I. PURPOSE

The purpose of this Operating Guideline is to provide the framework under which wildfire management activities, identification, initial response, mutual aid and planning allows for cooperative pre suppression and wildfire protection along the United States and British Columbia International Border.

This is under the authorization from the British Columbia & NW United States Wildfire Response Border Arrangement (herein after referred to as the Arrangement).

The safety of responders and the general public remains the highest priority on all fires.

This guideline outlines cooperative fire efforts between the following agencies:

Province of British Columbia: Ministry of Forests Land & Natural Resource Operations

Provincial Wildfire Coordination Centre

Regional: Coastal Fire Centre / Kamloops Fire Centre / Southeast Fire Centre/ Northwest Fire Centre

US Forest Service: Alaska, Pacific Northwest and Northern Regions

Chugach National Forest / Tongass National Forest / Colville National Forest / Mt. Baker Snoqualmie National Forest / Idaho Panhandle National Forest / Flathead National Forest Okanogan-Wenatchee National Forest / Kootenai National Forest

National Park Service: Alaska, Pacific West and Intermountain Regions

North Cascades National Park Complex / Glacier National Park / Klondike Gold Rush NHP / Glacier Bay National Park / Wrangell-St. Elias National Park

Bureau of Land Management: Oregon/Washington and Idaho State Offices

Spokane District/ Coeur d' Alene District

States Washington Department of Natural Resources / Idaho Department of Lands

II. SCOPE

This Operating Guideline pertains to all wildfires that pose a threat to values along the International Border involving British Columbia and the Northwest United States agencies. Fires that are not threatening values along the International Border or require extended action will utilize the Canada/United State Reciprocal Forest Fire Fighting Arrangement or the Northwest Wildland Fire Protection Agreement (NW Compact).

States that are participants under the Northwest Wildland Fire Protection Agreement (commonly known as the North West Compact) (Washington and Idaho) can participate under this Operating Guideline for fires that pose a threat to the International Border along British Columbia and the Northwest United State.

III. AUTHORITY

The British Columbia & NW United States Wildfire Response Border Arrangement, May of 2014 signed by the agencies provides for this Operating Guideline under Section I.

IV. TERMINOLOGY & COMMAND SYSTEM

To establish a "common" understanding, words and phrases as used herein are defined in a Glossary attached as Appendix A.

The Agencies recognize and accept different on site language and command structures of each agency. Resources may be defined and/or configured differently by each agency.

It is anticipated that when the Agencies work mutually on a wildfire, a command structure will be maintained within a spirit of the "Incident Command System" through the duration of the event.

V. OPERATING PROCEDURES

A. Initial Response

1. Per the provisions of the Arrangement, all Agencies will follow their dispatch procedures and notification processes during the identification of fires in the Threat Zone.
2. Any Agency discovering a fire within the Threat Zone shall contact the appropriate Coordination Centres or Dispatch Centers to ensure a fire assessment is conducted and work jointly with the Jurisdictional Agency to facilitate the best possible response and avoid unnecessary delays. *See Appendix C: "Cross Border Initial Attack Checklist and contact sheet"*
 - a. Notification and contact information to the appropriate Coordination Centres or Dispatch Centers. *See Appendix B1-2: Authorized Representatives and Coordination/Dispatch Centres*
 - b. Aircraft - Initial fire assessment and identification during fixed wing or rotor wing flights must be coordinated through "*Appendix D: Procedures for Crossing International Border Aircraft*", Section D.
 - c. Crossing between Ports of Entry - US or BC agencies entering through an uncontrolled access point for initial fire assessment and identification must follow procedures in "*Appendix D: Procedures for Crossing International Border*".
 - d. Port of Entry – Responding to initial attack wildfires using a Port of Entry, contact the closest Port of Entry and follow procedures in "*Appendix D: Procedures for Crossing International Border*" " *See Appendix B-3: "Canada and United States Border Services Contacts"*
3. The Discovering Agency and Jurisdictional Agency will determine the best possible response action to take on the wildfire based on the values at risk, access, location and available resources through the appropriate Coordination/Dispatch Centres.

This may include:

- a. Initial Attack
 - b. Mutual Planning
 - c. Mutual Aid
4. Agencies agree that fires immediately threatening neighboring jurisdictions may be directly actioned within the Threat Zone by the Discovering Agency to protect their land and fire management areas and the identified values at risk. During initial attack or the first 48 hour (or as negotiated), every attempt should be made by the Jurisdictional Agency to relieve the Discovering Agency as soon as feasible. *See Appendix B 1, 2: Authorized Representatives and Coordination/Dispatch Centres; Appendix C: "Cross Border Initial Attack Checklist and Quick Contact", and Appendix G: "Example for Negotiated Extended Fires"*.
 5. Jurisdictional Agencies that have identified fires not immediately threatening adjacent jurisdictions will contact the neighboring agency and provide updates on the location and fire growth modeling. *See Appendix F: Special Management Considerations*

