

INCIDENT KIT SECTION

- The kits shown in this section have been developed with input from field user groups and have been identified as a national standard. This means that the kit is stocked by each NISC and is used on an interagency basis. **When ordering from this section, the unit of issue (U/I) will be KT.**
- Contact your servicing NISC with questions, comments or suggestions, including proposals for new kits and/or additions/deletions to existing kits. Requests for new kits and kit changes must be submitted using the Kit Change request form available at <http://www.fs.fed.us/fire/cache/kitchg.html>.
- NISCs may update kits on an attrition basis during the year the changes are made. This insures the greatest economy of operations within the national cache system. For this reason, kits ordered from a NISC may or may not contain identical items to those listed during the early part of the fire season. As kits are returned and repacked, they will be packed to the identified standard.
- During peak periods of incident support, kits may be shipped with shortages based on availability of components. The packing list enclosed with each kit will reflect applicable changes. Any discrepancies from the packing list upon receipt of a kit should be reported to the servicing NISC.
- All kits containing hazardous materials will be appropriately labeled and identified according to 49 CFR Part 172. Hazardous materials may be removed from kits that are shipped by commercial air freight.
- Weight and cubic feet information provided with each kit description should be considered an estimated average only.

KIT CONTAINS TRACKABLE PROPERTY

The Remote Sensing / Fire Weather Support Unit-NIFC maintains 50 Incident Remote Automatic Weather Stations (IRAWS) units for response to wildfire, prescribed fire and all risk incidents. Units are ordered through established mobilization channels and upon release from an incident, must be returned to NIFC (GBK) for refurbishment. Further information can be found in the National Interagency Mobilization Guide, Chapter 70 or through contact with the Remote Sensing / Fire Weather Support Unit at 208-387-5726.

MOBILE CACHE SUPPORT VAN NCK/LSK SPECIFIC \$118,227.53

NFES 008646

Loc: LSK, NCK

WT: 21,300 lb

PLEASE NOTE THE FOLLOWING INFORMATION:

Cache vans are designed to be used on Type II or larger incidents. **The contents of a Mobile Cache Van are to be unloaded at the incident site so the van may return to the issuing Cache for re-stocking. Incidents should not hold the van unless prior arrangements have been made with their supporting NISC.** The contents listed below are the items that will be sent if a Mobile Cache Van is ordered across geographic area boundaries and should be the minimum for all cache vans. **If additional items are needed, a resource order listing additional items to be loaded into the van is required.** Each cache providing a Mobile Cache Van *within* its geographic area will send items and quantities agreed upon by users within that area, so contents may vary from the list below.

QTY	NFES	DESCRIPTION
4 BX	000021	Bag - Garbage Can Liner, Plastic, 30 GL, 39" X 33"

PLEASE NOTE THE FOLLOWING INFORMATION:

Cache vans are designed to be used on Type II or larger incidents. **The contents of a Mobile Cache Van are to be unloaded at the incident site so the van may return to the issuing Cache for re-stocking. Incidents should not hold the van unless prior arrangements have been made with their supporting NISC.** The contents listed below are the items that will be sent if a Mobile Cache Van is ordered across geographic area boundaries and should be the minimum for all cache vans. **If additional items are needed, a resource order listing additional items to be loaded into the van is required.** Each cache providing a Mobile Cache Van *within* its geographic area will send items and quantities agreed upon by users within that area, so contents may vary from the list below.

KIT CONTAINS TRACKABLE PROPERTY

The Remote Sensing/Fire Weather Support Unit-NIFC maintains 15 Project Remote Automatic Weather Stations (PRAWs) units for response to non-emergency projects. Units are ordered through established mobilization channels and must be returned to NIFC (GBK) for refurbishment. Further information can be found in the National Interagency Mobilization Guide, Chapter 70 or through contact with the Remote Sensing / Fire Weather Support Unit at 208-387-5726.

SMOKE PARTICULATE MONITORING KIT NFES 005840 \$13,613.00

Loc: GBK

WT: 94 lb

CU: 7.78 ft

2 Boxes

KIT CONTAINS TRACKABLE PROPERTY

The Remote Sensing/Fire Weather Support Unit-NIFC maintains 11 “E-Sampler” Smoke Particulate Monitoring units for response to wildfire, prescribed fire and all risk incidents. These kits are part of a USFS sponsored pilot project and are available for use with strictly limited technical support. Units are ordered through established mobilization channels and upon release from an incident, must be returned to NIFC (GBK) for refurbishment. Further information can be found in the National Interagency Mobilization Guide, Chapter 70 or through contact with the Remote Sensing / Fire Weather Support Unit at 208-387-5726.
