**Northwest Incident Activity**

**New Fires and Acres**
- Initial attack activity: Light
- 28 fires for 3,593 acres
- OR: 18 fires for 1,409 acres
- WA: 10 fires for 2,034 acres

**Large Fire Summary**
- New large incidents: 4
- Reported incidents: 12 (OR: 8, WA:4)
- 5,831 acres growth on existing incidents

**Northwest IMT Activity**
- NIMOs committed: 0
- Type 1 IMTs committed: 1
- Type 2 IMTs committed: 3

**Northwest Activity Summary**

The geographic area observed moderate temperatures and improved humidity recovery values. Wetting rains were recorded in northwestern Washington along the coast range. Southeastern Oregon experienced continued isolated thunderstorms produced lightning and trace amounts of precipitation. Gusty afternoon winds and low humidity values were observed across the geographic area and were more pronounced east of the Cascades. Initial attack activity was light with four new large incidents emerging. Elevated fire potential persisted in central Oregon and Washington promoting active fire growth on new and existing incidents.

**Northwest Current Incident Details**

Incidents listed below meet large fire criteria and/or incidents with a Type 1 or 2 IMT assigned. Large incidents are defined as fires which are 100+ acres in timber or 300+ acres in grass/grub. For additional information on incidents no longer listed below please refer to the Northwest Large Incident Summary or Northwest Fires Utilizing Other than Full Suppression Strategies

**Incidents not Previously Reported: 4**

**Incidents Previously Reported: 8**

**Cedar Creek.** OR-WIF-220180. ICT3. 15 Miles E of Oakridge, OR. Start 8/1. **Full Suppression.** Cause: Lightning. 830 acres (+530). 0% containment. Timber. Moderate fire behavior. Road, trail and area closures. IMT1, PNW Team 2 (Minton) in-briefed yesterday at 1800.

**Windigo.** OR-UPF-000234. IMT2, NW Team 6 (Sheldon). 20 miles SW of La Pine, OR. Start 7/30. **Full Suppression.** Cause: Lightning. 978 acres (+0). 0% containment. Timber. Moderate fire behavior. Evacuations in effect. Road, trail and area closures. No new information received.

**Potter.** OR-WIF-220170. IMT2, NW Team 6 (Sheldon). 8 Miles NE of Clearwater, OR. Start 7/31. **Full Suppression.** Cause: Unknown. 125 acres (+15). 0% containment. Timber. Moderate fire behavior. Road, trail and area closures.

**Northwest Fire Weather Summary**

Some morning clouds west side. There’s a slight risk of lightning over north Washington and southeastern Oregon but otherwise sunny on the east side. The gusty general winds east of the Cascades will be decreasing today and remain low through the weekend. A warming and drying spell will set in over the weekend and last through mid-week.

Check your NWS forecasts for forecast details in your area, especially for wing changes or thunderstorm threat.

**Northwest Fire Potential Summary**

The potential for initiation of new large fires will drop back to normal background levels for early August on Friday. Decreasing winds will help prevent flareups on fires already ignited by recent lightning. The warming and drying over the weekend and into next week will boost fire danger back up again.
