SECTION B – SOLICITATION INFORMATION (to be removed at contract award)

B.1 BPA USE AND INTENT

B.1.1. The intent of this solicitation is to obtain the services described in D.1 Scope of Agreement for Local, Regional, and Nationwide fire suppression and all-hazard incidents. The primary location for assignments shall be in the Northern Rockies Geographic Area. See link for map.

<https://gacc.nifc.gov/nrcc/about/dispzones.htm>

B.1.2. The Blanket Purchase Agreements (BPAs) resulting from this Request for Quote (RFQ) may be used by multiple State and Federal wildland fire agencies.

B.2 PRICING AND ESTIMATED QUANTITY

B.2.1. Multiple BPAs will be awarded. Orders on the BPAs will be placed by Dispatch Centers – the aggregate ceiling for ALL BPAs will be \$1.7M. Since the needs of the Government and availability of Contractor's resources during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the resources listed herein to the extent the Contractor is willing and able at the time of order. Due to the sporadic occurrence of Incident activity, the placement of any orders IS NOT GUARANTEED.

B.2.2. Proposed rates shall include, but are not limited to, labor (as required), equipment, operating supplies, materials, State and Federal taxes (including workers' compensation costs), insurance coverage, transportation costs, overhead, and profit, and any costs/fees necessary to ensure equipment/ operators/crews meet(s) the specified standards. As required by the agreement, any costs associated with a contractor provided support truck for fuel, maintenance, and operator transportation; delivery/setup/takedown, mobilization/demobilization, power generation, and a Contractor's representative attendance at the operational period briefings should also be included. Contractors shall comply with the 2:1 work/rest ratio as outlined in the Interagency Incident Business Management Handbook (12.7-1 Work/Rest Guidelines). When working an average of more than 16 hours, for the duration of the incident, a Contractor may request to negotiate an equitable adjustment through the Procurement Unit Leader or Contracting Officer. Shifts exceeding 16 hours shall be approved by the Incident Commander.

B.2.3. Resources furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the resource is subjected to under normal operations and is reflected in the rates paid for the resource.

B.3 BASIS OF AWARD

B.3.1. The Government intends to award multiple Agreements. Reasonable price technically acceptable will be the basis for the best value determination.

B.3.2. Nationally only one award will be made for a resource within each category and/or type. The Contractor may choose to respond to solicitations from multiple geographic areas; but upon acceptance of an offer of award, all other offers for that resource category and/or type will be ineligible for award. Prospective offerors are cautioned to carefully consider the solicitations to which they respond.

B.3.3. The following factors shall be used to evaluate quotes:

FACTOR 1: Operational acceptability of equipment/resource offered to meet the Government requirement;

FACTOR 2: Price reasonableness;

FACTOR 3: Past performance dependability risk.

B.3.3.1. A quote will be considered operationally acceptable if the offered resource meets the minimum requirements stated in the specifications.

B.3.3.2. Price reasonableness may be based upon competition, government estimates, commercial pricing, historical data, etc.; generally reasonable pricing that is low will result in higher dispatch priority.

B.3.3.3. Past performance dependability risk will be assessed by high, low or unknown (high indicating significant probability for poor future performance) based upon customer satisfaction as reflected in evaluations received for the quoter on incidents and other related experience within the past 36 months, compliance with Federal, state, and local laws and regulations, and quoter's history of reasonable and cooperative behavior. Pursuant to FAR 42.1501 the contractor's record of integrity and business ethics and generally, the contractor's business-like concern for the interest of the customer will be a consideration of past performance.

B.3.4. A notice of award will be electronically mailed to the vendors email address as provided in VIPR.

B.4 SOCIOECONOMIC STATUS APPLICABLE TO DPL RANKING

B.4.1. Multiple awards resulting from this solicitation will be made on a competitive basis to responsible small business concerns.

B.4.2. Priority ranking for dispatch will be determined by applying a 5% advantage (to the method described in D.8) for each socioeconomic category (other than small business) checked in Block 10 of the SF-1449. A vendor meeting multiple targeted socioeconomic categories will receive multiple percentage points with a cap of 10%; for example if HUBZone, Service-Disabled veteran Owned, and 8(a) are all checked in Block 10 and a vendor qualified as all three his advantage will be 10% for purposes for Dispatch Priority List placement.

B.5 PRE-QUOTE QUESTIONS

B.5.1. Submit all questions in writing to Pamela_Moody@nps.gov.

B.5.2. All terms and conditions of the solicitation remain unchanged unless they are changed by Amendment to the Solicitation. If any Solicitation Amendment, create ambiguities, it is the responsibility of the Quoter to seek clarification prior to submitting a quote.

B.6 SUMMARY

B.6.1 The Contractor shall:

- a. Submit a quote to the National Park Service BY E-MAIL ONLY to the following address:
Pamela_Moody@nps.gov.
- b. Register and update information in the System for Award Management (SAM). As a part of their SAM information, they shall complete online Representations and Certifications within SAM at

<https://www.sam.gov>. If the Contractor chooses not to complete FAR 52.212-3, Offer Representations and Certifications – Commercial Items online, then a completed copy of this clause shall be submitted separately via email as a part of the quote.

B.6.2 IMPORTANT: Your account being active in SAM is directly related to you being able to receive payment for any orders received. If you do not update the Entity Management information at least once every 365 days, the registration becomes in-active.

B.6.3 If you are new to Federal sector contracting or need assistance with regards to placing a quote under this solicitation, contact your local procurement Technical Assistance Center (PTAC). Locations of PTACs and other valuable information on contracting with the Government may be found at <http://www.ptac-us.org>

SECTION C – AGREEMENT AND PERFORMANCE PERIODS

C.1 AGREEMENT PERIOD

C.1.1. Estimated Period of Performance (POP) for Agreement is June 1, 2020 to May 31, 2023. The Agreement period is for three (3) years from the date of award.

C.1.1.1. An annual review will be conducted and at that time, Contractors will be offered an opportunity to adjust their prices. If a revised rate is not submitted during the period set forth by the Contracting Officer, the prices proposed in the original agreement will remain in effect.

C.1.1.2. In addition, a Contracting Officer may allow the Contractor to change their Host Dispatch Center and/or Equipment Attributes. Note: allowable equipment changes will not include the addition of new resources and will not result in a change in equipment typing.

C.1.2. It is estimated that the anticipated use will be within the Northern Rockies Geographic area. Potential use outside this area or anticipated use period could occur at any time.

C.1.3. Since the resource needs of the Government and availability of Contractor's resources during an emergency cannot be determined in advance, it is mutually agreed that, upon request of the Government, the Contractor shall furnish the resources listed herein to the extent the Contractor is willing and able at the time of order.

C.1.4. The Contractor shall provide availability status to the designated dispatch office within 10 days after award of the Agreement.

C.1.5. This Agreement may be discontinued upon 30 days' written notice by either party.

(b) *Submission of offers.* Submit signed and dated offers to the office specified in this solicitation at or before the exact time specified in this solicitation. Offers may be submitted on the [SF 1449](#), letterhead stationery, or as otherwise specified in the solicitation. As a minimum, offers must show—

- (1) The solicitation number;
- (2) The time specified in the solicitation for receipt of offers;

- (4) A technical description of the items being offered in sufficient detail to evaluate compliance with the requirements in the solicitation. This may include product literature, or other documents, if necessary;
- (5) Terms of any express warranty;
- (6) Price and any discount terms;
- (7) “Remit to” address, if different than mailing address;

- (10) Past performance information, when included as an evaluation factor, to include recent and relevant contracts for the same or similar items and other references (including contract numbers, points of contact with telephone numbers and other relevant information); and
- (11) If the offer is not submitted on the [SF 1449](#), include a statement specifying the extent of agreement with all terms, conditions, and provisions included in the solicitation. Offers that fail to furnish required representations or information, or reject the terms and conditions of the solicitation may be excluded from consideration.

