2021 Northern Rockies Contracted Resources
Standard Operating Procedures
Quick Reference Guide
The Competitive Agreements
This guide serves as a quick reference to maintain standard operating guidance and consistency in the mobilization of contracted equipment for the Northern Rockies Geographic Area. It is intended for use by dispatchers, incident support personnel and Incident Management Teams. The Northern Rockies Coordinating Group (NRCG) has established a Competitive Agreement Solicitation Plan for equipment resources in the Northern Rockies: https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/contractor_updates/SolicitationPlan.pdf

Not all the solicited contract equipment is listed in this guide. Reference the National Solicitation Plan: https://www.fs.fed.us/business/incident/compsolplan.php

In the Northern Rockies the agreements are solicited by the Forest Service, Department of Interior, and the Montana Department of Natural Resources and Conservation, which establish dispatch priority based upon price and other established factors. The Agencies within the geographic area have taken the lead on specific resource categories. As a result, contracted resources may be on a Dispatch Priority List or Resource List. The awarded preseason agreements are typically for a period of 3 years.

Type of Lists
Within the Northern Rockies the competitive solicitations are awarded using acceptable past performance, qualified personnel, minimum equipment standards, and other factors to generate a Zone and Out of Area Dispatch Priority List (DPL). Equipment is dispatched by ranking order on the DPL. There is also the Geographic Out of Area DPL that is unique to the Northern Rockies. Other solicitations generate a Resource List (RL). The RL is not ranked by priority and you may choose the vendor that best meets incident needs.

Dispatch Priority List (DPL)
Equipment assigned according to ranking on the DPL. The Host Dispatch Center must ensure the most recent version of the DPL is utilized.

Dispatch Zone Priority List (Local DPL)
List of contracted resources located within the dispatch zone, ranked on the DPL. Centers will follow the priority list when dispatching resources. This is not a rotation, if the number one priority on the list is unavailable that day, the resource should be checked for each order because they are highest on the priority list. Once Zone DPL is exhausted the neighborhood policy will normally be enacted. Once the Zone and neighbors’ resources are exhausted orders will be placed to NRCC.

Out of Area Geographic Dispatch Priority List (OA DPL)
An overall dispatch priority list compiled from the zones dispatch priority lists. Utilized for Out of Area orders. If unable to fill with the resource specified in IROC documentation, document why in IROC and UTF the order back to Northern Rockies Coordination Center so the order may be placed with the next Vendor on the OA list. This list is generated once a year.

Resource List (RL)
Dispatch may choose the vendor that best meets their need considering factors such as cost, availability, capability, and location. Not ranked by priority.
NR Resource list (RL)
A list of contracted resources, usually listed alphabetically by vendor or by location that allows dispatchers to choose the resource that best meets their needs based on cost, availability, location, special needs, etc.

Incident Only Agreements
Beyond initial attack, incident only agreements may be entered into only after competed agreements have been exhausted, cannot meet ordering specifications or, resources are not under a competitive solicitation in the Northern Rockies. The agreement is valid only for the duration of the incident. A Contracting Officer can enter an Incident Only Agreement or EERA with a vendor for a piece of equipment. This is normally done in the event local and neighbor resources are unavailable and DPL’s have been exhausted. Dispatchers or Expanded Dispatch have no authority to order or generate an agreement. Documentation on an Incident Only Agreement or EERA order should include that there are no DPL resources available in the area to meet the date and time needed. The resource shall not be reassigned without validating that competed equipment is not available, then a new Incident Only Agreement must be written for that specific resource for the new incident. For orders outside the NR’s it is the responsibility of the Ordering Geographic Area to negotiate EERA’s. NR will identify known resources and the hiring will be done by that ordering geographic area; the piece of equipment should be negotiated to include transport if needed. For equipment inspections, discuss with the ordering GA, in the best interest of all parties involved, the local dispatch center may assist in pre-use inspections.

Ordering Procedures
Regional procedures may differ from National Guidelines. Agreements do not preclude the Government from using any agency owned, agency (Federal, State, or Local) cooperator resources or Tribal preference policy established within reservation jurisdiction for initial attack or extended attack and large fire support before ordering or mobilizing contracted resources under agreement. Agency owned or agency cooperator resources may be requested at any time. Actual fire conditions and jurisdiction at the time of dispatch may require a deviation from normal procedures to respond effectively.

