

2018 REGION 5 DATA ENTRY STANDARD FOR SUPPLIES
Version 1 (updated 4/30/2018)

The following guide and examples have been developed to assist you in ordering and filling the Supply catalog in ROSS in Region 5 Communication Centers. Please take a few minutes to glance through this guide. We hope you find this guide user-friendly and informative. Feel free to share our information with your home unit.

Our goal is to create a complete document (like that produced on card stock), from order to audit in the ROSS system. Currently this means *forcing* some of the information we require into printable fields. Standardizing our order and fill information we can use ROSS to generate any number of reports for various individuals. REMEMBER this is still a work in progress. If you find areas that need correction or clarification please bring them to our attention.

If you are an occasional ROSS user and need more in-depth explanation see the appendices in this manual for entering, placing and filling orders or refer to the ROSS home page (<http://ross.nwcg.gov/>) under Module Descriptions.

When entering a new request:

- * Select the desired Category/Catalogue Item. **Region 5 does not use "Service Not in Catalog" at any time.**
- * If you need a service that is not among the selections available, enter the request as NON-NFES Supplies or !Not in Catalog Supplies.
This gives the dispatcher the "Item Description" field to enter the desired service or supply information.
- * Enter the information in clear and concise text, keep it brief and generic.
- * Use the Special Needs field for more detail or description. (See Service/Repairman for an example.)
- * When ordering a Service item that is not currently among those supplied by ROSS, enter the word "SERVICE" in all caps as the first part to the Item Description.
This allows the dispatcher to inform ROSS of additional services not in their current catalog.
- * Entering the word "Supply" on a NON-NFES Supplies item is optional.
- * ROSS does not allow you to edit the "Item Description" field after the resource number has been created.

Special Needs:

- * The Region 5 uses the "Special Needs" field for a brief description/documentation area.
- * Pertinent information such as model numbers, part numbers etc... should be entered in clear and concise language.
- * Do not repeat information already supplied in the Resource Request or Deliver To fields. See examples throughout this guide.
- * NOTE: Information entered in this area will also print out on the "Print Request List" report.

Region 5 tracks the usual service type items (Porta Potties, Refers, Computers, Phones, Radios etc) as well as sensitive, non-consumable / high cost items and items that may need to be returned to a supplier.

"Tracking" SERVICE

- * When a SERVICE category item is ordered, ROSS will only allow you to use "Fill with Agreement" option (see *When Filling a Resource later in this guide*).

This will in most cases, automatically track the resource by moving the resource to the Incident Resources screen.

- * Check the Incident Resources screen on a regular basis to check for items you might need to Demob.
- * See the Tracking Options Appendix for a listing of ROSS's preset tracking.

"Tracking" SUPPLY items:

- * When ordering a NFES or NON-NFES Supply Item, ROSS gives you the option to "Track" the resource.
(You get 2 chances to "Track" an item).
- * The first is by selecting the "Track Item" button in the New Request screen.
Remember to UNCHECK this option as ROSS does not clear the box after you create the resource order.
- * The second chance is when you enter the fill information using the "Fill with Local Purchase" option.
- * You do not get a third chance to track an item after it has been filled.
- * If the "Track" option is not selected the order will be "Filled/Closed" after the fill information has been entered.
This is the method you will use for consumable items.

ROSS's preset tracking option on a Service requested item in the New Request Screen.

The screenshot shows a software interface for entering a request. On the left, under 'Select Item to Request', the 'Catalog' is set to 'Supply' and the 'Category' is 'Service - Communications'. On the right, under 'Enter Request for Service - Cellular Telephone (NON-NFES)', the 'Quantity' is 1, 'Next Number' is 1, and 'Need Date/Time' is 07/22/2006 13:21 MST. A 'Track Request' checkbox is checked.

Quantity Requested 25 Quantity Assigned * 25

Track Request If you want to set Travel, check the Track Request box.

Estimated Delivery Date 07/22/2006 14:01 MST

National Standard for Data Entry:

- * Region 5 will follow the National Standards for Data Entry when filling a request when considered viable.
- * The standard guideline shows: ITEM "-" Vendor Name "-" Unique Identifier.
- * Since the "Item" already is printing on the left side of the resource order, enter an Item only if it needs additional clarification.
- * You will see a few examples of this throughout this guide, MEALS is one of them.

Standard for Data Entry:

Primarily Region 5 requests that the following information be entered into the "Resource Name*" field:

- * Enter pertinent information in the "Resource Name" field. Only information in the "Resource Name*" field prints on the resource order.
- * Field length is limited to 50 characters. Separate fields using dashes.
Spaces must be included between the fields or the text will run over into the M/D Ind box.
- * You can cut (Control C) and Paste (Control V) any existing data from this field into the "Description" field.

Filling a request:

- * Region 5 only uses the "Fill with Agreement" and "Fill with Local Purchase" selections.
- * Never use "Fill with Requested Item", "Fill with New Resource" or "Fill with Substitution" (exception see below).
- * Never "Quick Fill" a resource. See examples later in this guide for examples of the information to be entered in "Resource Assigned" field.

"Fill with Agreement":

- * Will usually mob the Resource Assigned to the Incident Resources screen after fill information is entered.
- * Release the resource if it was ordered for a short duration/one time use (**Do NOT use "Quick Release"**).

"Fill with Local Purchase"

- * "Tracking" a resource will mob the Resource Assigned to the Incident Resource screen.
- * If the "Track" option is not selected, the order will be "Filled/Closed" after the fill information has been entered.
This is the preferred fill method for many NFES or NON-NFES Supply items as we don't want to accidentally track rubber gloves and airline tickets.

2018 REGION 5 DATA ENTRY STANDARD FOR SUPPLIES
Version 1 (updated 4/30/2018)

NFES ITEMS: For local resources:

- * Fill using the Cache ID "-" Issue number "-" (Substitution if applicable, see below).
- * Remember to "Track" the item if necessary.

Substituting a NFES & NON-NFES item:

- * If a Substitution has been made on **NFES Supply** request, add the substituted item number to the "Resource Name" field on the "Fill with Local Purchase" screen (see example below).
- * If a substitution is made on a **NON-NFES Supply** request, document the substitution in the "Description" field on the "Fill with Local Purchase" screen if necessary.
- * ROSS will not let you edit the information in the "Item Description" field.

Example of NFES Supply Substitution:
