

CALIFORNIA INTERAGENCY MOBILIZATION GUIDE 2015

CALIFORNIA WILDLAND FIRE COORDINATING GROUP

Date: March 17, 2015
To: California Mobilization Guide Users
Subject: 2015 California Mobilization Guide Issuance

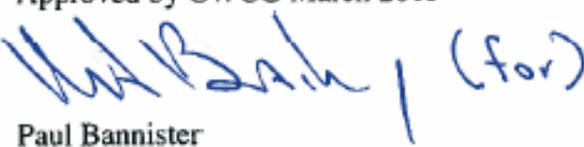

Attached is the 2015 California Interagency Mobilization Guide. CWCG sponsors this guide for the cohesive mobilization of resources by California agencies. This guide is written to reflect the interagency needs of the user and formatted to accept local inserts. Please note the chapters have been reorganized to reflect the same format as the 2015 National Mob Guide.

CWCG embodies the representatives from Bureau of Indian Affairs (BIA), Bureau of Land Management (BLM), California Department of Forestry and Fire Protection (CALFIRE), Fish and Wildlife Service (FWS), US Forest Service (USFS), National Park Service (NPS), California Governor's Office of Emergency Services (CalOES) and Contract Counties.

The signature of the CWCG Chair is acknowledgement and agreement of the CWCG Charter Agencies to follow this Mobilization Guide as presented.

The Guide is also linked: http://www.fs.fed.us/r5/fire/intel/mob_guide/index.php

Approved by CWCG March 2015

Paul Bannister
CWCG Chair

Chapter 10

Chapter 10 - Objectives, Policy and Scope of Operations

Mission Statement

The principal mission for the California Geographic Area Coordination Centers (GACC) is the cost-effective and timely coordination of wildland protection agency emergency response for wildland fire and all risk incidents. This is accomplished through planning, situation monitoring and expediting resource usage between the Forest Service (USFS), California Department of Forestry and Fire Protection (CAL FIRE), Bureau of Land Management (BLM), National Park Service (NPS), Fish and Wildlife Service (FWS), Bureau of Indian Affairs (BIA), National Weather Service (NWS), Governor's Office of Emergency Services (CAL OES) and other cooperating agencies.

The California Interagency Mobilization Guide identifies standard procedures, which guide the operations of multi-agency logistical support activity throughout the coordination system. This guide is intended to facilitate interagency dispatch coordination, ensuring the timeliest and most cost effective incident support services available are provided. Communication between Units, GACCs, State, Regional Offices and other cooperative agencies are addressed in each section of the California Interagency Mobilization Guide as they apply to that section. The California Interagency Mobilization Guide is designed to accommodate amendments as needed and will be retained as current material until amended. The California Interagency Mobilization Guide is used to supplement the National Interagency Mobilization Guide. This guide is governed by each of the signatory agency's policy and procedures. Additional information not found in this reference can be obtained by contacting the GACC.

The California GACCs, the Emergency Command Centers (ECC)/Dispatch Centers and their respective Duty Chiefs/Officers have many responsibilities, the most important of which are effective and timely communications with and service to the field. All levels of dispatching and coordination involving the various agencies throughout the state must provide for continuous and adequate communication. The GACCs, ECCs and Duty Chiefs/Officers must ensure that responsible officials are kept current on resource availability.

Geographic Area Coordination Centers

There are two GACCs within the State of California and they will follow the established mobilization procedures identified in the National Interagency Mobilization Guide. The GACCs act as focal points for internal and external requests not filled at the Unit level.

Each GACC's Federal and CAL FIRE Duty Chief, through their dispatching organization, are responsible for providing coordination of all National, Regional, and Unit resources located within their respective geographic area. Each Duty Chief must maintain awareness of resource commitment and availability in order to enable adequate coordination between the neighboring GACCs and other agencies within the state.

Northern California GACC (Northern Operations – North Ops - NOPS)

North Ops provides coordination and dispatch services for the northern California National Forests, Bureau of Land Management, National Park Service, Fish and Wildlife Service, Bureau of Indian Affairs, CAL FIRE and Pacific Islands for the NPS.

North Ops is located on the Northern California Service Center compound in Redding.

Southern California GACC (Southern Operations – South Ops - SOPS)

South Ops provides coordination and dispatch services for the southern California National Forests, Bureau of Land Management, National Park Service, Fish and Wildlife Service, Bureau of Indian Affairs, CAL FIRE and FEMA assignments for Hawaii and Pacific Trust Territories.

South Ops is located at the CAL FIRE Southern Region Headquarters in Riverside.

Unit Level

Unit Duty Chiefs and Duty Officers, through their dispatchers, are responsible for the coordination and use of resources within their span of control. Procedures are established for notifying the Coordination Center when Regional or National resources are committed.

1 In this and the following chapters, the term "Unit" refers to Forests, CAL FIRE Units, BLM Districts,
2 National Parks, National Wildlife Refuges, National Monuments, and other resource providers that have
3 their own dispatch centers.

4 5 **Incident Priorities**

6 When competition for resources occurs among the Units, the GACCs will use the Multi-Agency
7 Coordination System (MACS) process to establish incident priorities.

8 For MACS Organization Chart, refer to the California Interagency Mobilization Guide Chapter 10.

9 For MACS Process, refer to the California Interagency Mobilization Guide Chapter 10.

10 11 **Initial Attack**

12 Initial Attack will be defined, as per the 2013 California Master Cooperative Wildland Fire Management
13 and Stafford Act Response Agreement (CFMA).

14
15 Initial Attack: A planned response to a wildfire given the wildfire's potential fire behavior. The
16 objective of initial attack is to stop the fire and put it out in a manner consistent with firefighter and
17 public safety and values to be protected.

18
19 Initial Attack Period: The first 24 hours, or by written local agreement.

20
21 Initial Attack Fire: Fire that is generally contained by the resources first dispatched, without a
22 significant augmentation of reinforcements, within two hours after initial attack, and full control is
23 expected within the first burning period.

24
25 Initial Attack Zone: An identified area in which predetermined resources would normally be the
26 initial resource to respond to an incident.

27 28 **Immediate Need**

29 The intent of ordering immediate need resources is to provide the closest available resource using normal
30 dispatching procedures to meet the incidents specific need. Immediate need requests will be filled with
31 the closest available resources. The intent of immediate need resources is that those resources will be
32 utilized immediately upon arrival to the incident. Immediate need requests may create a draw down
33 staffing situation and the sending Unit may need to order and back fill replacement resources. It is
34 essential that the receiving Unit communicate resource status to reduce un-needed resource orders for
35 back fill purposes.

36 37 **Drawdown for Initial Attack (IA)**

38 Drawdown is established by the local Unit based on their standard operating procedures. For CAL FIRE,
39 reference CAL FIRE Handbook 8100, policy 8121. For the Federal agencies, reference the Unit Fire
40 Management Plan.

41
42 When available resources are drawn down to a critical level, the Unit is responsible for advising their
43 respective GACC of the situation, including any anticipated shortages and projected needs. This
44 information enables the GACCs to adjudicate allocation of available resources within California, and, if
45 feasible, to provide resources for national needs.

46
47 When availability of Unit resources within a geographic area is drawn down to critical levels, the affected
48 GACC is responsible for advising the adjacent GACC, NICC and CAL FIRE Headquarters of the current
49 situation, including anticipated shortages and projected needs. This information is needed in order to
50 ensure effective allocation of the remaining available resources.

51 52 **Mobilization/Demobilization**

53 The GACCs will coordinate the movements of resources across Unit dispatch boundaries not covered by
54 local operating plans or agency specific policy.

1 All agencies will follow the *closest resource concept* for initial attack. Established dispatch channels will
2 be followed at all times.

4 **Work/Rest Guidelines**

5 Federal

6 Work/Rest Guidelines and Days Off policy are outlined in the Interagency Incident Business
7 Management Handbook, the National Interagency Mobilization Guide, Interagency Standards for Fire and
8 Fire Aviation Operations, and the Incident Response Pocket Guide. All resources which have been
9 requested to extend will complete and follow the instructions on the Resource Extension Request form.
10 Refer to California Interagency Mobilization Guide, Appendix A for a link to this form.

11
12 CAL FIRE

13 For CAL FIRE Work/Rest Guidelines, reference the CAL FIRE Handbook 7700, policy 7757.

15 **Incident Operations Driving**

16 For Federal agencies, reference the National Interagency Mobilization Guide and the Interagency
17 Standards for Fire and Fire Aviation Operations.

18 For CAL FIRE, reference the CAL FIRE Handbook 6400, policy 6557 and CAL FIRE Handbook 7000,
19 policy 7060.

21 **Resource Mobilization**

22 The Resource Ordering and Status System (ROSS) is the only ordering system to be used by all
23 California Units. It will be used to:

- 24 • Create new incidents
- 25 • Order and mobilize resources
- 26 • Track resources and their status

27
28 Resource status shall be continually updated in ROSS.

29
30 For California incident mobilization, use the Interagency Standards for the ROSS Operations Guide
31 (ISROG) located at the following website: <http://www.nifc.gov/nicc/logistics/references/ISROG.pdf> and
32 augmented by the California ROSS Business Practices and Standards guide:

33 http://gacc.nifc.gov/oscc/logistics/docs/12_ross_business_practices.pdf.

35 **Notification of Commitment of Resources**

36 In addition to national mobilization guidelines, the Units will notify GACCs of resource commitment. Per
37 the California ROSS Business Practices and Standards Guide, notification to the GACCs will be as
38 follows:

- 39
40 • Commitment of aircraft will be entered at the time of dispatch, so aircraft status will be current.
- 41 • Commitment of crews will be entered within ten (10) minutes.
- 42 • If after thirty (30) minutes, it appears the incident will continue to impact a Unit's resource base,
43 the Unit's equipment and overhead resources will be entered into ROSS.
- 44 • Any request for resources from outside the Unit, other than IA, *must* be entered and placed in
45 ROSS immediately.

47 **Wildland Fire Weather Forecasts**

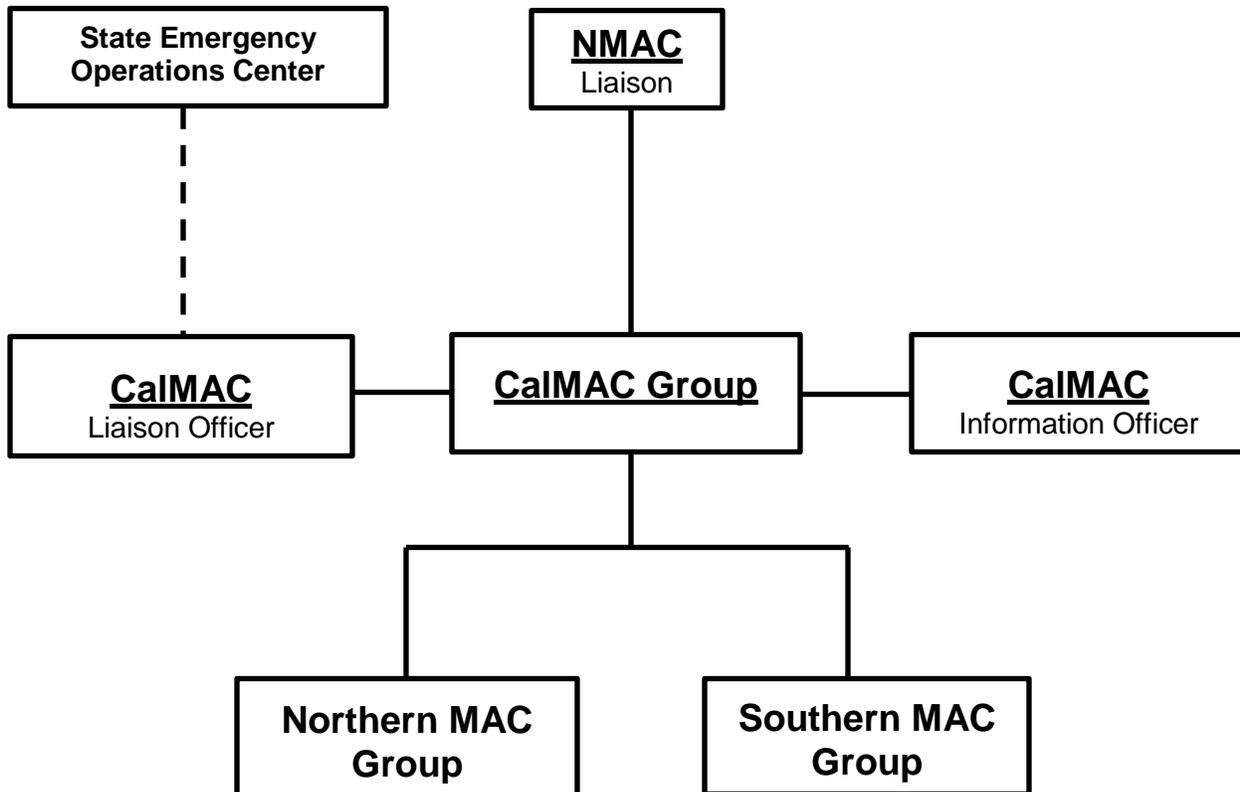

48 In California, the National Weather Service will produce daily fire weather forecasts (by agreement) from
49 the representative office.

50 In Hawaii, the Honolulu office of the National Weather Service will produce daily fire weather forecast
51 covered by the Fire Weather Operations Plan.

California Fire Service Multi-Agency Coordination System (MACS) Organizational Structure

<http://www.firescope.org/macs-docs/MACS-410-1.pdf>

The following organizational structure displays a FIRESCOPE MODE 3 and 4 or a National Preparedness Level 4 and 5 activation.

MAC Group Purpose and Function

A MAC Group typically consists of Agency Administrators or their designees who are authorized to commit agency resources and funds. Their function is to support incident management through coordinating their collective resources, sharing incident information and implementing coordinated strategic policies to prevent and/or combat growing emergency(s). In order to accomplish this objective the MAC Group must establish a common operating plan. The area represented can be a City, County/Operational Area, Region, such as one of the six CAL OES Fire and Rescue Mutual Aid Regions or a Geographic Area, such as Northern and Southern California Geographic Areas or a Statewide MAC Group such as CalMAC.

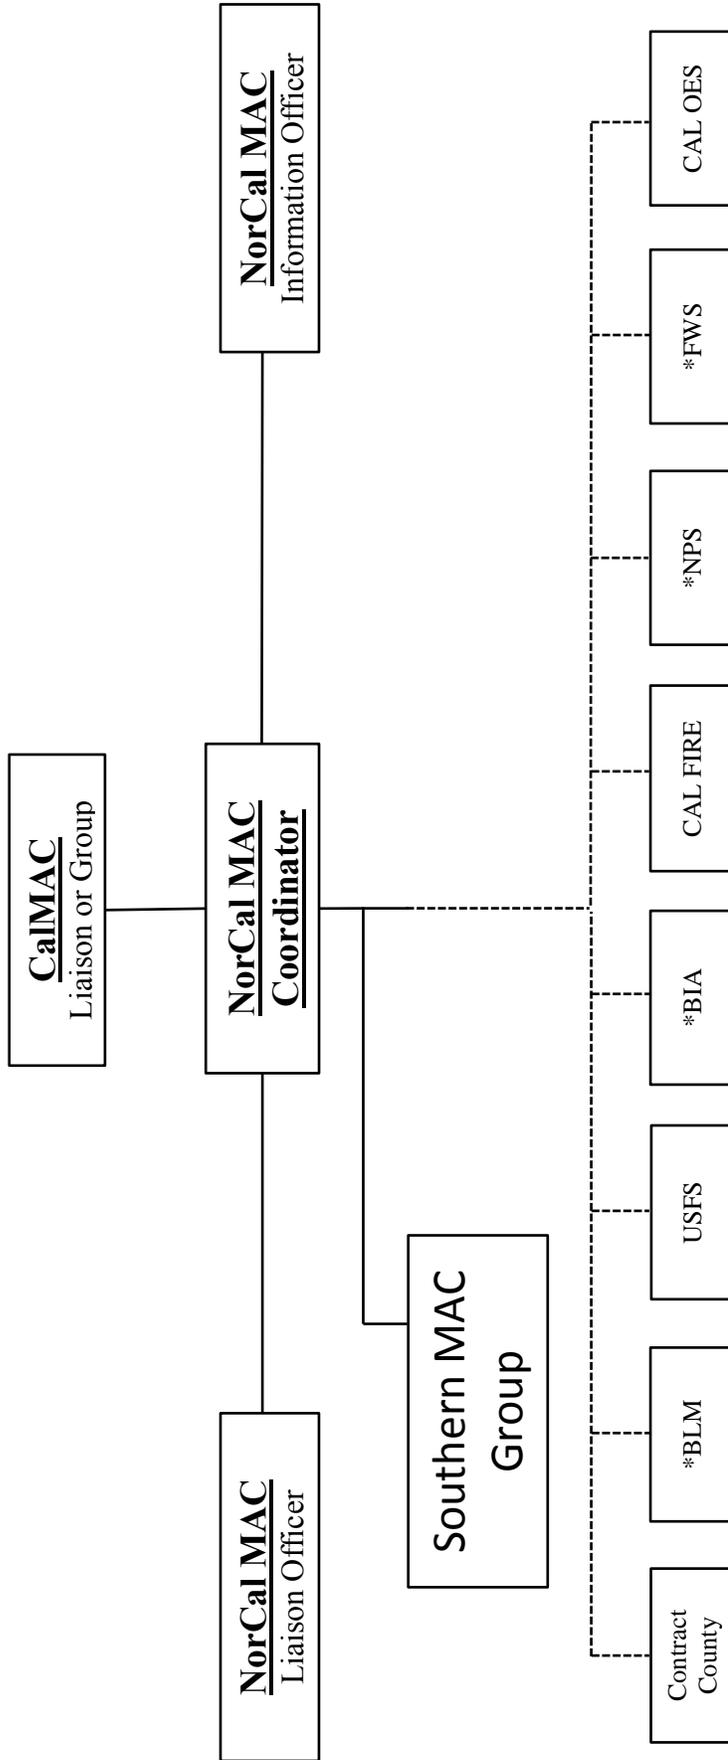

MAC Group objectives in coordinating finances, equipment, personnel and resources are:

- 1) Establish priorities for response.
- 2) Allocate critical resources based on established priorities.
- 3) Establish and/or implement communication systems integration.
- 4) Ensure Information coordination both internally and externally.
- 5) Establish intergovernmental decision coordination, develop strategies and contingency plans.

It is extremely important that MAC Group members have full authority from their respective agencies to commit resources, including equipment and personnel, and fully represent their agency or department in MAC Group decisions.

Northern MAC Group Organizational Chart

Northern MAC Group Organizational Chart

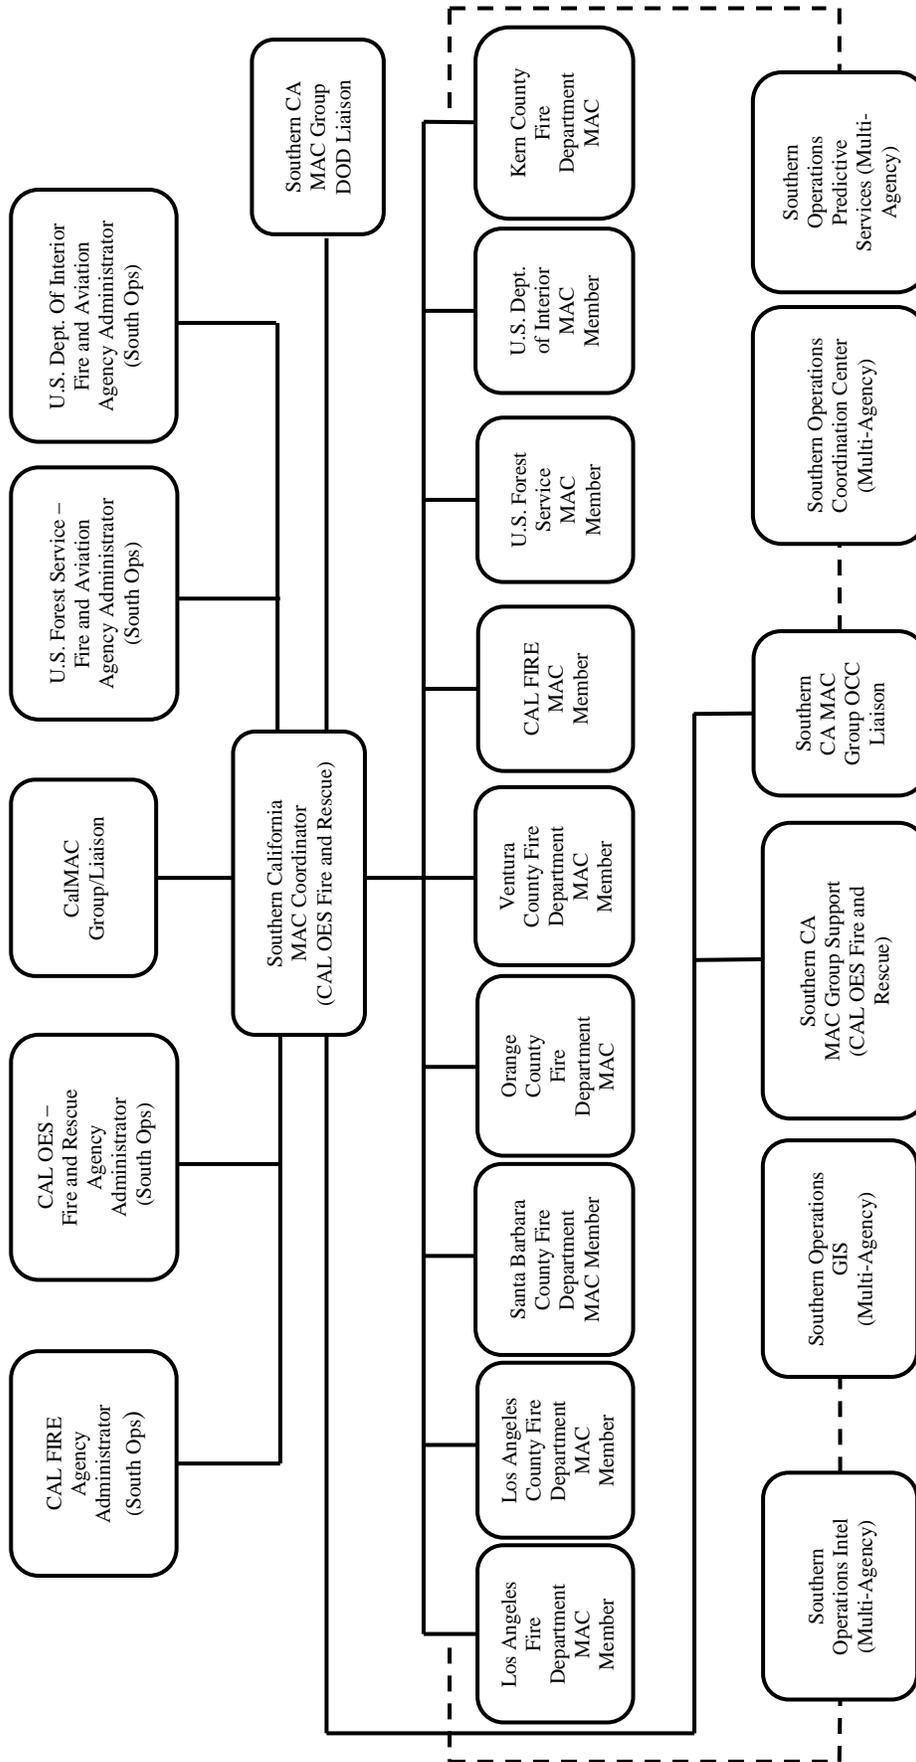

----- Dotted line denotes the agencies that could be represented during Preparedness Levels 4 and 5. This list is not all inclusive.

The Northern California Multi-Agency Coordination Group (NorCal MAC) acts as the geographic area authority to:

- Evaluate incident situation status reports and organizational resource status reports, as provided by the Northern California Geographic Area Units.
 - Provide oversight for geographic area allocation of scarce and/or limited resources based on established priorities.
 - Develop geographic area incident priorities and submit to CalMAC for evaluation and inclusion in national incident priorities.
- * DOI agencies may be represented at MAC by one DOI representative.