Must Consider:

- a. Inviting an Agency Representative from the neighbouring jurisdiction to participate in planning meetings.
- b. Establishing personnel contact through local offices or Incident Management Teams
- c. Developing and sharing maps, photos, perimeters, and trigger points

B. Resources

1. Personnel

- a) Personnel assigned to the incident will receive a briefing prior to fireline deployments and where applicable, should be debriefed prior to demobilization.
- b) Each Agency will be responsible for their own insurance, medical and liability costs of the personnel responding.
- c) When appropriate, supporting agencies may provide an on-site representative at their own expense when resources are deployed.
- d) The Jurisdictional Agencies will apply local procedures for all medical evacuations, ground or air ambulance, of injured personnel regardless of which jurisdiction. An exception may occur when both Agencies communications between their respective Coordination/Dispatch Centers determine the most appropriated course of action deemed necessary.
- e) Any accident or serious incident involving personnel on assignment must be immediately reported to their home location or Authorized Representative. The agencies involved may conduct a joint investigation at their own expense.

2. Aircraft

- a) Use of aircraft will be in accordance with local Operating Guidelines.
- b) Aircraft arriving to perform reconnaissance, retardant or suppressant delivery or transporting personnel must adhere to the information identified in *“Appendix D: Procedures for Crossing International Border”*, Section D.

*When performing cross border aerial operations, will contact the appropriate Dispatch Center prior to commencing the operation

*Each Agency will be responsible for their own aircraft costs during that occur during the initial response.

3. Equipment

Each Agency will be responsible for their equipment costs and any damages that occur during the response.

For International Border Crossing with Equipment follow procedures identified in *“Appendix D: Procedures for Crossing International Border”*, Section C.

C. Communications

Agencies may use their Initial Attack and Aviation frequencies for emergency actions to insure responder safety.

NAVCANADA has established 126.7 as the Air to Air frequency to be monitored. Recommend that this frequency is monitored by all flights on each side of the International Border for safety reasons and used to “call in the blind” when operating within the Threat Zone.

BC initial ground communications will be identified on simplex channel (frequency 163.890 BC Silver). Once initial contact has been established, resources will use this or determine a tactical frequency for the duration of the incident and work within an Incident Command Structure. US Agencies may program this frequency for initial contact.

D. Border Crossings

Border crossings will be in accordance with the procedures established in *Appendix D: Procedures for Crossing International Border*.

E. Special Management Considerations

To the extent possible the Supporting Agency taking action on a fire will consider special land and fire management considerations of the Jurisdictional Agency. *See Appendix F: Special Management Considerations*

F. Debriefings and Evaluations

A joint After Action Review will be conducted by the Jurisdictional Agency and the Supporting Agency. Proceedings will be forwarded to the coordinated committee and steering team to be reviewed annually. The Coordinating Committee and Steering Team will identify any issues or changes required in the Operating Guideline.

G. Incident Information Sharing

Information regarding incident activity, fire behaviour, resources or tactics is the responsibility of the Jurisdictional Agency. Agencies within this Operating Guideline are free to discuss their agencies’ response, and to disperse approved or published Jurisdictional Agency key messaging. Supporting Agencies will identify them as such, and identify the Jurisdictional Agency to the media and provide contact information, if available.

VI. Working Groups

The following working groups have been identified:

Coordinating Committee:

Responsible for establishing and maintaining the Arrangement, developing the Operating Guideline, ensuring implementation follows the terms agreed to, and resolving issues that may arise.

Participants:

US: Fire Managers, operational responders, dispatchers, Steering Team members, Customs and Border Patrol Coordinator, identified technical specialists, Aviation Specialists (management, helicopter, and fixed wing), Air Attack Officer Representative

BC: Manager of Fire Operations, Superintendent of Preparedness & Operations, Superintendent Aviation Management, Superintendent Provincial Airtanker Program, Senior Protection Officers

(Operations) (or designees), Steering Team members and Canada Border Services Agency Emergency Coordinator

Meeting Schedule: Every two years

May 2016, Agencies within WA to host: Provide a forum to share what is new, share techniques/skills, and keep new players current, and reviewing local agency's best practices for consistent application.

May 13/14, 2014, Coastal Fire Centre hosted: Provided a forum to understand the new Arrangement and finalize the 2014 Operating Guideline, identified operational issues that need to be resolved, and reviewed local agency's best practices for consistent application.

Local Border Agencies:

This includes all Agencies along the International Border that would be involved with a wildfire response that threatens the border. Responsible for understanding the Operating Guideline procedures, providing annual updates to local contact information, engaging in mutual planning and cross-training as appropriate.

Best Practices: Identify for local meetings and sharing.