For exceptions to policy on lands protected by IDL and MT - DNRC

https://gacc.nifc.gov/nrcc/nrcg/committees/business_committee.htm

National Standard Operating Guide for Dispatching Contracted Resources:
Attributes
Agreements may have special attributes listed for that specific type of equipment. Dispatchers may only deviate from the DPL’s when orders include attributes for the specific type of equipment listed on the DPL. (Example: Feller Buncher w/ Harvester Head, Skidgine w/ Detachable Tank.) When resource requests are received requiring attributes, the dispatcher shall order the first piece of equipment from the DPL that meets the criteria and document in the order the reason for deviation. Attributes should be listed in Special Needs.

Typing Information
Throughout this guide, typing information is per the awarded contract. Some resource items in IROC may not be identified by type as named in the solicitation or agreement. The type and size of resource requested should be specified in Special Needs.

Naming Conventions
The Northern Rockies has established specific naming conventions for specific resources on agreement. Otherwise appropriate IROC naming conventions Data Entry Standards are applicable when a resource item is entered into IROC and when Filling by Agreement.

How to Order & Fill
Orders for contracted equipment will be processed through IROC. Determine the type of resource needed, including specific needs such as amount, gallon capacity, length, off road, etc. Follow local procedures for Portable Toilets and Sack Lunches etc. Do not assign a resource located in another dispatch zone. DPL or RL resources located in a Neighboring zone will be ordered through that host dispatch center. Unless otherwise specified you should choose the most advantageous vendor based upon needed date and time, cost, availability, location, and the ability to meet incident needs. Consult the appropriate list and choose the piece of equipment that best meets the needs of the incident.

- Assign the vendor highest in priority from the DPL or on the RL that can meet the needed Date and Time Needed.
- Document all actions taken as you go through your list such as: No answer, Resource/Vendor is NA.
- Dispatch must use the Host Dispatch Center DPL until it is exhausted.
- Once all options/resources are depleted, including ordering from your neighbors, document in IROC and place to NRCC. (Nothing available-physically checked neighbors)
- If any contractors within the Host Dispatch Area declined a resource order based on the original Date/Time needed, and that Date/Time needed is renegotiated, it is imperative that the Host Dispatch Center reoffer the request to resources that declined the original order because they may be able to meet the “new” Date/Time needed.
- Do not use “Fill with Agreement” for resources that are statuses resource Items in IROC.
- Fill by Agreement when a resource item is not in IROC. Do not create a new resource.
- You have no authority to allow/negotiate any substitutions of resources/personnel under an agreement.
- If an order is for Out of Area, the Geographic List will be utilized for appropriate resources.
- If a center is unable to fill with the specified resource listed in IROC documentation, they must document in IROC and UTF order back to Northern Rockies, the order will then be placed to the center whose vendor is next in the out-of-area priority.
Inspections
The filling dispatch will coordinate the Incident Pre-Use Inspection of assigned equipment and personnel. Generally, the Government will perform inspections utilizing form OF-296 Vehicle and Heavy Equipment Safety Inspection Checklist. Follow Local Dispatch procedures. Reference the specific agreement for guidance. Contract compliance inspections may be performed at the discretion of the Government using Contract Compliance Inspection Checklists or other appropriate forms. If the resource does not pass inspection at the incident or designated inspection station, it is considered noncompliant. Per specification, personnel need to be verified for position currency, physical fitness, and qualifications.

Demobilization:
The Incident Commander (IC) will determine the priority of demobilization.

General Information:
- For heavy equipment the agreements state the vendor is responsible for transport of equipment, a separate E-number is not issued for the transport. If the owner is unable to provide transport for the equipment, document and move on to next vendor on the list.
- All permits are the vendor’s responsibility.
- When creating equipment requests order specific Catalog Item.

Ambulance T2 ALS/ T4 BLS (Ambulance - Advanced Life Support/Basic Life Support - Fireline)

General Information: Regionally solicited in 2020. Agreement managed by the USFS. This is a 3-year awards in 2020 for both states. Resources will only be available to Incidents within the States of Montana and Idaho ONLY. Must meet all state regulations and have a current license. Must hold a current license and remain in compliance with the Board of Medical Examiners emergency care provider licensing requirements. Refer to agreement for specific requirements.

Detailed information: Ambulances must be permitted, and ambulance services must be licensed at the proper level of care through the EMS and Trauma Systems Section for the State of Montana and Idaho. Providers must have Medical oversight.

The solicitation and current information can be found at [https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm](https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm)

Type of List: DPL Host centers: ID-CDC, ID-GVC, MT-BDC, MT-HDC, MT-MDC

Staffing & Personnel Requirements
- Annual Fire Refresher Training (RT130.)
- Must have a minimum of one programmable handheld or mobile radio.

Typing Information
- T2-ALS: 2 Personnel required (Paramedic and EMT) along with the appropriate Advanced Life Saving Equipment.
- T4-BLS: 2 Personnel required (Minimum - 2 EMTs) along with the appropriate Basic Life Saving Equipment.

Naming Convention in IROC (EXAMPLE)
Medical - AMBULANCE - T2/T4 - DISPATCH# - VENDOR NAME - ALS/BLS - Equipment ID

(Medical - AMBULANCE - T4 - MDC001 - Three Rivers EMS - BLS - 3R01)
(Medical - AMBULANCE - T2 - GVC001 - American Medical Response - ALS - AMR102)

How to Order: Create new request in IROC (Specify ALS/BLS in Special Needs.)
CATALOG: Equipment
CATEGORY: Medical
CATALOG ITEM: Ambulance, Type 2-ALS, or Type 4-BLS
Buses (Crew Carrier)
General Information: National agreement managed by the USFS. School bus type typical for transportation of 22 adult passengers, appropriate for gravel or mountain roads for short duration travel. Must be capable of providing personnel transportation to and from the fire line. Reference agreement for specific requirements (1999 or newer.)

Detailed information: The current awards can be found at https://www.fs.fed.us/business/incident/vipr.php?tab=tab_d

Type of List: DPL by Dispatch Zone.

Staffing & Personnel Requirements:
- 1 skilled licensed operator
- Commercial driver’s License (CDL) w/passenger endorsement and medical card valid for the state in which the operator resides.

NOTE - If crew mobilization will exceed eight hours (8), it is recommended that transport on a coach-type bus be utilized. Incident Only Hire. 40+ passenger with reclining seats, A/C, toilet; for long duration highway travel. Not suitable for off road use.

Consider special needs - Will the bus stay with the crew? If sending crew by Coach Bus. Is a Crew Carrier needed when they get to fire? The dispatch center filling the crew request orders the appropriate bus as a support request under the crew order. Do not retain control of the bus.

How to Order: Create new request in IROC.
CATALOG: Equipment
CATEGORY: Transportation
CATALOG ITEM: Transportation, Bus, Crew Carrier
Caterer Type 3
General Information: EERA Incident Only Agreement. Capable of feeding a minimum of 50 and up to 149 persons for an unspecified number of meals. Meals served shall include breakfast, dinner, and if ordered, sack lunches. Must meet all state or local health department regulations and have a current license. Refer to agreements for specific requirements.

Detailed information: Available only to NR Incidents. No MFSU form required. The solicitation and current information can be found at [https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm](https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm)

Type of List: Geographic RL by location.

Staffing & Personnel Requirements
- Annual Fire Refresher Training (RT130.)

Naming Convention in IROC
Food Service, Mobile - VENDOR NAME

How to Order: Create new request in IROC (Specify Caterer Type 3 in Special Needs.)
CATALOG: Equipment
CATEGORY: Food Service, Mobile
CATALOG ITEM: Food Service, Mobile

Chipper
General Information: Regional agreement managed by the USFS. Equipment is either Self-propelled or tow behind. Equipped with in-feed mechanism that operates in forward, reverse...
and stop modes. Optional-Boom feed. Agreement does not allow for chainsaw operations by Chipper by personnel.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm

Type of List: DPL by Dispatch Zone

Staffing & Personnel Requirements:
- Minimum of a 2-person crew - All types.
- Annual Fireline Refresher (RT130) including fire shelter is required.

Typing Information:
- Type 1 Chipper: 18+ inch minimum
- Type 2 Chipper: 13 - 17 inch minimum
- Type 3 Chipper: 9 - 12 inch minimum

How to Order: Create new request in IROC (Specify Type.)

CATALOG: Equipment
CATEGORY: Miscellaneous
CATALOG ITEM: Chipper, Type1, 2, or 3

Communication Trailer
General Information: National Agreement managed by the USFS. Trailer cargo or camper style Minimum 20’ length x 7’ wide. Units available at Missoula Dispatch MT-MDC. Refer to agreements for specific requirements.