Southern MAC Group Organizational Chart

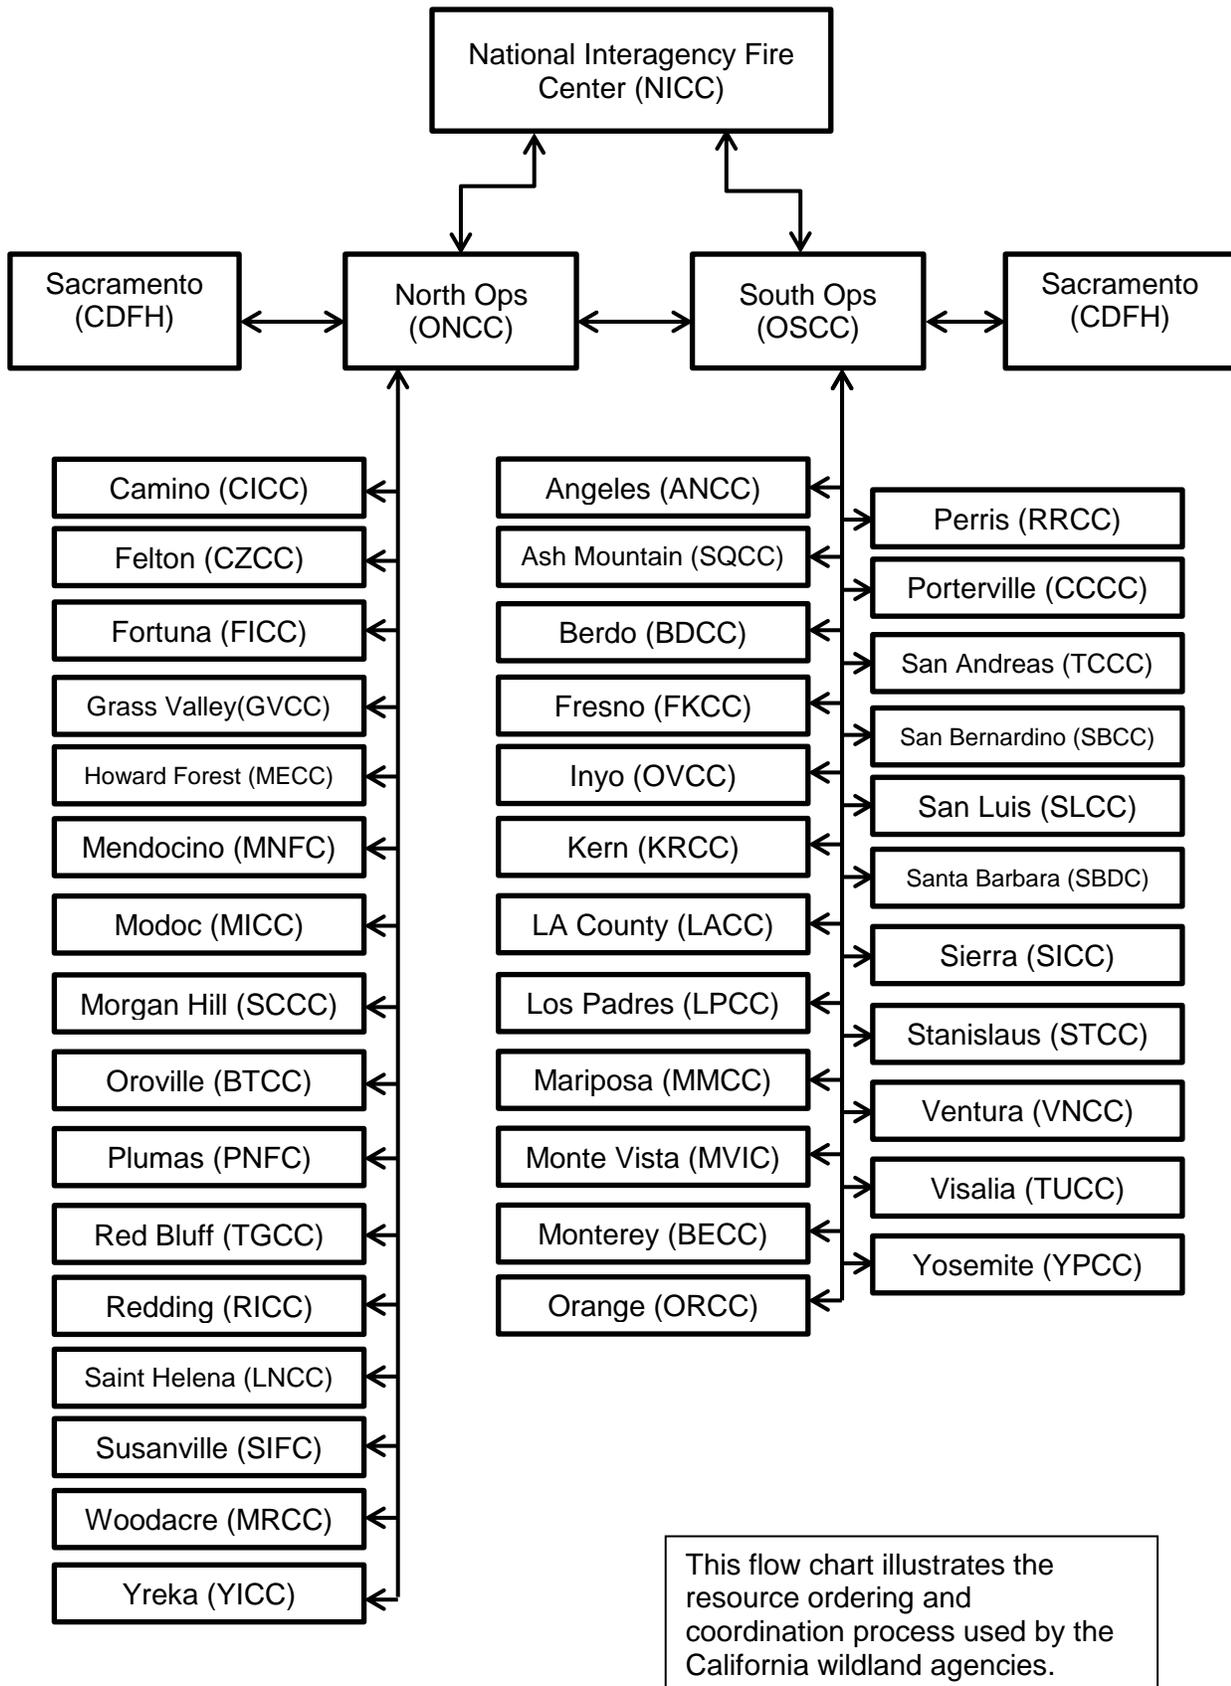

Southern MAC Group Organizational Chart

The Southern California Multi-Agency Coordination group (Southern California MAC) acts as the Geographic Area authority to:

- Evaluate incident situation status reports and organizational resource status reports, as provided by the Southern California geographic area Units.
- Provide oversight for geographic area allocation of scarce and/or limited resources based on established priorities.
- Provide written and verbal communication of MACS priority settings out to the following entities:
 - Applicable Agency Administrators
 - OCC MACS Liaison
 - FIRESCOPE Member Agencies

California Fire and Rescue Ordering Process

Forest agencies (federal and CAL FIRE) in California may request assistance from Local Government fire department resources (overhead, engines, water tenders) via the CFAA Agreement; these requests are placed in ROSS from the forest agency dispatch center to the CAL OES Operational Area which is currently threatened.

Operational Area dispatch centers will fill the requests with resources from within the Operational Area or once exhausted place outstanding requests to the CAL OES Regional dispatch center.

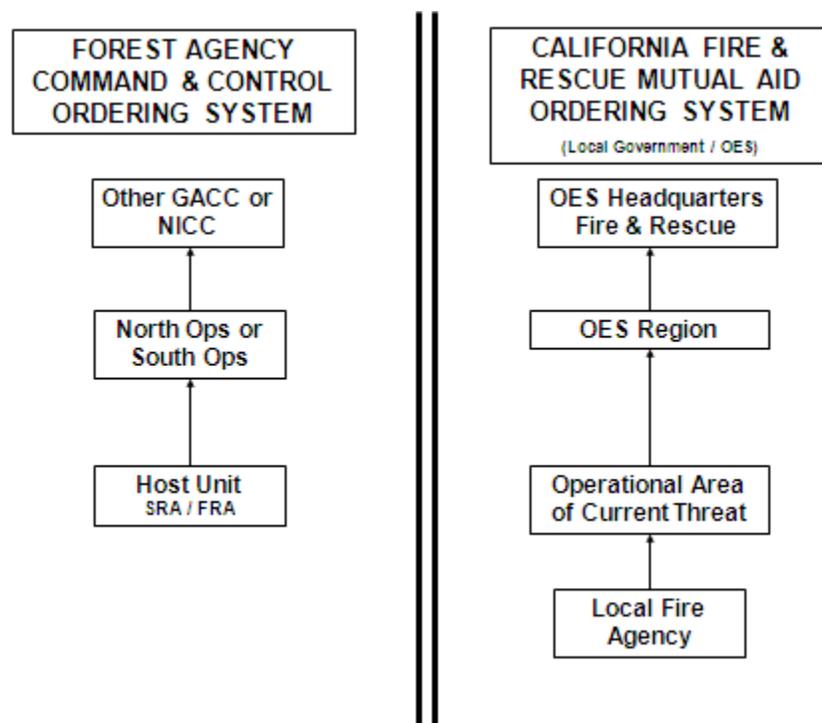

CAL OES Regional dispatch centers will place outstanding request to other Operational Areas within their Region or when all Operational Areas within their Region are exhausted will place requests to CAL OES Sacramento (OESH).

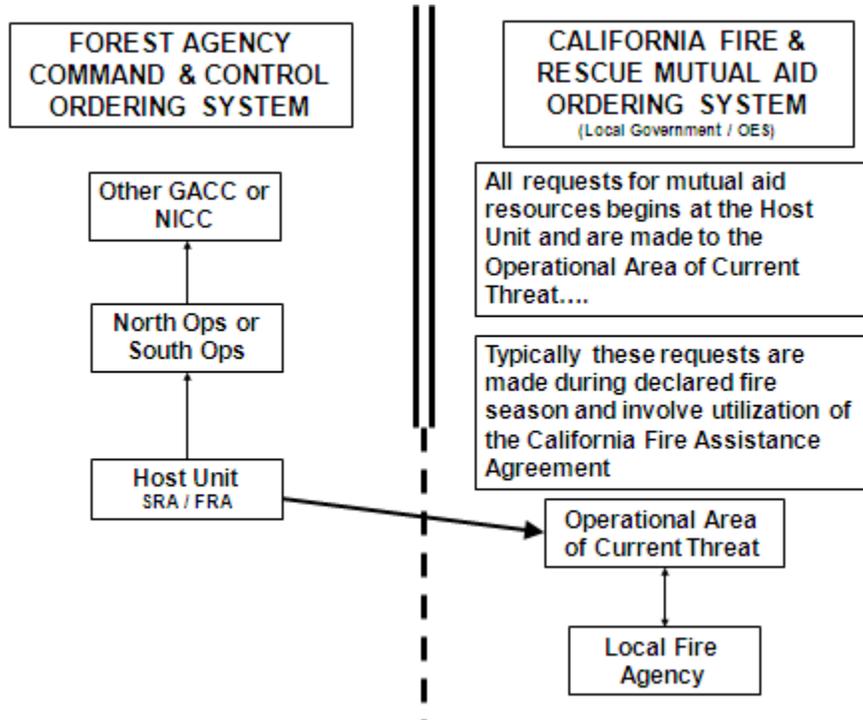

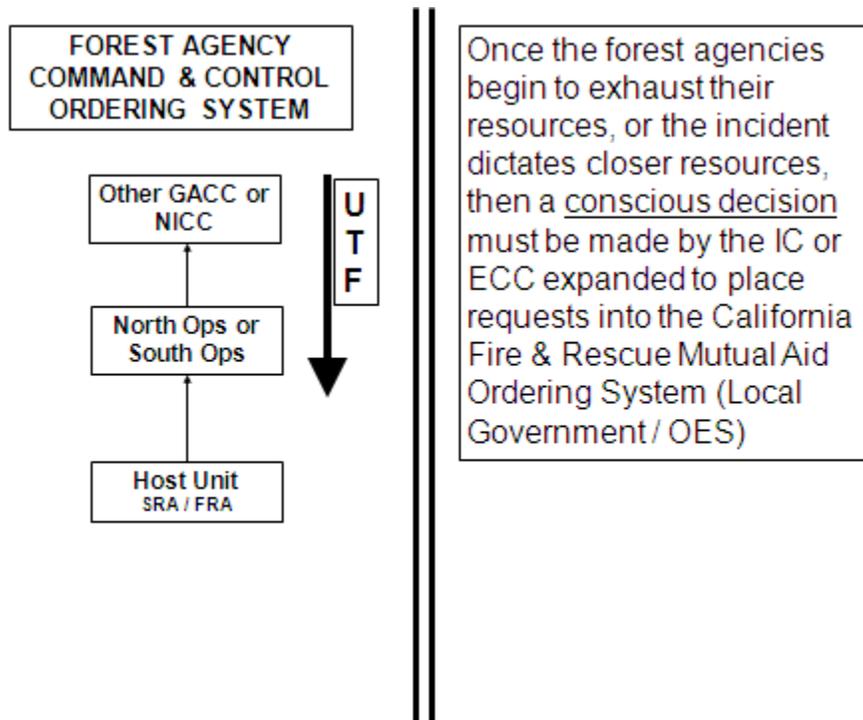

OESH will place outstanding requests to other CAL OES Regions in the state for processing.

Reference CAL OES Operations Bulletin 1 – Closest Resource Concept.

<http://www.CALOES.ca.gov/FireandRescue/Documents/Bulletins/Operations%20Bulletin%2001%202010.pdf>

The diagrams below illustrate the Forest Agency and California Fire and Rescue ordering process

CAL OES Region/Operational Area ROSS Responsibility

CAL OES Region/Operational Area	ROSS Responsibility
CAL OES Region 1	Los Angeles County Fire
XLA-Los Angeles County Area A	Los Angeles City Fire
XLB-Los Angeles County Area B	Los Angeles County Fire
XLC-Los Angeles County Area C	Verdugo Fire Communication Center

XMN-Mono County	CAL FIRE, SOPS
XRI-Riverside County	CAL FIRE, RRU
XBO-San Bernardino County	San Bernardino County Fire

1 Communication

2
3 The formal route of communications for the Unit/Forest/Local government level is through the GACC
4 Federal and CAL FIRE Duty Chief. The Duty Chiefs are responsible for briefing their organizations in
5 the procedures of incident information flow and for assuring timely exchange of information with
6 minimal disruption to the dispatch function. These guidelines are offered to assist the Duty Chief in
7 briefing their personnel. The following items give some general indicators of situations that should
8 prompt contact between agencies and with the Federal, CAL FIRE Regions and Headquarter levels.
9

- 10 • When large incidents, incidents in a sensitive area, or multiple incidents occur.
- 11 • When geographic area federal or state resources are becoming depleted.
- 12 • When resources are being moved outside of their assigned GACC.
- 13 • When an Incident Management Team is mobilized for an incident.
- 14 • When structures or property are destroyed, or serious injuries or aircraft accidents occur.
- 15 • Fire Directors and California Wildland Coordinating Group (CWCG) will be notified when
16 preparedness levels are adjusted due to suppression activity in their Geographical Area or the
17 adjacent Geographical Areas.

18 Aircraft

19
20
21 For all aircraft procedures and details, refer to California Interagency Mobilization Guide Chapter 50.
22

23 Mobilization

24
25 All resource requests will be submitted using the Resource Ordering and Status System (ROSS).
26 Requests for all tactical aircraft will be made using the state intercom and the FC 106 Script to expedite
27 the requests.

28 Refer to California Interagency Mobilization Guide Chapter 50 and California Interagency Mobilization
29 Guide Appendix A.
30

31 Unit Dispatch Procedures

32 California will provide all-risk dispatching services through existing dispatch centers that are consistent
33 with the needs and schedules of field going employees.
34

- 35 • Each Unit will provide for its own dispatching needs. Standardized dispatching procedures will
36 be used at each dispatching level within California.
- 37 • Dispatching procedures are developed so that each Unit will dispatch to the extent of its available
38 resources before requesting additional aid from the GACC.
- 39 • Units will pre-plan and identify all mutual aid assistance/move-up of resources between adjoining
40 Units, including those in other geographic areas/States and other agencies. Resource
41 commitments should be limited to those resources that could be expected to provide effective
42 initial attack, or fast follow-up to initial attack, within the established areas for mutual assistance.
43 It is the responsibility of the sending Unit to notify the appropriate GACC whenever action is
44 taken under one of these plans.
- 45 • Units will work directly with other dispatch centers, county and city fire departments, and local
46 and state law enforcement agencies in their Unit or GACC's area of influence. They will keep the
47 GACC advised of all mobilization/demobilization of personnel/crews and aircraft received
48 through this procedure.
- 49 • Units will handle all dispatching procedures for agency personnel during scheduled field
50 operation hours. CAL FIRE Emergency Command Centers are staffed 24 hrs.
- 51 • Federal Dispatch Centers may enter into cooperative agreements with other agencies, or amend
52 existing agreements, to provide dispatching services outside of normal field operation hours.
- 53 • Each Dispatch Center will have a work schedule that allows them to meet the needs and
54 scheduled work hours/shifts of field going personnel.

- 1 • CAL FIRE Command Centers will use CAL FIRE issuance publications, in particular the 8100
- 2 Command and Control Handbook, as their operational guides.
- 3 • Each Federal Unit will utilize operational guides which define procedures and required actions
- 4 for all hazardous activities. These guides will be available in each Dispatch Center and field
- 5 office.
- 6 • All field going personnel will remain in radio contact with the Dispatch Center unless otherwise
- 7 arranged through the Center.
- 8 • Dispatch Centers are to communicate weather forecasts to all field going personnel, especially
- 9 firefighters according to agency direction. Dispatch Centers are to update field personnel of
- 10 changes in predicted weather patterns.

11 **GACC Dispatch Procedures**

12 The GACC will fill orders from the most appropriate source available. The most appropriate source will
13 be determined on the basis of urgency, resource availability, delivery time, reasonable cost effectiveness,
14 impact on other Units, and consideration of the overall fire program. Within 30 minutes, the ability or
15 inability to fill the order will be relayed to GACC by the Unit attempting to fill the order. Objectives of
16 the GACC include:

- 17 • Provide 24-hour dispatch and coordination services. Dispatch personnel, equipment, aircraft, and
- 18 supplies between GACC's, Units, other States, or agencies. Expand the GACC dispatching
- 19 organization to meet current demands.
- 20 • Maintain status on amounts and location of specified overhead, crews, equipment, aircraft, and
- 21 supplies.
- 22 • Assist in determining GACC priorities for overhead, crews, equipment, aircraft, and supplies in
- 23 multiple incident situations, and fill requests accordingly.
- 24 • Inform State and Federal Duty Chief, Units, National Interagency Coordination Center (NICC),
- 25 and other cooperating agencies of current and critical incident situations.
- 26 • Collect and distribute information concerning the overall incident situation.
- 27 • Encourage and practice close cooperation in using shared resources with other cooperating
- 28 agencies, as well as private wildland fire services, including contract and agreement resources.
- 29 • Anticipate requirements, evaluate requests in light of the actual and imminent incident situation,
- 30 and question (through proper channels) orders appearing to be out of balance with requirements,
- 31 needs, or policy/procedure.
- 32 • The GACCs may fill each other's requests within California prior to requesting assistance from
- 33 NICC.
- 34 • The GACC Duty Chiefs will work closely to support each other's existing needs.
- 35
- 36

37 **NICC Dispatch Procedures**

38 NICC will follow defined national mobilization guidelines.

39 **Mutual Aid**

40 Mutual aid is utilized when an incident is likely to exceed, or has exceeded, the ability of the responsible
41 agency to control. Agencies receiving mutual aid are responsible for logistical support to all mutual aid
42 personnel and equipment.

43 For agreements governing mutual aid, refer to the California Interagency Mobilization Guide, Chapter 80.

44 **Request for Assistance**

45 After local agreements and mutual aid resources have been exhausted, requests for assistance should be
46 placed directly with the appropriate GACC for state and federal resources or Fire and Rescue Operational
47 Area for CAL OES and local government resources. A file of all mutual aid and other agreements will be
48 maintained in the ECCs. These files will be available to the GACC upon request.

1 Support to Border Fires

2 A border fire is defined as a wildfire that has crossed the boundary from one GACC into another, or
3 which is expected to cross the boundary within two burning periods. For specific operating plans and
4 agreements, refer to the California Interagency Mobilization Guide, Chapter 80.

5
6 Since both GACCs have a responsibility and authority to provide resource support to the incident, they
7 may place requests for resources directly between each other in order to support the incident. The
8 following protocols apply:

- 9
10 • A single ordering point will be designated to ensure proper assignment and demobilization of
11 resources. The incident will remain with the originating Unit for situation reporting and
12 prioritization.
- 13 • The dispatch organization designated as the single ordering point may place orders to either
14 GACC using established ordering channels; however only the GACC of the designated single
15 ordering point is authorized to place requests up to NICC.
- 16 • Prior to initiating border fire support operations, concurrence and agreement must occur between
17 the two GACCs and NICC. Coordinate as needed to maintain effective incident and GACC
18 support.

19 Unified Ordering Point (UOP)

20
21
22 When an incident involves more than one jurisdiction, and unified command is activated, a unified
23 ordering point (UOP) shall be established.

24 Purpose

25 To establish a single ordering point for all resources required by the incident.

26 Goal

27
28 The goal of the UOP is to allow the agencies involved in the incident the opportunity to fill requests at the
29 lowest level including the use of local mutual aid and assistance, to avoid duplication of orders and to
30 provide a single system for tracking resources for cost share agreements.

31 Guidelines

- 32
33 • The unified commanders will determine which agency ECC will be identified as the UOP.
34 Notification will be made immediately by each agency involved.
 - 35 • The UOP should be staffed with personnel from all agencies involved in unified command. Once
36 the UOP has been designated, it should remain at that location for the duration of unified
37 command.
 - 38 • The UOP will use the Order Number that has been assigned by the agency in whose Direct
39 Protection Area (DPA) the incident started. This number should not change for the duration of
40 the incident.
 - 41 • All requests from the incident will be processed through the UOP.
 - 42 • The UOP will utilize local agency resources and those available through agreements with local
43 cooperators of the agency assuming financial responsibility before passing requests to the next
44 level.
 - 45 • When the UOP is unable to fill a request, it will be placed to the next level ECC based on the
46 UOP host's agency dispatch channels.
 - 47 • The incident will order cache items direct from the nearest national cache.
 - 48 • Refer to California Mobilization Guide Chapter 40 for Hired Equipment.
- 49
50
51
52
53
54

1 Relocating the UOP

2 It may be necessary to relocate the UOP due to one of the following conditions:

- 3 • The incident returns to a single jurisdiction (the UOP will be terminated and the responsible
- 4 agency ECC will assume the role).
- 5 • Unified commanders are advised and concur that limited or unsatisfactory service will result if
- 6 the UOP remains at the current location.

7
8 The following guidelines are recommended:

- 9 • Determine the new location.
- 10 • All documents (or clean copies) will be moved to the new UOP location prior to commencing
- 11 operations.
- 12 • Allow adequate time for transition including movement of UOP personnel and documents.

13 Resource Ordering

14 **ROSS shall be used for documenting mobilization and demobilization actions of all resources.**

15 Reference the California ROSS Business Practices and Standards guide for procedures in utilizing the

16 program.

17
18 The Resource Order form will be used as the backup for all agencies. Refer to the California

19 Mobilization Guide, Appendix A.

20
21 All resource requests will be submitted using Resource Ordering and Status System (ROSS). Only

22 requests for aircraft and/or immediate need ground forces may be made using the intercom, then followed

23 as quickly as possible with the matching ROSS request. This allows immediate-need resource requests to

24 be processed in the most expedient manner. All other ordering is to be accomplished utilizing ROSS and

25 the telephone.

26 Request Information

27 Request Number:

28 Reference the California ROSS Business Practices and Standards document for detailed information

29 regarding requests. All known information, as detailed as possible, including the financial code and

30 reporting instructions, will be entered into ROSS.

31 Federal FireCode:

32 A FireCode will be generated for all incidents using federal resources or resources from federal caches.

33 Non-federal Units that have interagency or collocated federal cooperator, the federal cooperator will

34 generate the FireCode.

35
36 The first federal Unit or GACC assisting a standalone non-federal Unit will generate the FireCode and

37 provide it to the host Unit to enter into ROSS.

38
39 For out of GACC requests the host GACC will create the FireCode.

40 Travel Mobilization and Demobilization

41 Resource Ordering and Status System (ROSS) will be used for mobilization and demobilization of

42 resources from all incidents. All times (ETA and ETD) are in local time zones.

43
44 Mobilization travel will normally be arranged by the sending Unit and demobilization travel will be

45 arranged by the incident host. In the event the incident host or sending Unit does not have the ability to

46 make necessary travel arrangements, contact the GACC for direction.

47
48
49
50
51
52

1 Demobilization of personnel and resources from the incident to the home Unit must follow the chain of
2 command and remain within established communication channels. Complete and accurate records of
3 personnel, transportation, and equipment are a must.

4 Commercial airline travel will be documented in ROSS using the Travel Itinerary function.

5 Any travel involving a known RON (Remain Over Night) location will also be documented in ROSS
6 using the Travel Itinerary function.

8 CAL FIRE

9 Some CAL FIRE Units have approved initial attack operating plans with jurisdictions out-of-state. In
10 those cases, dispatch resources in accordance with those plans. Whenever possible have the requesting
11 out-of-state agency make travel arrangements for CAL FIRE personnel through the host agency's travel
12 agent so the bill can be paid directly by the requesting agency. For out of state travel on Federal incidents
13 the GACC can assist with making flight and rental car arrangements. Reference the CAL FIRE
14 Handbook 8100 procedure 600.

16 Emergency Demobilization

17 For emergency release of a resource, the Emergency Release Form will be completed by the host ECC
18 and submitted to the GACC. Refer to the California Interagency Mobilization Guide, Appendix A.

20 Demobilization Planning

21 Demobilization planning should begin with the mobilization build-up.

23 Notify the GACC prior to releasing out of Unit resources. Approval for releases will be obtained from
24 each level involved in processing the original request. This allows the agencies the opportunity to reassign
25 resources efficiently.

27 Demobilization Considerations

- 28 • Release Timing: The planning section will alert the incident host Unit with adequate lead time to
29 allow planning to be accomplished.
- 30 • Payments: Each agency will follow their incident business plan for incident payment processes.
- 31 • Transportation: Costs should be considered in determining release priority. Sufficient lead time is
32 imperative in arranging for transportation to be at the departure point when crews or personnel
33 are ready to depart. Late night releases or travel are to be avoided. Every effort will be made for
34 released resources to be home or RON by 2200, local time.
- 35 • Communications: Adequate communication between key personnel (i.e. Plans Section Chief,
36 Demob Unit Leader, Logistics Chief, Ground Support Unit Leader, Finance Team, Agency
37 Representative if applicable, GACC and home Unit.) must be established and maintained. It is
38 important that the ECC receive notice of ETA of returning personnel in sufficient time to arrange
39 for their travel.

41 Demobilization Plan

42 All extended attack incidents involving out of Unit or national resources will have a demobilization plan.
43 A copy will be provided to the incident expanded dispatch and the GACC in a timely manner prior to
44 resources being released from the incident.

46 Each Demobilization Plan has five parts:

47 1. **General Information.**

48 Includes procedures to get resources from incident base to home.

49 2. **Responsibility.**

50 Includes specific procedures and responsibility for each function on release, schedule and
51 transportation, or other specific areas that need to be covered.

52 3. **Release priority.**

53 Includes procedures to coordinate and establish a release priority list.

54 4. **Release procedures.**

1 Includes specific procedures to be followed for surplus resources.

2 **5. Incident Directory.**

3 Includes all communication methods from base to dispatch, with a list of names and phone
4 numbers for all functions.

5 **Contract Resources/Hired Equipment**

6

7 **Federal**

8 Administratively Determined (AD)/Casual Hire refers to individual personnel hired for emergency
9 purposes. Reference the federal Interagency Incident Business Management Handbook.

10

11 Contract engines and crews are a resource of the host Unit dispatch center. The contract resources will
12 be dispatched through the host Unit.

13

14 Regional contract resources may be utilized when agency resources are insufficient to meet present and
15 anticipated needs according to the Unit's Specific Action Guide and/or the Geographic Area Staffing
16 Guide.

17

18 Units will check the availability of agency resources (federal/state) within their GACC prior to using
19 contracted resources. When mobilizing contract resources, Units will utilize agency owned resources
20 first, followed by agency cooperators, national contract resources, regional contract resources, and then
21 contract resources, according to agency direction. Requests for contract resources will follow normal
22 dispatch procedures.

23

24 Contract resources ordered in strike team configuration will use agency personnel as the strike team
25 leader.

26

27 For mobilization of national contract resources, reference the National Interagency Mobilization Guide,
28 Chapter 30 for crews and Chapter 40 for Equipment and Supplies.

29

30 For mobilization of Regional Forest Service contract resources, refer to the California Interagency
31 Mobilization Guide, Chapter 30 for Crews and Chapter 40 for Equipment.

32

33 **CAL FIRE**

34 Hired equipment resources may be utilized when agency resources are insufficient to meet present and
35 anticipated needs. The contract resources will be dispatched through the host Unit.

36

37 Specifics for hired equipment and emergency workers can be found in CAL FIRE Handbooks 3900 and
38 7700, section 3934 and section 7761.

39

40 Refer to California Interagency Mobilization Guide, Chapter 40 for Hired Equipment.

41

1 Preparedness Plan

3 Preparedness Plan For Wildland Fire Agencies Of California

4 The Preparedness Plan is endorsed by the California Wildland Fire Coordinating Group (CWCG) which
5 represents the following agencies:

- 7 United States Forest Service
- 8 California Department of Forestry and Fire Protection
- 9 Bureau of Land Management
- 10 National Park Service
- 11 U.S. Fish and Wildlife Service
- 12 Bureau of Indian Affairs
- 13 Governor's Office of Emergency Services
- 14 CAL FIRE Contract Counties

16 Purpose

17 California will have two preparedness levels, corresponding to the North and South Geographic Areas.
18 These levels will reflect fire activity and fire weather conditions in each Geographical Area and therefore
19 may be different. California's commitment to meet National activities will only extend to federal
20 personnel and resources which are available. State, County, and Local Fire Department Resources can
21 only be made available on a case by case basis determined at the time requested.