Participants: Senior Protection Officers (Operations) (or designees), local fire managers/officer, operational responders, dispatchers, Port Superintendents/Chiefs, Border Patrol, and RCMP

Meeting Schedule: Annually before May 15th

Steering Team:

Provides support to the Coordinating Committee in terms of updating the Arrangement and Operating Guideline, and facilitates getting the information to the Local Border Agencies.

2016 Goals: Host an After Action Review (AAR) of the 2015 fire season, address changes and updates required for the 2016 Operating Guideline, work with the Border Services Agencies on items identified from the AAR, host a face to face meeting, and address new steering team membership for 2016/2017.

2015 Goals: Developed an aviation sub-group, updated the 2015 guidelines, and solicit feedback from local meetings and 2015 fire season experiences to form direction for Washington meeting 2016.

Participants: Selected members representing all Agencies who are participating in the Arrangement and will coordinate with Technical Specialists as needed.

Meeting Schedule: Meets as needed to accomplish tasks that have been established by the Coordinating Committee.

Aviation Sub Group:

Provides technical support regarding aviation operations to the Steering Team, and provide information for the Arrangement and Operating Guideline.

2016 Goals: Re-defining landing and disembarking processes and aircraft use with the Border Agencies and AMOC, address aquatics and invasive species concerns tied to water sources, and address US employees flying in Canadian aircraft.

2015 Goals: Contact US Border Patrol and ensure communication protocols are in place between the firefighting agencies and border patrol aircraft, run a paper exercise to simulate a real dispatch and track time frames and identify issues and debrief and evaluate any actions that occur in 2015.

Participants: Selected members representing all Agencies who are participating in the Arrangement and will coordinate with other Technical Specialists as needed.

Meeting Schedule: Meets as needed to accomplish tasks that have been established by the Steering Team.

VII. Review

This Operating Guideline shall be reviewed annually, and updated as appropriate. Each Agency will be responsible for providing the names and phone numbers of the Authorized Representative and Coordination/Dispatch Centres by May 15th of each year.

For questions regarding this Operating Guideline and for providing updated information, contact a Steering Team Representative:

APPENDIX A
Glossary

Agencies	Agencies signatory to this Arrangement
Agency Representative	An individual assigned to an incident from an assisting or cooperating agency that has been delegated authority to make decisions on matters affecting that agency's participation at the incident.
Air Ambulance	Licensed emergency medical services air ambulance. Used for direct scene response.
Authorized Representative	Authorized to act in their respective areas for matters related to this Arrangement. Such as a Duty Officer (US) or Regional Wildfire Coordination Officer (Can)
Discovering Agency	Agency that discovers a wildfire regardless of jurisdiction
Extended Attack	Any fire activity that goes beyond Initial Attack.
Incident Command System	A standardized on-scene emergency management concept specifically designed to allow its user(s) to adopt an integrated organizational structure equal to the complexity and demands of single or multiple incidents, without being hindered by jurisdictional boundaries.
Initial Attack	The action taken to halt the spread or potential spread of a fire by the first fire fighting force to arrive at the fire.
Jurisdictional Agency	Agencies with jurisdictional responsibility and receives assistance from another agency.
Mutual Aid	Agencies assisting each other during the initial response and identification of wildfires along the International Border.
Supporting Agency	Agency providing suppression or management support and lends resources at the request of another agency.
Threat Zone	Area in which a wildfire poses a threat to the International Border or adjacent values.

**APPENDIX C
Cross Border Quick Contact**

APPENDIX C
Cross Border Initial Attack Checklist
United States to Canada

This template will need to be adapted to address procedures and protocols specific to a dispatch area.

