Fire Weather Planning Forecast	08/21/2018	1433
---------------------------------------	-------------------	-------------

DISCUSSION - An upper level trough will linger over Oregon tonight. Winds will be north to NE this evening. Pressure gradients will weaken tonight with winds becoming primarily diurnal late tonight and Wednesday. Convection will remain south of the trough though afternoon buildups will develop over central to NE Oregon mountains. A weak marine push will increase winds Thursday afternoon and evening

Zone 610 East Slope of the Cascades

TONIGHT

- * Sky/weather.....Clear. Hazy and patchy smoke.
- * Min temperature.... 44-49.
- * Max humidity..... 63-76 percent
- * Humidity recovery.. Good.
- * Valley winds..... NE winds 3 to 8 becoming drainage winds less than 5.
- * Ridge winds..... East winds 3 to 8
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

WEDNESDAY

- * Max temperature.... **85-90**
- * Min humidity..... **16-21** percent
- * Valley winds..... Upslope less than 5 becoming north 2 to 7
- * Ridge winds..... light less than 5 becoming NW 2 to 7
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

Zone 611 Deschutes NF minus Sisters

TONIGHT

- * Sky/weather..... Mostly clear. Hazy and patchy smoke.
- * Min temperature.... 41-46.
- * Max humidity..... 65-77 percent
- * Humidity recovery.. Good.
- * Valley winds..... North winds 2 to 7 becoming drainage winds less than 5.
- * Ridge winds..... NE winds 2 to 7
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 2 (very low)

WEDNESDAY

- * Sky/weather..... Mostly sunny. Hazy and patchy smoke.
- * Max temperature.... **80-85**
- * Min humidity..... **16-21** percent
- * Valley winds..... Upslope less than 5 becoming west 4 to 9
- * Ridge winds..... South winds 1 to 5 shifting to west 4 to 9
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 3 (very low)

Zone 640 Central Mountains of Oregon

TONIGHT

- * Sky/weather..... Mostly clear. Hazy and patchy smoke.
- * Min temperature.... 43-48.
- * Max humidity..... 63-73 percent
- * Humidity recovery.. Good.
- * Valley winds..... North winds 4 to 9 becoming drainage winds less than 5.
- * Ridge winds..... NE winds 2 to 7
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

WEDNESDAY

- * Sky/weather.....Sunny. Hazy and patchy smoke.
- * Max temperature.... **82-88**
- * Min humidity..... **12-17** percent
- * Valley winds..... Upslope less than 5 becoming NW 3 to 8
- * Ridge winds..... light less than 5 becoming NW 4 to 9
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

Zone 641 Lower Columbia Basin

TONIGHT

- * Sky/weather.....Clear. Hazy and patchy smoke.
- * Min temperature.... 51-56.
- * Max humidity..... 59-74 percent
- * Humidity recovery.. Good except **Moderate** ridges
- * Valley winds..... NE winds 3 to 8 becoming drainage winds less than 5.
- * Ridge winds..... NE winds 3 to 8 shifting to SE 1 to 5 after 2400.
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

WEDNESDAY

- * Sky/weather.....Sunny. Hazy and patchy smoke.
- * Max temperature.... **86-92.**
- * Min humidity..... **15-20** percent
- * Valley winds..... Upslope less than 5 becoming west 2 to 7
- * Ridge winds..... light less than 5 becoming west 2 to 7
- * CWR..... 0 percent
- * LAL..... 1
- * Haines Index..... 4 (low)

LIGHTNING in the last 24 hours (as of 0700 each morning)