23 The purpose of the Preparedness Plan is:

- 24 • To coordinate workforce and equipment needs for wildland fire activities and prescribed fire.
- 25 • To ensure that fire protection responsibilities and commitments to prescribed fire do not exceed
26 State wildland fire capabilities, and are coordinated with state and national wildland fire
27 activities.

29 Monitoring

30 Preparedness Levels 1, 2, and 3 will be monitored and managed by the GACC in Redding and Riverside.
31 The determination of these levels will represent a consensus of the Interagency Coordinators from the
32 Forest Service, Department of the Interior, and CAL FIRE management. Preparedness Levels 4 and 5
33 will be declared by a consensus of the members of the CWCG / CalMAC (California Multi-Agency
34 Coordination Group). The GACC will contact the Chair of CWCG to recommend moving above
35 Preparedness Level 3. The Chair of CWCG will contact the members or representatives to develop
36 consensus on the recommendation, and report the result to the GACC. CWCG does not need to convene
37 for moving from Preparedness Level 4 to Preparedness Level 3.

39 Preparedness Level Activation and Deactivation

40 Based on fire weather, fire activity, and resource commitment to wildland fires, prescribed fires, and fuels
41 projects, each GACC will start preparedness planning no later than May 1 and continue to at least October
42 15 of every year.

43 Each agency representative will initiate the restrictions imposed by the preparedness levels upon those
44 lands within their jurisdiction. Federal agencies will impose these restrictions that are required by the
45 National Preparedness Plan as well.

47 Managers of prescribed fires and fuels projects using national resources (Type 1 handcrews, air tankers,
48 etc.) are to request the use of the national resources from the appropriate GACC each day prior to
49 implementation. GACC agency coordinators will also track the planned use of these national resources in
50 contingency planning to avoid simultaneous commitment of the same resources to multiple fires or
51 projects.

Preparedness Levels**Preparedness Level 1**

Definition: Few or no class A, B, and C wildland fires. Minimal or no commitment of interagency resources to suppression activities. Current and short-range predictions for low to moderate fire danger. Local Units implementing prescribed fire operations with sufficient contingency resources available. Agencies above drawdown levels and requests for personnel and resources outside of the local area are not occurring.

Action/Responsibility:

- North and South GACC post preparedness levels out on the daily situation report for agency field Units.
- North and South GACC to notify NICC of starting preparedness planning or daily preparedness level.
- All prescribed fires within Geographical Areas are to be reported to the respective GACC for inclusion in the morning report. Coordinators to notify Units if national/shared resources are not available as contingency resources.

Preparedness Level 2

Definition: Numerous class A, B, and C wildland fires. Local commitment of interagency resources for initial attack, fuels projects and wildfires managed for ecological objectives. Current and short-term weather predictions for moderate fire danger. Local Units implementing prescribed fire operations with sufficient contingency resources available. Agencies above drawdown levels and requests for personnel and resources outside of the local area are of minimal to low impact.

Action/Responsibility:

- Continue Preparedness Level 1 activities.

Preparedness Level 3

Definition: High potential for Class D and larger fires to occur, with several active Class A, B, and C fires. Mobilization of agency and interagency resources within the geographic area, but minimal mobilization between or outside of geographic area. Current and short-term forecasted fire danger is moving from medium to high or very high. Local Units implementing prescribed fire operations starting to compete for interagency contingency resources.

Agencies still above drawdown levels for suppression resources, but starting to have difficulty maintaining sufficient resources to meet initial attack responsibilities, project fire support, and fuel projects/prescribed fire requirements without prioritizing or using non-local support. Some critical resource needs are starting to be identified.

Action/Responsibility:

- Continue previous preparedness activities.
- CWCG chair is made aware by GACC's when fire danger, fire activity, drawdown, and GACC mobilization patterns likely to lead to Level 4. Chair of CWCG informs members of current preparedness level in advance of moving to Preparedness Level 4.
- When a prescribed burn is scheduled or is in progress the appropriate Coordination Center will be informed through agency channels of the date of ignition, acres planned to be burned during the next 24 hours, and acres burned the previous day.
- Cooperating agencies can limit the use of their resources as contingency resources, or make them unavailable for use on prescribed fires.
- Establish contact with appropriate geographic area military aviation assets and apprise them of current preparedness level.

Preparedness Level 4

Definition: Continuing initial attack activity and Class D or larger fires are common in one or both geographic areas. Resource ordering and mobilization of personnel is occurring between GACC. The long range forecast for the next week indicates continued high fire danger. Local Units may implement new fuels and prescribed fire projects, but operational and contingency resources must be provided by the agency or by local arrangements.

Long range fire weather forecasts predict high to very high fire danger. Significant potential exists for moving into extreme fire danger in at least one geographic area.

Personnel and resources at minimum drawdown levels, especially for initial attack. Fuels projects and prescribed fires can only be implemented with agency contingency resources or special arrangements within the local Units.

Mobilization and resource requests are occurring for suppression assignments within the GACC and between the Northern and Southern GACC.

Action/Responsibility:

- Continue with previous preparedness activities.
- CalMAC determines the need for conference calls.
- Consider activation of the California Interagency Military Helicopter Firefighting Program.
- Consider activating Military Aviation Operations Coordinator to proactively work with local military aviation assets.

Preparedness Level 5

Definition: CalMAC is fully activated. Agencies are below drawdown levels. Class D and larger fires are common in one or both geographic area. Either or both GACCs cannot fill many outstanding resources requests and are sending these orders to NICC. Use of local government resources is common. Reassignment of personnel and resources between incidents is common.

Current and short range weather forecasts predict very high to extreme fire danger. Long range forecasts for the next week for either GACC indicate continued very high to extreme fire danger. Activation of National Guard or military personnel and resources is being considered or has occurred.

Requests for CAL FIRE resources are causing the agency to drop below drawdown levels. State and Local government personnel are being used to fill out-of-state requests. Actual and long range fire danger predictions are for very high or extreme.

Personnel and resources are at or below agency minimum drawdown levels.

Action/Responsibility:

- CalMAC has been activated either with conference calls or at one location. Statewide priorities being set by CalMAC.
- The status of on going fuels projects or prescribed fires will be reviewed by CalMAC, as well as any proposed new fuels/wildland fire use/prescribed fire projects. Final decision to implement rests with implementing agency.
- No new prescribed fire without approval by CalMAC representative that these activities are expected to have no significant effect on suppression activities. Existing projects should consider different management strategies to make personnel available for suppression activities elsewhere. Final decision to implement these projects rests with the implementing agency.
- Individual Units will report resource status to CalMAC as specified (as needed).
- CalMAC assesses statewide/national situation for determination of the need for resources.

1 Guidelines for Determining Preparedness Level

2 The following information will be used to determine preparedness levels for the Northern Operations and
3 Southern Operations, and/or the entire state.

- 4
- 5 • Current California and National fire situation.
- 6 • National Preparedness levels.
- 7 • Predicted fire potential.
- 8 • Firefighting resource availability.
- 9

10 Move up

11 When resource availability becomes critical and extreme incident danger is expected to continue, move
12 up resources may become necessary (aircraft, crews, engines, etc.).

14 Forest Service

15 Resource move up must be approved prior to such action taking place. Each GACC Coordinator must
16 assess the situation, and if such actions are determined necessary, approve expenditure of funds for move-
17 up.

19 CAL FIRE

20 When resources are needed for move up from outside a Unit, the Unit must enter a request into ROSS and
21 place the request to the GACC. The GACC will assess the overall situation of the Region, and shall place
22 the requests with the appropriate Unit to fill. Reference the CAL FIRE 8100 Handbook, policy 8121.

24 BLM & NPS

25 Requests for resource move-up will be initiated by the requesting District or Park and coordinated
26 through the DOI Coordinator. Move up requests will then be processed through normal procedures
27 through the respective GACC.

29 Drawdown Levels

30 Drawdown definitions for engines, crews and aircraft:

- 31
- 32 **0** There is **no resource drawdown** (fully staffed with minimal commitment to initial attack).
33 Initial attack success is highly probable.
- 34
- 35 **1** Resource **drawdown is Moderate** (approximately two-thirds of resources available). Initial
36 attack success is likely.
- 37
- 38 **2** Resource **drawdown is Significant** (approximately one half of resources available). Initial attack
39 success is marginal.
- 40
- 41 **3** Resource **drawdown is Critical** (approximately one-third of resources available). Initial attack
42 success is questionable. There are insufficient resources to support any new large fires.
- 43

44 Forest Service Minimum Drawdown Standard

45 The following matrix depicts the minimum resources necessary to ensure Forest Service GACC coverage:

46	47 North Ops	48 South Ops
49 Type 1 Crews	4	4
50 Smokejumpers Load	1	0
51 Helicopters	4	4
52 Airtankers (heavy) on order	1	1
53 Type 2 IMT's	1	1
54 Aerial supervision	1	1

1
2 DOI Agencies Drawdown Levels
3 Department of Interior Agencies will follow the identified draw down levels per the Agencies Fire
4 Management Plans.

5
6 CAL FIRE Drawdown Levels
7 CAL FIRE incident drawdown levels are defined in the CAL FIRE 8100 Handbook, policy 8121.

8 9 **California Incident Priorities**

10
11 When California is involved in multiple incidents that are drawing resources, the cooperators (USFS,
12 CAL FIRE, BLM, NPS, and other wildland agencies) will prepare a California Incident Priority List.

13
14 The GACC will revise the list daily and provide it to NICC, the GACCs, involved cooperators, and Units
15 with incidents. Priorities are negotiated with involved cooperators and incorporated into the Multiagency
16 Coordinating Group (MAC) Incident Status Summary, ICS Form 209, and other documents.

17
18 MACS Group Procedure Guide (MACS 410-1) can be found at this web address:
19 <http://www.firescope.org/macs-docs/MACS-410-1.pdf>

20 21 **Joint Criteria Used To Determine Priorities:**

22
23 Threats and Potential for Current and Projected:

24 **A. Life and Safety Threats (Public and Emergency Responders) (maximum total points is 15)**

25 Definition: Events which increase complexity, resulting in high potential for serious injury and/or death.

27 A.1 Evacuations	27 Rating
28 In Progress	5
29 Precautionary	3-4
30 Potential (48-72 hrs.) or Completed	1-2
31	
32 A.2 Road, Highway or Freeway Closures	
33 Major Highway or Freeway	4-5
34 State Routes or Improved Roadways	2-3
35 Potential for Closures 48-72 hrs.	1
36	
37 A.3 Extreme Fire Behavior, Weather Event, Natural or Human Caused Disasters	
38 Occurring or Predicted/Forecasted to Continue (24 hrs.)	5
39 Predicted/Forecasted 24-72 hrs.	3-4
40 Occurring but Predicted/Forecasted to Diminish	1-2

41 42 **B. Property Threatened and/or High Damage (Next 48 hours) (maximum total points is 15)**

43 Definition: This category relates to potential for damage or actual impact to Communities or other high
44 value investments that contribute to dwellings, commercial workplaces and critical infrastructure that
45 supports human life, income or support to the general population. Threats under this category should not
46 be listed unless there is significant potential to impact these elements and an eminent threat is recognized
47 within a 48-hour timeframe.

49 B.1 Structures (residential, commercial, vacation or other)	49 Rating
50 200+	4-5
51 25-200	3-4
52 <25	1-2

53
54
55

1	B.2 Community Loss (within 48 hours)	
2	Potential for >75% Community Loss	5
3	Potential for 50-75% Community Loss	4
4	Potential for 25-50% Community Loss	3
5	Potential for <25% Community Loss	1-2

6		
7	B.3 Infrastructure – National, State, Local (Power Lines, Energy Corridors, Domestic Water Systems, Communications Grid, Railroads, etc.)	
8		
9	Systems shutdown and/or damaged	5
10	Potential threat 24-48 hrs.	3-4
11	Potential threat 72+ hrs.	1-2

12

13 **C. Resource Issues and Potential for Loss (maximum total points is 20)**

14 Definition: Resource concerns can vary widely depending on place and type of resource considered. Each
 15 of the below items must be carefully considered in its relation to both local/regional or national
 16 significance and may have economic impact at local or regional levels. Resources that are not
 17 commercial should be considered in the Natural Resources category rather than in both Natural and
 18 Commercial Resources. Consider timeframes and proximity when rating.

19		Rating
20	C.1 Historical and Significant Cultural Resources	1-5
21	C.2 Natural Resources (T&E Species Hab., Watershed, Forest Health, Soils, Airshed, etc.)	
22	1-5	
23	C.3 Commercial Resources (Grazing, Timber, Agricultural Crops, etc.)	1-5
24	C.4 Potential for Economic Impact (Tourism i.e. fishing, hunting; loss of jobs, etc.)	1-5

25

26 **D. Incident Complexity/Duration (maximum total points is 10)**

27 Definition: Multiple incidents or complex of incidents versus a single incident have a way of making
 28 prioritization setting difficult. However, it is common enough that it needs to be included in the process.
 29 Attention needs to be given to travel distances, support to incident personnel and logistical challenges not
 30 always associated with a single incident.

31

32 Timely containment implies that if all critical resource needs from the 209 were met, then containment
 33 objectives would be met within the specified timeframes indicated. Containment at an early date is
 34 beneficial during high activity periods and would result in earlier resource reassignment opportunities to
 35 supplement Initial Attack or to assist other incidents.

36		
37	D.1 Complex vs. Single Incident	Rating
38	5+ incidents or >25,000 acres	4-5
39	3-4 incidents or 5-25,000 acres	2-3
40	1-2 incidents or <5,000 acres	1

41		
42	D.2 Potential for Timely Containment and/or Mitigation	Rating
43	<72 hrs.	5
44	3-7 days	4
45	8-14 days	3
46	15-21 days	2
47	Unknown or long term management	1

48

49 **NOTE:** Initial attack, new starts, and life threatening situations have overall priority, overriding the
 50 priorities listed above.

51
 52
 53
 54
 55

1 Handling Hazardous Materials

2
3 Procedures for handling hazardous materials can be found in each Unit's Plan for Handling Hazardous
4 Materials. Reference materials listed below are to assist in the appropriate handling of these materials.

- 5 • Transportation of Hazardous Materials - 49 CFR, Sections 106-180
- 6 • Department of Transportation Emergency Response Guidebook.
- 7 • Medical Waste Management Act, California Health and Safety Code Division 20, Chapter 6.1.
- 8 • International Air Transportation Association (IATA) 35th Edition.
- 9 • Material Safety Data Sheets (MSDS)

10 Dozer and Helicopter Use in Wilderness and Special Areas**11 Forest Service**

12
13 Agency Administrators will prepare requests for use of dozers and helicopter within wilderness areas.
14 Requests will be specific in terms of work to be considered (length and width of fire line, and other
15 factors), and consequences of not using the equipment. The request will go through the Agency
16 Administrator, who will obtain permission or denial from the Regional Forester. The request will be in
17 writing, via electronic mail, or by telephone if after hours (followed up in writing the next day).
18
19

20 Department of Interior Lands

21 BLM State Director approval is required for use of dozers on Bureau of Land Management Wilderness
22 Areas and Wilderness Study Areas (WSA). In Areas of Critical Environmental Concern (ACEC) the
23 local agency administrator can approve dozer use. On all other DOI Units the approval is given by the
24 local Unit Agency Administrator.
25

26 Disaster Procedures**27 Federal Resource Response**

28 With a federal declaration the federal agencies will provide assistance based on the Emergency Support
29 Function (ESF) identified under the declaration (for additional information
30 <http://www.fema.gov/pdf/emergency/nrf/nrf-esf-intro.pdf>).
31
32

33 Without a Presidential declaration of a major disaster, the ability of the federal agencies to react is
34 lessened. Local Units must respond within their normal authorities and under local agreements.
35 Authority to take action in disasters and emergencies when there is an imminent threat to life or property
36 is the Disaster Relief Act of 1974 (PL 93-288). Where there is no agreement in effect, the Act of May 27,
37 1955 authorizes the Forest Service to take action for incident emergencies and the BLM Manual
38 authorizes the BLM to take action where a life threat exists.
39

40 CAL FIRE Resource Response

41 CAL FIRE Units can respond to non-fire incidents based on Unit Chief discretion or may be mission
42 tasked by the Governor's Office of Emergency Services. Reference CAL FIRE Handbook 8100, policy
43 8162.
44

45 Accident and Incident Reporting

46 Follow Agency Specific Policies.
47
48
49
50
51
52
53
54

Critical Incident Stress Management Procedures (CISM)

A Critical Incident is any incident so unusually stressful and powerful that it breaks through an individual's emotional defenses to cause an immediate or delayed emotional reaction that may be beyond a person's ability to cope. Examples of critical incident and when to call for support are:

- Death of a team or crew member.
- Fire shelter deployment, loss of life following (or despite) unusual physical or emotional effort (rescue personnel, co-workers providing assistance, etc.).
- An accident with casualties/injuries or an incident with serious potential to have caused an accident.
- Incidents requiring the suppression of normal reactions.
- Events charged with profound emotion.

All local, state, and federal fire fighting agencies endorse the use of CISM in California. The agencies offer CISM services to all personnel exposed to critical incident situations on the job. To this end, regardless of which Unit has management and control, CISM should be offered to personnel following a critical incident situation. Critical Incident Stress Management interventions are most effective when applied 72 hours or longer after a critical incident. It is important for personnel to operationally disengage and often reconnect with family or other support before participating in CISM services.

Requests for CISM support should be made by the Agency Administrator or designee to the appropriate GACC (see specific agency for direction below). A general overview of the situation is required and the GACC will work with the CISM Coordinator to facilitate placing resource orders as needed via a roster in ROSS. CISM support group personnel are ordered as THSP.

The following information should be provided to assist the responding CISM group:

- Description (type) of incident.
- Number of employees in need of CISM services.
- Whether any family members or children are involved. (Note: Authority to provide service to FS and CAL FIRE family members is covered under the EAP -- which extends services to family members for the benefit of employees and the agency.)
- Date and time of incident.
- Desired day, time, and location for support services. However the CISM Coordinator will determine the most appropriate time and location based on the incident, resource availability and number of personnel involved.
- Name and phone number of Unit contact.
- Name, phone number, and location on site of main contact for on site coordination, once CISM specialist arrives.

Federal Incidents

The GACCs have established an Interagency Critical Incident Stress Peer Support Program with the federal agencies to provide assistance to personnel who have been involved in traumatic events. To order CISM Peer Support Groups contact the Duty Chief or AD through either GACC at: Northern Operations 530-226-2800 Southern Operations 951-276-6725.

The CISM Coordinator will work with the Agency Administrator or designee to coordinate the response. The CISM Coordinator and designated CISM group lead will coordinate with the Incident Commander or team designee if there is an Incident Command team assigned.

Region 5 does not host or mobilize "CISM Teams" but provides peer support.

Critical Incident Stress Management Callout procedures provide an organized approach to the management of stress responses for personnel having been exposed to a traumatic event in the line of

1 duty. The establishment of these procedures does not prevent an employee from seeking individual
2 consultation through the Employee Assistance Program.

3
4 Under no circumstances should CISM or any of its components be considered psychotherapy or a
5 substitute for psychotherapy. Peer and Group Supporters are not licensed health care professionals and
6 should not be utilized in lieu of a licensed clinician. A clinician is ordered at the time of the support
7 group being organized and has skills specific to the incident being managed.

8
9 The costs for CISM services in fire operations are to be charged to the fire incident's management
10 code. Non-fire incidents should be charged to the Unit.

11 **CAL FIRE Incidents**

12 CAL FIRE Units should be familiar with local procedures for CISM Team activation, reference CAL
13 FIRE Handbook 1800, Policy 1861.

Chapter 20

Chapter 20 – Overhead/Teams

Overhead

Units will maintain a list of qualified personnel for assignments and keep their qualifications current in ROSS and/or the agency's system of record. Units will maintain a hard copy of personnel qualifications, to serve as a backup to ROSS.

If a request is required to be self-sufficient it means the resource will be able to provide their own food, lodging and local transportation if needed.

Name Requests

Overhead can be name requested. Prior to placing the request, the ordering Unit will receive confirmation of availability, supervisor approval, Unit ID, and verify person is qualified or trainee in ROSS for requested position.

The CAL OES Name Request Justification form is required for all local government overhead name requests with the exception of IMT members. IMT members rostered in ROSS, on the initial fill of the team, do not require a Name Request Justification form. Team members responding after the initial team roster has been filled in ROSS require a Name Request Justification form.

The form can be located at: <http://www.calema.ca.gov/FireandRescue/Pages/Documents-and-Publications.aspx#>

Pre-suppression/suppression detail requests in ROSS must be accompanied by a Preparedness/Detail Request form. Form will be submitted to the GACC. Refer to the California Interagency Mobilization Guide, Appendix A for the link to this form.

Specialized Overhead

All specialized overhead will be ordered through normal ordering process unless otherwise specified.

Air Resource Advisor – ARA -Federal

The need for an ARA will vary based on conditions with the incident, topography, weather, population, exposure risk, dispersion and area attainment designation. An incident smoke footprint can often span multiple air quality and public health jurisdictions as well as state boundaries. The ARA involvement will range from factors encompassing incident management to community, state, and tribal coordination with agency administrators.

All ARA order requests will be placed by the appropriate GACC and submitted through the GACC Predictive Services Program Managers or staff meteorologists. Requests will often be initiated by incidents, GACC's, Agency Administrators, or agency Air Quality Program staff. All orders will be coordinated as name requests with the Washington Office (WO) FAM Smoke Coordinator. Orders are authorized to commence upon concurrence of the requesting official and the GACC Predictive Services Meteorologists. Duty locations may vary from incidents to GACC's depending on complexity and occurrence of multiple events.

Air Quality Monitoring equipment can be ordered through agency air quality staff and will be coordinated, as necessary, with the California Air Resources Board Office of Emergency Services, Tribes and respective Air Quality Management Districts.

Ordered in ROSS as: THSPs with the special needs "Air Resource Advisor" then placed to the GACC.

1
2 Key contacts:

3			
4	Pete Lahm - WO	plahm@fs.fed.us	602-432-2614 (cell)
5		Pete.lahm@gmail.com	661-GET-1ARA
6	John Snook - NOPS	jsnook@fs.fed.us	530-226-2730 (desk)
7	Tom Rolinski - SOPS	thomasrolinski@fs.fed.us	951-782-4849 (desk)
8	Trent Procter - Air Quality Program	tprocter@fs.fed.us	559-783-3308 (cell)
9			

10
11 **Archaeologists (ARCH) – All Agencies**

12 Efforts should be made to incorporate archaeologists into the fire organization.
13 Federal - a list should be available at each Federal Unit of qualified archaeologists. Unit archaeologist
14 should be pre identified.
15 CAL FIRE – all requests for archaeologists will placed to the appropriate GACC.

16
17 **Cost Share Specialist – All Agencies**

18 Cost Share incidents (multi-jurisdictional, unified command) may require special skills to develop a cost
19 share agreement. When determined by the incident and the incident management team, Cost Share
20 Technical Specialists can be ordered. In most cases, the expectation is to have a Cost Share Specialist
21 representative from each agency having jurisdiction on the incident.

22
23 Federal - Cost Share Specialist orders will be coordinated with the appropriate federal incident business
24 coordinator (listed below) to ensure resource assignments are commensurate with the complexity of the
25 incident.

27	Agency	Contact	Office	Cell
28	BLM	Ann Marie Carlson	916-978-4446	916-496-0518
29	BIA	Julie White	916-978-6146	916-215-5653
30	FS	Yolie Thomas	707-562-8835	707-980-3956
31	FWS	Jessica Wade	916-978-6181	916-230-1730
32	NPS	Berkeley Yoshida	808-985-6100	510-604-1373

33
34 Once a Cost Share Specialist is ordered, that individual shall identify and order the necessary Cost Share
35 Analyst position(s). Both the Cost Share Specialist and Analyst can be ordered as a Name Request.
36 Cost Share Specialists will be ordered as THSPs in ROSS. In special needs include “Cost Share
37 Specialist”.

38 Cost Share Analysts will be ordered as THSPs in ROSS. In special needs include “Cost Share Analyst”.

39
40 CAL FIRE - Cost Share Specialists will be ordered as Cost Apportionment Technical Specialists (CATS).

41
42 **Hired Equipment Technical Specialist (EQTS) – CAL FIRE**

43 Assists the incident with contract administration and ensure contract compliance through technical fire
44 contract inspection.

45
46 **Human Resource Specialist (HRSP) – Federal**

47 HRSPs are assigned to federal incidents when a federal IMT is assigned.

48
49 **Incident Contract Project Equipment Inspector (ICPI) – FS**

50 Assist the incident with contract administration and ensure contract compliance through technical fire
51 contract inspection.

52 ICPI’s can be ordered by the incident; name requests are appropriate.

53 If there is need for ICPI’s on multiple simultaneous incidents, contact Sue Zahn, R5 FAM Contract
54 Operations Program Manager, for assistance, 951 217-5146

1 Incident Meteorologist (IMET) – All Agencies

2 When an IMET is requested for an incident, the request will be created and placed to the appropriate
 3 GACC. The GACC will then request an IMET from the NWS National Fire Weather Operations
 4 Coordinator (NFWOC) at 1-877-323-IMET (4638). The NFWOC will advise the GACC of fill
 5 information. The GACC will advise the requesting Unit to edit the request to a "Name Request" with the
 6 fill information. The IMET will be mobilized by the appropriate GACC.

7 NOTE: All requests for IMETs must note in Special Needs, "authorizing a rental vehicle and computer
 8 support".
 9

10 The following list designates which California GACC will status and dispatch personnel for the
 11 California Weather Forecasting Offices. ROSS status can be maintained as Available/Local.
 12

North Ops		South Ops
CA-EKAW	Eureka WFO	CA-HNXW Hanford WFO
CA-STOW	Sacramento WFO	CA-LOXW Los Angeles/Oxnard WFO
CA-MTRW	San Francisco/Monterey WFO	CA-SGXW San Diego WFO
HI-HFOW	Honolulu WFO	
AS-PPOW	Pago Pago/American Samoa WFO	

20 Interagency Incident Business Advisors (INBA) – Federal

21 IBAs provide oversight on administrative and financial activities and serve under the authority of the
 22 Agency Administrator, as per each agency's policy. Name requests are appropriate.
 23

24 IBA orders will be coordinated with the appropriate federal incident business coordinator (listed below) to
 25 ensure resource assignments are commensurate with the complexity of the incident.
 26

Agency	Contact	Office	Cell
BLM	Ann Marie Carlson	916-978-4446	916-496-0518
BIA	Julie White	916-978-6146	916-215-5653
FS	Yolie Thomas	707-562-8835	707-980-3956
FWS	Jessica Wade	916-978-6181	916-230-1730
NPS	Berkeley Yoshida	808-985-6100	510-604-1373

34 In some situations, IBA assignments are filled with an individual from the local Unit. Orders will be
 35 initiated by incident host Unit, not the Incident Management Team.
 36

37 Infrared Interpreters (IRIN) – All Agencies

38 All national infrared flights require an Infrared Interpreter be ordered.

39 All requests for IRIN will be placed with the GACC. The GACC overhead desk will work with the
 40 California or National IR Coordinator to find a qualified IRIN.

41 For additional ordering information, refer to California Interagency Mobilization Guide, Chapter 40.
 42

43 Smokejumper (SMKJ) – All Agencies

44 Refer to California Interagency Mobilization Guide, Chapter 40.
 45

46 Training Specialist (TNSP) – All Agencies

47 The training specialist organizes and implements the incident's training program, by developing
 48 individual training plans and documenting individual trainee assignments.
 49

50 All Agencies – A training specialist will be ordered, as part of an IMT activation. A TNSP may also be
 51 ordered on non-team incidents, at the discretion of the incident commander. Order through normal
 52 ordering process.
 53

1 FS – Upon activation of a Type 1 or Type 2 IMT on a Forest Service incident, the GACC Training
2 Officer, in concert with the host Forest, shall process a resource order requesting a minimum of 20
3 trainees. Forest Service will have first attempt to fill these requests.
4

5 **Wildland Fire Safety Officer – Federal**

6 When a federal agency activates an IMT, the GACC will notify the appropriate agency Wildland Fire
7 Safety Officer. It is the responsibility of the Safety Officer to notify the affected Unit if there is an
8 intended visit for the purpose of review or observation. Affected Units may initiate the request on their
9 own. Each agency will set its own guidelines for protocols regarding such visits. Unless otherwise
10 stipulated or agreed to, such visits should be of an informal nature to help foster positive safety attitudes
11 within the incident environment. Informal reviews and observational visits do not require a formal
12 entrance or exit meeting with agency administrators. Written documentation will be required if further
13 formal action or follow-up is needed by the IMT, affected Unit or a higher management level. The Safety
14 Officer will discuss the visit with the IMT and with appropriate members of the Agency Administrator's
15 staff prior to departing.
16

17 **Overhead Specialized Program**

18 **Logistics Accelerated Development – Federal**

19 The Logistics Accelerated Development (LAD) program is a mentoring program designed to allow for the
20 accelerated training and development of employees in the field of logistics.
21

22 The LAD Program Coordinator will maintain the roster of LAD trainees and their availability.
23

24 **LAD Dispatching Procedures:**

25 GACCs will notify the LAD Program Coordinator Sue Zahn, (w) 909-382-2786, or (c) 951-217-5146,
26 when any Forest activates a Type I or II Incident Management Team.

27 The LAD Program Coordinator, in consultation with the incident Logistics Section Chief, will determine
28 how many trainees may be utilized.

29 The LAD Program Coordinator will have the incident place “name request” orders for available LAD
30 trainees.
31

32 **Incident Management Teams (IMT)**

33
34 All Incident Management Team Rosters and Rotations are located at the end of this chapter.
35

36 **All Hazard Incident Management Teams – National Park Service**

37 The National Park Service has All Hazard Incident Management Teams for national use. The purpose of
38 the teams are to manage any incident except a wildland or prescribed fire.
39

40 These teams are ordered in ROSS as: Team, All Risk NPS.

41 The GACC will advise the Regional Contact listed below and then place the request to NICC.

42 Pacific West Region Contact: Regional Chief Ranger Scott Wanek, 540-999-3412 or cell 510-501-0459.
43

44 **CAL FIRE Incident Management Teams – Type 1**

45 CAL FIRE maintains 6 statewide Type 1 All Hazard Incident Management Teams to direct large-scale
46 complex emergency incidents. CAL FIRE IMTs are available year round for statewide response, with
47 one team on call at any given time.

48 CA IMTs are ordered through the GACC. These teams are ordered in ROSS as: Team, Type 1 Long
49

50 **California Federal Interagency Incident Management Teams – Type 1 and 2 – Federal**

51 The California Federal Interagency Incident Management Teams (IMT) are managed by the California
52 Wildfire Coordinating Group (CWCG), which consists of a representative from each agency with wildfire
53 suppression responsibility. CWCG is responsible for selecting team members, monitoring and evaluating
54 team performance, and providing for team member development.

1
2 CWCG will select and manage four Type 1 IMTs, as components of a national rotation established and
3 maintained by NICC, through the National Interagency Mobilization Guide.

4
5 California can activate all four CA IMTs before going to the National Rotation. The four Type 1 teams
6 are available for assignments to other geographic areas that utilize the Incident Command System for
7 managing wildfires.

8
9 CWCG will also select and manage seven Type 2 IMTs. Type 2 IMTs may also be available for out of
10 state mobilization. During Preparedness Levels 4 or 5, out of state mobilizations may be restricted to
11 ensure adequate coverage within the state.

12
13 CWCG sponsored Type 1 and 2 teams may have the following team composition listed below. The
14 California Incident Commanders have the flexibility to substitute the standard positions suggested below
15 with other positions according to the team needs, as long as they stay within the standard numbers.

16
17 Short Team Configuration (Total of 10 positions)
18 of 27 positions)*

19 Long Team Configuration (Total

20 1 ICT1
21 1 DPIC or ICT1(trainee)
22 2 OSC1
23 1 SOF1
24 1 PIO1
25 1 PSC1
26 1 LSC1
27 1 FSC1
28 1 AOBD

29 1 ASGS, 1 ATGS
30 1 SPUL, 1 FACL, 1 GSUL, 1 COML
31 1 SITL, 2 RESL, 1 FBAN
32 4 DIVS
33 1 TIME, 1 COMP, 1 PROC

34 *Long team includes the 10 positions from the Short team.

35
36 In addition to the 27 positions identified on the long team configuration, teams may have a maximum of
37 seventeen (17) positions to be negotiated and concurred on by the Incident Commander and the Agency
38 Administrator from the requesting Unit. They may bring an additional six (6) trainee positions and six (6)
39 S-420/520 command and general staff mentees. These positions are identified by the teams and not by
40 receiving Unit. Unless notified otherwise, these trainees will be mobilized for incidents on Federal lands.

41
42 The GACC's will annually compile a rotation schedule for the teams to be included in the California
43 Interagency Mobilization Guide.

44
45 NICC will be advised by the GACC as soon as the current Type 1 two-hour team is committed, to enable
46 them to place an out-of-region team in 24-hour rotation.

47
48 Teams will be mobilized through normal dispatch channels. GACCs will arrange transportation for local
49 government team members who do not have an agreement with a forest and are not self-sufficient, and
50 will advise/notify team member of the arrangements through their home Unit.

51
52 CA Federal IMTs are ordered through the GACC. These teams are ordered in ROSS as: Team, Type 1
53 Long; Team, Type 1 Short; Team, Type 2 Long; Team, Type 2 Short.

54 **National Area Command Teams – All Agencies**

Area Command (AC) is an organization established to ensure inter-incident coordination for Command,
Planning, Logistical and Aircraft matters. AC will work closely with the Multi-Agency Coordination
Group that establishes priorities for the GACC. AC will normally request their own support personnel to
work within the Area Command organization.

There are four National Area Command Teams. AC Teams are comprised of 6 positions: Area

1 Commander, Assistant Area Commander Planning, Assistant Area Commander Logistics, Area
2 Command Aviation Coordinator and 2 trainees identified by the Area Commander.
3 All requests for National AC Teams will be placed through established ordering channels to NICC. AC is
4 ordered in ROSS as: Team, Area Command.

5
6 CAL FIRE – The GACC may choose to order a National AC Team or assemble CAL FIRE personnel to
7 form a California Area Command Team. AC is ordered in ROSS as: Team, Area Command.

8 9 **National Incident Management Organization (NIMO) Team** – Federal

10 Appropriate assignments for NIMO consideration include: Wildland fire, Long Duration Incidents or
11 Mission Specific Assignments (regional and national special projects; require a completed Project
12 Request Form on the NIMO Web site: <http://www.nifc.gov/nimo>, under the contact us tab). For details
13 and trigger points for ordering NIMO, reference the National Interagency Mobilization Guide, Chapter
14 20.

15 NIMO teams are ordered through the GACC.

16 Ordered in ROSS as: Team, NIMO.

17 18 **Non-IMT Teams**

19 20 **Burned Area Emergency Response Teams (BAER)** – Federal

21 BAER Teams are ordered to assist field units to plan for immediate post-wildland fire site stabilization.
22 These teams address post incident needs, including: potential floods, mud and debris flows,
23 watershed/municipal water supplies.

24 It is the responsibility of the local Unit to select the number of team members and the skills needed by
25 those team members.

26
27 FS ordered in ROSS as individual overhead requests, as: BAES. In special needs, list type of skills
28 needed and level of skill.

29
30 DOI maintains two (2) National BAER Teams to assist field units plan for immediate post wildland fire
31 site stabilization. National BAER Teams are dispatched to only the most complex BAER incidents
32 involving risks to human life and critical Federal assets. Potential floods, mud and debris flows,
33 watershed/municipal water supplies, urban interface, and complex and multiple jurisdictions are the
34 dispatch prioritization criteria issues factored into the mobilization decision.

35
36 Ordered in ROSS as individual overhead requests, as the approved agency-specific BAER mnemonic (as
37 shown in IQCS/ROSS).

38 39 **Buying Unit Teams** – Federal

40 The Buying Unit will normally be assigned to and located on the Unit, and report to a designated
41 administrative staff based on location. Buying Unit Teams supplement the local Unit procurement and
42 dispatching organizations during emergencies.

43 Buying Unit Teams will be ordered through the GACC. If unable to fill regionally, the GACC will place
44 order through NICC for National Buying Unit Team. These teams are ordered in ROSS as: Team,
45 Buying.

46 47 **Damage Inspection Team** - Federal

48 Damage Inspection Team may be ordered by the incident through County CAL OES to assess structure
49 damage and loss.

50 51 **ECC Support Teams** – CAL FIRE

52 ECC Support teams provide personnel qualified in ECC expanded functions for timely mobilization in
53 support of Emergency Command Center operations. Reference CAL FIRE Handbook 7700, section
54 7758.

1 Dispatch procedure in CAL FIRE Handbook 8100, procedure 372.

2
3 There are a total of 10 teams statewide, with each Region fielding 5 teams. Normal configuration is Team
4 Leader/EDSP, Deputy Team Leader/EDSP(t) or EDSD, 2 EDSDs, 2 EDRCs and 2 optional trainee
5 positions.

6
7 Teams will be on immediate call (one-hour getaway) for one week rotations.
8 Order in ROSS as: Team, ECC Support CA Only.

9
10 **Fire Behavior Assessment Team (FBAT) – Federal**

11 The primary mission of FBAT is the collection of real-time fire behavior data on wildland fire incidents.
12 Collected data is used to validate the effectiveness of fuels, treatments, evaluate fire effects, improve
13 safety zone information, and/or calibrate fire behavior and emission modeling. This team consists of 5 to
14 12 fireline qualified personnel, led by overhead qualified at the strike team leader level or above. FBAT
15 may request a Wildland Fire Module with whom they have cross-trained or Missoula fire-lab personnel
16 involved in safety zone research to be ordered in conjunction with FBAT.

17
18 The Team is located on the Tahoe and Stanislaus National Forest and can be mobilized by contacting the
19 Team leads:

20
21 Carol Ewell 530-559-0070
22 Ali Reiner 530-559-4860

23
24 Ordered in ROSS as: individual overhead Technical Specialist (THSP) name requests. Include special
25 needs of “FBAT team member”.

26
27 For more information please visit: <http://www.fs.fed.us/adaptivemanagement/projects/FBAT/FBAT.shtml>

28
29 **Fuel Treatment Effectiveness Team – Forest Service**

30 The primary mission of the fuel treatment effectiveness teams is to provide documentation of the
31 effectiveness of fuel treatments on wildfire behavior or effects. This documentation is required by law to
32 be provided within 90 days of control of the fire (USDA Interim Directive 5140-2012-1). This team will
33 gather GIS and observational information about the fire and complete fuel treatment effectiveness
34 reporting including required entries in the Fuel Treatment Effectiveness Monitoring database (FTEM).

35
36 Team members are ordered in ROSS as THSP – name requests after contacting the Regional Fire
37 Ecologist, Neil Sugihara 916-640-1054. Include special needs of “Fuel Treatment Effectiveness Team
38 member”. One or more team members may be ordered.

39
40 **Interagency Dispatch Teams – Federal**

41 Dispatch teams provide personnel, qualified in Dispatch Center expanded functions, for timely
42 mobilization in support of wildland incidents. There are 5 federal dispatch teams in California. Normal
43 configuration is 2 EDSPs, 2 EDSDs, 2 EDRCs and up to 2 trainees.

44 Priority use of these teams is to support incidents in California. Out of state assignments will be approved
45 by the GACC on a case by case basis.

46 Team rotation will be bi-weekly, effective at 0800 on alternating Mondays. If Monday is a holiday,
47 rotation will occur at 0800 on Tuesday. The rotation schedule can be located at:
48 <http://gacc.nifc.gov/oncc/logistics/overhead/index.htm> and <http://gacc.nifc.gov/oscc/logistics/index.htm>.
49 There will be two teams available during the two week period. One team will be on a 2 hour callback and
50 the other on a 24 hour callback. If the team on 2 hour callback is assigned to an incident then the team on
51 24 hour call back will move to 2 hour callback.

52
53 Order in ROSS as: individual overhead, normally 2 EDSPs, 2 EDSDs, 2 EDRCs (plus trainees). Case by
54 case configuration. Check with the GACC for team availability and roster when ordering.

Medical Emergency Response Teams (MERT) – CAL FIRE

MERT is ordered when a significant commitment of California Department of Corrections and Rehabilitation (CDCR) inmate firefighters are assigned to an incident. A MERT is typically made up of three personnel consisting of a registered nurse and two medical technical assistants to provide medical assistance to inmate firefighters. The CDCR MERT personnel respond from the Susanville Training Center (LMU) and Sierra Training Center (TCU).

Order in ROSS as: MERT (California Only). Create and place a single overhead request for the team. If a higher level of medical care is needed document this in special needs.

Reference CAL FIRE Handbook 8100, procedure 388.

Next Generation ICS Team (NICS) – CAL FIRE

NICS is a mobile, web-based digital command and control platform, used on escalating incidents from first response to extreme-scale that facilitates collaboration across federal, tribal, military, state, county, local/municipal, and utility levels of preparedness, planning, response, and recovery for all-risk/all-hazard events. NICS is designed to develop situational awareness using real time data. The intel gathered can be shared with different parts of the command staff. The use of real time intel gives the decision makers of the incident additional tools that assist in supporting their incident objectives.

Order in ROSS as: individual overhead requests. Decision Support System Advisor (DSSA) and 2 Decision Support System Technical Specialists (DSTS) but can be scaled up or down to fit needs of the incident.

Retrograde Team – CAL FIRE

Upon the closure of an incident, excess items purchased through the emergency fund shall be retrograded (i.e. inventoried, documented, credited) to the incident and charged off to the appropriate account(s).

The incident will order a retrograde team 72 hours before the anticipated incident closure. The team will be requested to arrive at least 48 hours before the anticipated closure of the base.

A retrograde team will consist of a minimum of 3 personnel; a retrograde team leader, a representative from the host Unit (Fire Logistics Officer) and one representative from the incident (Logistics Section Chief).

Order in ROSS as: individual overhead requests. At least one request will be for a Retrograde Team Leader (RETG) and placed to the GACC. Additional requests may be made by the team leader for Retrograde Team Members (RETT).

Reference CAL FIRE Handbook 7500, section 7585.

Wildland Fire Modules – Federal (FS and NPS)

The primary mission and priority for these modules is to provide skilled and mobile personnel to assist with prescribed fires in the areas of planning, fire behavior monitoring, ignition, and holding. Secondary priorities (in order) include support of prescribed burn unit preparation, assistance with fire effects plot work, and support of mechanical hazard fuel reduction projects. Some agency restrictions exist for fuels related work.

As a national interagency resource, the modules are available nationally throughout the fire season. Each module is comprised of a module leader, assistant leader, three to five module members, and a detailer during the primary burning season.

FS has Wildland Fire Modules on the Stanislaus NF, Klamath NF, Sequoia NF and Inyo NF.

NPS has Wildland Fire Modules on the Whiskeytown NRA.

1 These modules are ordered in ROSS as: Module, Wildland Fire.

2015 California Type 2 Federal Interagency Incident Management Teams

	NORCAL (NC)	NORCAL (NC)	CNTRL CAL(CC)	CNTRL CAL(CS)	SOCAL (SC)	SOCAL (SC)	SOCAL (SC)
ICT2	Kurth, Jay	Johnson, Matt	Nunez, Mark	Cooper, David	Walker, Norm	Garwood, Don	Wakoski Michael
DPIC	Burns, Steve	Molhoek, Joe	Strawhun, Mike	Mills, Deron	Kerr, Dave	Kelly, David	Kempter, Ken
Trainee	Coots, Curtis	Young, Rick	Sandwick, Mike	Laeng, Robert	Fogle, Chris	Bogens, Mary	

Rotation for Type 2 IMT

- Accepted by CWCG Ops Committee after input from IMT IC's and Deputies.
- When a team "On-Call/2 Hour" is not available due to being assigned, or is unavailable, the next team on the rotation moves up to the "On-Call" position for the remainder of the current on-call period and all additional periods until their own on-call period has expired, unless the on call team becomes available and is put back in their normal scheduled rotation.
- When a team has had an assignment, they maintain their place in the rotation. Unlike the national rotation, teams will no longer have to wait for all other teams to get an assignment. (Referred to by the Type 2 ICs as "luck of the draw").
- GACC Intel will update "News and Notes" as soon as possible and keep rotation information consistent on both GACC websites.
- The rotation begins at 0001 on Wednesday and ends at 2400 on Tuesday.
- Once either California GACC has fully exhausted their Type 2 Team capability, they will place an order to the other California GACC who will utilize the regional rotation to fill the order.
- The specific team filling that slot is the team up on the local GACC rotation for that time period.
- For normal Southern California Type 2 IMT fills:
 - Central is primary for LPF, SNF, SQF, STF, and Interior Units dispatched from same ECCs.
 - Southern California is primary for ANF, BDF, CNF, INF, and Interior Units dispatched from same ECCs.
- Both GACCs will have final decision on management of all IMT assignments and deviation from the rotation based on commitments, PL levels, specific NICC requests, and Unit commitments of Chief Officers or other unforeseen factors.

Chapter 30

Chapter 30 -CREWS**California Conservation Corps (CCC)**

CCC Support and Type 2 crews are available for assignments nationwide. Support crews can be utilized for a wide variety of incident support activities not requiring direct supervision such as traffic control, runners, equipment set-up, waste management, etc.

CCC Type 2 crews are fully equipped and the crew supervisors are federally qualified Crew Bosses.

CCC Type 2 crews will be available through their local Unit or through the CCC Duty Officer.

CCC has a centralized dispatch system for crews. All calls for crew assistance go directly to the CCC Duty Officer. The CCC Duty Officer will secure the closest available crew(s) for the assignment.

Unit and/or GACC:

Contact CCC Duty Officer 24 hour contact number at **916-599-1415** leave a message.

If no answer within 2 hours, call CCC Emergency Manager at 916-341-3103 or 916-759-5804 (cell).

If no answer within 2 hours, call CCC Operations Chief at 916-341-3135 or 916-531-4259 (cell).

For CCC Support crews, order in ROSS as: Crew, Camp

For CCC Type 2 crews, order in ROSS as: Crew, Type 2

When two or more CCC crews are ordered, the CCC may request an Agency Representative to assist the crews while on assignment. CCC crews can be ordered 24 hours per day but do not respond to incidents between 2200-0600 hours due to safety, driving and union concerns.

Once fill information is provided by CCC Duty Officer, Host Unit or GACC will fill the crew and overhead request using Contract Agreement Tab in ROSS.

CAL FIREType 1

CAL FIRE fire crews are comprised of adult inmates or youth wards. CAL FIRE fire crews are not breakdown capable. These firefighters require custodial supervision during off shift periods, and are limited to incidents within the confines of California. Reciprocal agreements have been made with the State of Nevada, allowing these crews to respond to wildland fires threatening the State of California up to 25 air miles within the Nevada border. They are trained for wildland firefighting and, in some cases, for Urban Search and Rescue missions.

CAL FIRE may require that all CAL FIRE crews be ordered in Strike Team configuration when responding to incidents outside their home Unit.

The CAL FIRE crew will consist of 12-17 crew firefighters and one (1) Fire Captain. With adult inmate CAL FIRE crews, California Department of Corrections & Rehabilitation (CDCR) custodial personnel will accompany the crews to provide off shift supervision. For youth ward CAL FIRE crews, California Department of Juvenile Justice (DJJ) counselors will accompany the crews to provide off shift supervision. Custodial coverage will be arranged and dispatched by the sending CAL FIRE Camp. Technical Specialists Crews (THSC) will be ordered when the number of crews assigned to an incident reaches seven (7), and the fire is expected to actively burn into the next burning period. This number will remain flexible to meet special needs; such as duration of incident, complexity of incident or custodial problems.

For logistical considerations CAL FIRE utilizes male, female and youth inmate crews and must be housed separate. The female crews are from Puerta La Cruz and Rainbow camps. The youth crew is from Pine Grove camp. In addition there also Los Angeles County male and female inmate crews that fall under the CDCR that are used statewide.

CAL FIRE crews are ordered in ROSS as: Crew, Type 1

1 If a CDCR Agency Representative has not been ordered, once the crews and custodial personnel are on
2 the incident the senior custodial officer will request an order/request number for a CDCR Agency
3 Representative through the Incident Commander. The senior custodial officer will notify his/her agency
4 of the requirement for a CDCR Agency Representative and will take the responsibility for making direct
5 contact with the individual to fill the order/request. CDCR Agency Representative will be filled with
6 agreement in ROSS by the host Unit. Reference CAL FIRE Handbook 8100, procedure 384
7

8 **Federal**

9 Annually, each Unit will provide their respective GACC a list of the crews administered by their Unit.
10 All crews will consist of 20 members. When crews are mobilized to an incident, the minimum crew
11 strength will be 18 members. When any combination of crews numbering four or more are committed to
12 an incident out of State, an Interagency Resource Representative (IARR) may be assigned by the GACC.
13

14 NWCG Minimum Crew Standards for National Mobilization, reference the National Interagency
15 Mobilization Guide, Chapter 30.
16

17 **Type 1 Hotshot**

18 Hotshot Crews and Smokejumper Crews meet the minimum National Type 1 Crew standards. Crew
19 listing is available at http://www.fs.fed.us/fire/people/hotshots/IHC_index.html.
20

21 The GACC will coordinate all movement of these Crews. Units may commit their Type I Federal Crews
22 to initial attack incidents in the Unit. Response to cooperator's requests for Assistance by Hire in the
23 immediate vicinity of the Mutual Threat area can be initiated by the Units. Both above actions will be
24 followed by immediate notification to the GACC of resource commitment.
25

26 When Type 1 federal crews are flown to an incident, it is prudent to follow up with their crew vehicles,
27 when the home Unit or GACC can provide drivers. Sending GACC's have the responsibility to arrange
28 for the mobilization and coordination of their transportation. Efforts will be coordinated with the home
29 Unit and local GACC, as ordered overhead that are enroute to the same incident could benefit from the
30 transportation. The home Unit will arrange for transportation to the incident for crew members not
31 initially mobilized. This practice is not intended for crew or module members other than Type 1 Crews.
32

33 Ordered in ROSS as: Crew, Type 1
34

35 **Smokejumpers**

36 A 40 person Smokejumper crew is based at the Northern California Service Center in Redding.
37 Smokejumpers can be utilized as a Type 1 Crew. Approximately 30% of the crew is Crew Boss rated and
38 most Smokejumper supervisors hold Division Supervisor ratings. At least 50% of the Smokejumpers are
39 qualified Class C Timber Fallers and the entire crew is trained in the use of cross-cut saws. Emergency
40 medical care and rescue equipment can be delivered via paracargo. The Smokejumper unit maintains 2
41 basket litters rigged for paracargo delivery. Trauma kits with IV blood expanders, oxygen, splints and
42 equipment to monitor vital signs are carried on the jumper aircraft.
43

44 To order as a Type 1 Crew, in ROSS, order as: Crew, Type 1
45

46 **Type 2 Initial Attack Capable**

47 Type 2 IA Crews can initial attack fires, be broken up into squads, and perform firing operations.
48

49 Ordered in ROSS as: Crew, Type 2 IA
50

51 **Type 2 Regular**

52 Regular Crews that do not meet the criteria of a Type 1 Crew as outlined in the ICS 420-1 Resource
53 Designation List. Regular Crews are formed as needed. They are comprised of Unit employees normally
54 assigned to various disciplines on the Unit. Regular Crews are Unit resources and are considered part of
55 the national mobility concept. GACC's will coordinate movement of these crews.

1 Ordered in ROSS as: Crew, Type 2

2

3 **Type 2 Organization**

4 Organized Crews (OC) are emergency firefighting employees. Crew members must meet the same
5 training and physical standards established for other Unit crews. Organized Crews are sponsored or
6 contracted by various Units. Sponsoring Units are responsible for training, outfitting, mobilizing, and
7 paying the crews. Organized Crews are Unit resources but are considered part of the national mobility
8 concept. GACC's will coordinate movement of the crews.

9

10 Each handcrew will have the standard configuration for supervision as Regular Crews. This consists of a
11 Unit Crew Supervisor and three Squad Bosses. These supervisory positions may be filled with agency
12 personnel or Administratively Hired (AD) personnel who meet all the NWCG 310-1 and Forest Service
13 standards for each position.

14

15 A Crew Representative may be assigned if the Crew Supervisor does not meet Crew Representative
16 standards specified in Chapter 20 of FSH 5109.17 Wildland Fire Qualifications Guide. If an AD Crew
17 Supervisor is used, a Crew Representative will be dispatched with the Organized Crew. A single Crew
18 Representative may be assigned to one or more Organized Crews. The total makeup of the crew will meet
19 National Standards of 20 people per crew.

20

21 Ordered in ROSS as: Crew, Type 2

22

23 **Organized Kitchen and Camp**

24

25 **North GACC**

25 **South GACC**

27 SRF 1 10-12 person Camp Crews

27 SQF 2 10 person Camp Crews

28

29 Order in ROSS as: Crew, Camp

Chapter 40

Chapter 40 – SUPPLIES AND EQUIPMENT**National Interagency Incident Support Caches**

California operates two National Interagency Incident Support Caches as part of the National Fire Equipment System (NFES). The Northern California Interagency Support Cache (NCK) is located in Redding, CA; and the Southern California Interagency Support Cache (LSK) in Ontario, CA. These caches serve the supply needs of incidents in the Geographical Area Coordination Centers, including supplies required for project activities when not in conflict with incident activity.

Both caches stock National and Regional "NFES" items.

The caches stock three types of goods; Consumable, Durable and Property. All three of these types of goods are considered accountable.

- Consumable items are intended to be consumed at an incident, with life expectancy not to exceed one incident, if used (example: batteries).
- Durable items have a life expectancy of more than one incident, or use (examples: sleeping bags, fire hose).
- Property items are items with a purchase price greater than \$5,000 or sensitive items valued less than \$5,000. Property items are expected to be returned to the cache without exception. If a Property Numbered item is not returned, the cache will forward a Transfer of Property form to the Unit where the incident is located, and procure for replacement of the unreturned item (examples: Regional RAWs, pumps).

Limited Resource items are those items which have a fixed inventory in the national system. When ordering Limited Resource items, it is mandatory that all Units go through a GACC to place the request. The GACC maintains records to monitor available quantities, providing management of these items as National Resources.

Kits have been established to provide a collection of related articles, pre-assembled to accomplish specific functions. There are over 40 national kits, with an additional six specific to California. National kits have a standard configuration throughout all of the caches in the nation. Contents of all kits may be found in the NWCG National Fire Equipment System Catalog.

All supplies or equipment furnished to incidents will be considered "on loan" and should be returned as soon as practical with the exception of consumable items.

Ordering

Interagency Cache Business System (ICBS) and Resource Ordering and Status System (ROSS) are now interfacing. This interface allows ROSS users to enter Supply (S) number requests to be sent to the cache direct for processing and filling. The cache, via ICBS is allowed to input S numbers for supply orders that go directly to the cache without the request being created in ROSS. These S numbers must be assigned by the incident and be between 100000 – 199999. This interface also allows ROSS users to see fill information for all S numbers that the cache has filled, no matter which way the requests were initiated.

Except for Limited Resource items, each Fire Cache will accept and process incident resource orders directly from Units within their area of influence once the incident is created in ROSS.

Cache orders from any Unit will require incident request numbers assigned by the ordering Unit, one per line item.

Once an incident is established, contact the local cache to establish an ordering schedule.

The NFES Numbers and the established "unit of issue" associated with each NFES item are mandatory parts of any order placed with the caches. When placing orders through the cache, it is always necessary

1 to provide the NFES number, corresponding “unit of issue”, quantity requested, and a written description
2 of the item.

3
4 For NFES numbers, descriptions, and “unit of issue” reference the National Fire Equipment System
5 Catalog - Parts 1 and 2 PMS 449 NFES 0362 at: <http://www.nwcg.gov/pms/pubs/catalog.htm>

6 7 **Abnormal Quantities**

8 Any order exceeding 25% of the established cache stocking level for an item is subject to verification by
9 the Assistant Director, GACC Center Manager, Incident Commander, or the Logistics Chief.

10 11 **Mobile Cache Vans**

12 Mobile cache vans provide the preliminary supply essentials to establish an incident base. For this reason
13 it is expected that one mobile cache van should suffice per incident. Each mobile cache van contains
14 supplies to support 150 people working and 150 people sleeping. All mobile cache vans are sealed, and
15 are intended to be utilized as a complete unit. Component items may be ordered separately.

16
17 Many mobile cache vans are pre-positioned on host Units. If your Unit does not host a mobile cache van,
18 your order is to be placed with your respective GACC. They in turn will order a mobile cache van from
19 the nearest location. If your Unit does host a mobile cache van, it may be utilized at the discretion of the
20 Unit Fire Management Officer. The use of a local mobile cache van must be documented with an S
21 number on an incident resource order and the request placed to the respective GACC. The GACC places
22 the request with the cache. It is the responsibility of the host Unit to provide transportation of the van.

23
24 CAL FIRE has developed a CAL FIRE specific mobile cache van to better meet the needs of CAL FIRE
25 incidents. These vans contain supplies to support 150 people working and 150 people sleeping. These
26 vans are available from the cache.

27
28 Mobile cache vans are to be returned to their respective cache after use.

29
30 Mobile cache vans are ordered in ROSS as Supplies, NFES 008646 (NCK) and NFES 008640 (LSK).

31
32 CAL FIRE Mobile cache vans are ordered in ROSS as Supplies, NFES 008744 (NCK).

33
34 Mobile cache vans are pre-positioned at each Geographic Area Cache and the following locations:

Northern CA

SRF	Rohnerville
LNF	Susanville
PNF	Quincy
LNU	Konocti
ENF	Placerville
KNF	Yreka (2)
MDF	Alturas

Southern CA

SNF	North Fork
SQF	Porterville
SQF	Kernville
LPF	King City
LPF	Los Prietos
INF	Bishop
CNF	Goose Valley
STF	Sonora

35 **Demobilization**

36 All supplies being demobilized from an incident are to be documented on an OF-285 Interagency Incident
37 Waybill, NFES 1472; one per shipment. Any supplies being retained on an incident during the
38 demobilization process are to be documented on a waybill, and forwarded to the cache as well.

39 To help facilitate the return process, used (Not Ready for Issue) and unused (Ready for Issue), supplies
40 being demobilized back to the cache should be divided, packaged, and packed separately. The caches
41 will only accept rolled hose.

42
43

1 Sensitive or Property Numbered items requiring reconditioning prior to reissue from a cache should be
 2 returned as soon as no longer required. Seal numbers securing the shipping containers for these items are
 3 to be documented on Incident Waybills. Seals are mandatory when transporting Sensitive items to or
 4 from the caches, i.e. radios and computer equipment.

5 An AD-112 will be prepared for any property items that are lost, stolen or found to be unserviceable.
 6 Each cache requires immediate notification when Property Numbered items are involved.

7
 8 Contact the cache with intended demobilization plans.

9
 10 Both California Caches will close an incident 45 days following a control status, and charge unreturned
 11 supplies and equipment to the ordering Unit. Replacement orders received after the closing process will
 12 **not** be filled. Upon incident closure, a Loss/Use Tolerance Report will be generated for all Type 1 and 2
 13 incidents supported by the Geographic Area Caches. This is a comprehensive report, displaying totals of
 14 Loss/Use rates for all Consumable and Durable items issued from the caches. Total percentages above or
 15 below the nationally accepted standard are also displayed. This report is forwarded to the agency
 16 administrator hosting the incident.

17
 18 The following percentages have been assigned nationally as potentially acceptable rates of loss for
 19 Durable items:

Water handling (valves, nozzles)	10%
Helicopter accessories (cargo nets, lead lines)	10%
Camp items (tents, heaters, tables)	10%
Tools (shovels, pulaskis)	20%
Hose	20%
Backpack pumps	20%
Sleeping equipment (sleeping bags, cots)	20%
Clothing (jeans, shirts, coveralls)	30%

20 21 **Replacement Orders**

22 Whenever possible, replacement orders are to be filled from stock on hand in Supply at the incident. If
 23 replacement orders are unable to be filled at the incident, their home Unit should place the order to the
 24 GACC cache. Incident Replacement Requisition, OF-315, (NFES 1300) shall be used when placing
 25 replacement orders to the cache.

26
 27 Incident Replacement Requisitions from Type 1 or Type 2 incidents must be authorized by the Supply
 28 Unit Leader or other appropriate position. If received at the cache unauthorized, the requisition will be
 29 mailed to the appropriate FMO according to the incident location, for signature.

30
 31 Incident Replacement Requisitions from Type 1 or Type 2 incidents can be sent to the cache, the S
 32 numbers must be assigned by incident and be between 100000 – 199999. S numbers will be input in ICBS
 33 and sent to ROSS via the interface. Incident Replacement Requisitions from individual resources will be
 34 created by the incident/expanded dispatch in ROSS and sent to the cache via the ICBS ROSS interface.
 35 Replacement Requisitions require incident request numbers be included, as a continuation of the incident
 36 documentation process.

37
 38 Fire Management Officers shall forward to their respective cache, by April each year, a list of those
 39 persons authorized to approve replacement orders on their Unit. The authorized designees may then
 40 approve requisitions for incidents located on their Unit.

41 42 **Recycling**

43 The recycling of plastics, cardboard, etc., is highly recommended, and is the responsibility of an incident
 44 to process.

1 **Hazardous Materials – Ordering and Shipping**

2 Hazardous materials are identified by definition in the Department of Transportation (DOT) Emergency
3 Response Guidebook. Hazardous materials are: Any substance or material, which has been determined
4 by the Secretary of Transportation to be capable of posing an unreasonable risk to health, safety or
5 property when transported in commerce, and which has been so designated. The definition includes
6 hazardous substances, hazardous waste, marine pollutants and elevated temperature materials as defined
7 in 49 CFR, part 106 to 180.

8
9 If storing an identified hazardous material, refer to the DOT Emergency Response Guidebook. The
10 guidebook lists all hazardous materials, and in the event of an accident explains precautions and actions to
11 take.

12
13 If intending to ship the material by highway, the material and its quantity will determine how the item is
14 to be packaged, documented and shipped.

15 *** The following directions apply to all hazardous material shipping documents:**

- 16 • All information must be printed (mechanically or manually) in English.
- 17 • Shipping documents must contain the shipper's name and address, as well as the destination name
18 and address.
- 19 • "Hazardous materials" must be entered as the first line item on a shipping document, or be
20 printed in a different color.
- 21 • Hazardous materials must be listed by their proper shipping name, hazard class, ID number and
22 packaging group. No abbreviations.
- 23 • All hazardous material packages must be properly marked, labeled, and packaged. The total
24 weight must be included.
- 25 • The following shipper's certification must be entered on each shipping document: "This is to
26 certify that the above named materials are properly classified, described, packaged, marked and
27 labeled, and are in proper condition for transportation according to the applicable regulations of
28 the DOT."
- 29 • A 24 hour emergency response telephone number, with someone available while the commodity
30 is in transit.
- 31 • Emergency response information listed in the DOT Emergency Response Guidebook is also to be
32 included.
- 33 • For questions regarding National Fire Equipment System (NFES) stocked hazardous materials,
34 reference the Interagency Transportation Guide for Gasoline, Mixed Gas, Drip-torch Fuel and
35 Diesel, 06/09 PMS 442 (<http://www.nwcg.gov/pms/pubs/pubs.htm>) or the current "Hazardous
36 Materials Haulback Guide".

37 **Hazardous Waste**

38 Regulations for hazardous waste are directed by the State. The State in turn charges the counties with
39 enforcing their regulations. Therefore, determining the disposition of hazardous waste depends greatly
40 upon the jurisdiction you are in. In all States, the regulations which govern the generation, containment,
41 storage, transportation and documentation of bio-hazardous waste are very specific and well enforced.

42
43 Use of red bio-hazardous waste bags are specifically regulated. When used, contents are to be
44 documented *immediately* by the user, as the bag may not be re-opened under any circumstances. The bag
45 may not be taken to a landfill until it has been properly treated. Caches do not have a method of disposal
46 for bio-hazardous (medical waste) bags.

47 **Under NO circumstances, will any California Cache accept used bio-hazard bags.**

1 **Communications**

3 **National Fire Radio Caches (NFRC)**

4 A description of the equipment available from NIFC's, National Incident Radio Support Cache (NIRSC)
5 is located in the ICS Communications User Guide. Dispatch of NIRSC systems will be through the
6 GACC.

8 Ordered in ROSS as Supplies, with the appropriate NFES number, using the following procedure:

- 10 1. Ensure that the request has accurate Latitude/Longitude information.
- 11 2. In the Shipping Information block of the request, select Shipping Address from the drop down or
12 enter Shipping Instructions.
- 13 3. In the Shipping Contact block of the request, identify the Shipping Contact and a phone number.
- 14 4. In the Incident Ordering Contact block of the request, identify the Communications Leader,
15 specifying "on order" if not yet determined.
- 16 5. In the Special Needs block of the request, include the full "Bill to" information.
- 17 6. Specify if freight shipping is OK, or if a charter aircraft is required to meet the needed date and
18 time.

20 As kits are released from the incident, they are to be returned to NIRSC at NIFC for refurbishment even if
21 the seal is not broken. The receiving unit will check with the GACC before returning any NFRC system
22 back to NIFC.

24 NFES 4390 – ICS Command Starter System

25 The standard starter system contains sufficient equipment for Command and Logistical communications
26 needs for a three division incident. The entire starter system will be packaged and shipped as a standard
27 unit. California may preposition 4390 starter systems at the Cache. These systems are only pre-positioned
28 and remain under the control of NIRSC.

30 Requests for individual or additional kits (boxes) will be honored. They must be ordered by their
31 individual NFES stock numbers.

33 The starter system will have Air Guard located in the last channel. This frequency is **not** authorized for
34 use by the incident for communications.

36 Order in ROSS as: Supply, NFES Supplies, Kit – Starter System ICS Command/Logistics Radio System

38 NFES 4381 – HT Radio Kit

39 NFES 4381 kits are available from the Interagency Caches. Each kit contains 16 hand held radios
40 configured with all USDA-FS and DOI tactical, command and national air frequencies. The *radio*
41 *manufacturer* requested needs to be confirmed by the Communications Unit Leader and specified in the
42 order in "Special Needs".

44 Order in ROSS as: Supply, NFES Supplies, Kit – Command/Tactical Radio, (Synthesized)

46 **CAL FIRE HT Radio Cache**

47 CAL FIRE has 40 HT Radio Caches. There are 20 located at CNR, 20 located at CSR (10 at CSR and 10
48 at FKU). Each kit contains 10 BK GPH Commander Portable Radios with antenna, clamshell, leather
49 case and T-card. Batteries are included for all 10 radios. Each radio is programmed to current CAL FIRE
50 statewide "Group 3" on Groups 16-25.

52 Order in ROSS and place to the appropriate GACC as: Supply, Non-NFES; Cache, HT Radio

54 The following information must be included in the ROSS request:

1 Special Needs:

- 2 • Bill to information
- 3 • Ship to information – include contact person with phone number
- 4 • Communications Unit Leader’s name and phone number
- 5

6 A Federal Financial code (P Code) is needed in the financial code box.

7

8 **CAL FIRE Portable Repeaters**

9 CAL FIRE has portable command repeater kits available throughout the state. Each Unit and Mobile
10 Communications Center (MCC) has a portable repeater available for use within their Unit. CAL FIRE
11 Telecom has additional repeaters that can be ordered through the Sacramento Command Center. To
12 ensure that appropriate equipment is filled, provide the ordering contact information in the request.

13

14 For additional information contact CAL FIRE Telecom (916) 327-8652.

15

16 Order in ROSS as: Supply, Non-NFES; Kit, Command Repeater

17

18 **Frequencies**

19 Responders need to verify incident frequencies and tones to use when responding to or assigned to an
20 incident. All requests for additional frequencies shall be ordered in ROSS using A numbers.

21

22 Activation of National Fire Radio Frequencies will be controlled and coordinated by the GACC due to the
23 complexity of Incident radio usage.

24

25 For California Tones refer to the California Interagency Mobilization Guide Appendix A.

26 Reference the California Interagency Mobilization Guide Chapter 50 for additional information on
27 aviation frequencies.

28

29 **Mobile Communications Units – All Agencies**

30 Statewide there are mobile communication units available through CAL FIRE, CAL OES, and CA BLM.
31 To check for availability, contact the GACC.

32 Order in ROSS as an Equipment request.

33 CAL FIRE order as: Telecommunications (CDF Only) Communications Unit, Mobile, Type 1.

34 CA BLM and CAL OES order as: Trailer - Communications

35

36 **Remote Automated Weather Station (RAWS)**

37

38 **Federal**

39 When a Unit requires additional RAWS units they should be ordered using the normal dispatch
40 procedures. They are ordered on a Supply Request and have NFES numbers.

41 Reference National Interagency Mobilization Guide Chapter 40 for additional information.

42

43 **CAL FIRE**

44 CAL FIRE currently has seven (7) portable RAWS assigned to Units for use on State incidents.

45 Request RAWS through GACC.

46 Ordered in ROSS as: RAWS, Portable. Category is NON-NFES supplies.

47 Reference the CAL FIRE Handbook 8100 procedure 344.

48

49 **Mobile Food Service**

50

51 **National Contract Mobile Food Service – Federal**

52 When the determination is made that contract mobile food services are needed in support of federal
53 wildland fire activities in the United States, the Government is obligated to order services from National
54 Mobile Food Service Unit (MFSU) Contractors (National Caterer) when at any time:

55

- 1 • The number of people to be fed is at or above 150 persons per meal,
2 AND
- 3 • The headcount is estimated to remain at those numbers, or greater, for at least 72 hours from
4 when the headcount first reaches 150 per meal.

5 If national incident activity is high and a National Mobile Food Service Unit is unavailable, cooperator
6 units may be used. A second E number will be generated for cooperator unit (See next section,
7 MKU/FDU). In such case, the cooperator is guaranteed a minimum 72 hours of work, even if a National
8 unit becomes available before then. Cooperators include state managed kitchens.

9
10 For a complete listing of the Schedule of Items and Contract Specifications for the National Mobile Food
11 Service Contract, reference the current National Mobile Food Services publication, NFES 1276. This
12 information can also be found at the following website: <http://www.fs.fed.us/fire/contracting/>

13
14 National Food Service units are ordered as an E number and are called Food Service, Mobile in ROSS.
15 All National Food Service unit orders are placed to the GACC and then onto NICC. NICC will determine
16 and assign the appropriate units to all federal wildland fire incidents.

17
18 Mobile Food Service requests must be completed and faxed to the GACC at time of ROSS request. Refer
19 to the California Interagency Mobilization Guide, Appendix A, for the link to the National Mobile Food
20 Service/Shower Unit request form.

21 All requests to reassign National Contract Mobile Food Service will be placed through established
22 ordering channels to NICC. All reassignments of National Mobile Food Service will be done by NICC.

23
24 All release information will be documented in ROSS and relayed to NICC within 15 minutes.
25 Contractors may take 24 hours to rest and replenish supplies within the local area after release. After 24
26 hours, contractors must return to the unit's designated dispatch point.

27 28 **Mobile Kitchen Unit (MKU) and Food Dispensing Unit (FDU) – CAL FIRE**

29 MKUs and FDUs are specialized resources and require certain support resources to facilitate their
30 operations. Each camp which supplies a MKU/FDU will have specific needs for their operation. Once a
31 MKU/FDU is requested the goal is to get the resource to the incident by either the next morning or
32 evening to feed the incident personnel.

33
34 Food Dispenser Units (FDU) - Food Dispenser Units or steam tables should be used, when available,
35 when the number of meals to be served will not exceed the unit's capacity (200-300 meals).

36
37 Mobile Kitchen Units (MKU) - When the needs of the incident exceed the capacity of the FDU, a FDU is
38 not available, an incident base has been established, or an incident management team will be assigned,
39 Mobile Kitchen Units will be the first choice for feeding of incident personnel. CAL FIRE MKUs should
40 be used first followed by MKUs from cooperating agencies and then rented MKUs with CAL FIRE
41 kitchen crews.

42
43 Order in ROSS as an E number as: Food Service, Mobile. In special needs, identify CAL FIRE MKU or
44 CAL FIRE FDU, include Date and Time of first meal and number of persons served. The Unit who fills
45 the MKU/FDU will coordinate with the appropriate camp, and roster all specific equipment needs.
46 Reference the CAL FIRE Handbook 8100 procedure 341.

47
48 If national incident activity is high and a National Mobile Food Service Unit is unavailable to federal
49 Units, a CAL FIRE MKU may be used. In such case, CAL FIRE is guaranteed a minimum 72 hours of
50 work, even if a National unit becomes available before then.

	<u>Northern California</u>		<u>Southern California</u>

7	SHU	Trinity River	MKU			
8	TGU	Salt Creek	MKU/FDU			

9

10 **Mobile Shower Facilities**

11

12 **Federal**

13 For a complete listing of the Schedule of Items and Contract Specifications for the National Mobile
 14 Shower Facilities Contract, refer to the current National Mobile Shower Facilities Contract publication,
 15 NFES 2729. This information can also be found at the following website:
 16 <http://www.fs.fed.us/fire/contracting/>

17

18 National shower contractors may offer to bring other optional items such as hand-washing units and
 19 water tenders, in addition to the shower units. Incidents are not required to order or use these
 20 items from national contractors. Units should use local vendors to fill these needs when possible.

21

22 All requests to reassign National Contract Shower units will be placed through established ordering
 23 channels to NICC. All reassignments of National Shower units will be done by NICC.

24 All release information will be documented on the resource order and relayed to NICC within
 25 15 minutes. Contractors may take 24 hours to rest and replenish supplies within the local area
 26 after release. After 24 hours, contractors must return to the units' designated dispatch point.

27

28 National Mobile Shower Facilities are ordered as an E number and are called Shower, Mobile in ROSS.
 29 All National Mobile Shower Facilities orders are placed to the GACC and then onto NICC. NICC will
 30 determine and assign the appropriate units to all federal wildland fire incidents.

31

32 The National Mobile Food Service/Shower Unit request form must be completed and faxed to the GACC,
 33 at time of ROSS request. Refer to the California Interagency Mobilization Guide, Appendix A, for the
 34 link to the form.

35

36 **CAL FIRE**

37 Requests for showers on CAL FIRE incidents will follow CAL FIRE Hired Equipment Guidelines.
 38 Refer to Hired Equipment in the California Interagency Mobilization Guide, Chapter 40.

39

40 **Mobile Saw Trailer – CAL FIRE**

41

42 CAL FIRE has a Mobile Saw Trailer available from the Mt Bullion Camp, Madera Mariposa Unit. This
 43 trailer comes equipped with enough supplies (bars, chain, filters, parts, etc.) to support an incident for 5
 44 days. The trailer is staffed with 1 Fire Captain, 1 CDCR Officer and 2 CDCR Inmates.
 45 Order in ROSS as: Equipment, Trailer. In Special Needs state Mt Bullion Saw Trailer.

46

47 **Hired Equipment**

48

49 **Forest Service Incidents – Contract/Hired Equipment (non-National Contract)**

50 Use the R-5 Expanded Dispatch Incident Guide for VIPR, DPL, IBVPA, Incident Only/EERA
 51 http://gacc.nifc.gov/oncc/logistics/equipment_supplies/docs/12_exp_disp_contract equip_guide.pdf

52

53 For Incident Procurement and Fire Contract Clarification/Assistance, reference:

54 <http://www.fs.usda.gov/detail/r5/fire-aviation/management/?cid=stelprdb5303034>

55

1 Each host dispatch center will give dispatch priority to the resource offering the greatest advantage to the
2 Government **before** all other private resources not under Agreement with the following exceptions:

- 3
- 4 • For Immediate Need/Initial Attack, dispatchers will follow the “closest forces” concept and
5 utilize locally available resources according to agency and incident needs.
- 6 • Tribal preference policy established within reservation jurisdiction
- 7

8 **CAL FIRE Incidents – Contract/Hired Equipment**

9 The Hired Equipment Management System (HEMS) will be used for dispatching immediate need and
10 planned need fireline dozers and water tenders, as well as, support equipment. Reference CAL FIRE
11 Handbook 7700, Policy 7761.6.5 and CAL FIRE Handbook 8100, Procedure 345.

12 **Unified Command Incidents – Contract/Hired Equipment – State and Federal**

13 The following criteria will be considered when determining which Hired Equipment system will be
14 used at unified command incidents.

- 15
- 16
- 17 • DPA – current and threatened
- 18 • Unified Ordering Point
- 19 • Early coordination with expanded dispatch between finance and logistics functions
- 20 • Access to various agencies hired equipment programs and agency personnel to use their
21 respective programs
- 22

Chapter 50

1 **Chapter 50 - Aircraft**

2
3 The paramount consideration for aircraft use in California is to conduct all operations safely and reduce
4 risk exposure.

5
6 In order to maximize IA effectiveness, the GACCs will retain operational control of all tactical aircraft.

7 8 **Aircraft Administration**

9 **Bureau of Land Management**

10 The California State Aviation Manager (SAM) is located at the California State Office. The State
11 Aviation Manager provides guidance to 4 Unit Aviation Managers (UAM) located in Moreno Valley,
12 Porterville, and Susanville. These Unit Aviation Managers coordinate the daily fire, law enforcement and
13 administrative aviation use in their geographical areas. All requests for incident support and
14 administrative flights will be made through the Interagency Communication Centers identified in those
15 geographic areas. Geographic area communication centers are as follows.

16 Northern California District (NOD) - Susanville Interagency Fire Center (SIFC)

17 Owens Valley District (OVD) - Owens Valley Interagency Communication Center (OVICC)

18 Central California District (CND) - Central California Interagency Communications Center (CCCC)

19 California Desert District (CDD) - Federal Interagency Communications Center (SBCC)

20 Requests for administrative flights for the California State Office are requested and processed through the
21 State Aviation Manager in coordination with Northern California Geographic Area Coordination Center.

22 **CAL FIRE**

23 CAL FIRE Aviation is integrated within two organizational classifications: Aviation Management Unit
24 (AMU) and Tactical Air Operations (TAO) both under the direction of Fire Protection. Program
25 responsibilities overlap in many areas; the following only serve to identify accountability:

26 AMU:

27 Aviation Policy and Procedure

28 Maintenance of both fixed and rotor wing aircraft

29 Aviation Life Support Equipment (ALSE)

30 Aviation Safety

31 Management of aviation contract personnel

32 Maintenance staff

33 Fixed wing pilots

34 Management of Call When Needed (CWN) and any Exclusive Use (EU) contracts

35 TAO:

36 Command and Control

37 Fire chemicals

38 Base operations and standardization

39 Aviation Training and Standards of CAL FIRE personnel

40 Military Program Coordination

41 Title 10 assets

42 MAFFS

43 California National Guard

44 Operational technical assistance

45 **Forest Service**

46 The Regional Aviation Group (RAG) is divided into operational areas to better serve the Units in the
47 region. All Units should direct requests for technical assistance to the office designated to serve them.
48 There will be personnel at each location to assist the Units in all aspects of aviation. All requests for
49 incident support and administrative flights will be made through the appropriate GACC.

1 NOPS will be the dispatch point for the McClellan Office and Redding Aviation Units. SOPS will be the
2 dispatch point for the Lancaster Aviation Unit. Aviation Units needing assistance should make requests
3 to the dispatch office that serves them.

4
5 Designated Operational Areas and Units served are:

6
7 Lancaster Aviation Unit - ANF, BDF, CNF, INF, LPF, SQF, SNF, STF and OSC

8
9 Redding Aviation Unit - ENF, KNF, LNF, MDF, MNF, PNF, TMU, TNF, SHF, SRF and ONC

10
11 It will be the responsibility of the Aviation Units to furnish the appropriate GACC a duty schedule during
12 the fire season for all pilots, inspectors and aircraft status.

13
14 Fire and Aviation Safety Teams (FAST) assist agency administrators during periods of high fire activity
15 by assessing policy, rules, regulations, and management oversight relating to operational issues. For
16 more information reference the National Interagency Mobilization Guide, Chapter 20.

17
18 Aviation Safety Assistance Teams (ASAT) enhance safe, efficient, and effective aviation operations. An
19 ASAT provides assistance to Unit and Aviation Managers, flight crews, and Incident Management Teams
20 for increasing ongoing or declining incident aviation activity. For more information reference the
21 National Interagency Mobilization Guide, Chapter 20.

22
23 **National Park Service**

24 The National Park Service Aviation program is managed at the Park level by the Fire Management
25 Officer or Park Aviation Officer. In California there are two National Park Service Helicopters, one Type
26 2 Standard in Yosemite National Park and a Type 3 Standard in Sequoia and Kings Canyon National
27 Park. The primary mission for these helicopters are wildland fire response and all hazard missions
28 including short haul emergency extraction on a case by case basis. All requests should be routed through
29 unit dispatch centers. Assignment length can be negotiated with the Park Fire Management Officer or
30 Park Aviation Officer.