Detailed information: The current awards can be found at https://www.fs.fed.us/business/incident/vipr.php?tab=tab_d
Type of List: DPL by Dispatch Zone

Staffing & Personnel Requirements:
- Technician Provided

Typing Information:
- Trailer - Communications

How to Order: Create new request in IROC, (Specify attributes in special needs.)
CATALOG: Equipment
CATEGORY: Trailer
CATALOG ITEM: Trailer, Communications

Dozers (w/Transport)
General Information: Regional agreement managed by the USFS. Refer to agreements for specific requirements and attributes. Ex: Grapple, Low Ground Pressure, Required Portable Radio, Ripper.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm
Staffing & Personnel Requirements:
- Annual Fire Refresher Training (RT130) (must carry certification card.)
- Personal Protective Equipment (PPE.)
- Operator must always be accompanied by agency personnel qualified at or above the firefighter one (FFT1) level.
- Annual Light Walk Test.

Typing Information:
- Type 1, 240+ HP, Min. Base Weight 60,000 lbs.
- Type 2, 150 HP - 250 HP, Min. Base Weight 35,000 lbs.
- Type 3, 99 HP - 165 HP, Min. Base Weight 20,000 lbs.
- Type 4, 50 HP - 110 HP, Min. Base Weight 10,000 lbs.

How to Order: Create new request in IROC (Specify attributes in special needs.)
CATALOG: Equipment
CATEGORY: Dozer
CATALOG ITEM: Type 1, 2, 3 or 4

Emergency Medical Technicians/Paramedics - Fireline Qualified
General Information: Regionally solicited in 2020. Agreement managed by the USFS. This is a 3-year awards. Resources ONLY available to Incidents within the States of Montana and Idaho. Must meet all state regulations and have a current license. Refer to agreement for specific requirements. All awarded personal are permitted and services licensed at the proper level of care through the EMS and Trauma Systems State requirements. Medical direction from a Montana/Idaho recognized Medical Director that agrees to provide medical oversight for the qualified resource.
Type of List: DPL list
Host centers: ID-CDC, ID-GVC, MT-BDC, MT-HDC, MT-MDC

Staffing & Personnel Requirements
- Must meet NWCG training requirements for FFT2 Position.
- Arduous Work Capacity Test All Technicians shall be Fireline qualified personnel.
- Annual Fire Refresher Training (RT130.)
- Dispatched with PPE, 4x4 vehicle with the appropriate Life Saving Equipment, as required by their license level.
- Must hold a current Montana/Idaho license and remain in compliance with the Board of Medical Examiners emergency care provider licensing requirements.
- Must have a programmable handheld radio.

Typing Information:
- Advanced Emergency Medical Technician Fireline (AEMF)
- Emergency Medical Technician Fireline (EMTF)
- Paramedic, Fireline (EMPF)

Naming Convention in IROC
EMTF - MT ONLY or ID ONLY - DISPATCH# - VENDOR NAME

How to Order: Create new request in IROC (Specify attributes in special needs.)
CATALOG: Overhead
CATEGORY: Positions
CATALOG ITEM: AEMF - Advanced Emergency Medical Technician, Fireline or EMTF - Emergency Medical Technician, Fireline or EMPF - Paramedic, Fireline

Excavators (w/Transport)
General Information: Regional agreement managed by the USFS. Refer to agreements for specific attributes. May include clamshell bucket, dozer blade, portable radio required, steep ground excavator.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm

Type of List: DPL by Dispatch Zone and GA.
Staffing & Personnel Requirements

- Annual Fire Refresher Training (RT130) (must carry certification card.)
- Personal Protective Equipment (PPE.)
- Operator must always be accompanied by agency personnel qualified at or above FFT1 level.
- Annual Light Walk Test.

Typing Information:

- Type 1 - Minimum HP 156+ rating, Minimum Weight 50,000 lbs.
- Type 2 - Minimum HP 111 - 155 rating, Minimum Weight 30,000 lbs.
- Type 3 - Minimum HP 81 - 110 rating, Minimum Weight 20,000 lbs.
- Type 4 - Minimum HP 60 - 80 rating, Minimum Weight 15,000 lbs.

How to Order: Create new request in IROC (Specify attributes in special needs.)

CATALOG: Equipment
CATEGORY: Miscellaneous
CATALOG ITEM: Excavator Type 1, 2, 3, or 4

Faller/Faller Module (w/Transport)

General Information: Regional agreement managed by the USFS. A vendor may have more than one module/faller per agreement. Agreements with more than one center identified have listed specific resources available. The approved fallers are not interchangeable between zones. Utilize all resources listed in the agreement before going to next vendor on DPL. Refer to agreements for specific requirements/approved fallers. Note: Overhead requests for FAL1, FAL2, FAL3 are for agency fallers only.

