Click on the tile of your choice and the application will launch.

The first time you click on the IROC tile, you will be asked to enter your Standard NAP Account credentials. This will link the FAMAAuth account to the NAP account.