31
32 **Federal Cooperator Aircraft Use**

33 Cooperator aircraft to the Forest Service and Office of Aviation Services (OAS) (state contracted, state
34 owned, state managed National Guard aircraft, county, city, or other) may be used on federal fires under
35 the following conditions:

- 36
- 37 • The pilot and aircraft have been approved in writing for the mission, by the Forest Service
Regional Aviation Officer (RAO) or the DOI Western OAS office.
 - 38 • There exists a written MOU (Memorandum of Understanding) , interagency agreements or other
39 document that authorizes their use and payment for this use.
 - 40 • The cooperator aircraft will be operated within any limits on its use established in the written
41 approval.
 - 42 • The cooperator aircraft will be used only in situations where federal aircraft are not available.
 - 43 • The cooperator aircraft will be released when federal aircraft becomes available.
- 44

45 The Federal Excess Personal Property (FEPP) is Forest Service-owned property that is on loan to State
46 Foresters for the purpose of wildland and rural firefighting Reference:

47 <http://www.fs.fed.us/fire/partners/fepp/index.html>

48 CAL FIRE tactical aircraft are FEPP.

49
50 In the initial attack period, aircraft will be filled using the “closest resource concept”.

51 In the extended attack period, using cooperator-owned aircraft prior to exhausting contracted resources
52 must involve a “significant and imminent threat to life or property”. When using a cooperator aircraft, an
53 Incident Aircraft Certification form will be completed by the host Unit. This form will be validated by the
54 Federal Aircraft Coordinator at the GACC who will ensure the sending Unit, the receiving unit and

1 GACC have a completed copy. For a sample of the Incident Aircraft Certification form, refer to the link
2 found in the California Interagency Mobilization Guide, Appendix A.

4 **Aircraft Ordering Procedures**

6 **Initial Attack Ordering**

7 The GACC will be notified of movement of all initial attack aircraft.

9 To expedite the closest available aircraft to initial attack fires, the Units will announce on the intercom
10 when there is a status change of their Aircraft:

- 11 • Brought on early in the morning or down staffed for the evening
- 12 • Out of service mechanical and back in service
- 13 • Visibility conditions (smoke, fog, etc.)
- 14 • On a delay for any reason with expected time of delay

16 This procedure will increase the efficiency of the GACC to facilitate requests for aircraft especially
17 during lightning events and periods of increased initial attack activity.

19 “Closest resource concept” will be followed by all agencies for IA and is defined as:

20 Regardless of the controlling agency, the agency resource that has the shortest timeframe to reach a
21 predetermined incident location first will be dispatched. Established dispatch channels will be followed at
22 all times. When multiple agency aircraft are available at a base, the agency specific aircraft will be
23 dispatched to that agency’s incident first.

25 When an aircraft is on base and in the IA Zone of Influence, Units will order directly from the
26 administering base, via the intercom for initial attack.

28 Requests for the aircraft when the closest base is vacant will be ordered via intercom through the GACC.

30 The GACC will fill orders from the most appropriate source available. The most appropriate source will
31 be determined on the basis of urgency, resource availability, delivery time, reasonable cost effectiveness,
32 impact on other units, and consideration of the overall fire program.

34 The GACCs are responsible for the strategic movement of aircraft throughout the state, as needs dictate.

36 The CA Interagency Aircraft Dispatch script (FC-106) will be used by all Units ordering aviation
37 resources. Refer to California Interagency Mobilization Guide Appendix A.

38 The following information is required:

- 39 • Incident Name
- 40 • Order number
- 41 • Location: Descriptive location; section, township, and range: latitude/longitude
42 When giving latitude and longitude use the format of degrees, decimal minutes (DD mm.mm)
- 43 • IP (Initial Point): Name; latitude/longitude: altitude
- 44 • Air Tactics/Air to Air FM, repeater tone if applicable
- 45 • Victor/Air to Air AM
- 46 • Air to Ground FM, repeater tone if applicable
- 47 • Ground Tactics/FM
- 48 • Command Frequency/FM, repeater tone
- 49 • Request number
- 50 • Other Aircraft
- 51 • Hazards

53 Unless specified by Unit standard response plan, initial attack aircraft orders in ROSS should be ordered
54 as:

- 1 Airtanker, Any Type
- 2 Helicopter, Type 2 Standard (with crew)
- 3 Fixed Wing, Leadplane
- 4 Fixed Wing, Air Tactical
- 5 Fixed Wing, Aerial Supervision Module (ASM)
- 6 Aircraft Group, IA smokejumper load

7

8 Aircraft call signs and ETA's will be relayed at the time of departure from the base.

9

10 **Additional Aircraft Requests**

11 Once the Aircraft identified by the initial response plan have been committed, all additional requests will
12 be placed with the GACC by ICS standard types. Additional aircraft ordered may not be the closest based
13 on GACC operational needs.

14

15 For ICS typings, refer to the California Interagency Mobilization Guide Chapter 50, "Airtankers" and
16 "Helicopters" sections.

17 Single Engine Airtankers (SEATs) may be used under the following conditions:

- 18 • Used as initial attack airtanker as long as it is the closest resource and the pilot is IA qualified.
- 19 • If pilot is not IA rated aerial supervision must be present.
- 20 • Used with other airtankers only if a Lead Plane, Air Attack or ASM is present.
- 21 • On CAL FIRE incidents, may only be used to augment Type 1, 2 and Type 3 Multi-engine
22 Airtankers and not as a replacement.

23

24 **Airtanker Dispatch Rotation**

25 When more airtankers are available at the base than originally requested or allotted for the incident, the
26 Host Unit or air attack base can request rotational use of all available airtankers. The air attack base or
27 unit will initiate the request for rotation and route it through the ECC and GACC for consideration.

28

29 At no time will additional rotation airtankers exceed the number of airtankers originally allotted to be
30 flying on the incident.

31

32 Each airtanker assigned to the incident will be issued it's own "A" request number.

33

34 For airtanker rotation, reference the Interagency Airtanker Base Operations Guide (NFES 2271).

35 http://www.fs.fed.us/fire/aviation/aviation/av_library/index.html

36

37 **Aircraft Diverts**

38

39 **Diverts**

40 This divert policy applies to all incidents regardless of size.

41

42 All agencies should utilize the closest available airtanker on a new incident, except when the incident
43 commander (IC) has a "no divert" in place.

44

45 **No Divert**

46 When the IC recognizes critical fire advances and has urgent need for continued air support for the direct
47 and immediate threat to life of a firefighter or a civilian by the approaching fire front, the IC shall
48 immediately contact their dispatch and request a "no divert" for a specified number of aircraft. The
49 dispatch center will immediately notify the appropriate GACC via the intercom.

50

51 A life threat is not a justification for a blanket "no divert" for all aircraft on an incident. Incident
52 personnel should assess the threat and request "no divert" for the number of aircraft necessary to assure
53 safe egress from the threat.

54

55

1 Example: “On the Salt Fire, requesting a ‘no divert’ for two airtankers due to immediate life threat to
2 firefighters and civilians”
3

4 The “no divert” status will be reevaluated every 30 minutes for its appropriate use by the dispatch’s direct
5 contact with the IC or Air Attack. When the critical phase has passed, the IC shall immediately advise the
6 dispatch center and cancel the “no divert”. The dispatch center will then contact the appropriate GACC
7 over the intercom with the cancel.
8

9 **Aircraft Flight Plan**

10
11 For the link to the Aircraft Flight Request form (FS 9400-1a), refer to the California Interagency
12 Mobilization Guide Appendix A.
13

14 Federal

15 Reference Chapter 50 of the National Interagency Mobilization Guide or the Agency Aviation
16 Management Plan.
17

18 CAL FIRE

19 Only administrative flights require a flight plan.

20 Reference CAL FIRE Handbook 8100, procedure 400 and 406 and CAL FIRE Handbook 8300, policy
21 8324.2.
22

23 **Air Communication**

24
25 National Air Guard - 168.6250 MHz (Tx 110.9 Rx 110.9) - A National Interagency Air Guard frequency
26 for government aircraft will be used for emergency aviation communications. Continuous monitoring of
27 this frequency in narrowband mode is mandatory by Federal agency dispatch centers.
28

29 Restricted to the following use:

- 30 • Air-to-air emergency contact and coordination.
- 31 • Ground-to-air emergency contact.
- 32 • Air Guard Channel is not available for tactical frequency or use.
33

34 National Flight Following - 168.6500 MHz (Tx 110.9 Rx 110.9) is used to monitor interagency and
35 contract aircraft. This frequency is used for flight following of official aircraft and is not intended to be
36 used for tactical communications or incident operations. All Federal dispatch centers will monitor the
37 National Flight Following frequency at all times.
38

39 Restricted to the following use:

- 40 • Flight following, the dispatching of local aircraft, and/or redirection of aircraft
- 41 • Air to Ground and Ground to Air administrative travel, **not** tactical communications
- 42 • **Not** authorized for ground to ground traffic
43

44 **Pre-Assigned Aviation Frequencies**

45 In order for aircraft communications to be manageable and functional, air frequencies are preassigned on
46 a temporary basis to expedite initial attack but will remain under the control of the GACC. Occasionally
47 the preassigned frequencies will have to be withdrawn from a Unit to serve multiple incidents on another
48 Unit. In that event, alternative frequencies will be provided by the GACC.
49

50 A complete listing of pre-assigned frequencies can be obtained by contacting the Federal Aviation
51 Coordinator at the GACC.
52

53 **Requesting Additional Aircraft Frequencies**

54 Initial Attack

1 When the aircraft communications load on an on-going incident is too congested to be handled by
2 existing incident and air operations networks, temporary frequencies can be obtained. The IC should
3 request additional frequencies.

4 Extended Attack

5 Extended Attack operations will be required to order new aviation frequencies allowing IA frequencies to
6 be released.

7
8
9 The Unit will request the following frequencies from the GACC: Air to Air FM (Air Tactics), Air to Air
10 AM (Victor) and Air to Ground (FM).

11
12 The GACC will be notified of all frequency releases.

13 **Aircraft Flight Following**

14
15
16 These procedures for flight following apply to all aircraft which move across Unit or Geographical
17 boundaries. Flight following is the primary responsibility of the unit scheduling the flight (sending unit).
18 The method to be used will be determined between the pilot and the dispatch office prior to departure.
19 Receiving and intermediate units will only get involved in tracking the aircraft when requested by the
20 sending unit or when the aircraft is overdue.

21
22 Once an aircraft has become airborne the flight manager/pilot will contact the ECC and relay the
23 following information, this information will also be relayed when the aircraft is handed off to another unit
24 for flight following responsibility

- 25 • Aircraft tail number/Call sign
- 26 • Number of souls on board
- 27 • Amount of fuel on board (hours/mins)
- 28 • Estimated flight time to destination and/or first fuel stop.
- 29 • Aircraft will advise on method of flight following (AFF is the preferred method).

30 **Types of Approved Flight Following Methods**

31
32 National Flight Following – Federal. Can be used for flight following of official aircraft and for aircraft
33 dispatching and divert.

34
35 Automated Flight Following (AFF). AFF displays real time information regarding an aircraft's location,
36 speed, heading, altitude, and flight history.

37 Federal: For more information on this see the National Interagency Mobilization Guide, Chapter 50.

38 CAL FIRE: Reference the CAL FIRE Handbook 8100, procedure 400.

39 Web link for AFF: <https://www.aff.gov/>

40
41 Radio check-in/check-out. Flight following requires verbal communication via radio every 15 minutes.
42 The ECCs will log the aircraft call sign, latitude, longitude and heading.

43 **Flight Following Responsibilities**

44 Sending Unit

- 45 • Ensure that the flight crews are properly briefed on flight following procedures, responsibilities,
46 and frequency. Flight follow the aircraft to its final destination. Advise the pilot of any
47 exceptions to routine flight following procedures. Obtain ATD (Actual Time of Departure) from
48 initial departure airport from pilot/vendor or chief-of-party.
- 49 • Communicate to local GACC through established ordering channels all aircraft flight plans which
50 cross Unit or GACC Boundaries. All resources will advise the GACC of all aircraft movement.
51 Make sure the sending dispatch telephone number appears on the flight plan.
- 52 • Notify GACC of any delays/advances of a flight plan exceeding 30 minutes.
- 53 • Initiate appropriate procedures for overdue/missing aircraft. Utilize agency Aircraft
54 Search/Rescue Guides as appropriate and notify GACC of overdue aircraft.
- 55

1 CAL FIRE reference the CAL FIRE Handbook 8100, procedure 406 for aircraft accident/incident
2 procedures and procedure 400 Flight Following.

4 Pilot

- 5 • Receive briefing of flight following procedures from sending ECC.
- 6 • File an FAA flight plan.
- 7 • Obtain and carry the sending ECC, GACC's and NICC's 24 hour telephone numbers.
- 8 • Contact sending ECC at time of initial departure and provide ATD.
- 9 • Contact sending ECC while enroute as directed.
- 10 • Call sending ECC upon arrival at destination.

12 Receiving Unit

- 13 • Notify the sending unit of any aircraft which has not arrived within 30 minutes of ETA.
- 14 • If problems are encountered contacting the sending unit, contact the GACC for assistance.

16 Sending GACC

- 17 • Forward flight plan information to the receiving GACC
- 18 • If flight crosses GACC boundaries outside of California, forward to NICC.
- 19 • Notify receiving GACC and NICC of any delays/advances of flight plan exceeding 30 minutes.
- 20 • Immediate notification to NICC when a Federal aircraft on GACC to GACC flight is
21 overdue/missing.
- 22 • Immediate notification to CAL FIRE Region Duty Officer when a CAL FIRE aircraft is
23 overdue/missing.
- 24 • Immediate notification to Forest Service Regional Aviation Safety Officer or respective DOI
25 Aviation Managers when a Federal aircraft is overdue/missing.
- 26 • Coordinate with units/GACCs/NICC in searches for overdue/missing aircraft.

28 Receiving GACC

- 29 • Relay flight plans to all units affected by the flight plan through established dispatch channels.
- 30 • Notify intermediate or receiving units of any delays/advances of flight plan exceeding 30
31 minutes.
- 32 • Coordinate with intermediate or receiving units in searches for overdue/missing aircraft.

34 NICC

- 35 • Monitor federal flight plans for additional utilization.
- 36 • Coordinate with sending and receiving GACCs in searches for overdue/missing aircraft.

38 **Aircraft Release**

39
40 All aircraft users should anticipate that tactical aircraft could be reassigned to new incidents at any time,
41 especially upon the completion of the current assignment.

42
43 At no time will supervisory aircraft or the ECC release positive control of any tactical aircraft until
44 approved by the GACC. Flight following will be performed on all released tactical aircraft.

45
46 Units may release charter and CWN aircraft to the vendor without flight following, providing there are no
47 federal passengers or cargo on board and will make notification to the GACC.

48
49 All airtankers will be released daily and reordered for next day's shift by 1900 hours, under a new request
50 number.

51 All federal aerial supervision aircraft may remain on their original request number (A#) until released
52 from the incident, diverted to another incident, or go on days off.

53 On State incidents, all (state and federal) aerial supervision aircraft will be released at the end of each day.
54 They need to be reordered for next day's shift by 1900 hours, under a new request number.

1 **Notification for Aircraft Accident or Incident With Serious Potential**

2
3 Upon notification of an aircraft accident or incident with serious potential the following notifications will
4 be made:

5 6 Federal

7 *Unit* - Immediately notify their Aviation Officer or UAM, Unit Duty Chief, Agency Administrator, and
8 GACC Federal Aircraft Coordinator.

9 *Federal Aircraft Coordinator* – Notify the GACC Duty Officer, the Regional Aviation Safety Officer, the
10 Regional Aviation Officer and NICC Coordinator-On-Duty (COD).

11 12 State

13 *Unit* - Notify through the Unit Duty Officer chain-of-command, the Unit Duty Chief

14 *Unit Duty Chief* - Notify through the Duty Chief chain-of-command, the Regional OCC Duty Chief,
15 Sacramento Fire Protection Duty Chief and Tactical Air Operations Duty Officer.

16 *Unit Duty Officer* - Notify the Aviation Safety Officer via the Aviation Management Unit (AMU).

17
18 Reference the CAL FIRE Handbook 8100, procedure 406.

19 20 **Air Tactical Supervision**

21
22 Refer to the “Aerial Supervision Aircraft” chart at the end of this chapter for a listing of identifiers,
23 locations, pilots and qualifications.

24
25 Aviation operations on an incident are often conducted under extremely adverse flight conditions such as
26 congested airspace, reduced visibility, adverse weather conditions and mountainous terrain, all of which
27 add to the complexity of aircraft operations over an incident. For Fire Traffic Area over an incident, refer
28 to the California Interagency Mobilization Guide Appendix A for a link to this information.

29 30 Air Tactical Supervision Over an Incident.

31 Individual situations with their inherent complexities dictate the level of supervision required to safely
32 and effectively conduct an aerial suppression operation. This section identifies levels of Air Tactical
33 Supervision required over an incident and summarizes the intent of USFS, DOI and CAL FIRE manual
34 directives. Reference the Interagency Aerial Supervision Guide.

35 36 **Aerial Supervision Requirements**

37
38 Aerial supervision requirements are defined by the Interagency Aerial Supervision Guide per the chart
39 below. The following terms are used in the chart.

40 Required: Aerial supervisory resource(s) that shall be over the incident when air tactical operations are
41 being conducted.

42 Ordered: Aerial supervisory resources shall be ordered by the appropriate controlling entity. (Air tactical
43 operations may be continued while the aerial supervision resource is enroute to the incident or is on order.
44 Operations can be continued if the resource is not available.)

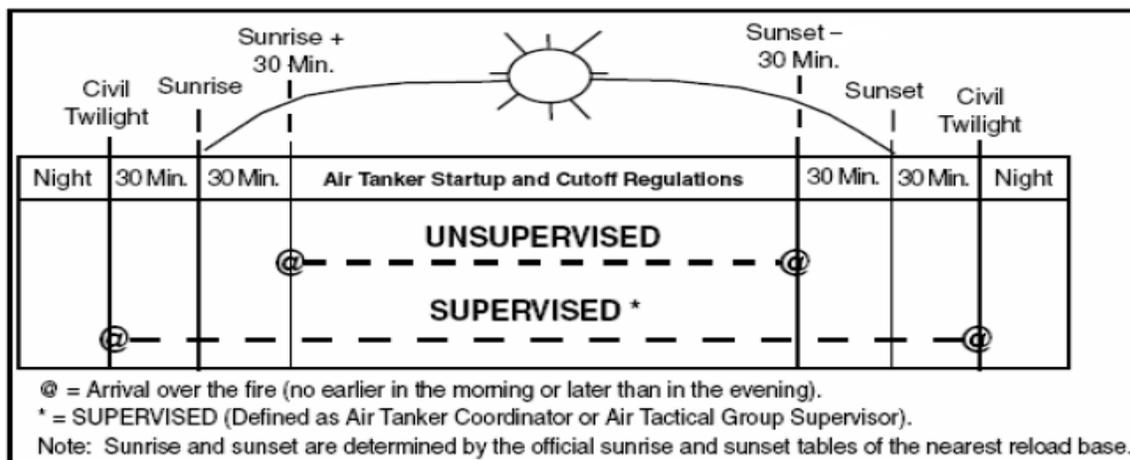

45 Over: The air tactical resource is flying above or is in a holding pattern adjacent to the incident.

46 Assigned To: Tactical resource allocated to an incident. The resource may be flying to and from, or on
47 hold at a ground site.

Incident Aerial Supervision Requirements

When aerial supervision resources are co-located with retardant aircraft, they should be launched together on the initial order to maximize safety, effectiveness, and efficiency of incident operations. Incidents with 3 or more aircraft over/assigned to them should have aerial supervision over/assigned the incident. Federal policy dictates additional requirements as listed below.

Situation	Lead/ATCO/ASM	ATGS
Airtanker not IA rated.	Required	
MAFFS	MAFFS Endorsed Lead/ASM	
VLAT	VLAT Endorsed Lead/ASM	
When requested by airtanker, ATGS, Lead, ATCO, or ASM	Required	Required
Foreign Government airtankers.	Required if no ATGS	Required if no Lead/ATCO/ASM
Multi-engine airtanker: Retardant drops conducted between 30 minutes prior to, and 30 minutes after sunrise, or 30 minutes prior to sunset to 30 minutes after sunset.	Required if no ATGS	Required if no Lead/ATCO/ASM
Single engine airtanker (SEAT): SEATs are required to be “on the ground” by ½ hour after sunset.	See level 2 SEAT requirements	See level 2 SEAT requirements
Level 2 SEAT requirements: Level 2 rated SEAT operating over an incident with more than one other tactical aircraft on scene.	Required if no ATGS	Required if no Lead/ATCO/ASM
Retardant drops in congested/urban interface areas.	Order	May use if no Lead/ATCO/ASM
Periods of marginal weather, poor visibility or turbulence.	Order	Order

* The chart above does not apply to Night Aviation Operations.

1 Airtanker dispatch, use of the official sunrise, start-up, cutoff, and sunset times of the Airtanker Base

1 nearest the fire.

2

3 **Aerial Supervision Module (ASM)**

4 The ASM is a fixed wing platform that utilizes 2 crewmembers to perform the functions of traditional air
5 attack and when necessary, performs low-level operations including Lead profiles. The ASM requires
6 both crewmembers to be trained as a team, utilizing Crew Resource Management (CRM) skills and
7 techniques to enhance safety, efficiency and effectiveness. Module operations require a fluid relationship
8 between crewmembers that incorporates task sharing and coordination. The ASM provides aerial
9 supervision in support of incident objectives.

10

11 An ASM is formed by pairing an ASM qualified Lead Pilot and an ASM qualified ATGS.

12 An ASM can perform Lead Plane duties and Air Attack duties at the same time.

13

14 National designators will be used to identify the operating agency and crewmembers.

15 For Forest Service ASM units, the Lead Plane call sign will be used and “Bravo” will replace “Lead”.

16 For example: Bravo 5-2. For CAL FIRE ASM units, call sign “Charlie” will be used. BLM ASM’s have
17 national call signs assigned.

18

19 All dispatching of Lead Planes/ASMs will be done by the GACCs. Normal ordering procedures will be
20 followed.

21

22 There are three Forest Service Lead Planes/ASM assigned to California: One in Southern California
23 GACC at Lancaster Fox Field, and two at the Northern California Service Center in Redding. They are
24 staffed seven days a week during the summer months, and are available the rest of the year, pilot
25 dependent. The GACC Federal Aircraft Coordinators will coordinate with the two Aviation Groups for
26 the availability and assignments for all Federal Lead/ASM planes. Refer to end of this chapter for
27 complete listing of pilots, locations, qualification and identifiers.

28

29 GACCs will be responsible for the Aircraft Flight Schedules, form 9400-1a, when needed for the aircraft.

30

31 CAL FIRE may, upon request, provide up to three (3) qualified Lead plane/Aerial Supervision modules.
32 Minimum status includes MAFFS and VLAT lead qualifications.

33

34 **Airtankers**

35 **Airtanker Standard ICS Types**

36

37 ROSS Catalog Item	38 Capacity (Mimumum)	39 ICS Type
38 VLAT	5000+ gallons	1
39 1	3,000 to 4,999 gallons	1
40 2	1,800 to 2,999 gallons	2
41 3	800 to 1,799 gallons	3
42 4	up to 799 gallons	4

43

44 **Very Large Airtanker (VLAT)**

45 VLAT can only be reloaded at specific bases. They are identified in the “Airtanker Bases” chart at the end
46 of this chapter.

47

48 DC-10/B-747:

49 These aircraft can be used on all lands in California and if available, may require up to 24 hours for
50 activation. These aircraft are best utilized on rapidly emerging fires which are, or will be moving into the
51 extended attack phase. Consider using the DC-10 (12,000 gallons) or B-747 (20,000 gallons) if you are
52 anticipating continuous use of multiple Type 1 and Type 2 Airtankers.

53

54 Ordered in ROSS as: Airtanker, VLAT

1 Type 1 Airtanker

2 DC-7/ Lockheed L-188 Electra/C-130/BAE-146/RJ and MD-87:

3 They can each carry a minimum of 3,000 gallons. The DC-7 and Electra are not approved for use within
4 federal jurisdiction, unless it is a situation that requires immediate action to prevent the loss of life and
5 property and has been authorized by the local Federal Line Officer or Regional Aviation Officer. This
6 approval will be on a case by case basis. Any qualified Federal or State Lead Plane can lead the DC-7 or
7 Electra.

8
9 Ordered in ROSS as: Airtanker, Type 1

10

11 Type 2 Airtanker

12 DC-6/P2-V:

13 These aircraft can carry a minimum of 1,800 gallons.

14

15 Ordered in ROSS as: Airtanker, Type 2

16

17 Type 3 Airtanker

18 S2 Tracker/S2 Turbine Tracker/CL-215 and CL-415:

19 These aircraft can carry a minimum of 800 gallons. The CL-215 and 415 are approved water scooping
20 aircraft in California. The CL-215 carries 1,400 gallons maximum and the CL-415 carries 1600 gallons
21 maximum.

22

23 Ordered in ROSS as: Airtanker, Type 3 (Multi-Engine)

24

25 Air Tractor AT-802 F:

26 Single engine airtanker capable of carrying 800 gallons.

27

28 Ordered in ROSS as: Airtanker, Type 3 (Single Engine)

29

30 Type 4 Airtanker

31 Air Tractor AT-802 and AT-602/Turbine Thrush/Turbine Dromader/Piston Dromader:

32 These aircraft can carry a maximum of 799 gallons.

33

34 Ordered in ROSS as: Airtanker, Type 4 (Single Engine)

35

36 Federal Modular Airborne Firefighting Systems (MAFFS)/Airborne Firefighting System (AFFS)

37 MAFFS/AFFS are military transport aircraft reconfigured to deliver retardant. They are activated to
38 augment and enhance contract and agency airtanker capabilities. The Air Force requests a 24 hour lead
39 time, however, in some cases they can mobilize quicker.

40 Requests will be placed through normal dispatch channels in ROSS.

41 MAFFS/AFFS can only be reloaded at specific bases. They are identified in the "Airtanker Bases" chart
42 at the end of this chapter.

43

44 CAL FIRE requests for MAFFS Activation follow CAL FIRE Handbook 8100 procedure 327.

45

46 Ordered in ROSS as: Airtanker, Type 1.

47

48 Smokejumper Aircraft

49

50 California Smokejumpers and aircraft are national resources, administered and managed by the GACCs.
51 Priorities for their use are established nationally.

52

53 Region 5 maintains two smokejumper (para-cargo) fixed wing aircraft during the active fire season that
54 are based at Redding. They are identified as "Jump 5-1" and "Jump 5-2".

55

1 NOPS will determine the number of aircraft and Smokejumpers available for a given day.

2
3 Once on the ground, the smokejumper incident commander/crew leader will contact the ordering Unit or
4 local incident commander and provide a situation report. Smokejumpers arrive at an incident with tools
5 and supplies for 3 days of fire suppression activity. The smokejumper incident commander will contact
6 the ordering Unit and arrange for incident demobilization.

7
8 Responsibility for arranging transportation of smokejumpers back to their base lies with the ordering
9 Unit. If problems arise, contact GACC for assistance. The GACC may be able to provide transportation
10 for the Smokejumpers and their gear.