Cross Border Quick Checklist (USA -> Canada)		
REQUIRED INFORMATION		
Incident Number/Name:	Geographic:	Closest Resource:
Date and time of first report:	IC:	
CHECKLIST		Time/Initial
KNOW YOUR AUTHORITY: The authority exists to perform initial attack in the Threat Zone across the international border provided it poses a threat to the responder's jurisdiction. Each agency agrees to cover own costs for first operational period. <u>GO SILVER</u> 163.890		
Incident within the Threat Zone of International Border?		
Open Google Earth Cross Border File Identify Response Agency: Wildfire Management Branch Identify Land Management Agency: Wildfire Management Branch will contact other affected agencies		
Notify Appropriate BCFS Dispatch Centre – See reverse side of this document for dispatch contact info (Officer to Officer ASAP) - Advise of any aircraft or personnel en-route including Aircraft ID Dispatch Contact : _____		
Notify Regional or Local Duty Officer depending on local protocol		
Threat to home jurisdiction? Yes No		
Identify/Document values threatened: _____		
Assistance requested? (Do not delay response awaiting request if home jurisdiction is threatened)		
Air Tankers Request (requesting agency pays)		
Know your Border Officials: Canada Border Services Agency CBSA and US Border Patrol		
Responding with Rotary Wing Aircraft Contact CBSA: See contact numbers listed in Vehicle not using port of entry box below Provide the following: Purpose (Wildfire), Aircraft ID, Transponder Code, Aircraft Type, Time, Lat and Long (general) Be prepared to submit manifest information for passengers if intent is to drop off passengers. Squawk code 1255 assigned to aircraft (FAA recommendation)/Blind Transmit on 126.7 in threat zone Pilot advised of Authority to cross border, action fire, deplane passengers. All landings/Re-fuel/Staging in home jurisdiction confirm permissible water source for bucket operations.		
Identify Closest Open Border Crossing (Port of Entry): _____		
Vehicle Crossing using Port of Entry Contact Port of Entry: US & Canada sides (see Google Earth file/full cross border document for Contact #'s) Fax Crew manifest, vehicle info (if available), time of arrival, destination, and any other information requested (passports not required for emergency response, responders should have ID, however border officials have final authority/right of refusal).		
Vehicle/Personnel Crossing not using Port of Entry (hiking across border for example) Do not delay crossing Authority to cross exists (unless explicitly denied by border authority) Contact Canada Border Services: West of Manning Park 604-703-9840/Manning Park east to Monument 170 (west of Cascade) 250-495-7518/ East of Monument 170 (or Cascade) 250-424-5391 Submit manifest information for passengers, destination, and estimated and/or actual time of crossing Submit Vehicle Manifest information Crew Check-in with dispatch after crossing		
Situation Update: Dispatch-Dispatch// Regional Officer->Fire Centre Officer (RWCO) –share photos, perimeters, and other relevant files		
Situation Update :Local FMO -> Local Zone–share photos, perimeters, and other relevant files		
Response Officer/IC Face to Face with Canadian Counterpart		
Consider Additional Overhead Response (i.e.: OPS and IC or IMT)		
Update Canada Border Services Agency and local US Border Patrol of number and timeframe of anticipated crossings (enquire about the availability for extended hours at Port of Entry)		

APPENDIX D Procedures for Crossing International Borders

A. GENERAL INFORMATION

When seeking entry to either the United States or Canada in your capacity as a firefighter or support personnel, you will be dealing with each of the respective agencies responsible for the enforcement and administration of both customs and immigrations laws, regulations and procedures, in those countries.

In the case of the United States, you will be dealing with the Department of Homeland Security (DHS) and United States Customs and Border Protection (USCBP). In terms of Canada, you will be dealing with the Canada Border Services Agency. In both cases, these agencies manage the land borders ports of entry as well as the airports and will assist with your entry process. In the United States the US Border Patrol is also a USCBP component and is responsible for the areas *between* the ports of entry, and normally would be contacted by CBP regarding cross border response issues. The Royal Canadian Mounted Police (RCMP) has a similar role in Canada and while they have jurisdiction between designated ports of entry, they do not have as many resources specifically tasked with patrol and enforcement.

When deploying across the international border, it is important to remember that you will be dealing with two different nations, each with different laws, rules and procedures. It is also important to remember that these agency officials have important jobs to do, and although they will give due consideration to the emergency nature of your trip, you must comply with, and are subject to, all the relevant laws and regulations. Both CBP and CBSA officials have reassured us that they will make every effort to accommodate an expedient crossing provided that they have been provided (in advance, if possible) with all the necessary documentation.

Everyone crossing the border is subject to the laws of the country they are entering and personnel with criminal convictions may be refused entry, and those with outstanding warrants may be detained and arrested.

Entering the United States

- Personnel **must** carry adequate documentation that establishes both identity and citizenship, ideally in the form of a valid passport. The United States has implemented the Western Hemisphere Travel Initiative (WHTI) which requires all persons to present a passport or other approved document in order to cross the border. Go to <http://getyouhome.gov> for specific details. Firefighters who may be asked to travel internationally should plan ahead and obtain these documents before fire season begins.
- **WARNING:** Personnel with criminal records may be inadmissible to the United States. Please advise your crews that this is important, and if they have any doubts about their admissibility to the U.S. they should resolve them prior to deployment.
- Contraband of any type is prohibited and can result in penalties or arrest. The United States prohibits the importation of drugs or controlled substances, and medical marijuana cards are not valid at the border. The importation of firearms is strictly regulated in both the United States and Canada and for the purposes of this agreement firearms are prohibited.
- Before leaving your home base, ensure that your inventory of equipment and supplies is accurate and that your personnel manifest is fully complete.
- When **responding to an incident**, the dispatcher providing information to the border officials can request priority to the head of the line when crossing the border. Be specific about the crossing being used, the time of arrival, and nature of the incident. The response must be a bona fide emergency.

- When **returning from an incident**, priority crossing will not be considered unless the resource is en route to another incident. All necessary documentation and manifests must be complete at the time of crossing.
- Where possible, all documentation should be the prescribed forms and all accompanying letters and authorizations must be on official fire agency letterhead. Electronic manifests often provide a better copy than faxed/copied versions; contact the intended crossing point for the best email address to use.

