

Cache Van Information

Many mobile cache vans are pre-positioned on host Units. If your Unit does not host a mobile cache van, your order is to be placed with your respective GACC. They in turn will order a mobile cache van from the nearest location. If your Unit does host a mobile cache van, it may be utilized at the discretion of the Unit Fire management Officer. The use of a local mobile cache van must be documented with an S number on an incident resource order and the request placed to the cache directly. Transportation should be coordinated by the host Unit.
