EXEMPTIONS:

Pursuant to 36 CFR § 261.50(e), the following are exempt from this order:

1. Persons with a Forest Service permit specifically authorizing the prohibited act or omission. The issuing Officer may include such conditions as are considered necessary for the protection of the area, or for the promotion of the health, safety, or welfare of its users. *'Person' means natural person, corporation, company, partnership, trust, firm, or association of persons. 'Permit' means authorization in writing by a Forest Officer. 'Forest Officer' means an employee of the Forest Service.*
2. Any Federal, State or Local Officer or member of an organized firefighting force in the performance of an official duty.
3. Petroleum-fueled stoves, lanterns or heating devices, provided such devices meet the fire underwriter's specifications for safety.

These restrictions are in addition to those prohibitions enumerated in Subpart 'A' of 36 CFR § 261 and any other special restrictions pertaining to the described lands.

This Order is necessary to protect the public health and safety due to extreme drought, potential depletion of fire suppression resources, weather conditions and forest health issues, which when added to the specific public, private property and natural resource issues present in these enumerated areas, present a significant community safety hazard in the event of a fire.

This Order becomes effective at the date and time signed, and will remain in effect until December 31, 2017 or until rescinded.