Entering Canada

- Personnel **must** carry adequate identification and proof of citizenship, *ideally in the form of a valid passport*. Visas may be required for some countries, particularly if the individual is not a US resident and does not possess identification that establishes this residency. Additional information regarding travelling to Canada, including what to expect, identification requirements etc. can be found at <http://www.cbsa-asfc.gc.ca/travel-voyage/kwte-qatf-eng.html>
- **WARNING:** personnel with criminal records may be refused entry to Canada. Please advise your crews that this is important, and if they have *any doubts* about their admissibility to the country where they are being deployed, they should resolve them *prior to deployment*.
- Contraband of any type is prohibited and can result in penalties or arrest. Canada prohibits the importation of drugs or controlled substances, and medical marijuana cards are not valid at the border. The importation of firearms is strictly regulated in Canada and for the purposes of this agreement firearms are prohibited.
- Before leaving your home base, ensure that your inventory of equipment and supplies is accurate and that your personnel manifest is fully complete.
- When **responding to an incident**, the dispatcher providing information to the border officials can request priority to the head of the line when crossing the border. Be specific about the crossing being used, the time of arrival, and nature of the incident. The response must be a bona fide emergency.
- When **returning from an incident**, priority crossing will *not* be considered unless the resource is *en route* to another incident. All necessary documentation and manifests must be complete at the time of crossing.
- Where possible, all documentation should be the prescribed forms, and all accompanying letters and authorizations must be on official fire agency letterhead. Electronic manifests often provide a better copy than faxed/copied versions; contact the intended crossing point for the best email address to use.
- Equipment and vehicles should be clear of soil as per Canadian Food Inspection Agency (CFIA) regulations. CBSA can provide advice and guidance regarding these regulations.

B. AUTHORITIES (Personnel)

The fact that the deployment is by a federal, state or provincial government at the official request of another federal, state or provincial government should be documented in some manner on official letterhead and supported by copies of the resource order. This assists border officials in verifying the official nature of the deployment. This also serves to differentiate between volunteer responders and/or commercial entities seeking to take advantage of the situation.

U.S. BOUND - CUSTOMS AND BORDER PROTECTION

- U.S. immigration law requires that every person entering the United States must apply for admission in person; ID and citizenship documents will be verified. Canadian Fire agencies should ensure that crew manifests are on official agency letterhead. These should be faxed in advance to the Port of Entry to speed processing. Crewmembers with criminal convictions may not be admissible to the

United States; if there is any question this should be clarified in advance by speaking with CBP Officers at the intended port of arrival.

- Adequate identification **and** proof of citizenship must be carried at all times when crossing the border. Proper ID helps determine who you are; it must have a recent photograph, and be issued by a government authority (driver's license, photo identification or similar).
- Proof of citizenship establishes your nationality; the Western Hemisphere Travel Initiative (WHTI) now requires all persons to establish their citizenship with a valid passport or other approved document. Approved documents include:
 - ✓ United States or Canadian Passport
 - ✓ United States Passport Card
 - ✓ United States Permanent Resident Card (I-551)
 - ✓ Trusted Traveler Cards (NEXUS, SENTRI or FAST programs)
 - ✓ State or Provincial Enhanced Driver's License (currently available from Washington and British Columbia)
 - ✓ Enhanced Tribal Cards (when available)
 - ✓ Native American Tribal Photo Identification Card (from certain recognized tribes)
 - ✓ Form I-872 American Indian Card
 - ✓ Indian and Northern Affairs Canada (INAC) Card
- When traveling by air between the U.S. and Canada, Mexico, the Caribbean or Bermuda, you are required to present a passport.

United States Customs and Border Protection will exercise every possible latitude when dealing with responding emergency resources, but reminds agencies that exceptions to the above requirements will be made entirely on a case-by-case basis and may cause delay for the entire unit. Taking a moment to verify your crew's documents prior to departure may save significant time at the border.

- Normally fire crews will be paroled into the United States under section 212(d) (5) of the Immigration and Nationality Act, and a form I-94 will be issued to each person to document their entry. *The I-94 document should be returned to CBP at the time of departure.* Whoever is keeping documents for the strike team should ask for and receive a validated copy of the crew manifest and keep that as a backup document.
- Personnel that enter United States must arrive and be cleared at a designated CBP Port of Entry. Except in very rare circumstances such as crossing at a non-designated port of entry, *prior to proceeding to a fire scene*, those exceptions MUST be coordinated in advance through the Area Port Director and nearest Border Patrol Sector. Please see section "F" for the emergency contacts.
- Pilots and crews arriving by air must provide advance manifests. Manifests may be sent electronically or faxed (consult with the Port of Entry official).