11 12 **Satellite Bases**

13 When smokejumpers are being deployed to SOPS, satellite bases may be activated. When a Unit in SOPS
14 places the initial request for jumpers, the request will be placed to NOPS to fill; the SOPS Federal
15 Aircraft Coordinator will then canvas other potential users to determine if there is a need to activate a
16 satellite base. When a SOPS satellite base is activated, a smokejumper liaison will be assigned by the
17 NOPS smokejumper base. Potential SOPS satellite bases include, but are not limited to: Fresno,
18 Porterville, San Bernardino, Stockton, Bishop and Santa Maria. Potential NOPS satellite bases include,
19 but not limited to: South Lake Tahoe, Grass Valley, Chester, Siskiyou, and Rohnerville.

20
21 When there is an activation of a satellite base in SOPS jurisdictional area, the operational control of the
22 satellite base will remain under SOPS. The smokejumper plane and the smokejumpers themselves will be
23 hosted by SOPS and be requested on OSC preparedness/preposition order.

24
25 NOPS will fill all requests for smokejumpers, para-cargo, smokejumper/para-cargo aircraft, and necessary
26 supplies for all smokejumper satellite base operations. NOPS smokejumper base will ensure that all
27 satellite smokejumper bases are properly outfitted. Any additional orders for smokejumpers, para-cargo,
28 supplies, and aircraft will be made through NOPS.

29
30 All requests from a SOPS Unit for smokejumpers when there is an activated satellite base will be
31 processed through normal dispatch channels. All agencies will place the request for smokejumpers as an
32 "A" number as "Load, Smokejumper, Initial Attack", located under aircraft groups in ROSS.

33
34 *Example:* Fresno satellite base needs additional jumpers or equipment. The smokejumper liaison officer
35 will contact the NOPS base and ask for additional jumpers or equipment. When the desired number of
36 jumpers gets finalized, then NOPS aircraft coordinator will contact the designated person at SOPS and
37 ask for the appropriate "O" numbers on the OSC order, to be placed with NOPS to be filled. If the
38 request for additional jumpers cannot be fulfilled by the jumpers currently on base then NOPS may put in
39 a request for boosters.

40
41 Satellite base resources; smokejumpers, supplies, and aircraft, will be demobilized through NOPS.

42 43 **Para-Cargo Delivery**

44 The Smokejumper Unit is charged with maintaining the para-cargo delivery system.
45 The following information is needed to fill a para-cargo request:

- 46
47
- 48 • Desired Cargo
 - 49 • Incident name, order number and "A" request number
 - 50 • Location of drop zone (Legal or Latitude X Longitude)
 - 51 • Ground contact
 - 52 • Desired time of delivery

53 Almost all fire cache items can be delivered via para-cargo. In addition, special items such as fresh food,
54 drinking water and sack lunches can also be delivered. Emergency medical care and rescue equipment
55 can be delivered via para-cargo. The Smokejumper unit maintains two sled kits rigged for para-cargo

1 delivery. Trauma kits with IV blood expanders, oxygen, splints and equipment to monitor vital signs are
2 carried on the jumper aircraft and can be ordered. The trauma kit must be accompanied by a qualified
3 member EMT of the Smokejumper Unit. IV starts must be administered by qualified EMT
4 smokejumpers and only to U.S. Forest Service employees.

5
6 The time frames for delivery of para-cargo are dependent on the availability of requested items, aircraft,
7 cargo riggers and cargo droppers. As a general rule, any fire cache items can be ready within two hours
8 and special items within four hours. Orders placed after dark can be prepared at night and delivered at
9 dawn.

10
11 Para-cargo weight capacities vary for aircraft assigned.

12 **Infrared Aircraft**

13
14
15 Infrared mapping services are available for use on any wildland fire activity and are obtained through the
16 appropriate GACC in accordance with the National Infrared Operations Plan.

17
18 Requests to the GACC will be via ROSS and a completed Infrared Aircraft Scanner Request form,
19 submitted on-line from the National Infrared Operations (NIROPS) website:
20 <http://nirops.fs.fed.us/rcr/scanner>. If internet is unavailable, a faxed copy to the GACC will be accepted.
21 Request(s) need to be received at the NICC by 1500 Mountain Time to be scheduled for that night's
22 flight, which means they must be received by the GACC no later than 1345 Pacific Time.

23 For the Infrared Aircraft Scanner Request Form, refer to the link found in the California Interagency
24 Mobilization Guide, Appendix A

25 A qualified Infrared Interpreter (IRIN) must be confirmed or in place at the time of the Infrared flight.

26 Refer to the California Interagency Mobilization Guide Chapter 20, Specialized Overhead

27
28 Ordered in ROSS as: Service-Aviation; Service – Infrared Flight

29 **Night Aviation Operations**

30 **Forest Service**

31
32
33
34 An Exclusive Use helicopter will be available during fire season 24-hours a day and an air attack platform
35 will be staffed at night for firefighting operations. The night air operations will be based on the Angeles
36 National Forest and will support wildfire suppression on Forest Service-protected lands, including
37 communities and homes within and adjacent to the Angeles, Cleveland, and San Bernardino National
38 Forests, and the Southern half of the Los Padres National Forest. At night, the helicopter will be
39 restricted to water dropping only.

40
41 Prior to committing night air operation resources outside the above approved locations approval must be
42 granted from South Ops Geographic Area Coordination Center (GACC) Duty Chief. The approval or
43 denial of the request will be documented in the ROSS order by the South Ops GACC.

44
45 For a copy of the Region 5 Night Air Operations Mobilization and Notification Procedures please contact
46 South Ops GACC.

47
48 Ordering will follow standard procedures.

49 ROSS order helicopter as: Helicopter, Type 2 Standard

50 ROSS order Air Attack as: Fixed Wing, Air Tactical

51 **Cooperators**

52
53 Cooperator helicopters can be used if proper agreements, approvals and procedures are in place.

54 Reference Interagency Aerial Supervision Guide.

55

1 Helicopters

2

3 Helicopter Standard ICS Types

4 Limited Helicopters (L): no passenger carrying, external cargo only.

5 Standard Helicopters (S): passenger carrying, internal cargo and external cargo.

6

7 Type*	8 Bucket size	9 Seats (including pilot)
10 1	11 700 gallons	12 16
13 2	14 300 gallons	15 10
16 3	17 100 gallons	18 5
19 4	20 75 gallons	21 3

22 * Type is based on bucket size and passenger capability.

23

24 Type 2S with crew is the standard IA helicopter

25

26 Type 3S with crew are additional IA helicopters

- 27 • A Host Unit may use their Type 3S helicopters on local IA response

28

29 Type 1L are Large Fire Support helicopters (LFS)

- 30 • These helicopters are primarily used as extended support of IA fires or in support of established large fires, not on standard IA response requests
- 31 • A Forest may use their Type 1L helicopter on local IA response
- 32 • If all Type 2S helicopters are committed, the GACC may go to a Forest with a Type 1L helicopters on an IA response

33

34 Air Rescue

35 CAL FIRE

36 All CAL FIRE helicopters can perform rescue operations. This capability is intended for use on incidents to rescue trapped or endangered firefighters and citizens when there is no other feasible alternative for evacuation.

37

38 National Park Service

39 NPS have 2 helicopters based at Yosemite National Park at Crane Flat (Type 2S helicopter) and Sequoia/Kings National Park at Ash Mountain (Type 3S helicopter). Both helicopters serve as the parks' primary rescue/life flight helicopter for life threatening emergencies and may not always be available.

40 Reference the DOI Helicopter Shorthaul Handbook: https://www.iat.gov/docs/HSHH_2010.pdf

41

42 For additional air rescue resources, reference the Interagency Helicopter Extraction Source List: [http://www.fs.fed.us/fire/aviation/av_library/Revision_6_EHE_Source_List\(03-12\).pdf](http://www.fs.fed.us/fire/aviation/av_library/Revision_6_EHE_Source_List(03-12).pdf)

43

44 Federal Helicopter Rappelling

45 Helicopter rappelling performed by qualified helitack modules can be utilized for a variety of missions where conventional means of delivering personnel by ground or by other aerial platform is prohibitive due to time, geographical features, or other environmental conditions. Either a booster or CWN rappeller can be ordered through normal dispatch channels.

46

47 Refer to the "Helicopter" chart at the end of this chapter for a listing of rappel qualified helicopters in California.

48

49

1 **Ordered in ROSS as:**

2 IA Load of Rappelers

3 Aircraft, Aircraft group, Load, Rappelers, IA

4

5 Boster Load of Rappelers

6 Overhead, HRAP

7

8 Rappel Helicopter

9 Aircraft, Helicopter, Helicopter Type, selected features, rappel capability

10

11 **Firewatch Aerial Supervision Platforms**

12 The USFS Firewatch Aerial Supervision Helicopter is a Bell 209 Cobra Helicopter converted for use as
13 an aerial supervision and remote sensing intelligence gathering platform. There are currently two
14 platforms in use in California, 507 and 509, refer to the “Aerial Supervision Aircraft” chart at the end of
15 this chapter

16

17 Call signs for mission clarification:

- 18 • As air attack role, use the call sign “Air Attack”.
- 19 • As helicopter coordination role, use the call sign “HelCO”.
- 20 • As remote sensing intelligence gathering role, use the call sign “Firewatch”.

21

22 Order in ROSS as:

- 23 • For air attack role – Fixed Wing, Air Tactical
- 24 • For helicopter coordination role – Fixed Wing, Air Tactical or Helicopter, Type 3 Standard with
25 special needs “Fire Watch helicopter”
- 26 • For remote sensing intelligence gathering role – Fixed Wing, Tactical or Helicopter, Type 3
27 Standard with special needs “Fire Watch helicopter”.

28

29 **Project Helicopter – Forest Service**

30 Request for helicopter services when the Forests local exclusive use helicopter is unavailable or the Forest
31 does not have an exclusive use helicopter.

32

33 For Type 1 limited helicopter or Type 2 standard/limited helicopter requests will be passed up to NICC
34 for processing. Requests for Type 3 helicopter are processed at the GACC.

35

36 When requesting a helicopter for a project this additional information needs to be included:

- 37 • Type of helicopter needed (make and model)
- 38 • Contact Name and Telephone number for Project Manager
- 39 • Contact Name and Telephone number for Helicopter Manager
- 40 • Approximate project length
- 41 • Fuel Truck, if needed
- 42 • Special pilot qualifications, if needed
- 43 • Other equipment as needed, long lines, nets, flotation devises, snow pads, etc.

44

45 A copy of the Commitment of Fund Obligation (FS-6500-224) and a copy of the Project Aviation Safety
46 Plan also needs to be sent to dispatch and forwarded on to the GACC.

47

48 The GACC will either process the order, if it is for a Type 3 helicopter or place the order up to NICC. If
49 the request needs to go to NICC then a copy for Commitment of Funds Obligation Form and the signature
50 page of the Project Aviation Safety Plan will also be sent to NICC to be passed on to the contracting
51 officer and the National Helicopter Specialist.

52

53 NICC will process the request by filling with an exclusive use helicopter with a modified contract or
54 CWN helicopter.

55

1 **Airspace Coordination**

3 **Fire Traffic Area (FTA)**

4 FTA is the initial attack airspace structure over a wildland fire.

5 For examples of FTA reference www.airspacecoordination.net and refer to the California Interagency
6 Mobilization Guide Appendix A for a link to this information.

8 **Temporary Flight Restrictions, FAR 91.137 (TFR)**

9 Temporary airspace restrictions will be established when incident related Aviation activities present
10 potential conflict with other Aviation activities. The FAA requires that latitude/longitude information for
11 TFRs (Temporary Flight Restrictions) must be provided in degrees, minutes, and seconds, including
12 reference to north latitude and west longitude. If seconds' information is not available, add two (2) zeros
13 to the description. Do not use spaces, commas, or other symbols in the description. Example:
14 ddmssN/ddmmssW or 450700N/1175005W. The corner points should be listed in a clockwise
15 sequence around the requested TFR to avoid "bow tie" depictions.

16
17 The Interagency Airspace Coordination Guide (located at www.airspacecoordination.net) describes
18 further how flight restrictions are requested and implemented.

19
20 Units are responsible for initiating and cancelling all TFR requests, with a phone call and completion of
21 the Interagency Request for Temporary Flight Restrictions form (FAR part 91.137), to the appropriate
22 GACC, as well as processing request in ROSS. This form is located at:
23 http://gacc.nifc.gov/oncc/logistics/aviation/docs/tfr_request.rtf and the link to this form may also be found
24 in the California Interagency Mobilization Guide Appendix A. All violations must be reported
25 immediately to the GACC.

26
27 GACCs are responsible for coordinating the issuance and cancellation of all requests with the FAA. The
28 GACCs will process the local advisory NOTAM with FAA. During high incident activity an Airspace
29 Coordinator may be requested. The GACC will contact the FAA-ARTCC, and military facility if
30 applicable.

31
32 Media aircraft, medical aircraft and law enforcement aircraft are allowed in the TFR as long as they
33 contact the air attack on the posted Air to Air frequency to request permission prior to entering the area
34 and at what altitude.

36 **Military Training Routes (MTR) and Special Use Airspace (SUA)**

37 Military Training Routes and Special Use Airspace present conflicts with incident related aviation
38 activities and will be identified by local Units. One source for this information is AP-1B, Flight
39 Information Publication, "Military Training Routes." Each ECC should download a current edition of the
40 AP-1B. Instructions for access are available at www.airspacecoordination.net under "Airspace
41 Coordination".

42
43 Special Use Airspace may be found on Sectional Aeronautical Charts. Critical airspace information
44 pertinent to flight should be organized for easy and rapid utilization; i.e., displayed on dispatching hazard.
45 Special Use Airspace (SUA) includes Low Altitude Tactical Navigation Areas (LATN), Military
46 Operations Areas (MOA), Restricted Areas (RA), Prohibited Areas (PA), Alert Areas (AA), Warning
47 Areas (WA) and Controlled Firing Areas (CFA). Units may obtain operational agreements with the
48 military units having control over any Special Use Airspace in their area and keep the military advised of
49 all activities (fire and non-fire) that may be occurring inside these areas. Units will follow up with
50 notification to the GACC. Further direction may be obtained in the Interagency Airspace Coordination
51 Guide at www.airspacecoordination.net.

52
53 For deconfliction of Special Use Airspace, refer to the Documentation of Contacts Requesting
54 Deconfliction of Airspace by the Military, the link to this form is found in the California Interagency
55 Mobilization Guide, Appendix A.

1 Incident Related

2 When air activities of an unplanned nature (i.e., fire or flood) occur that may conflict with an MTR or an
3 SUA the GACC Aviation Coordinator will contact the responsible military originating or scheduling
4 facility to notify them of the situation and gather information on whether the routes are active. Provide
5 the following information:

- 6
- 7 1. MTR number and points along the route where incident is located.
- 8 2. Whether route needs to be closed or altitude adjusted so route can remain operational and safe.
- 9 3. Hours the restriction/change is to be in effect.
- 10 4. Temporary airspace restriction, TFR (91.137) is filed with the FAA. If a TFR has not been
11 requested through the FAA, the request to the military is considered a voluntary cessation of
12 activity(s); it is between the agency and the military. Any conflicts arising will need to be
13 coordinated directly with the military as no FAA air space restriction has been violated. All
14 conflicts should be reported on SAFECOM Report (or OAS-34), to Regional/State Aviation
15 Safety Officer. CAL FIRE report on FC-119, reference CAL FIRE Handbook 8100, procedure
16 406.
- 17

18 Non-Incident Related

19 When a Unit schedules an air activity project that may conflict with a MTR, the GACCs Aircraft
20 Coordinator will assist with the operating procedures and ensure that the use of the MTR is coordinated
21 with the responsible military facility. The project needs must be made known to the GACCs Aircraft
22 Coordinator at least two days prior to starting the project to allow time to coordinate with the military, so
23 they may adjust their schedules if needed.

24 **Temporary Airport Control Tower Operations**

25 Requesting FAA Air Traffic Control Support - When aviation operations in support of an incident
26 become too complex or unsafe at uncontrolled airports or helibases, the FAA may be requested to provide
27 air traffic control support.

28
29
30 GACCs within the FAA's Western Service Area (AK, AZ, CA, CO HI, ID, MT,NV, OR, UT, WA, and
31 WY) may request FAA Air Traffic Control support through the Western Service Area Agreement or
32 through a contract vendor. A lead time of 24 hours is desirable when ordering. If the FAA cannot supply
33 radios, the incident COML will order radios as a Supply request through established ordering channels.

34
35 Requesting Units are required to provide full support and subsistence for FAA assigned personnel, as
36 needed, per FAA Agreement.

- 37
- 38 • Ground/takeoff control problems.
- 39 • Approach control/landing problems.
- 40 • Where it is needed.
- 41 • Approximate duration of use.
- 42 • Contact person's name and phone number that will provide support and subsistence for FAA
43 personnel.
- 44

45 Requesting Unit must complete and submit Temporary Airport Control Tower Form to the GACC:
46 http://gacc.nifc.gov/oncc/logistics/aviation/docs/temp_tower.doc

47
48 The GACC will contact the FAA's WSA Regional Operations Center (ROC) at 425-227-1999 and ask to
49 speak to a duty officer regarding a Temporary Tower order. The ROC will connect the GACC with the
50 appropriate FAA Duty officer. The ROC is the primary point of contact for the FAA for this request. The
51 Temporary Tower Request Form along with the aircraft resource order will be forwarded to the FAA at
52 the time of the request. In addition, there is a helpful checklist in Chapter 11 of the Interagency Airspace
53 Coordination Guide that aids in the ordering and set up process of a temporary tower.

54
55 Ordering procedure is outlined in the current FAA agreement located at www.airspacecoordination.net.

1 Ordered in ROSS as: Service-Temporary Tower

2 **Airspace Conflicts**

3 Consult the Interagency Airspace Coordination Guide: www.airspacecoordination.net

4 **Call When Needed (CWN) Aircraft**

5
6 Call signs for CWN aircraft will be the last 3 numbers of the FAA tail number.

7
8 For the link to the Passenger and Cargo Manifest Form for CWN flights, refer to California Interagency
9 Mobilization Guide, Appendix A.

10 **CAL FIRE**

11 Unit ECCs are authorized to directly hire CWN aircraft: reference policies and rules of the current CAL
12 FIRE 8300 Handbook, Section 8353. The current list of CWN aircraft is available on the CAL FIRE
13 intranet.

14 If incident activity prohibits the ECC personnel from implementing the CWN hiring process, contact the
15 GACC for assistance.

16 All payments are processed through the Unit's finance office utilizing the CAL FIRE 62 Emergency
17 Aircraft Use Invoice.

18 **Department of the Interior**

19 A list of approved CWN aircraft and pilots are available via the Internet at:

20 <http://oas.doi.gov/apmd/cwn/cwn.htm> and is maintained by the Office of Aviation Services (OAS). DOI
21 agencies are required to use the OAS Source List when ordering and utilizing CWN aircraft and pilots.

22 All Type 3 CWN helicopters that are located within the administrative jurisdiction of a BLM District may
23 be ordered by the appropriate ECC from the OAS Source List. The ordering Unit will order or provide a
24 qualified helicopter manager and crew members.

25 CWN Helicopter Selection Factors:

- 26 • Closest forces
- 27 • Cost effectiveness
- 28 • Performance specifications for density altitude/high altitude operations
- 29 • Carded and contracted for local or emergency use
- 30 • Special applications such as helitorch, fixed tank, long line, etc.
- 31 • Daily availability based on expected duration of assignment and projected use

32 Type 1 and 2 helicopters are available under National Contract and will be requested through the GACC
33 by ICS type and specifications.

34 CWN Inspection Criteria

35 All DOI helicopters are solicited and inspected by the OAS. The OAS and Forest Service will honor each
36 other's inspection certifications. If the aircraft is not used immediately, it must be reinspected by the
37 Project Inspector for contract compliance prior to use. This inspection includes checking all required
38 equipment for installation and function. In addition, the log book will be reviewed to see that the aircraft
39 has not been damaged and that it is in compliance with required inspections (10-hour, annual, etc.).

40 **Forest Service**

41 A listing of pilots and aircraft carded for the current year are kept at the GACC.

42 Forest Service requests for CWN aircraft will be placed to the appropriate GACC. The GACC will utilize
43 the aircraft that best accomplishes the requested mission and provides maximum cost benefit.

1
2 The GACC will process requests for Federal Type 3 CWN helicopters directly with the vendor. Type 1
3 and 2 helicopters are available under National Contract and will be requested through the GACC by ICS
4 type and specifications. For project or emergency hire the Unit must identify the manager's name in
5 "Special Needs". The helicopter and manager will be married up at a non-fire incident location.

6
7 The GACC will process requests for Federal aircraft directly with the fixed wing vendor. Forest Service
8 requests for CWN aircraft will be placed to the appropriate GACC. The Unit must identify the ATGS or
9 aerial observer name in "Special Needs".

10
11 When the aircraft are being used for fire detection the last three characters of the FAA registration
12 number will be used as the call sign.

13
14 Forest Aviation Officers are responsible for insuring all Flight/Aircraft Use Report (FS 122s) are
15 submitted into the ABS system for CWN aircraft used on their Forests. All payments will be processed
16 through Aviation Business System (ABS) web site. CWN Managers are responsible for providing
17 performance evaluation forms to the GACC Aviation Coordinator for payment management in ABS.

18
19 For all non-fire projects a copy of the Project Aviation Safety Plan needs to be provided to the Unit and
20 GACC by the Project Manager.

21 **CWN Helicopter Modules – Federal**

22 Call When Needed (CWN) helicopters will be managed by a qualified module when assigned for incident
23 use. For project work, a qualified helicopter manager (HMGB) will be assigned as a minimum on
24 federally hired CWN helicopter contracts.

25
26
27 Module requirements:

HELICOPTER TYPE	FAA STANDARD/ TRANSPORT CATEGORY	FAA STANDARD Category Temporarily Designated for Limited Use	FAA Category Permanently Designated for Limited Use or FAA Restricted Category
1	Manager * plus four (4) Helicopter Crew Members**	Manager * Only	Manager * Only
2	Manager * plus three (3) Helicopter Crew Members	Manager * Only	Manager * Only
3	Manager * plus two (2) Helicopter Crew Members	Manager * Only	Manager * Only

28 *If the intended use is for Forest Service or DOI initial attack, the helicopter manager request must
29 specify that a fitness level of arduous is required. Any other qualification requirements (ICT4, etc.) must
30 also be specified in Special Needs. Remember to specify where the HMGB and helicopter are going to
31 marry-up, also notated in Special Needs.

32 ** Forest Service no longer allows passenger transport in Type 1 helicopters with the exception of
33 authorized military helicopters.

34 **Large Transport Aircraft – Federal**

35
36 Large transport aircraft are used to mobilize and demobilize large volumes of overhead, crews, equipment
37 and supplies nationally and internationally.

38
39 Large transport aircraft are National Resources and requests are filled at the national level (NICC) after
40 the request has been initiated at the GACC, by the Aircraft Coordinator.

41 The GACCs will place these requests with NICC at least 48 hours before the flight is needed.

1 **Airport Guide**
2

3 The Pilots Guide to California Airports will be used in California. It is recommended that each Unit
4 maintain their own copy(s) through the subscription process or have access to the internet site, due to
5 continual updates.
6

Chapter 60

Chapter 60 – Predictive Services

Intelligence Reporting Procedures

The main function of the Intelligence Unit is to provide up-to-date, real-time information to management staff regarding active incidents (wildfire suppression and/or managed fire), fire weather conditions, and resource allocations and availability.

Each GACC must rely on the Units to report certain information that enables compliance with national and state requirements. The ECCs will use established procedures in the daily reporting of shared resources. GACCs will maintain a list of days off for crews and airtankers. It is the responsibility of the Unit controlling the resource to advise the GACCs of any change in available status.

Federal Daily 1000 am Report

Resource status will be updated continually using ROSS. GACC Intelligence offices will use ROSS/Cognos reports for collection of federal resource status for the 1000 am report.

The 1000 ROSS/Cognos report will include:

- Number of Engines, Dozers, Water Tenders, Types 1, 2IA and 2 hand crews, with current ROSS status.

By 1100 hours each day during fire season, GACC Intelligence offices will compile and post to the GACC Intel webpage the Daily report which documents current resource status.

Available for ONCC at: http://gacc.nifc.gov/oncc/predictive/intelligence/news_notes/index.htm

Available for OSCC at: http://gacc.nifc.gov/oscc/predictive/intelligence/news_notes/index.htm

Situation Report

Interagency Situation Reporting

Daily: May through October.

November through April when either of the following conditions are met:

- Wild fire activity occurs.
- A Unit's fire Danger is reported as very high or extreme.

The GACC will ensure that Units complete data entry on a daily or weekly basis as required by NICC.

The Federal Interagency Situation (Sit) Report program captures incident activity and resource status information in a brief summary intended for use by managers. Once the information has been submitted via the web site (<http://fam.nwcg.gov/fam-web/>), it is used at the local dispatch offices, the GACCs and NICC to produce summary reports, which are then distributed to agency managers for use as a decision-making tool.

The GACCs and NICC use the Sit Report program to run reports from data that has been entered by the Units. The GACCs have edit access to all of their respective Units' Sit Report data. NICC has edit access to all Units' Sit Report data, and bases the National Incident Management Situation Report (IMSR) on this information.

Access to the input side of the Interagency Situation Report program can be obtained by calling the GACC Intelligence Coordinator for your area.

During the active fire season, the Sit Report is prepared on a daily basis. In the off-season, it is submitted on a more limited basis, depending on the level of incident activity, NICC requirements, or direction from the GACC. For more specific reporting requirements and program instructions, reference the Sit Report User's Guide at:

1 [http://gacc.nifc.gov/predictive_services/intelligence/national_intelligence_operations_program/sit_report_](http://gacc.nifc.gov/predictive_services/intelligence/national_intelligence_operations_program/sit_report_program/sit_report_users_guide/index.htm)
2 [program/sit_report_users_guide/index.htm](http://gacc.nifc.gov/predictive_services/intelligence/national_intelligence_operations_program/sit_report_users_guide/index.htm)
3

4 By 1700 hours each day during fire season, each Unit will report the following information using the
5 web-based Sit Report program:
6

- 7 • Unit Preparedness Levels.
 - 8 • Daily Fire Statistics.
 - 9 • Resource Status, what each Unit expects to have available for tomorrow.
 - 10 • Planned Prescribed (Rx) Fires.
 - 11 • Dispatch Center Remarks:
 - 12 Brief summary of current situation.
 - 13 Predicted NFDRS adjective ratings.
 - 14 On-call dispatcher.
 - 15 • Year-To-Date (YTD) Statistics.
 - 16 • Dispatch office incident priority.
- 17

18 **Incident Status Summary (ICS-209) Form**

19 The GACC will ensure that information in the 209 Program is current for use in the Sit Report.
20

21 The Incident Status Summary (ICS-209) is submitted to the GACC through a web-based application.
22 Specific instructions for completing the web-based ICS-209 are available at:

23 http://www.predictiveservices.nifc.gov/intelligence/ICS-209_User_Guide_2.0.pdf

24 For fire size and class, refer to the link found in the California Interagency Mobilization Guide, Appendix
25 A.

26 Units or Incidents should submit ICS-209 forms according to the following:
27

28 a. Initial ICS-209:

- 29 1. When a fire in timber reaches 100 acres or grass/brush reaches 300 acres.
30 OR
- 31 2. Non-Fire incident, commitment of Type 1 or Type 2 IMT.
32 OR
- 33 3. Significant commitment of national resources (Aircraft, Federal Type 1 crews, Smokejumpers)
34 OR
- 35 4. When an incident is determined to be a wildfire managed for resource objectives, regardless
36 of size
37 OR
- 38 5. At discretion of GACC and/or CalMAC (based on resource commitment)
39

40 b. ICS-209 Update:

- 41 1. Twice during each established operational period by 0600 and 1800 hours. May be negotiated
42 to once a day with concurrence from IC, Agency Administrator, Unit Chief and GACC.
43 AND/OR
- 44 2. Upon special request by CalMAC.
45 OR
- 46 3. Wildfires managed for resource objectives will be submitted daily, at 1800 hours
47

48 c. Final ICS-209:

- 49 1. When less than 15 single resources remain assigned to an incident,
50 OR
- 51 2. When the incident no longer has any significant effect on agency resource availability.
52
53

1 Incident Map

2 Incidents should send incident map data directly to the GACC (electronically if possible) as soon as it
3 becomes available, and as it is updated.
4

5 Monthly Fire Report

6 At the end of each month all National Forests will tabulate the total number of fires and acres burned that
7 month. The totals will be transmitted to the respective GACC, on the forms provided, by the second day
8 of each month.
9

10 Interagency Intelligence Report

11 The Interagency Intelligence Report will include a synopsis on current overall status within the GACC, a
12 section on the general weather forecast for the day, and an extended weather outlook for the next 2-4
13 days. This report will also include sections detailing each significant incident within the GACC. These
14 sections will give a brief incident summary of individual incidents and the resources committed to them.
15 This report will be compiled from the most current information available and will be electronically shared
16 with cooperating agencies by 1200 hours each day during large fire activity.

