**Northwest Fires Utilizing Monitor, Confine, Point Zone Protection Suppression Strategies (YTD)** (link)

Lists fires (of any size) that singly utilize Monitor, Confine or Point Zone Protection suppression strategies, or use Multiple Suppression Strategies (which may also include a Full Suppression component).

**Northwest Fire Potential Summary**

The West Coast will be warmer and dryer than average as high pressure strengthens along the shoreline and extends north into Alaska. Beginning Monday, the trough will weaken and the ridge will moves west to be off shore. More info, see [NW 7-Day Significant Fire Potential Forecast](#), and [National 7-Day Significant Fire Potential Forecast](#)