*Note: It is VERY important to make sure **PRIOR TO BOARDING** that all crewmembers arriving by air are properly documented for entry into the United States, ideally in the form of a valid passport.*

CANADA BOUND - CANADA BORDER SERVICES AGENCY

- In Canada, there are provisions in the Immigration and Refugee Protection Act (IRPA) and the Customs Act (CA) relevant regulations allow for entry, without employment authorization, of personnel and their equipment coming to Canada to assist in an emergency situation. This does not necessarily preclude one from a need for identification and documentation however.
- In all instances, notification by telephone should be made as soon as practicable by contacting the numbers found in the "Section E" of this document as well as "Appendix B-3" as appropriate.

- All relevant details about the place of entry, whether it is at an established port of entry or at a “non-designated” place of entry, should be provided to the operation in closest geographic proximity to the intended crossing.
- This information should include a list of personnel or a crew manifest and equipment inventories. Beyond notification by telephone, this additional information should be faxed or electronically provided in advance. If you are unsure about the specific information needed, please consult the CBSA representative upon reporting.
- This information should include a list of personnel or a crew manifest and equipment inventories. Beyond notification by telephone, this additional information should be faxed or electronically provided in advance. If you are unsure about the specific information needed, please consult the CBSA representative upon reporting.
- The crew manifest should include full given name, date of birth, residency, citizenship and a relevant reference number for identification – i.e., the information that is found on a valid passport.
- Persons with criminal records (such as a driving while intoxicated or driving under the influence conviction) **may** be inadmissible to Canada. If the entry is essential to the success of the emergency response, steps may be taken by the CBSA to approve a discretionary entry, with documentation.

C. EQUIPMENT

U.S. BOUND - CUSTOMS AND BORDER PROTECTION

- The requesting U.S. Fire Agency should notify the designated border crossing CBP Port Director or Supervisory CBP Officer as soon as practical (by phone and fax on agency letterhead) that emergency equipment and material will be arriving from Canada (provide ETA and destination).
- The responding Canadian Fire Agency should fax a manifest of equipment (on US [CBP Form 7533](#), if possible, or on agency letterhead) to designated Port Director or Supervisory CBP Officer at the port of intended arrival. Crews or trucks arriving at border must also carry the manifest. Information on the equipment and materials manifest can be of a general nature (number of pumps on engine, amount of foam, numbers of shovels, etc.).
- For airlift of equipment, CBP officials must be provided with a manifest of equipment and materials and these may need to be inspected at airport of arrival. Not all airports are designated for CBP clearance, and not all airports have full-time staff.
- Plan ahead and speak to a CBP Officer at the location where you intend to arrive.

CANADA BOUND – CANADA BORDER SERVICES AGENCY

- The responding U.S. Fire Agency should provide a manifest of equipment coming into Canada preferably by fax and prior to arrival at the border crossing. The manifest can be of a general nature (number of pumps on the engine, amount of foam, shovels etc.) and should be on agency letterhead. *Note: Prior to entering Canada, also stop at the U.S. Port of Entry and complete a U.S. Customs Form 4455 and have it validated by a CBP Officer. This helps establish that your listed equipment is of U.S. origin when you return.*
- Airlift of equipment: CBSA officials must be faxed the necessary manifest. Equipment may be inspected at destination at the prerogative of the Border Services Officer. Not all airports are designated for CBSA clearance, and not all airports have full-time staff.
- Plan ahead and speak to a CBSA Officer at the location where you intend to arrive.

D. AIRCRAFT ARRIVALS – SPECIAL CONCERNS (Canada)

- ✦ In terms of arrivals by air to Canada, CBSA’s expectations for reporting and notification will be determined by the location and mode of travel. As per Appendix B3 – please report air arrivals at

designated airports in Canada by contacting the nearest Airport of Entry (AOE). For entries between ports of entry or at non-designated AOE's, please contact the closest port of entry for clearance and further direction.

- ✈ From a Canadian perspective, matters related to the use of “trans boundary waters” (Bucketing/Skimming) fall outside the jurisdiction of the Canada Border Services Agency. However, aircraft entering Canada for this purpose are subject to reporting regulations and procedures. As a point of reference, The International Boundary Waters Treaty Act, an Act respecting the International Joint Commission established under the treaty relating to boundary waters and to questions arising along the boundary between Canada and the United States, specifically grants an exception to the prohibition of bulk removal of water from Canadian boundary waters or “trans boundary waters” (Bucketing/Skimming).
- ✈ The Canada Border Services Agency does not have a body comparable to the Air Marine Operations Centre (AMOC).
- ✈ Further, the subsequent reporting of the return of Yukon Territory Air tankers and personnel, following their deployment in Alaska, should be done following all established measures and should include contacting the nearest CBSA AOE as per the contact information

(United States)

- ✈ Arrivals by aircraft will be treated similar to those at the land border. However, every effort should be made to identify inadmissible crew-members, *prior to departure* for the United States.
- ✈ Aircraft that will actually land in the United States must arrive and clear at a designated CBP airport. Except in very rare circumstances, *prior to proceeding to a fire scene*; those exceptions MUST be coordinated in advance through the Area Port Director, nearest Border Patrol Sector, and the Air Marine Operations Center (AMOC) in Riverside, California. Please see section “F” for the emergency contacts.
- ✈ Aircraft fire operations may include air observer flights or fire retardant drops or water bucketing where the aircraft does not actually land in the United States (“splash and dash”). It is important that these be properly coordinated with the Air Marine Operations Center (AMOC) and Border Patrol as noted below.
- ✈ AMOC is familiar with and recognizes distinct “squawk” codes to forestry and firefighting aircraft operating near the border. 1255 is the squawk assigned to firefighting aircraft unless some other emergency code has been designated by the FAA for a specific mission.
- ✈ When any fire operations are taking place near the border and between ports of entry, AMOC (1-800-553-9072 calling from USA or 1-951-656-8050 calling from Canada) and the nearest Border Patrol Sector must be contacted. The Spokane Sector Dispatch Center will be the primary point of contact and will provide notification to other Sectors as needed. Spokane may be contacted 24/7 at: (800) 218-9788, fax (509) 353-2750, or by email at SPW-DISPATCH@dhs.gov.
- ✈ CBP has special notification procedures for ***mobilizing Yukon Territory Airtankers (YT)*** into Alaska
 - Resource Information
 - a. Obtain aircraft tail numbers of all aircraft from Yukon Duty Officer
 - b. Obtain the names and date of birth of all flight crew members
 - c. Obtain citizenship of all flight crew members

- Notify U.S. CBP Port Director Jeff Sherouse at 907-774-2252 of plan to move Yukon Airtanker(s) and Birddog into Alaska. Provide the above info in a, b and c. Provide fire location and notify CBP of estimated arrival times.
- Inform CBP whether the Tanker will do a single drop and immediately return to the Yukon (“splash and dash”) or if the ship will be reloading in Alaska. If the latter, include the name of the Alaska tanker base that the aircraft will be operating from.
- If known, provide estimated times of departure from Alaska.
- Upon arrival at the Alaska tanker base, the flight crew leader will need to establish contact with CBP officials at 907-774-2252. The State Coordinator at AICC (or designee) must ensure that this phone contact occurs.
- **Release back to YT:** Notify CBP at 907-774-2252 when the aircraft is released back to Canada. CBP requests that Yukon Territory aircraft depart Alaska through Northway. This will enable the flight crew to “clear” Customs outbound. If aircraft are unable to land at Northway on their way out of Alaska, the aircraft will bypass CBP and proceed directly to their home base in the Yukon Territory. In this event, the State Coordinator at AICC will notify CBP by phone and provide written notice within 10 days of the aircrafts’ return to the Yukon Territory. The notice should include the date and time of departure and the number of days spent in Alaska.

**E. CANADA BORDER SERVICES AGENCY CONTACT NUMBERS
(Non-Emergency and Emergency - 24 Hours)**

In the event that you are seeking entry at an **established port of entry**, with personnel and goods, please contact the numbers provided in *Appendix B-3* of this document. Be prepared to provide by phone or fax, all information requested by the CBSA regarding the personnel and goods (as identified in the preceding sections). Every effort will be made to facilitate your entry and provision of the required information as soon as possible will ensure the most efficient planning and processing.

In the event that you are seeking entry or returning to Canada under **exigent circumstances**, by land or air, at a place where there is **no established port of entry**, please contact one of the following CBSA points of contact identified in Appendix B-3. Please be prepared to provide by phone or fax, all information to the CBSA regarding the personnel and goods (as identified in the preceding sections). Every effort will be made to facilitate your entry, and provision of the required information as soon as possible will ensure the most efficient planning and processing. Please select the point of contact based on the location of entry/re-entry to Canada.

NOTE:

For all matters related to program and policy issues and advance planning, please contact the CBSA Regional Emergency Management Coordinator:

Anita Barr
 Regional Emergency Management Coordinator
 Canada Border Services Agency
 5500 Dieppe Place
 Chilliwack, BC
 V2R 5Y8
 Tel.: (604)824-3697
 Fax: (604)824-3692
 Cell: (604)834-4711
Anita.Barr@cbsa-asfc.gc.ca

Please note that the numbers provided for the Regional Emergency Management Coordinator are **not monitored 24/7. For strictly operational matters related to an active or anticipated fire response plan, please consult the contact list to communicate directly with the closest CBSA operation.

F. UNITED STATES CUSTOMS AND BORDER PROTECTION CONTACT NUMBERS

Contact the Port Director or Supervisory CBP Officer at the Port of Entry you plan to enter through. They can directly facilitate your movement and are the best points of contact. The list that follows covers port locations starting in the west and moving eastward.

Customs and Border Protection has also established a coordinator for Washington, Idaho, Montana, North Dakota and Minnesota to deal with any problems that arise and to assist you with overall policy issues and advance planning:

All Areas

Kenneth G. Huber, Supervisory CBP Officer

U.S. Customs and Border Protection

Great Falls Area Port, Montana

Office: 406-453-7631 option 1, x206

Cell: 406-750-5607

Fax: 406-453-7069

E-Mail: Kenneth.G.Huber@cbp.dhs.gov

For Washington

Ronald Arrigoni

Area Port Director, Oroville, Washington

Office: 509-476-3441

Email: Ronald.T.Arrigoni@cbp.dhs.gov

In the event of an emergency, CBP has an established point of contact to assist the facilitation of crews into the U.S. This should be used in irregular emergencies when time is critical. Please ask to speak with the Duty Chief.

Customs and Border Protection

Command Center Duty Chief

For Montana and Idaho

406-335-9630 fax 406-335-2611

For Washington

360-332-7611 fax 360-332-2390

NOTE: In an emergency, if unavailable at any of these numbers, call CBP's National Communications Center at 1-800-XSECTOR (800-973-2867) and request that the dispatcher contact SCBPO Kenneth Huber or his designate.

APPENDIX F
Special Management Considerations
Letter of Expectation or Direction for Fire Support

SPECIAL MANAGEMENT CONSIDERATIONS

Special management considerations are tactics required for land and resource management and/or environmental constraints. These tactics can be used because of:

- Wilderness
- National Park
- Critical wildlife habitat or endangered species
- Critical watersheds
- Cultural Resources
- Public use and safety
- Land ownership

Because of these considerations they may require different measures related to:

- Use of heavy equipment, mechanized equipment
- Use of retardant; i.e. restrictions related to streams
- Water sources
- Trigger points for certain suppression actions
- Fireline rehabilitation requirements
- Coordination with Incident Management Teams
- Smoke
- Key Contacts

LETTER OF EXPECTATION OR DIRECTION FOR FIRE SUPPORT

A letter of expectation or direction can be issued for initial, extended or large fire support. The letter gives approval and direction for fire operation actions within an identified area. The letter may address objectives, priorities, expectations, guidelines, any special management considerations and suppression requirements.

APPENDIX G

Example for Negotiated Extended Fires

ADDENDUM TO BRITISH COLUMBIA & NW UNITED STATES WILDFIRE RESPONSE BORDER ARRANGEMENT (Border Arrangement)

This addendum is to give approval to BC Wildfire Service and provide direction for fire operations actions within the Colville National Forest. The Stickpin Fire is threatening the boundary between the US and Canada. According to the "Border Arrangement" each agency has the authority to engage in suppression of wildfires that threaten values along the international border.

The Agencies, US Forest Service and British Columbia Wildfire Service, agree that it is mutually beneficial to take appropriate action on the Stickpin Fire to address the threat to values located within British Columbia, Canada. Appropriate action includes the use of helicopters, air tankers, dozers, pumps, chainsaws, etc. This approval includes dozers, tractors, feller bunchers or any other type of tracked earth moving equipment or harvesting equipment. Aerially delivered fire retardant is also approved for use within the National Forest.

The parties agree the British Columbia Wildfire Services will be assigned a designated branch on the north and northeast sides of the fire that is threatening British Columbia. The area of responsibility is shown on the attached map.

BC Wildfire Service will be responsible for:

- Oversight of all personnel, aircraft and equipment assigned to their branch;
- All costs of personnel, aircraft and equipment associated with the assigned branch;
- Establishing dozer lines in conjunction with US Forest Service standards;
- Use of Canadian aircraft will be coordinated with the Stickpin Fire Air Branch Director
- Working with the Resource Advisor assigned to the Branch

US Forest Service will responsible for:

- Lodging and food will be provided by the Stickpin Fire Base Camp
- Operational briefings, planning and logical support
- Rehabilitation works associated within BC Wildfire Service's branch

A USA type two incident management team (Mike Ciraulo Incident Commander) is presently managing the Kettle Complex on the US side of the border. A British Columbia incident management team has been assigned to manage the Canadian branch #3 of the Stickpin Fire as shown on the attached map. The Canadian Branch will coordinate all efforts on the US side of the border through Stickpin Fire IMT. There should be no independent action without first coordinating with the other agency that affects the border.

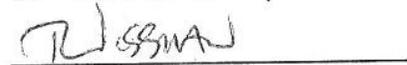

As always firefighter and public safety is our first concern. Conduct your operations with safety as your first priority.

US Forest Service Representative

Date: 8/23/15

BC Wildfire Services Representative

Provincial Wildfire
Coordination Officer

Date: Aug 23/2015
