- Discussed IMT capacity/T3 IMTs
- Elected Chair and Vice Chair
- Identified zone board reps
- Identified other committee reps
- Identified issues to bring to NRCG for report

Current Organization:

- Chair – Joe Sampson
- Vice Chair – Joe Brabender
- Members – Mike Goicoechea, Greg Poncin, Doug Turman, Mike Almas, Shawn Pearson, Bob Habeck, Bob Fry, Rick Connell, John Thompson, Mike Gagen, Diane Hutton

Zone Reps:

- | | |
|-----------------|---------------------|
| NW - Connell | N. Idaho - Pearson |
| SW - Goicoechea | Central - Thompson |
| SC - Fry | Eastern - Brabender |

Committee Reps:

- | | |
|-----------------------|------------------------|
| Operations – Thompson | Business – Turman |
| Training – Goicoechea | Equip/Logs – Brabender |
| Aviation – Almas | Dispatch – Pearson |

Issues to report to NRCG:

- Poncin, Leach, Hutton, Thompson must reapply. Poncin, Leach, and Hutton stepping down
- 3 IC trainees signed off – Goicoechea, Habeck & Sampson, currently no trainees identified in region.
- MAC Group and revolving NR Ops w/ no commo to IC s -resource allocation process
- Area Command –understand why they were there, but all ICs felt area command caused more work than help and some think area command is antiquated system given new age commo.
- RMAT assigning tasks to IMT members while they are on an incident
- IC calls not effective- too many people, discussion on changing time to 0730.
- Invest in more resources (organized crews), sense that units were hoarding resources during PL5
- HETS- how do we get it as a qual with FFT1 prerequisite, could help supplement HEQB.
- IC/IBA relationships- no consistency in IBAs, support vs regulator, will establish meeting between groups
- Large # of medical personnel assigned on incidents – Turman is rep to group looking at this
- Cache boundaries- frustration on not utilizing closest cache (ie Boise).
- T3 teams and plans- we have 4 organized T3 in region, no governance/operating plan, will invite IC s to NRICC.