(c) *Period for acceptance of offers.* The offeror agrees to hold the prices in its offer firm for 30 calendar days from the date specified for receipt of offers, unless another time period is specified in an addendum to the solicitation.

(d) *Product samples.* When required by the solicitation, product samples shall be submitted at or prior to the time specified for receipt of offers. Unless otherwise specified in this solicitation, these samples shall be submitted at no expense to the Government, and returned at the sender’s request and expense, unless they are destroyed during preaward testing.

(e) *Multiple offers.* Offerors are encouraged to submit multiple offers presenting alternative terms and conditions, including alternative line items (provided that the alternative line items are consistent with [subpart 4.10](#) of the Federal Acquisition Regulation), or alternative commercial items for satisfying the requirements of this solicitation. Each offer submitted will be evaluated separately.

(f) *Late submissions, modifications, revisions, and withdrawals of offers.*

(1) Offerors are responsible for submitting offers, and any modifications, revisions, or withdrawals, so as to reach the Government office designated in the solicitation by the time specified in the solicitation. If no time is specified in the solicitation, the time for receipt is 4:30 p.m., local time, for the designated Government office on the date that offers or revisions are due.

(2)

(i) Any offer, modification, revision, or withdrawal of an offer received at the Government office designated in the solicitation after the exact time specified for receipt of offers is “late” and will not be

considered unless it is received before award is made, the Contracting Officer determines that accepting the late offer would not unduly delay the acquisition; and-

(A) If it was transmitted through an electronic commerce method authorized by the solicitation, it was received at the initial point of entry to the Government infrastructure not later than 5:00 p.m. one working day prior to the date specified for receipt of offers; or

(B) There is acceptable evidence to establish that it was received at the Government installation designated for receipt of offers and was under the Government's control prior to the time set for receipt of offers; or

(C) If this solicitation is a request for proposals, it was the only proposal received.

(ii) However, a late modification of an otherwise successful offer, that makes its terms more favorable to the Government, will be considered at any time it is received and may be accepted.

(3) Acceptable evidence to establish the time of receipt at the Government installation includes the time/date stamp of that installation on the offer wrapper, other documentary evidence of receipt maintained by the installation, or oral testimony or statements of Government personnel.

(4) If an emergency or unanticipated event interrupts normal Government processes so that offers cannot be received at the Government office designated for receipt of offers by the exact time specified in the solicitation, and urgent Government requirements preclude amendment of the solicitation or other notice of an extension of the closing date, the time specified for receipt of offers will be deemed to be extended to the same time of day specified in the solicitation on the first work day on which normal Government processes resume.

(5) Offers may be withdrawn by written notice received at any time before the exact time set for receipt of offers. Oral offers in response to oral solicitations may be withdrawn orally. If the solicitation authorizes facsimile offers, offers may be withdrawn via facsimile received at any time before the exact time set for receipt of offers, subject to the conditions specified in the solicitation concerning facsimile offers. An offer may be withdrawn in person by an offeror or its authorized representative if, before the exact time set for receipt of offers, the identity of the person requesting withdrawal is established and the person signs a receipt for the offer.

(g) *Contract award (not applicable to Invitation for Bids)*. The Government intends to evaluate offers and award a contract without discussions with offerors. Therefore, the offeror's initial offer should contain the offeror's best terms from a price and technical standpoint. However, the Government reserves the right to conduct discussions if later determined by the Contracting Officer to be necessary. The Government may reject any or all offers if such action is in the public interest; accept other than the lowest offer; and waive informalities and minor irregularities in offers received.

(h) *Multiple awards*. The Government may accept any item or group of items of an offer, unless the offeror qualifies the offer by specific limitations. Unless otherwise provided in the Schedule, offers may not be submitted for quantities less than those specified. The Government reserves the right to make an award on any item for a quantity less than the quantity offered, at the unit prices offered, unless the offeror specifies otherwise in the offer.

(h) *Certification Regarding Responsibility Matters (Executive Order 12689)*. (Applies only if the contract value is expected to exceed the simplified acquisition threshold.) The offeror certifies, to the best of its knowledge and belief, that the offeror and/or any of its principals–

(1) ☐ Are, ☐ are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(2) ☐ Have, ☐ have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property;

(3) ☐ Are, ☐ are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) ☐ Have, ☐ have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,500 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) *The tax liability is finally determined*. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) *The taxpayer is delinquent in making payment*. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) *Examples*.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. §6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. §6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. §6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. §362 (the Bankruptcy Code).

(i) *Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126).* [The Contracting Officer must list in paragraph (i)(1) any end products being acquired under this solicitation that are included in the List of Products Requiring Contractor Certification as to Forced or Indentured Child Labor, unless excluded at [22.1503\(b\)](#).]

[The contracting officer is to check a box to indicate if paragraph (k)(1) or (k)(2) applies.]

(1) Maintenance, calibration, or repair of certain equipment as described in FAR [22.1003-4\(c\)\(1\)](#). The offeror ☐ does ☐ does not certify that-

(iv) The compensation (wage and fringe benefits) plan for all service employees performing work under the contract is the same as that used for these employees and equivalent employees servicing commercial customers.

(3) If paragraph (k)(1) or (k)(2) of this clause applies-

(i) If the offeror does not certify to the conditions in paragraph (k)(1) or (k)(2) and the Contracting Officer did not attach a Service Contract Labor Standards wage determination to the solicitation, the offeror shall notify the Contracting Officer as soon as possible; and

(ii) The Contracting Officer may not make an award to the offeror if the offeror fails to execute the certification in paragraph (k)(1) or (k)(2) of this clause or to contact the Contracting Officer as required in paragraph (k)(3)(i) of this clause.

(l) *Taxpayer Identification Number (TIN)* ([26 U.S.C. 6109](#), [31 U.S.C. 7701](#)). (Not applicable if the offeror is required to provide this information to the SAM to be eligible for award.)

NH – National Hose Thread

NPSH – National Pipe Standard Hose

ON SHIFT – Includes time worked, time that equipment is held or directed to be in a state of readiness, and compensable travel (equipment traveling under its own power) that has a specific start and ending time.

OPERATING SUPPLIES – Operating supplies include fuel, oil, filters, lube/oil changes. Even though the agreement may specify that all operating supplies are to be furnished by the Contractor (*wet*), the Government may, at its option, elect to furnish such supplies when necessary to keep the equipment operating. The cost of such supplies will be deducted from payment to the Contractor.

OPERATIONAL PERIOD – The period of time scheduled for execution of a given set of tactical actions, which may be specified in the Incident Action Plan. An operational period is equal to one shift and can be of various lengths.

ORDINARY WEAR AND TEAR – Equipment furnished under this agreement may be operated and subjected to extreme environmental and/or strenuous operating conditions which could include but is not limited to unimproved roads, steep, rocky, hilly terrain, dust, heat, and smoky conditions. As a result, by entering into this agreement, the contractor agrees that what is considered wear and tear under this agreement is in excess of what the equipment is subjected to under normal operations and is reflected in the rates paid for the equipment.

- **Durable Property.** Durable properties are those non-accountable items that have a useful life expectancy greater than one incident (e.g., sleeping bags, water handling accessories, tents, headlamps, tools). This property may be marked with paint or etching to show “US GOVT”, or an agency specific marking.
- **Consumable Goods.** Consumable goods are items normally expected to be consumed on the incident (e.g., batteries, Meals Ready to Eat, plastic canteens, petroleum products). This property is not marked.

RESOURCE – Equipment, personnel, supplies, or a service used to support incidents.

SJRL – Synthetic Jacket Rubber Lined Hose

SKIDGINE, DROP TANK (AKA DETACHABLE TANK) - A Skidgine with a water tank that has been engineered to be able to be removed from the parent machine and re-attached to the parent machine in one (1) hour or less. The parent machine must have a log grapple that is usable to pull logs or break apart jackpots of fuel when the tank is removed. Winch equipped Skidgines are excluded from this definition.

SOFTTRACK – A machine constructed to carry water, mounted on a carrier, equipped with a track that is able to conform to varying ground conditions by torsion bar mounted road wheels. These road wheels allow the track to travel up and down to keep the track surface in constant contact with the ground over rough surfaces. These machines can travel at a speed of over 12 miles per hour on flat surfaces.

SUPPRESSION – All the work of extinguishing or confining a fire beginning with its discovery.

SUSPENSION –

- Air Bag – A suspension designed with two (2) air bags per wheel or four (4) air bags per axle. Air bag suspensions were developed for over the road conditions. While this suspension is acceptable, the process where the air bags inflate and deflate to try and maintain an even ride is not as desirable due to the non-static load associated with a tank of water.
- Vocational Duty – All other axle configurations including the walking beam, spring, and trailing arm with two (2) air bags per axle shall be identified as vocational style suspension. Must be equipped with a tandem axle interlock (power divider).

UNDER HIRE – Refer to D.21.8

**** UNIFORM ALLOWANCE ****

If employees are required to wear uniforms in the performance of this contract (either by the terms of the Government contract, by the employer, by the state or local law, etc.), the cost of furnishing such uniforms and maintaining (by laundering or dry cleaning) such uniforms is an expense that may not be borne by an employee where such cost reduces the hourly rate below that required by the wage determination. The Department of Labor will accept payment in accordance with the following standards as compliance:

The contractor or subcontractor is required to furnish all employees with an adequate number of uniforms without cost or to reimburse employees for the actual cost of the uniforms. In addition, where uniform cleaning and maintenance is made the responsibility of the employee, all contractors and subcontractors subject to this wage determination shall (in the absence of a bona fide collective bargaining agreement providing for a different amount, or the furnishing of contrary affirmative proof as to the actual cost), reimburse all employees for such cleaning and maintenance at a rate of \$3.35 per week (or \$.67 cents per day). However, in those instances where the uniforms furnished are made of "wash and wear" materials, may be routinely washed and dried with other personal garments, and do not require any special treatment such as dry cleaning, daily washing, or commercial laundering in order to meet the cleanliness or appearance standards set by the terms of the Government contract, by the contractor, by law, or by the nature of the work, there is no requirement that employees be reimbursed for uniform maintenance costs.

The duties of employees under job titles listed are those described in the "Service Contract Act Directory of Occupations", Fifth Edition (Revision 1), dated September 2014, unless otherwise indicated.

REQUEST FOR AUTHORIZATION OF ADDITIONAL CLASSIFICATION AND WAGE RATE

Standard Form 1444 (SF-1444) Conformance

Process:

The contracting officer shall require that any class of service employee which is not listed herein and which is to be employed under the contract (i.e., the work to be performed is not performed by any classification listed in the wage determination), be classified by the contractor so as to provide a reasonable relationship (i.e., appropriate level of skill comparison) between such unlisted classifications and the classifications listed in the wage determination. Such conformed classes of employees shall be paid the monetary wages and furnished the fringe benefits as are determined (See 29 CFR 4.6 (b)(2)(i)). Such conforming procedure shall be initiated by the contractor prior to the performance of contract work by such unlisted class(es) of employees (See 29 CFR 4.6(b)(2)(ii)). The Wage and Hour Division shall make a final determination of conformed classification, wage rate, and/or fringe benefits which shall be retroactive to the commencement date of the contract (See 29 CFR 4.6(b)(2)(iv)(C)(vi)). When multiple wage determinations are included in a contract, a separate SF- 1444 should be prepared for each wage determination to which a class(es) is to be conformed.

The process for preparing a conformance request is as follows:

- 1) When preparing the bid, the contractor identifies the need for a conformed occupation(s) and computes a proposed rate (s).
- 2) After contract award, the contractor prepares a written report listing in order the proposed classification title(s), a Federal grade equivalency (FGE) for each proposed classification(s), job description(s), and rationale for proposed wage rate(s), including information regarding the agreement or disagreement of the authorized representative of the employees involved, or where there is no authorized representative, the employees themselves. This report should be submitted to the contracting officer no later than 30 days after such unlisted class(es) of employees performs any contract work.
- 3) The contracting officer reviews the proposed action and promptly submits a report of the action, together with the agency's recommendations and pertinent information including the position of the contractor and the employees, to the Wage and Hour Division, U.S. Department of Labor, for review (See 29 CFR 4.6(b)(2)(ii)).
- 4) Within 30 days of receipt, the Wage and Hour Division approves, modifies, or disapproves the action via transmittal to the agency contracting officer, or notifies the contracting officer that additional time will be required to process the request.
- 5) The contracting officer transmits the Wage and Hour decision to the contractor.
- 6) The contractor informs the affected employees.

Information required by the Regulations must be submitted on SF-1444 or bond paper.

When preparing a conformance request, the "Service Contract Act Directory of Occupations" (the Directory) should be used to compare job definitions to ensure that duties requested are not performed by a classification already listed in the wage determination. Remember, it is not the job title, but the required tasks that determine whether a class is included in an established wage determination. Conformances may not be used to artificially split, combine, or subdivide classifications listed in the wage determination.

RATING GUIDELINES

Quality of Product or Service; Timeliness of Performance; and Business Relations

0 = Unsatisfactory 1 = Marginal 2 = Satisfactory 3 = Very Good 4 = Exceptional

Unsatisfactory	<p>Performance does not meet most contractual requirements and recovery is not likely in a timely manner. The contractual performance of the element or sub-element contains a serious problem(s) for which the contractor's corrective actions appear or were ineffective.</p> <p>NOTE: To justify an Unsatisfactory rating, identify multiple significant events in each category that the contractor had trouble overcoming and state how it impacted the Government. A singular problem, however, could be of such serious magnitude that it alone constitutes an unsatisfactory rating. An Unsatisfactory rating should be supported by referencing the management tools used to notify the contractor of the contractual deficiencies (e.g., management, quality, safety, or environmental deficiency reports, or letters).</p>
Marginal	<p>Performance does not meet some contractual requirements. The contractual performance of the element or sub-element being assessed reflects a serious problem for which the contractor has not yet identified corrective actions. The contractor's proposed actions appear only marginally effective or were not fully implemented.</p> <p>NOTE: To justify Marginal performance, identify a significant event in each category that the contractor had trouble overcoming and state how it impacted the Government. A Marginal rating should be supported by referencing the management tool that notified the contractor of the contractual deficiency (e.g., management, quality, safety, or environmental deficiency reports, or letters).</p>
Satisfactory	<p>Performance meets contractual requirements. The contractual performance of the element or sub-element contains some minor problems for which corrective actions taken by the contractor appear or were satisfactory.</p> <p>NOTE: To justify a Satisfactory rating, there should have been only minor problems, or major problems the contractor recovered from without impact to the contract. There should have been NO significant weaknesses identified. A fundamental principle of assigning ratings is that contractors will not be assessed a rating lower than Satisfactory solely for not performing beyond the requirements of the contract.</p>
Very Good	<p>Performance meets contractual requirements and exceeds some to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with some minor problems for which corrective actions taken by the contractor was effective.</p> <p>NOTE: To justify a Very Good rating, identify a significant event and state how it was a benefit to the Government. There should have been no significant weaknesses identified.</p>
Exceptional	<p>Performance meets contractual requirements and exceeds many to the Government's benefit. The contractual performance of the element or sub-element being assessed was accomplished with few minor problems for which corrective actions taken by the contractor was highly effective.</p> <p>NOTE: To justify an Exceptional rating, identify multiple significant events and state how they were of benefit to the Government. A singular benefit, however, could be of such magnitude that it alone constitutes an Exceptional rating. Also, there should have been NO significant weaknesses identified.</p>
