Northwest Fires Utilizing Monitor, Confine, Point Zone Protection Suppression Strategies (YTD) (link)

Lists fires (of any size) that singly utilize Monitor, Confine or Point Zone Protection suppression strategies, or use Multiple Suppression Strategies (which may also include a Full Suppression component).

Northwest Fire Potential Summary

Dry and mild weather today before a cold front spreads light rain and Cascade snow across the region late tonight. Some showers may linger over the Cascades Saturday morning, but otherwise the day will be dry, but cool. Dry weather continues Sunday into next week. Temperatures are expected to warm into the 70s Monday and Tuesday as a thermal trough settles over NW Oregon and offshore flow develops.