Detailed information: The solicitation and current information can be found at
Type of List: DPL by Dispatch Zone and GA.

Staffing & Personnel Requirements
- Annual Fire Refresher Training (RT130) (must carry certification card.)
- Personal Protective Equipment (PPE.)
- All Faller Modules are dispatched with PPE, two chainsaws per faller and a 4X4 vehicle. Operator must always be accompanied by agency personnel qualified at or above the firefighter one (FFT1) level.
- Arduous Work Capacity Test.

Typing Information:
- Type 1 Professional Single Faller, three years (over 3,000 hours) experience in the commercial logging industry as a timber faller. Agency Faller Certification is not required.
- Type 1 Professional Faller Module, two Professional Single Fallers working as a module.

How to Order: Create new request in IROC.
CATALOG: Overhead
CATEGORY: Groups
CATALOG ITEM: Module, Faller or Faller, Single

Feller Bunchers (w/Transport)
General Information: Regional agreement managed by the USFS. Refer to agreements for specific attributes such as: Cutting head, leveling cab, and cut capacity.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/Dispatch/equipment_supplies/agree-contract/solicitations.htm

Type of List: DPL by Dispatch Zone and GA.
Staffing & Personnel Requirements
- Annual Fire Refresher (RT130) Training (must carry certification card.)
- Personal Protective Equipment (PPE.)
- Annual Light Walk Test.
- Operator must always be accompanied by agency personnel qualified at or above the firefighter one (FFT1) level.

Typing Information:
- Type 1 Feller Bunchers: 226+ HP
- Type 2 Feller Bunchers: 160 - 225 HP

How to Order: Create new request in IROC.
CATALOG: Equipment
CATEGORY: Miscellaneous
CATALOG ITEM: Feller Buncher, Type 1 or Type 2

Fuel Tenders
General Information: EERA Incident Only Agreement. Only T1 & T2 available within the NR. Tender shall be fully registered as a commercial vehicle and be current with all DOT, EPA, and state inspection requirements. Off-road diesel not provided by the fuel tender. Refer to agreement for specific requirements.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm

Type of List: RL by type and location.
Staffing & Personnel Requirements

- One operator per shift, and the ability to accept major credit cards.
- Annual Fire Refresher (RT130) Training.
- Types and quantities of Fuel required (diesel & gasoline) established at time of hire.

Typing Information:

- TYPE 1 - 2500 gallons +
- TYPE 2 - 1500 to 2499 gallons
- TYPE 3 - 1000 to 1499 gallons

Naming Convention:

Miscellaneous - FUEL TENDER, T1 or T2 - VENDOR

Mechanic w/ Service Truck
General Information: Regional agreement managed by the USFS. Refer to agreement for specific information.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/Dispatch/equipment_supplies/agree-contract/solicitations.htm

Type of List: DPL by Zone and GACC.

Staffing & Personnel Requirements
- All mechanics have PPE.
- Annual Fire Refresher (RT130.)

Typing Information:
• Type 1 Mechanic w/Service Truck
  Appropriate for heavy construction or logging equipment.
  o Capability to work on dozers, graders, excavators, etc.
  o Mechanic has minimum of 3 years’ experience at journeyman level for heavy
    construction and logging equipment.

• Type 2 Mechanic w/Service Truck
  Appropriate for autos, light & heavy trucks.
  o Capability of working on light and heavy trucks, class 1 – 8.
  o Mechanic has minimum of 3 years’ experience at journeyman level on all classes
    of light and medium trucks.

How to Order: Create new request in IROC.
CATALOG: Equipment
CATEGORY: Miscellaneous
CATALOG ITEM: Service Truck w/Mechanic, T1 or T2

NOTE:
Because the priority list is sorted by mechanic, rotation of mechanics through a long duration
assignment does not always provide a replacement mechanic from the same vendor. To avoid
this, the incident needs to either release the first mechanic and order the next on the list or
give the mechanic in place days off as needed to mitigate work/rest guidelines.
Mulcher/Masticator

General Information: Regional agreement managed by the USFS. Refer to agreement for specific information.

Detailed information: The solicitation and current information can be found at https://gacc.nifc.gov/nrcc/dispatch/equipment_supplies/agree-contract/solicitations.htm

Rental Vehicles

General Information: NRCC does not process orders for Rental Vehicles.

