Once a Team has had an out-of-Geographic-Area assignment, an asterisk will be placed beside their name on the NRCC home web page when they come into rotation, indicating they have had an assignment. The other Team in 2-hour will be given the opportunity first. In the event that both Teams in 2-hour have had an out-of-Geographic-Area assignment, the closest Team will be sent. The closest Team will be determined by NRCC based on physical location if driving, or proximity of jetport(s) if flying.* In date column Denotes Monday Holiday team will rotate on Tuesday.

Since two teams will be in the two hour time slot during the core season in initial team mobilization will use the closest team concept. The other team in the two hour time slot for the designated rotation period will be mobilized next regardless of fire location. The location of the IC will be used to determine the closest team.
