South-Central Oregon Fire Danger Decrease

Moderate Fire Danger

Lakeview, Ore – Beginning Tuesday, Sep 22, 2026, at 12:01 a.m., Agency Administrators and fire staff from the South-Central Oregon Fire Management Partnership (SCOFMP), made the decision to decrease the fire danger level to **Moderate** (Blue). The Industrial Fire Precaution Level (IFPL) will also be decreased to **Level I** and **Public Use Restrictions and Regulated Use Restrictions will be rescinded expect within the Klamath River Canyon area.**

- Fire Prevention Order: <https://www.blm.gov/sites/default/files/docs/2026-05/orwa-fpo-lkv-klamath-051826.pdf>

Recent cool and moderate weather conditions helped lower the Fire Danger Levels and IFPL which contributed to the decision to transition from High to **Moderate** Fire Danger and **IFPL I**. There is still potential for fires to escape and spread. Cooperation is key to reducing human caused fires within SCOFMP management area.

With fire danger decreasing to Moderate and public use restrictions lifted, private landowners are reminded that they still need to notify ODF before doing forestry-related activities on their property. Please contact your local Oregon Department of Forestry office if you have questions about the requirements.