**National Emergency Rental Vehicle (NERV)**
The National Emergency Rental Vehicle (NERV) program is a single portal for placing rental vehicle orders, nationwide. NERV allows for a centralized billing, payment, and claims office for incident rented vehicles. Rentals are paid directly by the NERV program, and individual travel cards are not utilized through NERV. When the vehicle required for the position must be off-road capable, “NERV Rental authorized (Include type of vehicle)” must be relayed to dispatch. The NERV agreement rental process does NOT supersede guidance provided in the Northern Rockies Chapter 10 Supplement to the NWCG Standards for Interagency Incident Business Management for travel and transportation of AD/EFF overhead.

The NERV BPA may be used to procure vehicles on incidents when:
1. The vehicle is anticipated to be traveling off maintained roads.
2. The renter needs a 4x4 SUV or Pickup to meet the needs of the assignment.
3. The vehicle needed is to support an incident and will be assigned to a ground support buying team or dispatch center and utilized by multiple resources.
4. The renter is NOT self-sufficient or able to procure the vehicle needed for the assignment through the agency standard travel reservation system.

Standard Travel Reservation Systems must be used to procure vehicles when:
1. The assignment does not require a 4X4 SUV or Pickup Truck, and,
2. Agency personnel are self-sufficient, are in travel status and possess an agency-issued travel charge card.

Each vehicle rented through the NERV BPA must be requested electronically through the NERV website with a valid resource order, [https://sites.google.com/a/firenet.gov/nerv/new-nerv-request](https://sites.google.com/a/firenet.gov/nerv/new-nerv-request). Vehicles obtained through the BPA will be paid by the NERV Payment Center and reconciled to each associated request. If vehicles are reassigned, the last driver is responsible for completing the paperwork process for payment.

**DNRC - Off Road**
DNRC, Montana Disaster and Emergency Services (MTDES), the Idaho Department of Lands (IDL), and North Dakota Forest Service (NDFS) are authorized to use the agreement, the agreement cannot be used by federal employees. Orders will primarily originate through the respective Dispatch Center (either for the incident or for the resource), although buying teams or other state purchasers are authorized to place orders through this agreement. Employees are not allowed to walk up and order a vehicle under this agreement.

For the procurement of vehicles for on-road transportation to and from an incident or outside the Northern Rockies Geographic Area, NERV is the preferred method of hire. If there is no NERV vehicle available, then utilize the state term contract.

Ordering and dispatch procedures are as follows:
• Step 1: Requests for off-road vehicles will be submitted to dispatch on a General Message form. The request must be specific to vehicle type needed, quantity, tire requirements, delivery date and time needed and method of delivery. The intended use of the vehicles is also helpful – ex: Ground Support rigs to be assigned each day, Operational (DIVS) rigs to be assigned for incident duration, Logistical support to the line, etc.

• Step 2: Dispatch generates a resource order. A resource order will be completed for each vehicle.
  o Dispatch contacts the appropriate contractor for a reservation; requests must be submitted using the required MT-DNRC Rental Vehicle Request form.
  o Dispatch will state he/she is calling to reserve vehicle(s) under the DNRC Off-Road Vehicle Rental Agreement for Fire. The “renter” is the Fire Name and the appropriate resource order number (E, O, or C#) is provided to the Contractor. Or, if the vehicle is being ordered for an individual (single resource), the renter is the name of the single resource and his/her resource order number (O#) is provided to the contractor.
  o Payment Method will be identified at this time i.e. (agency-issued travel or purchase card or incident generated Emergency Equipment Use Invoice [OF-286]).

• Step 3: The contractor initiates a reservation and provides a reservation/confirmation number back to the dispatcher.
   If the contractor can assign specific vehicles at the time of the reservation (vehicle make, model, VIN number, and license plate number), that information should be provided. If the contractor is unable to assign the specific vehicles at the time of the reservation, a follow up phone call is required or additional coordination during pickup.

• Step 4: Dispatch fills the resource order with the contractor’s name, vehicle information, and confirmation number in “Special Needs”. Dispatch arranges for pickup of the vehicle(s) and provides a copy of the resource order with the required confirmation number to the individual(s) who will pick up the vehicle(s).

• Step 5: Dispatch will fax or email a completed copy of the resource order to the contractor. Depending on the payment method, the vehicle could go through pre-use inspection and a payment package may be started. A Rental Vehicle Tracking Cover Sheet should be initiated by dispatch.

Resource orders are assigned for a specific incident. Rented vehicles cannot move to other incidents with the same resource order. A new unique resource order number will be assigned for each incident and the new resource order will be sent to the contractor by the receiving dispatch center. Reference the DNRC Off-Road Agreement for more information:
