I) AUTHORITIES:

- Disaster Relief Act of May 22, 1974, (42 U.S.C. 5121 as amended)
- National Indian Forest Resources Management Act (P.L. 101-630, Title III; 25 U.S.C. §§ 3101-3120) (Interior Agencies)
- Department of the Interior and Related Agencies Appropriations Act, 1999, as included in P.L. 105-277, section 101(e);
- NPS Organic Act (54 U.S.C. § 100101) (NPS)
- North Dakota Century Code (Chapter 18-02, Chapter 37-17.1-ND Disaster Act of 1985)

II) PURPOSE

The purpose of this Master Cooperative Wildland Fire Management and Stafford Act Agreement (hereinafter called the Agreement) is to document the commitment of the Parties to this Agreement to improve efficiency by facilitating the coordination and exchange of personnel, equipment, supplies, services, and funds among the Parties to this Agreement in sustaining wildland fire management activities, such as prevention, preparedness, communication and education, fuels treatment and hazard mitigation, fire planning, response strategies, tactics and alternatives, suppression and post-fire rehabilitation and restoration.

In addition to improving efficiency in addressing wildland fire management activities, this agreement facilitates improved coordination regarding other incidents. The National Response Framework (NRF) applies to all Federal departments and agencies that may be requested to provide assistance or conduct operations during all-hazard events. However, this agreement ONLY covers all-hazard events that are, or may become, declared as emergencies or major disasters that occur under the auspices of a Presidential Declaration of Emergency or Major Disaster under the Stafford Act, which may include wildland fire management and non-wildland emergencies or major disasters. These events also require a coordinated response by an appropriate combination of State and Tribal entities, along with the Federal Agencies.

This agreement documents the commitment of the Parties to provide cooperation, resources, and
support to the Secretary of Homeland Security and Administrator of the Federal Emergency Management Agency (FEMA) in the implementation of the NRF, as appropriate and consistent with their own authorities and responsibilities.

III) PARTIES TO THE AGREEMENT

The Parties to this Agreement are:

The State of North Dakota, North Dakota Forest Service, hereinafter called “State” or when referred jointly with other states in this agreement called the “States”; and

The United States Department of Agriculture, Forest Service, Region 1, Northern Region hereinafter called the “USFS”; and

The United States Department of the Interior, National Park Service, Midwest Region, hereinafter called the “NPS”; and

The United States Department of the Interior, Fish and Wildlife Service, Mountain-Prairie Region, hereinafter called “FWS”; and

The United States Department of the Interior, Bureau of Indian Affairs, Great Plains Regional Office, hereinafter called the “BIA”; and

The United States Department of the Interior, Bureau of Land Management, Montana/Dakotas State Office, hereinafter called the “BLM” and

The USFS, NPS, FWS, BIA, and the BLM may hereinafter be jointly called the 'Federal Agencies.'

The Federal Agencies, States, and other entities signatory to this Agreement will hereinafter be referred to as the "Parties to this Agreement."

IV) TERMINOLOGY, EXHIBITS AND SUPPLEMENTS

Words and phrases used herein may have different meanings or interpretations for different readers. To establish a common understanding, some words and phrases as used herein are defined in the Glossary attached as Exhibit A. The hierarchy of terminology will be those defined by statute or regulation, those defined in policy, those defined in this template and then all other agency and interagency documentation.

In the event of a conflict, the applicable definitions for the response type, i.e., wildland fire vs Stafford Act responses, will take precedence. For wildland fire, that is the NWCG Glossary of Wildland Fire Terminology, found on the “Publications” page of the National Wildfire Coordinating Group web-page (http://www.nwcg.gov, or by direct link at http://www.nwceg.gov/glossary/a-z), and Stafford Act Response terminology corresponds to the FEMA NIMS glossary, available at in the NIMS document (downloadable at https://www.fema.gov/pdf/emergency/nims/NIMS_core.pdf).

1. Incorporation of exhibits into Agreement
The following exhibits are hereby incorporated into this Agreement (Note that Exhibit H relates only to Stafford Act responses):

Exhibit A  Glossary of Terms
Exhibit B  Principal Contacts
Exhibit C  Operating Plan Template
Exhibit D  Reimbursable Billings and Payments
Exhibit E  Cost Share Agreement Instructions
Exhibit F  Cost Share Agreement Template
Exhibit G  Supplemental Fire Department Resources Template
Exhibit H  Use and Reimbursement for Stafford Act Shared Resources
Exhibit I  Supplemental Project Agreement Template

Several of the referenced exhibits are intended to be used as templates and as such completion and/or execution of those exhibits do not require formal modification to this Agreement. Also, as necessary, the parties may introduce new or revised exhibits at the geographic, statewide, or sub-geographic areas as a component of the Operating Plans without necessitating a formal modification to this Agreement, so long as they do not conflict with the provisions of this Agreement.

2. Acknowledgement of supplements to the agreement

Supplements to this Agreement, Operating Plans, Joint Projects and Project Plans, and Cost Share Agreements will further describe working relationships, financial arrangements, and joint activities not otherwise specified under the terms of this Agreement.

3. Hierarchy and precedence for agreements, exhibits, operating plans, etc.

Any inconsistencies in this Agreement and attachments thereto shall be resolved by giving precedence in the following order:

1. This Agreement
2. Geographic or Statewide Operating Plan
3. Sub-geographic (Local) Operating Plan
4. Cost Share Agreements
5. Exhibits to this Agreement
6. Joint Projects, Project Plans, or Supplemental Project Agreements

V) PERIOD OF PERFORMANCE

1. Commencement/Expiration: This Agreement shall be effective and in effect for five years, beginning from the date of the last signature.

2. Modifications: Modifications within the scope of this Agreement shall be made by mutual consent of the Parties to the Agreement, by the issuance of a written modification, signed and dated by all Parties to the Agreement, prior to any changes being performed. No Party is obligated to fund any changes not properly approved in advance.

3. Termination: Any party to the Agreement shall have the right to terminate its participation
under this Agreement by providing one-year advance written notice to the other Parties.

4. **Annual Review:** If deemed necessary, representatives of the Parties to the Agreement will meet and review matters of mutual concern. Operating plans, at all levels, will be reviewed annually. If necessary, operating plans will be revised.

5. **Previous Agreements Superseded:** This Agreement supersedes the following: North Dakota Cooperative Wildland Fire Protection and Stafford Act Response Agreement,

USFS Agreement Number - 07FI11015600038 and National Park Service Agreement Number - H6064070003, executed on June 29, 2007

Existing supplemental agreements and operating plans may remain in effect to the extent that they do not conflict with the provisions of this Agreement, but only until such time that all activities and conditions covered by those agreements or plans can be incorporated into geographic, statewide, or sub-geographic area operating plans provided for under this Agreement.

**VI) RECITALS**

1. Lands for which local fire departments are responsible for wildland fire protection in North Dakota with the support and assistance of the State, and the lands for which the respective Federal Agencies are responsible, are intermingled or adjacent in some areas, and wildland fires on these intermingled or adjacent lands may present a threat to the lands of the other;

2. The Parties to this Agreement maintain fire protection and fire management organizations;

3. It is to the mutual advantage of the Parties to this Agreement to coordinate efforts for the prevention and detection of, and responses to wildfires, fuels management, suppression, non-wildland fire emergencies (as authorized), and cooperative projects for resource and protection objectives in and adjacent to their areas of responsibility, and to limit duplication and improve efficiency and effectiveness;

4. It is the intent of the Parties to this Agreement that State resources be available to assist in fire management activities on all federal lands, and on other lands upon which the Federal Agencies are responsible to protect;

5. It is the intent of the Parties to this Agreement that federal resources be available to assist in fire management activities on all state and private lands on which the State supports wildfire assistance to local fire departments.

6. The USFS, BLM, BIA, NPS, and FWS have entered into a national Interagency Agreement for Wildland Fire Management to cooperate in all aspects of fire management.

7. It is noted that local fire resources are often mobilized within a state pursuant to a separate state MOU or agreement with local fire departments or fire organizations, with reimbursement handled according to the terms detailed within that MOU or agreement. Local cooperative fire agreements or MOU between Federal Agencies and local fire departments will be reviewed and signed by the involved department fire chief and agency
8. It is expected that all federal, state and local agencies will coordinate assistance and operations during Stafford Act responses by following the procedures and requirements established in the National Response Framework (NRF). This agreement documents the commitment of the Parties to provide cooperation, resources, and support to the Secretary of Homeland Security and Administrator of the Federal Emergency Management Agency (FEMA) in the implementation of the NRF, as appropriate and consistent with their own authorities and responsibilities. Some state and local resources are limited by statute to wildland fire response, requiring the governor to specifically approve mobilization outside of their state for non-fire emergencies. State emergency declarations and responses for all hazard and non-Stafford Act responses are outside the scope of this agreement.

9. The Responsibilities of the Parties to this Agreement shall be distinguished as follows:
   a. **Jurisdictional Agency** - The agency having land and resource management responsibility for a specific geographical or functional area as provided by federal, state or local law. Under no circumstances may a jurisdictional Agency abdicate legal responsibilities as provided by federal or state law.
   b. **Protecting Agency** – The agency responsible for providing direct incident management within a specific geographical area pursuant to its jurisdictional responsibility or as specified and provide by contract, cooperative agreement, or other agreement or arrangement.
   c. **Supporting Agency** - An Agency providing suppression or other support and resource assistance to a protecting agency.

In consideration of the mutual commitments and conditions herein made, the parties agree as follows:

**VII) INTERAGENCY COOPERATION**

10. **The Northern Rockies Coordinating Group (NRCG):** provides coordination and recommendations for all interagency fire management activities within the Northern Rockies geographic area which includes North Dakota. Membership, procedures, and guidelines will be agreed to and documented in the NRCG Charter (Memorandum of Understanding and/or Standard Operating Procedures).

   The **North Dakota Fire Council (NDFC):** serves as an advisory group for coordination of wildland fire cooperative activities within North Dakota, including development of the Statewide Operating Plan. Membership, procedures and guidelines will be agreed to and documented in the ND Fire Council Charter.

11. **National Incident Management System:** The Parties to this Agreement will operate under the concepts defined in the National Incident Management System (NIMS). In implementing these concepts, Parties to this Agreement will be expected to follow the National Wildfire Coordinating Group’s (NWCG) minimum standards as defined in the Wildland Fire Qualifications Systems Guide (PMS-310). NWCG recognizes the ability of cooperating agencies at the local level to jointly define and accept each other’s qualifications for initial attack, extended attack, fire operations, and prescribed fire. These NWCG minimum standards are NIMS compliant. The following NIMS concepts will be followed as
they are implemented: Incident Command System (ICS), qualifications system, training system, the management of publications, and participating in the review, exchange and transfer of technology as appropriate for providing qualified resources, and for the management of incidents covered by this Agreement.

12. **Operating Plans:** Operating plans will be developed using *Exhibit C, Operating Plan Template*, at the geographic, statewide, or sub-geographic area level, as appropriate, and will tier to this Agreement. Operating Plans may be written for more than one year, but should be reviewed annually, and will be subject to modifications, as warranted. No Operating Plan tiered to this Agreement should be written beyond the expiration date of this agreement. The following operating plans are listed in descending order of precedence:

A. **Northern Rockies Geographic Area Plans**

Northern Rockies Geographic Area Plans will address issues affecting Geographic Area-wide cooperation. The Geographic Area Plans will be approved by the signatory State and Federal NRCG member agencies. The Northern Rockies Mobilization Guide will be incorporated by reference and be considered part of Geographic Area Plans.

B. **Statewide Operating Plans**

Statewide Operating Plans will address issues affecting statewide cooperation. The fire directors of each agency are authorized to develop and approve Statewide Operating Plans.

The Statewide Mobilization Guides will be identified and considered part of the Statewide Operating Plans.

C. **Sub-Geographic (Local) Area Operating Plans**

Sub-geographic area operating plans may be developed that outline the details of this Agreement for sub-geographical areas. Unit Administrators will have the responsibility for developing and approving sub-geographic area operating plans. Unless superseded by the Geographic Area or Statewide Operating Plans, sub-geographic area operating plans will apply.

D. **Project Plans (if applicable)**

Project plans are developed for specific non-suppression, fire related projects or activities. (See related clause: Joint Projects and Project Plans).

13. **Interagency Dispatch Centers:** The Parties to this Agreement agree to maintain, support, and participate in Interagency Dispatch Centers, as appropriate. The geographic zone dispatch center is the North Dakota Interagency Dispatch Center (NDC) located in Bismarck, ND.

Staffing, funding, and level of participation will be agreed to by the affected Parties to this Agreement and documented in geographic, statewide, or sub-geographic area operating plans and/or appropriate mobilization guides.
14. **Northern Rockies Coordination Center:** The Parties to this Agreement recognize the Northern Rockies Coordination Center in Missoula, as the Geographic Area Coordination Center (GACC) for North Dakota. The Parties to this Agreement will coordinate, mobilize and demobilize emergency management resources through the Northern Rockies Coordination Center as appropriate. Parties to this Agreement are not precluded from independent movement of their own resources.

15. **Interagency Resources:** Interagency funding, staffing, and utilization of resources and facilities will be pursued by the Parties to this Agreement whenever an interagency approach is appropriate and cost effective. Shared staffing and funding will be commensurate with each Parties use of resources, will be agreed to and documented in operating plans, and will be subject to the availability of appropriations.

To the extent practical, additional preparedness resource requests will be coordinated, such as use of National Guard resources. The coordination process will be identified in the appropriate geographic, statewide, or sub-geographic area operating plan.

16. **State to State response:** Should a State Party to this Agreement intend to utilize the assistance of the Forest Service to seek State reimbursement for amounts expended for resources and services provided to another State for the management and suppression of wildfire, that State shall agree to meet the obligations and requirements, including any reasonable administrative fees, as agreed upon by the State and the Forest Service and detailed in Exhibit D, Reimbursable Billings and Payments. Should a State Party to this Agreement intend to utilize the assistance of the Forest Service to accept the reimbursement amounts expended for resources and services provided from another State, and have the Forest Service pay that amount to the State seeking reimbursement, that State shall agree to meet the associated reimbursement obligations and requirements, including any reasonable administrative fees, as agreed upon by the State and the Forest Service, and detailed in Exhibit D, Reimbursable Billings and Payments.

17. **Standards:** The Parties to this Agreement desire to achieve common standards within the Parties’ best interest, recognizing differing agency missions and mandates. Each Party to this Agreement recognizes that other Parties’ standards are reasonable, prudent, and acceptable. This clause does not affect the Jurisdictional Agency’s land management standards.

**VIII) PREPAREDNESS**

18. **Protection Planning:** Annually, before May 1, sub-geographic area Unit Administrators will determine efficiencies to be gained from reciprocal assistance and acquisition of protection services. Operating plans will document decisions. Plans should be reviewed and agreement reached concerning such items as placement of crews, engines, air tankers, helicopters, fixed and aerial detection, regulated use, closures and other joint fire suppression efforts.

19. **Protection Areas and Boundaries:** Protection areas, as defined by boundaries, will be mapped and or described, and made a part of geographic, statewide, or sub-geographic area operating plans. Protection Areas may include lands under the jurisdiction of another agency as authorized by law.
20. **Methods of Fire Protection and Suppression:** One agency may provide fire protection services on lands under the jurisdiction of another, within their authority and as authorized by law. The following are different methods to provide those services:

A. **Reciprocal (Mutual Aid) Fire Protection:** As deemed appropriate, the Agencies may, by agreement in Operating Plans, establish reciprocal initial attack zones for lands of intermingled or adjoining protection responsibility. Within such zones, a Supporting Agency will, upon request or voluntarily, take initial attack action in support of the Protecting Agency.

The Protecting Agency will not be required to reimburse the Supporting Agency for costs incurred following the initial dispatch of any ground resources to the fire for the duration of the mutual aid period. The length of the mutual aid period will be documented in the Statewide or sub-geographic Operating Plans, or shall not exceed 24 hours if not documented in an Operating Plan.

B. **Reimbursable (Cooperative) Fire Protection:** The Protecting Agency may request suppression resources of other Agencies for its protection work. Such resources shall be paid for by the Protecting Agency. See applicable item regarding Reimbursable Billings and Payments, Exhibit D.

C. **Contract (Fee Basis) Fire Protection:** For an agreed upon fee, one Agency may assume the fire protection responsibilities on lands under the jurisdiction of another Agency. The terms and conditions of such arrangements must be included in Operating Plans and carried out through an appropriate procurement document.

21. **Joint Projects and Project Plans:** The Parties to this Agreement may jointly conduct cooperative projects, within their authority and as authorized by law, to maintain or improve their fire management services and activities. These projects may involve such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, prevention, public affairs, and other beneficial efforts in support of interagency fire management. Such projects will be documented in separate, local agreements, or other appropriate written documents, executed by the authorized signatories of the involved parties. This may include a Supplemental Project Agreement, as in Exhibit I. or other written document.

22. **Fire Prevention:** The Parties to this Agreement agree to cooperate in the development and implementation of fire prevention programs. Unit Administrators will ensure that fire prevention goals and activities are planned at local levels and are addressed in the appropriate operating plans. Specific fire prevention plans should be developed by local interagency fire management personnel. The Parties to this Agreement may pool resources and each party pay its own costs. Unit Administrators are encouraged to participate in local fire prevention cooperatives, organizations, or groups, where applicable.

23. **Public Use Restrictions:** Guidelines for implementing restrictions and closures shall be established by a separate MOU or agreement, and/or in an Operating Plan.

24. **Burning Permits:** Burning permit procedures, where applicable, will be included in local
operating plans.

25. **Prescribed Fire and Fuel Management:** The Parties to this Agreement agree to cooperate in the development and implementation of planned ignitions, prescribed fire and fuels management programs.

Any Party to this Agreement may provide assistance to another Party as requested and agreed to for the purposes of performing planned ignitions, prescribed fire or other fuels management work. Conditions of the assistance and details related to reimbursement will be agreed to and documented through the procurement or joint projects and project plans (as referenced in Joint Projects and Project Plans, Clause #21). Any instrument processed under this clause shall be in accordance with each Party's applicable laws, regulations, and policy requirements.

26. **Smoke Management:** Within their authorities, the Parties to this Agreement agree to cooperate in smoke management efforts for wildfires and prescribed fires.

**IX) OPERATIONS**

27. **Closest Forces Concept:** The guiding principle for dispatch of initial attack suppression resources is to use the closest available and appropriate resource regardless of which Party owns or controls the resources, and regardless of which Agency has protection responsibility or jurisdiction.

28. **Fire Notifications:** Each Party will promptly notify the appropriate protecting Agency of fires burning on or threatening lands for which that Agency has protection responsibility. Likewise, protecting Agencies will promptly inform jurisdictional agencies whenever they take action on fires for which the protecting Agency is responsible. Fire reports will be sent to jurisdictional agencies within the timeframes established in the applicable Operating Plan, Agreement or Memorandum of Understanding.

29. **Boundary Line Fires:** A boundary line fire, as defined in Exhibit A, Glossary of Terms, will be the initial attack responsibility of the protecting Agencies on either side of the boundary. Neither Agency will assume the other Agency is aware of the fire or that the other Agency will take action. Each Agency will make every reasonable effort to communicate with the other concerning the fire. When protecting agencies have arrived at the site of the fire, the agencies will mutually agree to the designation of a Unified Incident Command organization. When a fire burns on both sides of the boundary, except in cases of reciprocal fire protection or voluntary independent actions (See Provision #20, Methods of Fire Protection and Suppression and Provision #30, Independent Actions), a cost share agreement shall be prepared and approved for all actions. See Exhibit F, Cost Share Agreement.

30. **Independent Action:** Except as otherwise limited in geographic, state-wide, or sub-geographic area operating plans, nothing herein shall prohibit any Party, on its own initiative and without reimbursement, from going upon lands known to be protected by another Party to this Agreement to engage in suppression of wildfires, when such fires are a threat to lands under that Party’s management or protection responsibility. In such instances, the Party taking action will promptly notify the Protecting Agency. Such actions will be
commensurate with the land management considerations of the Jurisdictional Agency, and subject to the laws and regulations of the Jurisdictional Agency.

31. **Escaped Prescribed Fires**: Wildfires resulting from escaped prescribed fires that were ignited by, managed at the direction of, or under the supervision of one of the Parties to this Agreement shall be the responsibility of the Jurisdictional Agency. If the Parties to this Agreement jointly conduct or manage a prescribed fire on jurisdictional lands, the responsibility for suppression costs, should it escape, shall be agreed upon and documented in the Project Plan. Unless otherwise agreed, all suppression costs and associated damages are the responsibility of the Jurisdictional Agency. The Parties to this Agreement will not hold each other responsible under this clause for escaped prescribed fires originating on private land, or on state or federal lands not protected by one of the Parties to this Agreement.

32. **Response to Wildland Fire**: All fire suppression action conducted by one party on lands of another Party shall be consistent with the jurisdictional agency’s fire management policy, preplanned objectives for the area in which the fire occurs, and the terms of this Agreement.

A “Special Management Considerations” section in the Operating Plan, addressing resources and other management concerns, will be used by Unit Administrators of the Agencies to identify areas of special management consideration, and to communicate appropriate fire management actions and any restrictions on firefighting tactical techniques to an Incident Commander.

Unless otherwise agreed, the Jurisdictional Agency will provide an Agency representative or appropriate environmental technical specialist to advise a Protecting Agency of any special management considerations that may influence suppression action. The Incident Commander will incorporate special management considerations into the incident planning process, subject to the delegation of authority.

Each Operating Plan must address how the entities will handle cost-sharing for wildland fires that spread to another jurisdiction. Entities should recognize that, as in the “Guidance for Implementation of Federal Wildland Fire Management Policy (2009)”, a wildland fire may concurrently be managed for one or more objectives. Additionally, objectives can change as the fire spreads across the landscape, affected by changes in environmental conditions, human influence, and institutional factors. Simply stated, some portions of a wildland fire may receive a protection objective while other portions are managed for multiple objectives, and those portions and objectives might change at some time over the duration of the event. The intent should never be to allow a wildland fire to burn onto a jurisdiction that does not want it. All parties should be involved in developing the strategy and tactics to be used in preventing the fire from crossing the jurisdictional boundary, and all parties should be involved in developing mitigations that would be used if the fire crosses jurisdictional boundaries.

33. **Delegation of Authority**: Operating plans will document procedures and criteria for Unit Administrators to specify direction, authority, and financial management guidelines to Incident Commanders.

34. **Preservation of Evidence**: As initial action is taken on a fire, the initial attack forces will
preserve information and evidence pertaining to the origin and cause of the fire. Protecting and Jurisdictional Agencies shall render mutual assistance in the gathering of evidence to the fullest extent practicable. Affected Parties to this Agreement will meet to determine an appropriate investigation process.

35. **Stafford Act Response:** For Stafford Act responses, procedures and requirements established in the National Response Framework (NRF) shall be utilized by Parties to this Agreement to authorize and accomplish any required response or support tasks. Any Party requesting support pursuant to a Stafford Act response shall issue written instructions and funding limitations to any Party providing cooperation, resources or support. Mobilization activities will be accomplished utilizing established dispatch coordination concepts pursuant to the current National Interagency Mobilization Guide.

X) **USE AND REIMBURSEMENT OF INTERAGENCY FIRE RESOURCES**

36. ** Appropriated Fund Limitation:** Nothing in this Agreement shall require the Parties to this Agreement to obligate or expend funds, or require the United States, the State of North Dakota, or the other Parties to this Agreement to enter into any contract or other obligation for the future payment of funds in excess of that approved and made available for payment under Supplemental Project Agreement. In addition, any commitment of funds pursuant to this agreement is subject to each Agencies appropriation laws, policies, regulations and limitations.

37. **Length of Assignments:** Consideration must be given to the health and safety of personnel when assigned to fires. The Parties to this Agreement agree that Incident Commanders will release suppression resources to their primary responsibilities as soon as priorities allow. Incident Commanders shall adhere to work/rest policies specified within the National Interagency Mobilization Guide.

38. **Cost Share Agreement:** Whenever multiple jurisdictions are affected due to the location of a fire, it is mandatory to develop and implement a Cost Share Agreement (or Apportionment Process, if applicable). The Operating Plan must address how the Parties to this Agreement will handle cost-sharing for wildland fires that spread to another jurisdiction. Acceptable forms of the cost share mix are limited to those listed in item #10 of Exhibit F, Cost Share Agreement. Except as otherwise provided by Clauses 27 (Independent Action), and 43 (Billing Procedures), a cost share agreement will be approved by the responsible Unit Administrators (as defined in Exhibit A, Glossary of Terms) or their authorized representatives when the incident involves lands of more than one protecting Agency (see Clause 26, Boundary Line Fires, and Exhibit F, Cost Share Agreement).

A Cost Share Agreement that addresses temporary support functions or facilities may be developed to document cost sharing, especially at times of high fire danger or activity.

39. **Procurement:** At the time of the incident, the affected agencies will determine the appropriate procurement procedures that will be utilized.

40. **Licensing:** Drivers and equipment operators will hold appropriate operating licenses to meet state and federal laws and employing agency regulations and policies. Employees of
the Parties to this Agreement may operate each other's vehicles provided the operator is qualified by the current operating guidelines and training requirements of their own Agency. Driving and operating equipment will be for official purposes only.

41. **Text Messaging While Driving:** In accordance with Executive Order (EO) 13513, "Federal Leadership on Reducing Text Messaging While Driving," any and all text messaging by Federal employees is banned: a) while driving a Government owned vehicle (GOV) or driving a privately owned vehicle (POV) while on official Government business; or b) using any electronic equipment supplied by the Government when driving any vehicle at any time. All cooperators, their employees, volunteers, or contractors are encouraged to adopt and enforce policies that ban text messaging when driving company owned, leased or rented vehicles or GOVs when driving while on official Government business or when performing any work for or on behalf of the Government.

42. **Training:** The Parties to this Agreement will cooperate to assure that training needs are provided that will produce safe and effective fire management and aviation programs. The intent is to champion high quality training, to minimize training costs by sharing resources, and to standardize training. Local fire departments will be included in this cooperative approach whenever practical. As applicable, all training will meet the NWCG 310-1 standards.

43. **Communication Systems:** The Parties to this Agreement may mutually agree to allow one another the use of communications systems such as radio frequencies, computer system access, data transmission lines, and communication sites when there is a mutual benefit to the Parties to this Agreement. Such agreement shall be approved only by Agency authorized personnel and in accordance with agency laws, regulations and policies governing security of systems and facilities.

44. **Fire Weather Systems:** The Parties to this Agreement will cooperate in the gathering, processing, and use of fire weather data, including the purchase of compatible sensing systems and the joint use of computer software. All such use shall be in accordance with applicable Federal, State, and local laws, software and other applicable licenses. The Parties to this Agreement will jointly evaluate and agree to any deletions or additions to the system. The common and agreed upon fire danger rating system for the North Dakota Geographic Area is the National Fire Danger Rating System (NFDRS).

The Parties to this Agreement agree to cooperate and coordinate the utilization of Incident Meteorologist (IMET) services to support responses to wildfires, as described within the Interagency Agreement for Meteorological and Other Technical Services (IMET Agreement) between the National Weather Service (NWS) and the federal Wildland Fire Agencies. The Parties shall follow the provisions described in the IMET Agreement, along with the procedures detailed within the Operating Plan for this Agreement.

45. **Aviation Operations:** The Parties to this Agreement agree to cooperate in the use of aviation resources to foster effective and efficient use of aircraft and personnel. (Refer to the Geographic Area Plan for specific direction in the use of aircraft.)

46. **Billing Procedures:** The Parties agree to follow the policies and procedures detailed in *Exhibit D, Reimbursable Billings and Payments*. 
47. **Cost Recovery:** Authority to recover suppression costs and damages from those responsible for causing a fire varies depending on contracts, agreements, permits and applicable laws. As soon as possible after a fire, the Authorized Representatives of affected Parties will attempt to reach mutual agreement on the strategy that will be used to recover suppression costs and damages from the individuals responsible for such costs and damages. If possible, all costs should be determined prior to the initiation of cost recovery efforts. Such strategy may alter interagency billing procedures, timing and content as otherwise provided in this Agreement. As authorized by law, any Party may independently pursue civil actions against individuals to recover suppression costs and damages, though adequate notice should be provided the other Parties to the Agreement. In those cases where costs have been recovered from an individual, reimbursement of initial attack, as well as suppression costs to the extent included in the recovery, will be made to the Party taking reciprocal action, as authorized by law.

48. **Stafford Act Use and Reimbursement:** The Use and Reimbursement for resources when responding under the Stafford Act shall be governed by the provisions contained in *Exhibit H*.

**XI) GENERAL PROVISIONS**

49. **Personnel Policy:** Employees of the Parties to this Agreement shall be subject to the personnel rules, laws and regulations of their respective agencies, unless they are employed temporarily by another Party to this Agreement and the authority under which such temporary employment is authorized provides that such employees shall be subject to the employing Party’s personnel laws and regulations.

50. **Supplemental Fire Department Resources:** There are situations when additional support personnel are necessary for national mobilization and the need can be filled by supplemental personnel available to the fire district. When this situation arises resources will be mobilized via the process outlined in *Exhibit G, Supplement Fire Department Resources*.

51. **Mutual Sharing of Information:** Subject to applicable state and Federal rules and regulations, including the Privacy Act, Parties to this Agreement may furnish to each other, or otherwise make available upon request, such maps, documents, GIS data, instructions, records, and reports including, but not limited to, fire reports, employment records, and investigation reports as either Party considers necessary in connection with the Agreement.

52. **Record Retention:** All records related to this Agreement should be retained by the Parties in accordance with agency regulations and policies, but no less than 3 years from date of a fire being declared out. If any litigation, claim, negotiation, audit or other action involving the records has been started by a Party to the agreement, that Party should provide notification to any other Party to the agreement of the need to retain records until the litigation, claim, negotiation, audit or other action is resolved.

53. **Accident Investigations:** When an accident occurs involving the equipment or personnel of a supporting Agency, the protecting Agency shall immediately notify the jurisdictional and supporting agencies. As soon as practical, the protecting Agency shall initiate an
investigation of the accident. The investigation shall be conducted by a team made up of representatives from affected Agencies, as appropriate. As appropriate, the Parties agree that the protecting agency will provide notification of the accident to the National Transportation Safety Board, or the Occupational Safety and Health Administration and other appropriate agencies.

54. **Purchaser, Contractor, Operator, Permittee, Etc., Fires:** The Protecting Agency will notify the Jurisdictional Agency of any fire suspected to have been caused by a purchaser, contractor, operator or permittee, etc., of the Jurisdictional Agency as soon as it becomes aware of the situation. The Protecting Agency will be responsible for management of the fire under the provisions of this Agreement. Parties to the Agreement will meet and confer to determine a cost recovery process as outlined in Cost Recovery clause.

55. **Waiver of Claims:** Subject to the provisions contained in Provision #56 Equipment, Supplies & Cache Items, Parties to the Agreement shall each be responsible for their own losses arising out of the performance of this Agreement, and each Party hereby waives any claim against any other Party for loss or damage of its property and/or personal injury or death of its employees or agents occurring as a consequence of the performance of this Agreement; provided, this provision shall not relieve any Party from responsibility for claims from third parties for losses for which the Party is otherwise legally liable. This waiver does not extend to ordinary expenses incurred as part of the cost of the fire (gloves, fusees, hose, etc.). This provision pertains to claims between the respective State and Federal Agencies and does not pertain to claims advanced by third parties.

Claims requesting compensation for property loss or damage, personal injury, or death resulting from the negligence or other wrongful acts of employees performing under this Agreement will be received by the jurisdictional agency and forwarded to the hiring, or home agency of the allegedly negligent employee for processing.

Claims from vendors for property loss or damage, arising under, or related to, contracts must be submitted to a contracting officer at the incident or issuing office. Only contracting officers are authorized to settle contract claims. The Jurisdictional Agency will coordinate and forward as appropriate if no contracting officer is available.

Employee claims for loss of or damage to personal property must be submitted to the Jurisdictional Agency and then forwarded to the hiring, or home agency of the employee for processing in accordance with the hiring agency's administrative procedures.

56. **Equipment, Supplies, & Cache Items:** The Parties recognize that wildland fire suppression will often involve the use of equipment, supplies and cache items. Equipment, supplies and cache items checked out (such as pumps, hoses, nozzles, etc.), or supplied by one Party and received by another Party, shall become the responsibility of the receiving/supporting Party. Equipment, supplies and cache items shall be returned in the same condition as when received, reasonable wear and tear excepted. The parties agree that the Receiving/supporting Party shall repair or reimburse for damage in excess of reasonable wear and tear, and shall replace or reimburse items lost or destroyed, except for damage occurring as a result of negligence by the receiving/supporting Party. The receiving/supporting party will replace or reimburse for items lost, destroyed, or expended with items of like or similar standard from the fire cache or supply unit on the incident, or
via an authorization for replacement using a unique request number. Insurance or other reimbursement options should be pursued, if such options are available, prior to replacement or reimbursement for lost, stolen or destroyed items.

57. **Transported Equipment:** Equipment transported or operated by Supporting Agency personnel in transit to or from an incident is considered under the control of the Supporting Agency. Equipment damaged while under the control of the Protecting Agency will be repaired at the expense of the Protecting Agency, unless damage occurred because of negligence by the Supporting Agency. When arrangements are made with a transportation service provider to deliver equipment, the party making arrangements for the transportation should ensure that the transportation service provider will be responsible for all loss and damage to equipment or supplies consigned on the bill of lading until received by the consignee.

58. **Authorized Representatives:** By signature below, all signatories to this agreement certify that the individuals (Agency Representative, Agency Administrator, Unit Administrator) listed in this document are authorized to act in their respective areas for matters related to this Agreement.
IN WITNESS WHEREOF the Parties hereto have executed this Agreement as of the last date written below.

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD ACT RESPONSE AGREEMENT

Exhibit A

Glossary

**Agencies**: Governmental agencies that have direct fire management or land management responsibilities or that have programs and activities that support fire management activities.

**Agency**: A division of government with a specific function offering a particular kind of assistance. In ICS, agencies are defined either as jurisdictional (having statutory responsibility for incident management) or as assisting or cooperating (providing resources or other assistance).

**Agency Administrator**: The official responsible for the management of a geographic unit or functional area.

**Agency Representative**: A person assigned by a primary, assisting, or cooperating Federal, State, local, or tribal government agency or private entity that has been delegated authority to make decisions affecting that agency’s or organization’s participation in incident management activities following appropriate consultation with the leadership of that agency.

**Area**: The lands in a described geographic area that are managed and/or protected by the Parties within this Agreement.

**Area Command (Unified Area Command)**: An organization established (1) to oversee the management of multiple incidents that are each being handled by an ICS organization or (2) to oversee the management of large or multiple incidents to which several Incident Management Teams have been assigned. Area Command has the responsibility to set overall strategy and priorities, allocate critical resources according to priorities, ensure that incidents are properly managed, and ensure that objectives are met and strategies followed. Area Command becomes Unified Area Command when incidents are multijurisdictional. Area Command may be established at an Emergency Operations Center (EOC) facility or at some location other than an ICP.

**Boundary Line Fire**: Fire occurrences on lands of intermingled and/or adjoining protection responsibilities.

**Closest Forces Concept**: Dispatch of the closest available initial attack suppression resources regardless of which agency owns or controls them, and regardless of which agency has protection responsibility.

**Confine**: restrict the wildfire within determined boundaries, established either prior to, or during the fire. These identified boundaries will restrict the fire, with no action being taken to put the fire out.

**Contain**: restrict a wildfire to a defined area, using a combination of natural and constructed
barriers that will stop the spread of the fire under the prevailing and forecasted weather conditions, until out.

**Control:** aggressively fight a wildfire through the skillful use of personnel, equipment, and aircraft to establish firelines around a fire to halt the spread and to extinguish all hot spots, until out.

**Controlled burn:** synonymous with Prescribed Fire.

**Cost Share Agreement:** A document prepared to distribute costs on a multi-jurisdictional incident (see Exhibit F).

**Direct costs:** Direct costs are those items of expense specifically identified with the delivery or completion of a project or program. Examples include, but are not limited to, personnel costs (salary and fringe benefits), equipment costs, travel, materials, supplies, and contracts.

**Direct Protection Area:** That area which, by law or identified or authorized pursuant to the terms of this Agreement, is provided protection by the Parties. This may include land protected under exchange or payment for protection.

**Disaster:** See Major Disaster.

**Emergency:** As defined by the Stafford Act, an emergency is “any occasion or instance for which, in the determination of the President, Federal assistance is needed to supplement State and local efforts and capabilities to save lives and to protect property and public health and safety, or to lessen or avert the threat of a catastrophe in any part of the United States.”

**Emergency Support Function (ESF):** Used by the Federal Government and many State governments as the primary mechanism at the operational level to organize and provide assistance. ESFs align categories of resources and provide strategic objectives for their use. ESFs utilize standardized resource management concepts such as typing, inventorying, and tracking to facilitate the dispatch, deployment, and recovery of resources before, during, and after an incident.

**Escaped Prescribed Fire:** a prescribed fire that has exceeded or is expected to exceed prescription parameters or otherwise meets the criteria for conversion to wildfire. The criteria are specified in “Interagency Prescribed Fire – Planning and Implementation Procedures Reference Guide”.

**ESF Primary Agency:** A Federal agency with significant authorities, roles, resources, or capabilities for a particular function within an Emergency Support Function of the National Response Framework. A Federal agency designated as an ESF primary agency serves as a Federal Executive Agent under the Federal Coordinating Officer (or Federal Resource Coordinator for non-Stafford Act incidents) to accomplish the ESF mission.

**Extended Attack:** Actions taken on a wildfire that has exceeded the initial response.

**Federal:** Of or pertaining to the Federal Government of the United States of America.
Fee Basis Acquisition of Services: One agency provides fire management services on the lands under the jurisdiction of another and payment is provided for the service. For a given fee, one agency can become the protecting agency for the other. The fee (or cost) is the price for the work agreed to be performed on each acre of land.

Fire Management Activities and/or Services: Any or all activities that relate to managing fire or fuels on lands under the jurisdiction of any agency to this Agreement. Activities include, but are not limited to: suppression, prescribed fire/fuels management, fire analysis/planning, rehabilitation, training, prevention, public affairs, post-fire rehabilitation, and restoration activities in fire management.

Geographic Area Coordination Center (GACC): The physical location of an interagency, regional operation center for the effective coordination, mobilization and demobilization of emergency management resources.

Geographic Area Coordinating Group (GACG): interagency regional fire management bodies.

Hazard: Something that is potentially dangerous or harmful, often the root cause of an unwanted outcome.

Hazard Mitigation: Any cost-effective measure which will reduce the potential for damage to a facility from a disaster event.

Hazardous Material: For the purposes of ESF #1, hazardous material is a substance or material, including a hazardous substance, that has been determined by the Secretary of Transportation to be capable of posing an unreasonable risk to health, safety, and property when transported in commerce, and which has been so designated (see 49 CFR 171.8). For the purposes of ESF #10 and the Oil and Hazardous Materials Incident Annex, the term is intended to include hazardous substances, pollutants, and contaminants as defined within the National Oil and Hazardous Substances Contingency Plan, known as the National Contingency Plan (NCP). See 40 C.F.R. Part 400 for additional information.

Incident Command System (ICS): A standardized, on-scene emergency management construct specifically designed to provide for the adoption of an integrated organizational structure that reflects the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries. ICS is the combination of facilities, equipment, personnel, procedures, and communications operating with a common organizational structure, designed to aid in the management of resources during incidents. ICS is used for all kinds of emergencies and is applicable to small as well as large and complex incidents. ICS is used by various jurisdictions and functional agencies, both public and private, or organized field-level incident management operations.

Incident Commander (IC): The individual responsible for all incident activities, including the development of strategies and tactics and the ordering and release of resources. The IC has overall authority and responsibility for managing and conducting incident operations.

Incident Management Team (IMT): The Incident Commander and appropriate Command and General Staff personnel assigned to an incident.
Indirect Costs: Indirect costs are those items of expense incurred as part of general management and administrative support of an organization. These costs are not attributable to a specific project, program or output, but are distributed among many benefiting activities. Often they are proposed as a percentage of direct project costs and are referred to as administrative costs, overhead, or burden. Examples may include office space, computer equipment, postage, utilities, salaries for administrative activities, such as procurement, personnel, accounting, and so forth. Direct charging of these costs, however, may be appropriate if they can be specifically identified to a project or program and the nature of the work performed creates a unique need or requires an extensive amount of support. These situations are considered “unlike circumstances”.

Infrastructure: The manmade physical systems, assets, projects, and structures, publicly and/or privately owned, that are used by or provide benefit to the public. Examples of infrastructure include utilities, bridges, levees, drinking water systems, electrical systems, communications systems, dams, sewage systems, and roads.

Initial Attack Zone: An identified area in which predetermined resources would normally be the initial resource to respond to an incident.

Jurisdictional Agency: The agency having land and resource management responsibility for a specific geographical or functional area as provided by federal, state or local law.

Initial Action: the actions taken by the first resources to arrive at a wildfire.

Initial Attack: the first aggressive response to a wildland fire based on values to be protected, benefits of response, and reasonable cost of response.

In-Kind Donations: Donations other than cash (usually materials or professional services) for disaster survivors.

Interagency: coordination, collaboration, communication among cooperating agencies.

Land/Resource Management Plan (L/RMP): a document prepared with public participation and approved by an agency administrator that provides general guidance and direction for land and resource management activities for an administrative area. The L/RMP identifies the need for fire’s role in a particular area and for a specific benefit. The objectives in the L/RMP provide the basis for the development of fire management objectives and the fire management program in the designated area.

Major Disaster: As defined by the Stafford Act, any natural catastrophe (including any hurricane, tornado, storm, high water, wind-driven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause, any fire, flood, or explosion, in any part of the United States, which in the determination of the President causes damage of sufficient severity and magnitude to warrant major disaster assistance under this act to supplement the efforts and available resources of States, local governments, and disaster relief organizations in alleviating the damage, loss, hardship, or suffering caused thereby.

Mission Assignment: The mechanism used to support Federal operations in a Stafford Act major disaster or emergency declaration. It orders immediate, short-term emergency response assistance when an applicable State or local government is overwhelmed by the event and lacks
the capability to perform, or contract for, the necessary work.

Mitigation: Activities designed to reduce or eliminate risks to persons or property or to lessen the actual or potential effects or consequences of an incident. Mitigation measures may be implemented prior to, during, or after an incident. Mitigation measures are often developed in accordance with lessons learned from prior incidents. Mitigation involves ongoing actions to reduce exposure to, probability of, or potential loss from hazards. Measures may include zoning and building codes, floodplain buyouts, and analysis of hazard-related data to determine where it is safe to build or locate temporary facilities. Mitigation can include efforts to educate governments, businesses, and the public on measures they can take to reduce loss and injury.

Mobilization: The process and procedures used by all organizations—Federal, State, local, and tribal—for activating, assembling, and transporting all resources that have been requested to respond to or support an incident.

National: Of a nationwide character, including the Federal, State, local, and tribal aspects of governance and policy.

National Incident Management System (NIMS): The National Incident Management System (NIMS) provides a systematic, proactive approach to guide departments and agencies at all levels of government, nongovernmental organizations, and the private sector to work seamlessly to prevent, protect against, respond to, recover from, and mitigate the effects of incidents, regardless of cause, size, location, or complexity, in order to reduce the loss of life and property and harm to the environment. NIMS works hand in hand with the National Response Framework (NRF). NIMS provides the template for the management of incidents, while the NRF provides the structure and mechanisms for national-level policy for incident management.

National Response Framework (NRF): The National Response Framework (NRF) guides how the Nation conducts all-hazards response. The Framework documents the key response principles, roles, and structures that organize national response. It describes how communities, States, the Federal Government, and private-sector and nongovernmental partners apply these principles for a coordinated, effective national response. And it describes special circumstances where the Federal Government exercises a larger role, including incidents where Federal interests are involved and catastrophic incidents where a State would require significant support. It allows first responders, decision makers, and supporting entities to provide a unified national response.

NWCG: National Wildfire Coordinating Group; the NWCG is an interagency, intergovernmental body that establishes operational fire management standards and procedures such as qualification and certification protocols, allocation or resources protocols, equipment standards, training programs.

Offset: Exchange of fire protection services in specific locations that is anticipated to be of approximately equal value between Agencies.

Operating Plan: A document reviewed annually, updated as necessary, and authorized by the appropriate officials for implementing the Cooperative Wildland Fire Management and Stafford Act Response Agreement in their respective areas of responsibilities.

Party: An entity that is signatory to this Agreement.
Planned Ignition: The intentional initiation of a wildland fire by management actions to meet specific objectives.

Preparedness: Activities that lead to a safe, efficient, and cost effective fire management program in support of land and resource management objectives through appropriate planning and coordination.

Prescribed Fire: Any fire intentionally ignited by management actions in accordance with applicable laws, policies, and regulations to meet specific objectives.

Prevention: Activities directed at reducing the incidence of fires, including public education, law enforcement, personal contact and reduction of fuel hazards (fuels management).

Procurement Documents: Agency specific documents for acquisition of goods or services that include financial obligation.

Protecting Agency: Agency responsible for providing direct incident management within a specific geographical area pursuant to its jurisdictional responsibility or as specified and provided by contract, cooperative agreement, etc.

Protection: The actions taken to mitigate the adverse effects of fire on environmental, social, political, economic, and community values at risk.

Protection Area: That area for which a particular fire protection organization has the primary responsibility for attacking an uncontrolled fire and for directing the suppression actions.

Protection Boundaries: The exterior perimeter of an area within which a specified fire agency has assumed a degree of responsibility for wildland fire control. It may include land in addition to that for which the agency has jurisdiction or contractual responsibility.

Reciprocal Fire Protection: The act of helping a neighboring protecting Agency through written agreement for mutual aid in furnishing fire protection, which includes personal services and equipment required for fire prevention, the protection of life and property from fire, and fire fighting. Reciprocity is attained by agreeing among agencies regarding the kind, location and numbers of firefighting resources which will automatically be made available as part of the initial response to a wildfire, regardless of the protecting Agency. The kind, locations, and numbers of resources which constitute reciprocity are defined in or through local operating plans.

Reconciliation process: The process for tracking incidents for all Parties to this Agreement for the purpose of issuing one annual billing for each paying Party.

Recovery: The development, coordination, and execution of service- and site-restoration plans for impacted communities and the reconstitution of government operations and services through individual, private-sector, nongovernmental, and public assistance programs that: identify needs and define resources; provide housing and promote restoration; address long-term care and treatment of affected persons; implement additional measures for community restoration; incorporate mitigation measures and techniques, as feasible; evaluate the incident to identify lessons learned; and develop initiatives to mitigate the effects of future incidents.
Reimbursable Assistance (Assistance by Hire): Incident resources that will be paid for by the requesting Protecting Agency pursuant to this Agreement and its geographic, statewide, or sub-geographic operating plans. Excludes Mutual Aid.

Reimbursable Costs: All costs associated with operations and support ordered on a resource order or under a Joint Project or Project Plan by or for an incident or project within the provisions of this Agreement.

Resources: Personnel and major items of equipment, supplies, and facilities available for assignment to incident operations and for which status is maintained. Resources are described by kind and type and may be used in operational support or supervisory capacities at an incident or at an Emergency Operations Center (EOC).

Response: Activities that address the short-term, direct effects of an incident. Response includes immediate actions to save lives, protect property, and meet basic human needs. Response also includes the execution of emergency operations plans and of incident mitigation activities designed to limit the loss of life, personal injury, property damage, and other unfavorable outcomes. As indicated by the situation, response activities include: applying intelligence and other information to lessen the effects or consequences of an incident; increased security operations; continuing investigations into the nature and source of the threat; ongoing public health and agricultural surveillance and testing processes; immunizations, isolation, or quarantine; and specific law enforcement operations aimed at preempting, interdicting, or disrupting illegal activity, and apprehending actual perpetrators and bringing them to justice.

Response to wildland fire: the mobilization of the necessary services and responders to a fire based on ecological, social, and legal consequences, the circumstances under which a fire occurs, and the likely consequences on firefighter and public safety and welfare, natural and cultural resources, and values to be protected.

Severity Funding: Suppression funds used to increase the level of presuppression capability and fire preparedness when predicted or actual burning conditions exceed those normally expected, due to severe weather conditions.

Stafford Act response: the mobilization of the necessary services and resources to a request from FEMA under the provisions of the Stafford Act and based on the procedures and requirements established in the National Response Framework (NRF).

Strategic: Strategic elements of incident management are characterized by continuous, long-term, high-level planning by organizations headed by elected or other senior officials. These elements involve the adoption of long-range goals and objectives, the setting of priorities, the establishment of budgets and other fiscal decisions, policy development, and the application of measures of performance or effectiveness.
Sub-Object Class Code: Detailed codes used by the Federal Government to record its financial transactions according to the nature of services provided or received when obligations are first incurred.

Supplemental Fire Department Resources: Overhead tied to a local fire department generally by agreement who are mobilized primarily for response to incidents/wildland fires outside of their district or mutual aid zone. They are not a permanent part of the local fire organization and are not required to attend scheduled training, meetings, etc. of the department staff.

Supporting Agency: An agency providing suppression or other support and resource assistance to a protecting agency.

Suppression: Management action to extinguish a fire or confine fire spread beginning with its discovery.

Threat: An indication of possible harm, or danger.

Tribe: Any Indian tribe, band, nation, or other organized group or community, including any Alaskan Native Village as defined in or established pursuant to the Alaskan Native Claims Settlement Act (85 Stat. 688) [43 U.S.C.A. and 1601 et seq.], that is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians.

Unified Command: An application of ICS used when there is more than one agency with incident jurisdiction or when incidents cross political jurisdictions. Agencies work together through the designated members of the Unified Command to establish their designated Incident Commanders at a single Incident Command Post and to establish a common set of objectives and strategies and a single Incident Action Plan.

Unit Administrator (Line Officer): The individual assigned administrative responsibilities for an established organizational unit, such as Forest Supervisors or District Rangers for the Forest Service, District Manager for the Bureau of Land Management, Area Forester, District Forester, or State Forester as designated for the State Forest Service, Agency Superintendent for the Bureau of Indian Affairs, Park Superintendent for the National Park Service, and Refuge Manager (Project Leader) for Fish and Wildlife Service. May also include managers for a Tribe, State, County or local government entity.

United States: The term “United States,” when used in a geographic sense, means any State of the United States, the District of Columbia, the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands, any possession of the United States, and any waters within the jurisdiction of the United States. (As defined in section 2(16) of the Homeland Security Act of 2002, Public Law 107-296, 116 Stat. 2135, et seq. (2002).)

Unplanned Ignition: The initiation of a wildland fire that was unplanned, regardless of cause.

Wildfire: An unplanned, unwanted wildland fire including unauthorized human-caused fires, escaped wildland fire use events, escaped prescribed fire projects, and all other wildland fires where the objective is to put the fire out.
**Wildland Fire:** Any non-structure fire that occurs in vegetation or natural fuels. Wildland fire includes prescribed fire and wildfire.

**Wildland Urban Interface (WUI):** The line, area, or zone where structures and other human development meet or intermingle with undeveloped wildland or vegetation fuels.
Principal Contacts

**PRINCIPAL CONTACTS.** The principal contacts for this instrument are as follows. These points of contact will review this instrument at least annually.

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD
ACT RESPONSE AGREEMENT

EXHIBIT C

Operating Plan Template

Operating Plans (OPs) will be working documents developed and/or reviewed annually at
appropriate levels for implementing the Cooperative Fire Management Agreement. OPs shall
become a part of the Agreement (See Provision #12 Operating Plans) The Statewide Operating
Plan (SOP) covers specific actions and relationships that are best coordinated on a State level for
continuity across the State. Zone and/or local OPs are those generated to cover actions less than
statewide in nature and are specific to zone and/or local processes and protocols.

OPs must address items called for in the Agreement and document processes and
protocols between Parties pertinent to working relationships, responsibilities, exchange of funds,
etc. The following outline provides a checklist of items deserving consideration in the
development of OPs. Items that are asterisked (*) are those that are identified in the Agreement
and are required in all zone/local Ops.

PREAMBLE

☐ Authority* – cite the Cooperative Fire Management Agreement between State and Federal
Agencies
☐ Supersedes* - cite the operating plan that is being terminated or replaced

PURPOSE

☐ Review* – timeline and process
☐ Definitions* – specific to zone and/or local processes

INTERAGENCY COOPERATION

☐ Identification of Parties* - identify State Areas, BLM Field Offices, BIA Reservations, Fish
and Wildlife Service Refuges, National Parks and Monuments, National Forests, etc. involved.
☐ Dispatch*
☐ Utilization of Interagency and Tribal Resources and Facilities*

PREPAREDNESS

☐ Protection Areas – including mutual aid areas
☐ Description *
☐ Maps *
☐ Mutual Aid Period*
☐ Prevention
☐ Burning Permits
☐ Joint Activities
☐ Restrictions and Closures Plan*
☐ Inspections
☐ Prescribed Fire and Fuels Management*
☐ Training
OPERATIONS

- Response to Wildland Fire Procedures
  - Boundary Fires
  - Response to Wildland Fires*
  - Fire Notification
  - Decision Documentation Process and Procedures*
  - Special Management Considerations*
  - Delegation of Authority*
  - Structure Fire Protection*
  - Investigations
  - Suppression Rehab
  - Agency Resource List
- Fire Reports*

USE and REIMBURSEMENT OF INTERAGENCY RESOURCES

- Aviation
- Communications Systems*
- Fire Weather Systems*
- Billings and Reimbursements*
- Severity

GENERAL PROVISIONS

- Commencement/Expiration*
- Modifications*

APPENDICES

- Agency Contacts*
- Billings Addresses*
- Incident Business Procedures*

II. REVIEW AND SIGNATURES

*The Statewide Operating Plans will be approved by the signatory State and Federal NRCG members.*

*The Geographic Area Operating Plan will be approved by the signatory State and Federal NRCG member agencies.*

*Unit Administrators will have the responsibility for developing and approving sub-geographic area operating plans.*

*Each signatory agency may have policies/procedures for entering into agreements (including this Operating Plan) that require additional review by attorneys, agreement specialists, or contracting officers.*

(Agency Administrator/Fire Director) (Agency Administrator/Fire Director)

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD ACT RESPONSE AGREEMENT

Exhibit D

Reimbursable Billings and Payments

I. Suppression Billings

A. The Forest Service, Bureau of Land Management, Bureau of Indian Affairs, National Park Service, and Fish and Wildlife Service will not bill each other for suppression costs. However, pre-suppression costs, fair sharing for interagency dispatch centers costs, prevention costs, and other fire management costs will be billed in accordance with existing agreements or other written documents.

B. Parties to this Agreement may opt to use a “Reconciliation Process” for tracking incident costs for all Parties to this Agreement for the purpose of issuing one annual billing to the paying Party. If the Reconciliation Process is not utilized, parties to the Agreement shall utilize the applicable Incident by Incident process.

1. **Reconciliation Process:** State and Federal agencies agree to consolidate billing and minimum balances.

   All State of North Dakota and Forest Service costs of fires occurring in and out of North Dakota, regardless of jurisdictional boundary, will be compiled based on each agencies’ costs. A reconciliation balance sheet will be developed and billed as one consolidated amount. This cost tracking method will reduce actual payments and ensure that a fair division of suppression costs can be made between the federal agencies and the state in a timely fashion. Agency and cooperator costs are identified by fire number and code and tracked on an annual balance sheet. Federal balance sheets (and State balance sheets depending on funding laws) must align with a single fiscal year. A final division of cost responsibilities based on jurisdiction, minimum thresholds and cost share agreements will be negotiated by December 1 of each year.

   Minimum Billing Threshold is $1,000 and applies to all fires included in this process. It does not apply to out-of-state responses. The minimum threshold does not apply to costs for cooperating fire departments under a separate agreement with the state when working outside their jurisdictional boundary or requested by a resource order for extended attack.

   The [agency] will be responsible for managing the balance sheet which includes all agencies’ costs and cost share information. Actual costs are tracked by each agency for each incident. Agency actual costs are subject to audit procedures identified in item #, Audit Procedures. The balance sheet is verified but may be disputed based on the cost share allocation, severability of costs and actual costs submitted for each fire. The balance sheet will result in a final settlement between all parties and one transfer of funds is
required to reconcile the fire season, unless a request is submitted to complete reconciliation prior to the end of fire season, at which point a settlement will be done for expenses to the requested date.

**Billing Time Frames for reconciliation process:** Agencies will submit invoices within 30 days of final reconciliation. Requests for extensions beyond 30 days for invoice submittal must be presented in writing to the reimbursing agency. Operating plans will include contact information for written requests for extensions.

2. **Incident by Incident Process**

   a) **Federal Billings by Incident:** There are not billings between the Federal wildland fire agencies, pursuant to the Master Interagency Agreement for Wildland Fire Management. Federal Agencies will submit bills for their reimbursable costs to the States whenever North Dakota state agencies are the protecting Agency and a billing is appropriate.

   b) **State Billings by Incident:** When one of the States is the supporting Agency and the fire is within the State of North Dakota, the State will bill the protecting Agency for reimbursable costs when a billing is appropriate. Anytime the States respond to a Federal Agency fire outside of North Dakota, the State will bill all applicable costs to the jurisdictional federal agency or agencies. Operating plans will include billing location information.

   c) **Billing Time Frames:** Agencies will submit invoices within 180 days of the demobilization of the incident. Extensions beyond 180 days for invoice submittal must be presented in writing to the reimbursing agency. It should be noted that some categories of expenses may often require subsequent billings outside of the 180 day period, such as: Outstanding Cost Shares, Claims, Aircraft expenses, and Fire cache costs.

   Operating plans will include contact information for written requests for extensions. Absent a written extension of time granted by the reimbursing agency, the final itemized bill should be submitted to the reimbursing agency within 180 days of the demobilization of the incident. After a final billing has been sent, and if additional costs are identified, a supplemental billing may be issued if agreeable to applicable parties.

   Each Party to this agreement will strive to provide appropriate parties of an estimate of the amount of reimbursable bills they expect to submit within 90 calendar days in each reimbursable action.

C. **Severity:** Costs incurred on severity assignments within the state of North Dakota will
be billed individually to the Jurisdictional Agency. Severity assignments are reimbursable under the Reciprocal Fire Protection Act.

D. Electronic Funds Transfer (EFT)

Notwithstanding any other provision of law, effective January 2, 1999, US Treasury Regulation, Money and Finance at 31 CFR 208.3 requires that federal payments are to be made by EFT unless waived in accordance with specific circumstances set forth in 31 CFR 208.4

In order to receive EFT payments, the payment recipient shall register in System for Award Management (SAM) and are required to validate their information in SAM once per year. The payment recipient is also required to have a Data Universal Numbering System (DUNS) number. The DUNS number is assigned by Dun & Bradstreet, Inc. (D&B) to identify unique business entities. For more information, refer to www.sam.gov.

Each party to this agreement shall provide the following information in the operating plan.

- Agency name and billing address
- Financial Contact (name, phone, email)
- Agency DUNS – and will be current in SAMs (System for Award Management)

E. Billing Content: The following items will be included as a minimum for each bill, noting that a resource order is not always required or available in order for a bill to be valid. Provide as a minimum on each invoice/bill:

- Agency name, address, phone number, and agency financial contact,
- Invoice or bill number
- Agreement number
- Incident name and number
- Dates of the incident covered by the billing,
- Location and jurisdictional unit
- Appropriate Firecode or accounting code.
- Summary cost data for the amount being billed.

Summary data may include but is not limited to, a list of personnel, travel, and equipment expenses; and a listing by vendor name and amount spent for supplies and services procured. Generally, cost source documents will not be required unless summary cost data is disputed, there is a Fire Management Assistance Grant (FMAG), or unless specific agency regulations require cost source documents.

At times, supplemental information, summary data or additional billing documentation may be requested and provided if agreed upon by the Parties. The process for handling such requests should be documented in the Operating Plan. Billing contacts will also be listed in the Operating Plan.
F. **Payment Due:** Whenever this Agreement provides for billing, the agency receiving the bill has an obligation to pay. Once bills are received by the reimbursing agency, payment will be made in accordance with that agency's payment processes outlined in the operating plan.

G. **Services Received and Certification of Billings:** Reimbursing agencies must provide written notice of incorrect invoices to billing agencies within the timeframes specified in the annual operating plan.

H. **Financial Dispute Resolution:** If a conflict arises between the agency's payment processes, the terms of the billing document, or the costs associated with the billing document, the parties should attempt to resolve the differences. If the differences cannot be resolved after consultation between the Parties, the Parties follow their dispute resolution process.

I. **Review Procedures**

The parties agree to jointly conduct a review, sampling transactions of the incidents managed under this agreement. Findings that are inconsistent with the normal or accepted way of doing business will be reconciled on a case by case basis. Any decision to further examine records will be considered on a case by case basis and appropriate follow up action agreed upon by all agencies involved.

II. **Payment for Protection Services (use if appropriate):**

Geographic, Statewide or Sub-Geographic (local) operating plans and procurement documents or agreement will establish billing procedures for Fee Basis Protection Services.

III. **Non-Suppression Billings:**

All non-suppression costs shall be billed and paid in accordance with the terms and conditions of the Supplemental Project Agreement, separate agreement, procurement, or other appropriate written document, executed by the authorized signatories of the involved parties within their legal authorities.

a. **Billing Procedures for Other Fire and Aviation Management Activities:** Billings for preparedness, prevention, prescribed fire, and other fire and aviation protection activities will be addressed in individual operating or project financial plans. Agencies may bill one another for preparedness and other fire activities, and administrative charges may be applied. Other provisions described above pertaining to suppression billings also apply to billings for other fire activities.

b. **Fee based services:** Billings will be in accordance with separate written agreement or contract.

c. **Billing Procedures for Stafford Act Responses:** Transfers performed for this agreement
are under the Disaster Relief Act, 42 U.S.C.§5147. This agreement is automatically incorporated by reference into any resource order that is issued under it, constituting a binding obligation. See Exhibit H, Use and Reimbursement for Shared Resources in Stafford Act Response Actions.

V. Reimbursable Costs

Costs incurred as the result of an incident and documented are reimbursable. Costs must be consistently treated as either direct costs or indirect costs. Consistent treatment of costs is a basic cost accounting principle and is specifically required to assure that the same types of costs are not charged as both direct costs and indirect costs. Every effort should be made to classify costs incurred for the same purpose, in like circumstances, consistently as either direct or indirect.

Direct Costs. Direct costs are those items of expense specifically identified with the delivery or completion of a project or program. General examples include, but are not limited to, personnel costs (salary and fringe benefits), equipment costs, travel, materials, supplies, and contracts.

For the purposes of this agreement, these may include, but are not limited to the following:

- Actual costs directly incurred for “move-up and cover” or “backfill” resources.
- Agency costs of individuals assigned to the incident or project for salary, benefits, and overtime including premium pay if and when it is earned according to the policies, laws, and rules governing the employees of the supporting agency.
- Procurement cost by one agency in support of another that are reasonable and prudent may be charged to the Jurisdictional Agency.
- Agency costs for transportation including, but not limited to, airline fees, vehicle rental fees, fuel and oil, and agency established mileage fees.
- Agency costs for per diem and lodging of resources assigned to the incident when such services are not supplied by the incident.
- Additional support dispatching, warehousing or transportation services supporting a resource order or project.
- Operating expenses for equipment assigned to the incident, such as fuel, oil and equipment repairs, excluding routine maintenance.
- Cost of reasonable and prudent supplies expended in support of the incident or project.
- Usage cost of equipment in support of the incident or project, contract equipment costs and operating costs for agency equipment.
- Aircraft, airport fees, retardant costs and retardant and other fire chemical costs.
- Agency-owned equipment lost or damaged by the supporting agency when accompanied by the appropriate agency source documentation to include insurance deductible paid.
- Charges from the state for state controlled resources such as inmate crews, National Guard resources and county and local resources.
- Agency-owned equipment and supplies lost, damaged, or expended by the supporting agency.
- Cost or replacement of reasonable and prudent supplies expended in support of the incident. What is reasonable and prudent is determined by the protecting and/or jurisdictional agency or the fire team within the limits of their delegated authority or identified in the current Interagency Incident Business Management Handbook (IIBMH).
Indirect costs.
Indirect costs are those items of expense incurred as part of general management and administrative support of an organization. These costs are not attributable to a specific project, program or output, but are distributed among many benefiting activities. Often they are proposed as a percentage of direct project costs and are referred to as administrative costs, overhead, or burden. Examples may include office space, computer equipment, postage, utilities, salaries for administrative activities, such as procurement, personnel, accounting, and so forth. Direct charging of these costs, however, may be appropriate if they can be specifically identified to a project or program and the nature of the work performed creates a unique need or requires an extensive amount of support.

Indirect cost rate rates may vary for each agency. Application of indirect cost rates will be addressed within the Operating Plans (Exhibit C.).

The following statement is per FSH 1509.11 Chapter 90; wo_id_1509.11-2016-3 (10/07/2016).

When indirect cost rates are applied to federal reimbursements, the Parties agree to the following.
1. If the payment recipient has never received or does not currently have a negotiated indirect cost rate, they are eligible for a de minimis indirect cost rate up to 10% of Modified Total Direct Costs (MTDC). MTDC is defined as all salaries and wages, fringe benefits, materials and supplies, services, travel, and contracts up to the first $25,000 of each contract.

2. For rates greater than 10% and less than 25%, the payment recipient shall maintain documentation to support the rate. Documentation may include, but is not limited to, accounting records, audit results, cost allocation plan, letter of indirect cost rate approval from an independent accounting firm, or other Federal agency approved rate notice applicable to agreements.

3. For a rate greater than 25%, the Federal agency may require that the payment recipient request a federally approved rate from the payment recipient’s cognizant audit agency no later than 3 months after the effective date of the agreement. The payment recipient will be reimbursed for indirect costs at the rate reflected in the agreement until the rate is formalized in the negotiated indirect cost rate (NICRA) at which time, reimbursements for prior indirect costs may be subject to adjustment.

4. Failure to provide adequate documentation supporting the indirect cost rate, if requested, could result in disallowed costs and repayment to the Federal agency.
The Cost Share Agreement Instructions and Methodologies can be found on the NRCG Incident Business website under the Northern Rockies Supplements, Chapter 80: https://www.fs.fed.us/r1/fire/nrcg/Committees/business_committee.htm

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD ACT RESPONSE AGREEMENT

Exhibit G

Supplemental Fire Department Resources Template

These provisions apply only to Supplemental Fire Department Resources, and not to regular fire department personnel. Supplemental Fire Department Resources are defined as overhead tied to a local fire department generally by agreement who are mobilized primarily for response to incidents/wildland fires outside of the district or mutual aid zone. They are not a permanent part of the local fire organization and are not required to attend scheduled training, meetings, etc. of the department staff.

When mobilizing Supplemental Fire Department Resources outside of the fire district or mutual aid zone the following will apply.

Mobilization
Mobilization will follow established ordering procedures as identified in the National, Geographic, and Local Mobilization Guides. Resources will be mobilized from the Host Dispatch Zone in which the department is located. Personnel will be provided a copy of the resource order request after confirmation of availability and prior to departure from their home jurisdiction. Resource orders shall clearly indicate incident assignment, incident location, expected incident arrival time, and any additional special needs or equipment authorizations, e.g. cell phones, laptops, rental vehicles, etc.

Reimbursable Costs
Reimbursable costs for personnel include compensation rates for hours worked, benefits, transportation, and per diem. It is the intent of this provision that the Supplemental Fire Department Resource be paid a regular compensation rate for all hours worked plus an overtime compensation rate for actual overtime hours worked, including travel. Reimbursable costs shall not include portal to portal pay or the portion of benefits personally paid by the employee. Travel and per diem reimbursements will be based on the Federal Travel Regulations.

Any costs for backfill personnel are not reimbursable for personnel hired as Supplemental Fire Department Resources.

An indirect cost allowance up to ten percent of the direct salary and wage cost of providing the service (excluding overtime, shift premiums, and fringe benefits) is allowed.

Personnel
All personnel will possess an active Incident Qualification System (IQS) or equivalent incident qualification documentation commensurate with all applicable NWCG 310-1 standards for training and qualifications. Personnel will be qualified for their assigned positions. XXFD is responsible for annually certifying and maintaining the qualifications of their Supplemental Fire Department Resources. XXFD will bear the cost of training for their Supplemental Fire Department Resources.
Any personnel to be mobilized under this exhibit will be listed in the Operating Plan by name, position(s), and identified as SR. While on assignment, these individuals are XXFD employees and the XXFD will be reimbursed for their actual costs.

**Rate Determination**
The basis for the computation of base hourly rate is the classification level of the position filled according to the attached matrix. Base hourly rate shall be no more than step 5 of the appropriate GS wage adjusted for locality pay at the location of the fire district. These rates can be found on the OPM web site [http://www.opm.gov](http://www.opm.gov), Salaries and Wages. Personnel are hired at the rate of the position being filled, not their highest qualification.

The hourly compensation rates identified in the Operating Plan are computed as follows:

1) **Regular Compensation Rate**: The rates listed include base hourly rate determined above plus employee benefits. Employee benefits include those costs actually incurred by the XXFD for the employment of these individuals, such as employer liability, workers compensation, employer share of social security, etc.

2) **Overtime Compensation Rate**: Overtime compensation rates are paid based on a 7 day work week beginning on day one of mobilization. Compensation rates are paid at time and a half of the base hourly rate for all hours worked in excess of 8 hours per day for the first 5 days and full time and one half for all hours worked during the remainder of the work week. Compensation includes travel time.

3) **Hazard Pay Rate** – Hazard pay differential may be paid to those employees performing work that meets the definition of hazardous duty as defined in the Interagency Incident Business Management Handbook. Compensation rates are paid at 25 percent of the base rate when performing duties that meet the definition of hazardous duties. All hazard pay differential is based on a 24-hour day from 0001-2400 and shall be paid for all hours in pay status during the calendar day in which the hazardous duty is performed.

**Days off at Incident**
Days off at the incident will be paid for 8 hours. Work/rest guidelines will be followed, and mandatory days off will follow current guidelines (IIBMH) Once travel to the home unit commences, days off will not be paid.

**Transportation and Per Diem**
Per Diem reimbursements will be based on the Federal Travel Regulations. The payment rate for privately-owned vehicles (POVs) and rental vehicles used to support Supplemental Fire Department Resources shall be at the current Federal Travel Regulation rate.

MASTER COOPERATIVE WILDLAND FIRE MANAGEMENT AND STAFFORD ACT
RESPONSE AGREEMENT

Exhibit H

Use and Reimbursement for Shared Resources in Stafford Act Response Actions

1. Stafford Act Declarations: Transfers performed for this Agreement are under the Disaster Relief Act, 42 U.S.C. § 5147. This Agreement is automatically incorporated by reference into any Resource Order that is issued under it, constituting a binding obligation. The billings, inclusive of copies of this Agreement, the Mission Assignment and subsequent Resource Order(s), and expenditure documentation, will define the specific services, supplied goods and costs (by sub-object class code) for each order, and subsequent obligation and payment.

Reimbursement payments for Stafford Act response activities will be accomplished by submission of billings to the Emergency Support Function (ESF) primary agency (i.e., the agency which issued the mission assignment or sub-tasking). The ESF primary agency will review, approve the documentation, and return to the sub-tasked agency with referencing documentation to process the billing. Each sub-tasked agency is responsible for submitting its own billing documentation to the ESF primary agency for reimbursement.

2. Federal Reimbursable Assistance: Federal Reimbursable Assistance resources must be requested by the ESF primary agency or supplied through established dispatch systems and must be recorded by the Mission Assignment and subsequent Resource Order process. Resources not documented in this manner are not reimbursable. Funds to cover eligible expenses will be provided through and limited by the amount of reimbursement approved and provided from FEMA. Expenditures eligible for reimbursement for Federal Agencies in accordance with 44 CFR 206, subpart A, section 206.8 paragraph c include:

   a) Overtime, travel and per diem of permanent Federal agency personnel.
   b) Wages, travel and per diem of temporary Federal agency personnel assigned solely to performance of services directed by the (FEMA) Associate Administrator or the (FEMA) Regional Administrator in the emergency or major disaster.
   c) Cost of work, services, and materials procured under contract for the purposes of providing assistance directed by the (FEMA) Associate Administrator or the Regional Administrator.
   d) Cost of materials, equipment, and supplies (including transportation, repair and maintenance) from regular stocks used in providing directed assistance.
   e) All costs incurred which are paid from trust, revolving, or other funds and whose reimbursement is required by law.
   f) Other costs submitted by an agency with written justification or otherwise agreed to in writing by the (FEMA) Associate Administrator or the (FEMA) Regional Administrator and the agency.

3. State/Tribe Reimbursement Process: State/Tribe Reimbursement refers to those resources that are to be reimbursed by the ESF primary agency. State/Tribe Reimbursement resources must be requested by the ESF primary agency or supplied through established dispatch systems and must be recorded by the Mission Assignment and subsequent Resource Order process. Resources not documented in this manner are not reimbursable. Funds to cover eligible expenses will be provided through and limited by reimbursement from FEMA. Expenditures eligible for reimbursement include:

   a) Wages, overtime, travel and per diem of State/Tribal personnel.
b) Wages, travel and per diem of temporary State/Tribal personnel assigned solely to performance of services directed by the (FEMA) Associate Administrator or the (FEMA) Regional Administrator in the major disaster.

c) Cost of work, services, and materials procured under contract for the purposes of providing assistance directed by the (FEMA) Associate Administrator or the Regional Administrator.

d) Cost of materials, equipment, and supplies (including transportation, repair and maintenance) from regular stocks used in providing directed assistance.

e) All costs incurred which are paid from trust, revolving, or other funds and whose reimbursement is required by law.

(f) Other costs submitted by an agency with written justification or otherwise agreed to in writing by the (FEMA) Associate Administrator or the (FEMA) Regional Administrator and the agency.

Note: In order to meet FEMA’s policies regarding mission assignments and timely billing, all State and local resources dispatched to a FEMA incident under a valid cooperative/interagency agreement with a state, local agency or a tribe must submit invoices for reimbursement to the appropriate federal agency no later than 90 days after demobilization of the incident. Any invoices not submitted within this timeframe are subject to non-payment. Extensions beyond 90 days for invoice submittal must be presented in writing to the reimbursing agency. Operating Plans will include contact information for written requests for extensions. Absent a written extension of time granted by the reimbursing agency, the final itemized bill must be submitted to the reimbursing agency within 90 days of the demobilization of the incident.

4. Duration of Assignments: Consideration must be given to the health and safety of personnel when assigned to incidents. Parties agree that Incident Commanders will release resources to their primary responsibilities as soon as priorities allow. Incident Commanders shall also adhere to rest and rotation policies of respective responding agencies. Mobilization activities shall be accomplished utilizing established dispatch coordination concepts per the current National Interagency Mobilization Guide.

5. Procurement: The State/Tribe derives its procurement authority from its inherent powers and its own laws, and is therefore not subject to Federal procurement laws. Whenever the State/Tribe is responsible for the management of an incident (including an incident within the Direct Protection Area of a Federal Agency), the State/Tribe will comply with State/Tribe laws and regulations covering procurement. Procurement costs by one Party in support of another that are reasonable and prudent may be charged back to the Protecting Agency. All property procured under a Mission Assignment becomes the property of FEMA.

6. Loaned Equipment: Equipment loaned by one Party to another shall become the responsibility of the borrower, and shall be returned in the same condition as when received, reasonable wear and tear excepted. The borrower will repair or reimburse for damages in excess of normal wear and tear and will replace or reimburse items lost or destroyed.

7. Billing Procedures

A. Incident Billings:

1. When State/Tribe is the supporting agency operating under a mission assignment or sub-tasking from the ESF Primary Agency and the incident is within the State/Tribal lands, the State/Tribe will bill the ESF Primary Agency. When the State/Tribe is the supporting agency and the incident is outside the State/Tribe’s jurisdiction, the State/Tribe will bill the ESF Primary Agency.
2. Agencies will share their respective individual incident Resource Order numbers for cross referencing purposes, if requested.

3. Billing Estimates/Timeframes: On incidents where costs are incurred pursuant to Operating Plans, the billing Party shall submit a bill or estimate for reimbursement as soon as possible, but not later than 90 days after the incident is controlled.

4. Extensions beyond 90 days for invoice submittal must be presented in writing to the reimbursing agency.

5. Operating Plans will include contact information for written requests for extensions. Absent a written extension of time granted by the reimbursing agency, the final itemized bill must be submitted to the reimbursing agency within 90 days of the Stafford Act response.

For obligation purposes, the Federal Agencies will submit unpaid obligatory figures to the State/Tribe by the end of the State/Tribal fiscal year. The State/Tribe will submit unpaid obligatory figures to the appropriate Federal Agency by September 1 for the previous Federal fiscal year. All obligations will be submitted by incident name, date, mission assignment number (MA), and federal job code.

6. Billing Content: Bills will be identified by incident name, date, Mission Assignment (MA), location, jurisdictional unit, and supported by documentation to include but not limited to: separate invoice by MA; list of personnel expenses including base, overtime, and travel; and supplies/services procured by vendor name and dollar amount. Billings for State/Tribe incident assistance may include administrative overhead, not to exceed the applicable State/Tribe indirect cost rate.

8. Billing Addresses: Bills will be issued in accordance with the State Operating Plan to this Master Agreement. Billing contacts will also be listed in the Operating Plan.

9. Payment Due Dates: All bills will have a payment due date 60 days after the date of issuance. If payment cannot be made before the 60 days expire, then a 30-day extension, with oral or written justification, may be requested.

10. Disputed Billings: Written notice that a bill is contested will be mailed to the billing agency within 60 days of issuance of the final bill, and will fully explain the area of dispute. Contested items will be resolved not later than 60 days following receipt of written notice. The uncontested portion of the bill will be paid and a new bill will be issued for the contested amount.

11. Payments: Payments will refer to the bill number and incident name and will be sent to the appropriate billing address.
SUPPLEMENTAL FIRE PROJECT AGREEMENT
Between
(\(\text{Cooperator No.}\))

And
(\(\text{Cooperator No.}\))

This Supplemental Fire Project Agreement (agreement) is hereby made and entered into by and between
(\(\text{Cooperator No.}\)) , hereinafter referred to as "the Cooperator;" and (\(\text{Cooperator No.}\)) , hereinafter referred to as the Federal Agency under the Reciprocal Fire Protection Act of May 27, 1955, (69 Stat. 66; 42 U.S.C. 1856a) and under the provisions of the Master Cooperative Wildland Fire Management and Stafford Act Response Agreement No. (\(\text{Cooperator No.}\)) , executed between the parties.

Project Title: (\(\text{Cooperator No.}\))

I. BACKGROUND:

As referenced above, the parties (directly or through their respective agencies) entered into a Master Cooperative Wildland Fire Management and Stafford Act Response Agreement (Master Agreement). The Master Agreement allows for the parties to cooperatively conduct projects or share resources for fire protection and prevention, which includes such activities as prescribed fire/fuels management, preparedness, fire analysis/planning, rehabilitation, training, public affairs, and other beneficial efforts in support of interagency fire management.

II. PURPOSE:

The purpose of this agreement is to document the parties' contributions and cooperation regarding (\(\text{Cooperator No.}\)) . This project is further described in the hereby incorporated Financial and Project Plan, attached as Exhibit (\(\text{Cooperator No.}\)) .

III. THE COOPERATOR SHALL:

A. Perform in accordance with the terms of this agreement and with the Financial and Project Plan, Exhibit (\(\text{Cooperator No.}\)) .

B. Bill the Federal Agency for actual costs incurred, not to exceed (\(\text{Cooperator No.}\)$ , as agreed to in the attached Financial Plan.

C. Upon presentation of a Bill for Collection, reimburse the Federal Agency for actual costs incurred, not to exceed (\(\text{Cooperator No.}\)$ , as agreed to in the attached Financial Plan.

IV. THE FEDERAL AGENCY SHALL:

A. Perform in accordance with the terms of this agreement and with the attached Financial and Project Plan, Exhibit (\(\text{Cooperator No.}\)) .
B. **PAYMENT/REIMBURSEMENT.** The Federal Agency shall reimburse the Cooperator for the Federal Agency's share of actual expenses incurred, not to exceed $____, as shown in the attached Financial Plan. The Federal Agency shall make payment upon receipt of the Cooperator's invoice. Each invoice from the Cooperator must display the total project costs for the billing period.

Each invoice must include, at a minimum:
1. Cooperator's name, address, and telephone number
2. Federal Agency project agreement number
3. Invoice date
4. Performance dates of the work completed (start and end)
5. Total invoice amount for the billing period

The invoice must be forwarded to: (____)

Send a copy to: (____)

C. **REIMBURSABLE BILLING.** The Federal Agency shall bill the Cooperator for funds sufficient to cover the costs for the specific payment period, not to exceed $____ as shown in the attached Financial Plan. All reimbursement billings must be completed within the same fiscal year as Federal Agency expenditures. Overhead is assessed at the rate of ____ percent.

Billings must be sent to: (____)

The Federal Agency is required to issue bills for expenditures incurred under reimbursable agreements at the end of or prior to the end of each federal fiscal year. Therefore, an out-of-cycle bill may be received by the Cooperator.

If payment is not received to the satisfaction of the Federal Agency by the date specified on the bill, the Federal Agency shall exercise its rights regarding the collection of debts owed to the United States.

D. **SPECIAL BILLING REQUIREMENTS – FINANCIAL DOCUMENTATION.** Reimbursable billings shall be issued at the prescribed frequency based on expenditures recorded in the agencies' accounting systems for work performed. Bills for Collection reflect an aggregate amount for the billing period. Agency financial reports listing itemized expenses will be provided upon request at the end of a project or annually for long-term agreements. Provision of the Transaction Register or other supporting documentation accompanying individual bills will be limited to agreements over $2,500, and only when cooperator requirements are clearly defined within this clause.

The special billing requirements are: (____)

E. **SPECIAL BILLING REQUIREMENTS – PROGRAM DOCUMENTATION.** The federal agencies shall provide the Cooperator with a written report that meets the Cooperator's specific documentation requirements.
V. IT IS MUTUALLY AGREED AND UNDERSTOOD BY AND BETWEEN THE PARTIES THAT:

A. (9) PRINCIPAL CONTACTS. Individuals listed below are authorized to act in their respective areas for matters related to this agreement.

B. LIABILITY. As set forth under the provisions of the Master Agreement.

C. (9) Mutually agree to the Burn Plan as incorporated in this agreement, and to any agreed upon revision thereof. If the revision to the Burn Plan does not materially affect the purpose and/or terms of the agreement, but rather only revises the implementation of the project, then a modification to this agreement is not necessary. The most recent revision of the Burn Plan will automatically be incorporated into this agreement and a copy will be provided to the Principal Contacts listed above.

D. In the event of a conflict between the provisions of this agreement and the Master Agreement, the Master Agreement shall take precedence.

E. (9) PURCHASE OF ASSETS. Any assets (such as equipment, property, or improvements) purchased by the Federal Agency with the Cooperator’s contributions shall become the property of the Federal Agency, unless otherwise documented via separate authority and instrument.

F. (9) PROPERTY IMPROVEMENTS. Improvements placed on federal land at the direction, or with the approval of, the Federal Agency becomes property of the United States. These improvements are subject to the same regulations and administration of the Federal Agency as would other agency improvements. No part of this agreement entitles the Cooperator to any interest in the improvements, other than the right to use them under applicable Federal Agency Regulations.
G. PARTICIPATION IN SIMILAR ACTIVITIES. This agreement in no way restricts the parties from participating in similar activities with other public or private agencies, organizations, and individuals.

H.ENDORSEMENT. Either party’s contributions made under this agreement do not by direct reference or implication convey endorsement of each other’s products or activities.

I. ALTERNATE DISPUTE RESOLUTION. In the event of any issue of controversy under this agreement, the parties may pursue Alternate Dispute Resolution procedures to voluntarily resolve those issues. These procedures may include, but are not limited to, conciliation, facilitation, mediation, and fact finding.

J. MODIFICATION. Modifications within the scope of this agreement must be made by mutual consent of the parties, by the issuance of a written modification signed and dated by all properly authorized, signatory officials, prior to any changes being performed. Requests for modification should be made, in writing, at least (xx) days prior to implementation of the requested change. Neither party is obligated to fund any changes not properly approved in advance.

K. TERMINATION. Either party, in writing, may terminate this agreement in whole, or in part, at any time before the date of expiration. Neither party shall incur any new obligations for the terminated portion of this agreement after the effective date and shall cancel as many obligations as possible. Full credit shall be allowed for each party’s expenses and all non-cancelable obligations properly incurred up to the effective date of termination.

L. COMMENCEMENT/EXPIRATION DATE. This agreement is executed as of the date of last signature and is effective through (xx) at which time it will expire unless extended.

If the referenced Master Agreement is superseded by a new Master Agreement, this project agreement may remain in effect to the extent that it does not conflict with the provisions of the new Master Agreement, but only until such time that the project can be completed or modified to be incorporated within the terms of the new Master Agreement.

M. AUTHORIZED REPRESENTATIVES. By signature below, the parties certify that the individuals listed in this document as representatives of each party are authorized to act in their respective areas for matters related to this agreement.

(dd) (xx) Date

(kk) The authority and format of this agreement have been reviewed and approved for signature.
Grants & Agreements Specialist/Contracting Officer
INSTRUCTIONS for Supplemental Project Agreement

All provisions in this instrument are mandatory, unless otherwise excepted. This project agreement may only be used between a federal agency and a cooperating state, local, tribal govt’ (or subdivision thereof) under a Master Cooperative Wildland Fire Management and Stafford Act Response Agreement.

(Master Agreement)= Referring to approved (2007 or newer) national agreement template used by/between federal wildland fire agencies and State/Tribal govt’.

(a) Federal Agency Project Agreement No. For example, Forest Service uses the following format: FY-FP-11RRUSS-XXX.

(b) Cooperator Project Agreement No. Insert Cooperator project agreement number, if applicable.

(c) Insert name of Cooperator (state, local, tribal, or subdivision thereof)

(d) Insert name of Federal Agency, including applicable Region, Office, or Unit.

(e) Insert Cooperator name as cited above.

(f) Insert Federal Agency name as cited above.

(g) Insert corresponding Federal Agency Agreement # as identified on the Master Coop Agreement.

(h) Insert project title.

(i) Enter brief project description.

(j) Insert alpha or numeric reference to the Exhibit added that provides a Financial and Project Plan. Note: The Project Plan may include tasks/projects defined in the Operating Plan (as referenced in the Background section), or it may be a Burn Plan, if applicable.

(k) Insert amount. If the Federal Agency is not obligating funds for reimbursement to the cooperator, then delete this provision.

(l) Insert amount. If the Federal Agency is not collecting funds from the cooperator, then delete this provision.

(m) Select and insert the appropriate billing cycle: monthly, quarterly, semi-annual, or annual. Note: quarterly dates (December 31, March 31, June 30, and September 30), semi-annually (March 31, and September 30) or annually (September 30 or earlier).

(n) Insert Federal Agency name as cited above and billing address. (For Forest Service, use Albuquerque Service Center, Payments – Grants & Agreements, 101B Sun Ave NE, Albuquerque, NM 87109, FAX: 877-687-4894)

(o) Insert other contact name and address, if applicable, otherwise delete.
(p) Insert the Federal Agency burden/overhead rate. Enter ‘shall not be assessed’ if burden is not applicable.

(q) Enter Cooperator’s name, name of point of contact, and mailing address to which billing documents should be sent.

(r) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision

Optional, if the cooperator requires financial documentation with each bill. This provision alerts ASC-RACA that the Forest Service shall provide transaction registers with any billing to the cooperator under this agreement.

Also, Choose one of the following: with each bill, upon project completion, or annually

(s) Insert special billing requirements here, such as whether the billing requirements are either with each bill, upon project completion, or annually.

(t) If the Federal Agency is not the Forest Service or if the Forest Service is not collecting funds, delete this provision

Optional provision if the Cooperator requires an accomplishment or program report with each BFC. This provision alerts ASC-RACA that the Forest Service must coordinate BFCs with the PM for submission to the Cooperator.

(u) May be changed to accommodate additional contacts.

(v) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.

(w) Insert ALL of the requested information below. If information is unavailable, then make a good-faith effort to obtain.

(x) If a Burn Plan is not attached, remove this provision.

(y) If the Federal Agency is not collecting funds from cooperator, delete this provision.

(z) Mandatory provision IF property improvements result from a project on federal lands.

Do not use this provision if improvements are owned by the Cooperator and covered under another instrument such as a Special Use Permit or license.

(aa) Insert a notification period that is no less than 30 days.

(bb) Insert the expiration date not greater than the expiration date of the Master Agreement.

(cc) Insert date of signature.

(dd) Insert name of signatory official for Cooperator.

(ee) Insert Cooperator signatory official’s positional title.
(ff) Insert Cooperator’s organizational name.

(gg) Insert date of signature.

(hh) Insert name of Federal Agency Signatory Official.

(ii) Insert Federal Agency signatory official’s positional title.

(jj) Insert Federal Agency Region, Office, or Unit.

(kk) If the Federal Agency is not the Forest Service, this signature block may be deleted.

(ll) Insert date of signature.

(mm) Insert G&A Specialist’s name.