17 Each GACC's Predictive Services will utilize a Fire Behavior Analyst (FBAN) for preparing a Fuels and
18 Fire Behavior Advisory.
19

20 Predictive Services Weather

21
22 Weather and fire danger products and a variety of other tools are often utilized to make fire management
23 decisions. Many of these products, including firefighter pocket cards, are based on the data maintained in
24 historical fire occurrence and weather databases. In order to make these products as accurate as possible,
25 fire management staff will ensure weather station and fire history data are entered correctly and
26 accurately into the appropriate databases in a timely manner. The importance of these systems will be
27 reiterated at fire management meetings, training sessions and through email systems.
28

29 Daily issuance of the 7-Day Significant Fire Potential product:

30 Each GACC's Predictive Services/Fire Weather Centers will produce a "7-Day Significant Fire Potential"
31 product daily. This will be posted on the Predictive Services Weather web pages by 1030.

32 North GACC website at: <http://psgeodata.fs.fed.us/7day/action/forecast/10>

33 South GACC website at: <http://psgeodata.fs.fed.us/7day/action/forecast/8>

34 Reference the National Interagency Mobilization Guide (NMG) Chapter 60, for content and format.
35 <http://www.nifc.gov/nicc/mobguide/index.html>
36

37 Monthly Fire Weather/Fire Danger Outlook:

38 The Monthly Fire Weather/Fire Danger Outlook and map will be completed by each GACC and
39 submitted to NICC three days prior to the end of each month. It is due monthly year-round.
40

41 NICC National Wildland Fire Outlook:

42 Each GACC Predictive Services will ensure that a copy of the Monthly National Wildland Fire Outlook is
43 posted to:

44 North GACC website at: <http://gacc.nifc.gov/oncc/predictive/outlooks/index.htm>

45 South GACC website at: <http://gacc.nifc.gov/oscc/predictive/outlooks/index.htm>
46

47 Monthly Zone/Regional Fire Report:

48 Each GACC will compile their respective forests' fires and acres tabulations for the preceding month and
49 develop the monthly geographic area fire report for their area. North Ops Predictive Services will
50 electronically transmit their report to South Ops Predictive Services/Intelligence for compilation of the
51 two Geographic Area reports into the Regional Monthly Fire Report. Upon completion of this regional
52 report by South Ops Predictive Services a copy will be transmitted to the Regional Office as well as to
53 North Ops Predictive Services. Each GACC's Predictive Services Section will be responsible for
54 electronically transmitting this report to their respective Units.
55

Smoke Transport and Stability Outlooks:

Each Predictive Services/Fire Weather Center will produce daily a “Smoke Transport and Stability Outlook”, with North Ops at http://gacc.nifc.gov/oncc/predictive/weather/daily_smoke/Smoke.html, and South Ops at http://gacc.nifc.gov/oscc/predictive/weather/daily_smoke/Smoke.html. These are to be posted on the websites by 1230.

Fire Weather/ Fire Danger Products:

The GACCs Predictive Services sections will produce weekly Fire Danger Outlooks in addition to the monthly outlook. These two products show fire danger indices at severity weather stations within the GACC, and are posted on the Pacific Southwest Region website. ONCC Predictive Services website at: http://gacc.nifc.gov/oncc/predictive/fuels_fire-danger/index.htm OSCC Predictive Services website at: http://gacc.nifc.gov/oscc/predictive/fuels_fire-danger/index.htm

NFDRS RAWS Maintenance Based on Preparedness Level:

The following is a matrix describing preparedness level driven actions authorized and action required in maintaining RAWS utilized for NFDRS based products and decision processes.

Item	ACTION DESCRIPTION	Preparedness Levels				
		1	2	3	4	5
	NFDRS RAWS: Year Round - PSA – Pocket Card Stations					
U1	Stations meet NFDRS maintenance standards and siting guidelines	AR	AR	AR	AR	AR
U2	All days with available RAWS data for regular scheduled (R/S) observation times will be "published" in WIMS	AR	AR	AR	AR	AR
U3	All annual maintenance completed as early in the field season as possible (prior to WIMS "greenup" is preferred) and maintenance is documented in WFMI	AR	AR	AR	AR	AR
U4	Identify and troubleshoot data errors within 48 hours	AR	AR	AR	AR	AR
U5	Adhere to the 3-day response time to system failures in fire season - NFDRS STANDARD	AR	AR	See U6 & U7	See U6 & U7	See U6 & U7
U6	Adhere to 24-hour response time to identify, troubleshoot, and process a RAWS Depot/vendor replacement order			AR	AR	AR
U7	Adhere to 24-hour response time to replace or make repairs after receiving the RAWS Depot/vendor replacement order			AR	AR	AR
FS-1	If Forest Service items (U1- U7) are not at required level, the Regional RAWS Coordinator is authorized to secure annual maintenance and/or system failures maintenance at Forest expense.		AR	AR	AR	AR

Item FS-1 is Forest Service specific. Items U1-U7 applies to all agencies.
AR = Action Required AA=Action Authorized

Chapter 80

Chapter 80 – Cooperation

Successful incident management within California requires close cooperation with a number of other fire departments, agencies, and organizations. Incident managers must be knowledgeable regarding the abilities and needs of cooperators. Copies of cooperative agreements and operating plans should be available to all incident managers. It is generally most effective to handle cooperative efforts at the local level. However, if needed assistance is not available at the local level, direct requests to the GACC.

Cooperative Agreements

There are various Regional/State and Local Agreements and Operating Plans currently in use. A short summary of some of these agreements follows.

National Agreements

For all National agreements, including the NIFC and Meteorological Services, can be found at: <http://www.nifc.gov/nicc/mobguide/Chapter10.pdf>

Statewide Agreements

California Master Cooperative Wildland Fire Management and Stafford Act Response Agreement (CFMA)

The “California Cooperative Wildland Fire Management and Stafford Act Response Agreement” (CFMA) is an agreement between the BLM (California and Nevada), NPS (Pacific West Region), BIA (Pacific Region), US Fish and Wildlife (Pacific Southwest Region), USFS (Regions 4, 5, and 6), and CAL FIRE . The purpose of this agreement is to document the commitment of the above Agencies to improve efficiency by facilitating the coordination and exchange of personnel, equipment, supplies, services, information and funds among the above Agencies to this agreement. Only wildland fires and Presidentially-declared non-wildland fire emergencies or disasters are covered under this agreement.

Reference CFMA at: <http://gacc.nifc.gov/oncc/index.htm>

California Fire Assistance Agreement (CFAA)

Under this all risk agreement, the State of California (CAL FIRE and CAL OES) and Federal Fire Agencies (USFS, BLM, NPS, BIA, US Fish and Wildlife) may request emergency apparatus and personnel from the California Fire and Rescue Mutual Aid System (CAL OES and Local Government Agencies). The State of California and Federal Fire Agencies shall use this agreement as the primary fiscal authority for reimbursing local government agencies for the use of their resources

Reference CFAA at: <http://www.calema.ca.gov/FireandRescue/Pages/Documents-and-Publications.aspx>

California Fire Service and Rescue Emergency Mutual Aid Plan and the California Disaster and Civil Defense Master Mutual Aid Agreement (MMA)

The purpose of this plan and agreement are to provide for systematic mobilization, organization and operation of necessary fire and rescue resources of the state and its political subdivisions in mitigating the effects of disasters, whether natural or man-caused. This plan and agreement are for the voluntary expedient mobilization and response of available fire and rescue resources on a local, area, regional and statewide basis.

Reference MMA at: <http://www.calema.ca.gov/FireandRescue/Pages/Documents-and-Publications.aspx>

California Interagency Military Helicopter Firefighting Program

This agreement between the California National Guard, CAL FIRE, USDA Forest Service, USDI Bureau of Land Management, USDI National Park Service and CAL OES provides access to additional aircraft in times of emergency. This agreement identifies operational procedures and administrative procedures for cost and reimbursement.

California Conservation Corps (CCC)

The CCC has an agreement with CAL FIRE and Federal Agencies to provide fire and support crews. Refer to California Interagency Mobilization Guide Chapter 30 for ordering.

1 FAA and Forest Service Region 5

2 This agreement outlines procedures and responsibilities for temporary airport traffic control tower
3 services for firefighting activities within the Forest Service Region 5. Each GACC will keep a copy of
4 the agreement.

5
6 CAL FIRE Contract County Agreement

7 The counties of Marin, Kern, Santa Barbara, Ventura, Los Angeles, and Orange have assumed
8 responsibility for the wildland fire protection of SRA within their counties and are collectively referred to
9 as “Contract Counties.” This agreement allows CAL FIRE to utilize contract county wildland resources
10 for incidents statewide.

11
12 **Memorandums of Understanding**

13 Sierra Front, Carson City Field Office to Plumas National Forest - Memorandum of Understanding: DOI,
14 BLM Carson City Field office and USDA USFS Plumas National Forest

15 The purpose of this memorandum of understanding (MOU) among the U.S. Department of the Interior,
16 Bureau of Land Management (BLM), Carson City Field Office and the U.S. Department of Agriculture,
17 Forest Service, Plumas National Forest is to outline and formulate a cooperative plan to ensure the
18 continued support efforts for wildfire preventions, pre-suppression, suppression and cohabitation thru the
19 sharing of the BLM facility Doyle Fire House,

20
21 Sierra Front to NorCal District, Eagle Lake Field Office and Lassen Modoc Plumas Unit CAL FIRE -
22 Memorandum of Understanding

23 USDI Bureau of Land Management, Eagle Lake Field Office, Nor Cal District, the USDI Bureau of Land
24 Management, Carson City District, and CAL FIRE, Lassen Modoc Plumas Unit. The purpose of this
25 MOU is to provide efficient fire protection and suppression in the Eagle Lake Field Office’s District
26 Protection Area in southeast Lassen County and northwestern Nevada. In addition, this MOU is intended
27 to enhance the sharing of fire management resources and the utilization of closest forces in the completion
28 of the agencies fire protection and suppression responsibilities.

29
30 Interagency Agreement between USDI, Bureau of Land Management Bishop Field Office and the USDA,
31 Forest Service Humboldt Toiyabe

32 The purpose of this agreement is to document the cooperation between the parties to define the initial
33 attack boundaries, suppression and dispatch responsibilities, provide engine and office space, duty officer
34 coverage and provide maintenance for Topaz Station.

35
36 Operating Agreement between the US Forest Service Klamath National Forest, Rogue River-Siskiyou
37 National Forest, Modoc National Forest and Six Rivers National Forest; California Department of
38 Forestry and Fire Protection (CAL FIRE); Oregon Department of Forestry; Southwest Oregon District,
39 Klamath/Lake District Office, Coos Forest Protection Association; National Park Service-Redwood
40 National Park

41 Pre-planned mutual aid initial attack response by identifying the “closest forces” to each planned response
42 area, agreeing to which resources will be automatically dispatched and entering that planned response in
43 their individual dispatch databases.

44 Mutual aid will be provided for specific pre-planned initial attack response areas. Only initial attack
45 response areas that border on an agency’s DPA border will be considered for mutual aid.

46 Resources identified for automatic initial attack for these response areas will be covered under mutual aid.
47 All resources will be covered by CFMA and will provide mutual aid. All other resources being supplied
48 by the supporting agency will be covered under assistance by hire.

49
50 Four-State Mutual Assistance Operating Plan (California, Nevada, Arizona, Utah)

51 This agreement is between Bureau of Indian Affairs: Colorado River Agency and Fort Yuma Agency;
52 Bureau of Land Management: California Desert District, Las Vegas Field Office, Arizona Strip Field
53 Office, Phoenix District Office, Yuma Field Office, Lake Havasu Field Office and Kingman Field Office;
54 National Park Service: Lake Mead National Recreation Area, Mojave National Preserve, Death Valley
55 National Park and Joshua Tree National Park; US Fish and Wildlife Service: Arizona Yuma Complex; US

1 Forest Service: Spring Mountain National Recreation Area. The purpose of this agreement is to improve
2 intrastate and interstate utilization of closest initial attack resources. Enhance coordination of fire
3 management objectives between federal agencies in the four adjoining states within the first 24 hours of
4 an incident.

6 Initial Attack Operating Plan Western Great Basin and California Coordination Centers.

7 This operating plan exists to document the intent of the participating agencies to provide specified fire
8 suppression forces to each other. This plan is intended to document the agencies methods of complying
9 with the National Interagency Mobilization Guide, Chapter 10 and provide for State of California
10 resources which are often involved in this response. This plan in no way alters local initial attack (IA)
11 agreements and, in fact, may enhance the execution of local IA agreements by improving the response
12 time. Resources provided by CAL FIRE will be in accordance with CFMA, when responding to federal
13 wildland agency incidents in Nevada.

15 Airspace Boundary Management Plan

16 The requirement for increased management and coordination is due to the possibility of two or more
17 agencies/cooperators conducting simultaneous, uncoordinated aviation operations within those areas
18 which would unknowingly put the responding aerial operations within close proximity to another, placing
19 aircraft and crews at risk. The purpose of this plan is to identify such boundaries and initial attack zones
20 and provide means of communication, coordination, and airspace deconfliction within those areas. Aerial
21 operations on, or adjacent to agency/cooperator boundaries, and areas where a neighboring
22 agency/cooperator provides fire suppression on lands administered by the adjoining agency/cooperator
23 (mutual aid, shared, or exchanged initial attack areas or zones) require increased management and
24 coordination.

26 **Local Agreements**

27 Numerous local agreements exist between Units in California. Many of the border units have initial
28 attack agreements in place to request assistance from Units across GACC borders for initial attack
29 resources.

31 **Initial Attack Border Agreements**

32 The purpose of the following agreements is to improve efficiencies and effectiveness by facilitating the
33 exchange of information, personnel, equipment, aircraft, supplies and services among the bordering
34 cooperating agencies.

36 Department of Interior, Bureau of Land Management: Northern California District, Winnemucca District,
37 Lakeview District, Burns District and Vale District

39 Fish and Wildlife Service: Sheldon-Hart Mountain NWR, Malheur National Wildlife Refuge

41 Department of Agriculture, Forest Service: Fremont-Winema National Forest and Modoc National Forest
42 Oregon Department of Forestry-Klamath-Lake District

44 Selection areas in ROSS are open or can be opened to Units who have initial attack agreements.

46 Normally operational procedures are in place to return resources in a timely manner and not to utilize this
47 process for extended needs. Contact the GACC to open these selection areas.

49 **Non-Suppression Activity Agreements**

50 Reimbursement Processes for Forest Service and Department of Interior

51 These agreements are in place for Non-Suppression activities, including fuels projects and rehabilitation
52 of public lands.

53 Reimbursement process for non-suppression activities under Forest Service/DOI Master Interagency
54 Agreement – extended to September 30, 2015

1 Agreement Number References:

2 FS Agreement # 10-IA-11130206-032
3 BLM Agreement # L10PG00569
4 BIA Agreement # AGFIRE10K101
5 NPS Agreement # G9560100055
6 FWS Agreement #93252-A-H100
7

8 Reimbursement Processes for Federal Agencies and CAL FIRE (CFMA)

9 Several provisions of the CFMA allow the Federal Agencies and CAL FIRE to jointly conduct
10 cooperative projects and engage in certain non-suppression activities.

11 Reference the CFMA at: <http://gacc.nifc.gov/oncc/index.htm>
12

13 Reimbursement Process for Forest Service with Local Fire Departments

14 Cooperative Fire Agreements allow for the use of local fire department resources in certain non-
15 suppression activities, i.e. prescribed burning. Reimbursement for these activities is different from
16 processes used to reimburse for suppression activities.

18

19 **Interagency Facilities**

20
21 **Northern Region**

22
23 Operations, Northern California Geographic Area Coordination Center (North Ops. ONCC):

24 Combines the U.S. Forest Service, the CAL FIRE Northern Region, the BLM Northern California
25 Region, National Fish & Wildlife Service, Bureau of Indian Affairs, and the National Park Service into
26 one cooperating unit. The facility is currently administered under a Memorandum of Understanding
27 between these agencies. North Ops will maintain a file copy of this agreement.
28

29 Camino Interagency Command Center (CICC):

30 Combines the Eldorado National Forest, Lake Tahoe Basin Management Unit and CAL FIRE Amador- El
31 Dorado Unit into one cooperating unit.
32

33 Fortuna Interagency Command Center (FICC):

34 Combines the Six Rivers National Forest, CAL FIRE Humboldt-Del Norte Unit, Redwood National Park,
35 Hoopa Reservation, and the Humboldt Bay National Wildlife Refuge into one cooperating unit.
36

37 Grass Valley Emergency Command Center (GVCC):

38 Combines the Tahoe National Forest and CAL FIRE Nevada-Yuba-Placer Unit into one cooperating unit.
39

40 Mendocino Fire Center (MNFC):

41 Combines the Mendocino National Forest, Golden Gate NRA, Point Reyes National Seashore, Hawaii
42 Volcanos National Park and Sacramento National Wildlife Refuge into one cooperating unit.
43

44 Modoc Interagency Command Center (MICC):

45 Combines Modoc National Forest, Lava Beds National Monument and the National Fish & Wildlife
46 Lower Klamath Refuge into one cooperating unit.
47

48 Redding Interagency Command Center (RICC):

49 Combines the Shasta-Trinity National Forests, Whiskeytown National Recreational Area and CAL FIRE
50 Shasta-Trinity Unit into one cooperating unit.
51

52 Susanville Interagency Fire Center (SIFC):

53 Combines the Lassen National Forest, BLM Northern California Region, Lassen Volcanic National Park,
54 and CAL FIRE Lassen-Modoc-Plumas Unit into one cooperating unit.
55

1 Yreka Interagency Command Center (YICC):

2 Combines the Klamath National Forest and CAL FIRE Siskiyou Unit into one cooperating unit.

3
4 **Southern Region**

5
6 Operations, Southern California Geographic Area Coordination Center (South Ops. OSCC):

7 Combines the CAL FIRE's Southern Region, U.S. Forest Service, Bureau of Land Management, and
8 National Park Service Dispatch functions into one office complex. The facility is currently administered
9 under a Memorandum of Understanding between these agencies. South Ops will maintain a file copy of
10 this agreement.

11
12 Angeles Emergency Communications Center (ANCC):

13 Combines the Angeles National Forest and Santa Monica Mountains National Recreation Area into one
14 cooperating unit.

15
16 Central California Interagency Communications Center (CCCC):

17 Combines the Central California District BLM, Tule Indian Reservation, Kern National Wildlife Refuge,
18 and Sequoia National Forest into one cooperating unit

19
20 Los Padres Interagency Communications Center (LPCC):

21 Combines the Los Padres National Forest and Channel Islands National Monument into one cooperating
22 unit.

23
24 Monte Vista Interagency Command Center (MVIC):

25 Combines the Cleveland National Forest, Southern California Wildlife Refuge, Camp Pendelton Marine
26 Base, Cabrillo National Monument, and CAL FIRE Monte Vista Unit into one cooperating unit.

27
28 Owens Valley Interagency Communications Center (OVICC):

29 Combines the Inyo National Forest and BLM Bishop Field Office into one cooperating unit.

30
31 San Bernardino Interagency Command Center (SBCC):

32 Combines the San Bernardino National Forest, BLM California Desert District, Death Valley National
33 Park, Joshua Tree National Park, Mojave National Preserve and BIA-Southern California Agencies into
34 one cooperating unit.

Time: _____

Fax to the sending Unit of the aircraft.

FC 106 Intercom Script

All requests for agency initial attack and immediate need extended attack aircraft will be ordered through the GACC via the Intercom. The script below will be used to ensure all required information is conveyed in a standard format.

New Order

When aircraft is requested via the intercom it is assumed they are being requested for a wildland fire.

For use of aircraft on incidents other than a wildland fire, the incident type must be announced at the start of the intercom traffic. Example: North Ops, Fortuna, new order, Air Rescue. All incident, location and hazard information will be provided but the frequencies provided will be limited to what is being used for this incident type.

Required Information:	Examples:
Unit with the new incident addresses GACCs/Regions, Units/Forests, and air bases affected, based on where the requests have been placed in ROSS.	North Ops, Redding, Redding Air Attack Base, New Order (Wait for acknowledgement)
Incident Name	On Incident name Millville
Order Number	Order number SHU-5555
Descriptive Location (i.e. prominent landmark or community; do not use street addresses)	Descriptive location: Highway 44, 5 miles east of Palo Cedro
Legal Description and Latitude/Longitude Decimal minutes: read only 2 numbers past the decimal. 40 33.4051 would be 40 degrees 33 decimal 40 minutes. Read: four zero degrees; three three decimal four zero minutes. Read: one two two degrees; one zero decimal zero three minutes.	Legal: Section 6, Township 32 North, Range 2 East, off Mt. Diablo Latitude: 40 degrees 33 decimal 40 minutes; by Longitude 122 degrees 10 decimal 03 minutes.
FM Air Tactics, Frequency and Tone (if applicable) Read: one five one decimal two seven two five; Tone one, transmit and receive	Air Tactics: Air Tactics 21, 151.2725 Tone 1 Transmit & Receive
Air to Air AM (Victor) Frequency Read: one three five decimal five seven five.	Victor: 135.575
Air to Ground Frequency and Tone (if applicable) Read: one five nine decimal two six two five; tone sixteen on transmit and receive	Air to Ground: CDF Air to Ground 2 159.2625 Tone 16 Transmit & Receive
Ground Tactical (Frequency # given when tac is non-standard)	Ground Tactics: CDF Tac 6
Command Frequency and Repeater Tone (Frequency # given when Command is non-standard)	Command: SHU Local Tone 6.
Break	Break (Pause for North Ops/South Ops to acknowledge before continuing)
Request Numbers and resources dispatched or needed	Alpha 1, using Air Attack 240; Alpha 2, to Redding for 1 air tanker; Alpha 3, to Redding for 1 air tanker; Alpha 4, requesting one air tanker Alpha 5, using Copter 205
Other Aircraft	Other Aircraft: CHP Copter H13
Hazards	500 KV Power lines over the fire

Old Order, New Request – Immediate Need

Required Information:	Examples:
Unit with the existing old incident addresses their GACC/Region.	North Ops, Redding, old order SHU-5555, new request (Wait for acknowledgement)
Request Numbers and resources dispatched or needed	Alpha 6, requesting one air tanker, any type, Alpha 7, requesting one type 2 air tanker.

Old Order, Fill Information

Required Information:	Examples:
Unit/Airbase filling the request addresses the GACC/Region and requesting Unit and provides the order number of the incident the aircraft is being assigned to.	North Ops, Redding, Redding Air Attack Base, old order SHU-5555, aircraft information (Wait for acknowledgement)
Request Number, resource identifier, eta to incident and AFF Status of Aircraft.	Alpha 1, Air Attack 240 off Redding ETA 1520. (AFF Status of Aircraft) “Positive/Negative AFF”.

Old Order, Release Information

Once the aircraft has departed their base and Fill Information is voiced over the intercom, the resource is considered to be released requiring release information from the requesting Unit. If positive radio contact has not been made with the responding aircraft, notify the GACC, sending Unit and Airbase by stating “Negative Contact”. This advises the GACC, sending Unit and Airbase that the requesting ECC has not been able to contact the aircraft to advise them of the release.

An aircraft is considered “Canceled” only if prior to becoming airborne and receiving Fill Information the aircraft is determined not to be needed.

Required Information:	Examples:
Unit with the existing old incident addresses their GACC, sending Unit and Airbase.	North Ops, Oroville, Chico Air Attack Base, Redding old order, SHU-5555. aircraft release (Wait for acknowledgement)
Request Number, resource identifier, load status, the name of the base they are returning to and eta	On Alpha 4, Tanker 93 released with half a load, returning to Chico, ETA 1548.

Incident Information

If an incident is escalating and the ECC feels that it will need to continue ordering resources or will have resources committed for an extended length of time, providing a brief incident update over the intercom is appropriate. This update will allow neighboring Units to assess potential for resource requests. Updates are low priority traffic on the intercom.

Incident/Fire Update example;

“North Ops, Redding incident update on SHU-5555, the Millville incident. The fire is 150 acres with moderate rate of spread in grass, brush and oak woodlands. Potential for 500 acres. Anticipate additional orders for aircraft, crews, equipment and overhead.”

FC106 Intercom Voice Out Script

North Ops, and/or South Ops _____,
 (ECC's and Tanker Bases you would Notify), _____ (Your Unit)

New Order (Wait for acknowledgement from each location you contacted)

On Incident Name: _____ Order Number: _____
 (3 letter unit identifier plus inc #)

Descriptive Location: _____
 (Major Landmark, City, Town – something recognizable to a resource coming from out of the Unit.)

Legal: _____
 (Section, Township, Range, and Meridian)

Latitude: _____ by Longitude: _____
 (Degree, Decimal Minute format) (Degree, Decimal Minute format)

Air Tactics, _____; Victor, _____
 (Frequency Name and Number) (Frequency Number)
 (and Tone (if required))

Air to Ground, _____ Ground Tactics, _____
 (Frequency Name, Number) (Frequency Name)
 (and Tone (if required)) (Freq. # is optional, use if unfamiliar frequency)

Command _____
 (Frequency Name, Repeater Tone)
 (Frequency Number is optional, use if unfamiliar frequency)

Break (wait for OCC acknowledgement to continue)

Alpha One – Requesting (or Using if aircraft you direct dispatch) _____
 Type of Aircraft

Alpha Two – Requesting (or Using if aircraft you direct dispatch) _____
 Type of Aircraft

Alpha Three - Requesting (or Using if aircraft you direct dispatch) _____
 Type of Aircraft

Alpha Four - Requesting (or Using if aircraft you direct dispatch) _____
 Type of Aircraft

Other Aircraft: _____
 (any aircraft at or going to incident not noted above)

Aircraft Hazards: _____
 (Power lines, etc.)
