IA	0	1	0	0	0	0	0
BLM	0	0	0	0	0	0	1
PRI	0	0	1	0	1	10	6

Significant Events: **Low to Moderate fire behavior with minimal growth, some isolated and small group torching in timber. ERCs near or below 90th percentile. Fire continues to burn timber stands/fingers with increased activity in afternoon and evening. Active burning in heavier dead fuels with isolated tree torching. Spotting remains a problem, short range spotting observed. A spot fire was located at 1/3 mile from the line on north end of the Wigwam Fire. Slow-moderate rates of spread where fire is aligned with wind and slope. General spread has been wind and terrain driven. Fire activity slows down at night but remains active in many areas holding heat in down/dead timber.**

Remarks: **The following roads are closed- FDR 290 Gravelly Range Road is closed from FDR 237 Standard Creek Road, north to forest boundary near Arasta Creek. FDR 292 Call Road from the forest boundary, west to Gravelly Range Road.FDR 324 Johnny Gulch Road from the forest boundary west to Gravelly Range Road.FDR 8325 Timber Creek Road is closed from Ruby River Road to forest boundary north of Baldy Mountain.FDR 100 Ruby River Road is open, the area east of the road is closed to public entry. FDR 237 Standard Creek Road and FDR 1012 Cottonwood Road are open, the areas north of both roads are closed to public entry**

**A temporary flight restriction exists over the Wigwam and Monument Fires**

**No change to reported acreage due to lack of FOBS to ground truth the fire and lack of NIROPS infrared perimeter data.**

Planned Actions: **Minimize impact to private property and private residences by using direct/indirect line construction, prep of structures, and use of air assets. Continue line construction to the Northwest in the area of Wigwam Creek and its tributaries. Patrol and mop-up completed line.**

FS	1	0	0	0	0	1	50		
<p>Significant Events: <b>12 hours: Minimal movement as wet weather and increased humidity limit available fuels. Some movement to the west from east wind pushing over ridge.</b></p> <p><b>24 hours: Increase in activity as conditions warm and dry. Activity along southern edge as fire moves more into western exposure.</b></p> <p><b>48 hours: Activity continues along west and east edges. Activity more widespread as fuels dry.</b></p> <p><b>72 hours: West winds push against spread to the west, easterly spread more active.</b></p> <p>Remarks: <b>Community Meeting is scheduled for 1900 Tuesday 08/21/2018 at Wisdom.</b></p> <p>Planned Actions: <b>Line prep, structure protection, line location and scouting. Clipping operations along the Goldstone Pass Road on the north flank; and connection of FSR181 to FSR185 on the south flank. Snagging operations along the Goldstone Pass Road and fuel preparation. Continued fire activity will require a high level of patrol and tracking any potential spotting or fire movement so appropriate action may be taken.</b></p>									

<b>Beaver Creek</b>		<b>MT-BDF-003308</b>		Type: <b>WF</b>		Start: <b>08/11/2018 1613</b>		Cause: <b>L</b>

<p>Significant Events: <b>12 hours: Wet weather and increased humidity have stalled fire. Limited movement expected</b></p> <p><b>24 hours: Limited movement expected</b></p> <p><b>48 hours: Slight uptick in activity as conditions warm and dry. Movement limited as most fuels still wet from precipitation</b></p> <p><b>72 hours: Conditions improving for continued fire activity. Limited growth expected as most heat confined away from edges</b></p> <p>Remarks: <b>Community Meeting is scheduled for 1900 Tuesday 08/21/2018 at Wisdom.</b></p> <p>Planned Actions: <b>Continue contingency line construction at the fuel type change near the Forest Service boundary on the south of the main Beaver Creek Fire perimeter; utilize air resources to strategically retard/guide unfavorable fire spread/progression.</b></p>
