Morning Brief  
Date/Time Stamp: Friday, Mar 20, 2020, 08:16  
Report will post every Friday, unless significant activity occurs.

Northwest Activity Summary  
Early in the week light and widespread precipitation coverage across the Region occurred. As the week progressed, Oregon continued to receive light precipitation coverage over the mountain ranges and high desert. The buildup of cool and dry air in Washington kept temperatures below average while the cloudy conditions in Oregon kept temperatures below average with light winds. Prescribed fire activity increased in agricultural areas in Central Washington. Light initial attack activity reported.
