

## Morning Brief

Date/Time Stamp: Friday, Mar 01, 2024, 09:08

### Preparedness Levels

#### Northwest PL

Current	3-Day	10-Day
1 (10/13)	1 (10/10)	1 (10/10)

#### National PL

1 (10/12)

#### Northwest IMT Rotation (2/27 – 3/12)

For additional IMT information refer to the [IMT Status/Rotation](https://gacc.nifc.gov/nwcc/content/products/intelligence/teams.pdf) page <https://gacc.nifc.gov/nwcc/content/products/intelligence/teams.pdf>

#### NW Area Complex Incident Management Teams (CIMT)

NW Team 2 - ( Loomis )

NW Team 3 – (Quinones )

#### Northwest Historic PL

See [Preparedness Level](#) Product

### Northwest Incident Activity

4 fires for 0 acres (2/23 – 2/29)

OR: 1 fire for 0 acres

WA: 3 fires for 0 acres

#### Large Fire Summary

New large incidents: 0

Reported incidents: 0 (OR: 0, WA: 0)

0 acres growth on existing incidents

#### Northwest IMT Activity

NIMOs committed: 0

Type 1 IMTs committed: 0

Type 2 IMTs committed: 0

Complex IMTs committed: 0

### National Fire Activity (IMSR 2/23 – 2/29)

Initial attack activity: Light (1,275 fires)

New large incidents: 91

Large fires contained: 64

Uncontained large fires: 33

#### National IMT Activity

Area Commands committed: 0

NIMOs committed: 0

Type 1 IMTs committed: 0

Type 2 IMTs committed: 0

Complex IMTs committed: 1

\*Nationally, there are no fires being managed under a strategy other than full suppression

### Northwest Activity Summary

Periodic moisture continued to impact the Northwest. The eastern parts of Oregon and Washington remained mostly dry. Fuel moistures across most areas continue to trend near average but snowpack development continues to lag in many areas of the Washington Cascades and the Olympic Mountains. Initial attack activity remained minimal.

### Northwest Current Incident Details

*Incidents listed below meet large fire criteria and/or incidents with a Type 1 or 2 IMT assigned. Large incidents are defined as fires which are 100+ acres in timber or 300+ acres in grass/brush. For additional information on incidents no longer listed below please refer to the [Northwest Large Incident Summary](#) or [Northwest Fires Utilizing Other than Full Suppression Strategies](#)*

Incidents not Previously Reported: 0

Incidents Previously Reported: 0

### Northwest Fire Weather Summary

A strong cold front passed over the region on Thursday leaving colder, showery weather behind. General winds gusted above 60 mph over spots in southeastern Oregon as the front moved across with a gust of 98 mph at Wagontire RAWS. Expect frequent showers with low snow levels today and Saturday then showers decreasing on Sunday and Monday and into next week.

See your local NWS forecasts for details.

### Northwest Fire Potential Summary

Weather and fire danger combinations are not in line with any noteworthy risk of large costly fires.
