

## 1 Chapter 40 – Supplies and Equipment

### 2 3 National Interagency Incident Support Caches

4  
5 California operates two National Interagency Incident Support Caches as part of the National  
6 Fire Equipment System (NFES). The Northern California Interagency Support Cache (NCK) is  
7 located in Redding, CA; and the Southern California Interagency Support Cache (LSK) in  
8 Ontario, CA. These caches serve the supply needs of incidents in the Geographical Area  
9 Coordination Centers, including supplies required for project activities when not in conflict with  
10 incident activity.

11 Both caches stock National and Regional "NFES" items.

12  
13 The caches stock three types of goods; Consumable, Durable and Property. All three of these  
14 types of goods are considered accountable.

- 15
- 16 • Consumable items are intended to be consumed at an incident, with life expectancy not to  
17 exceed one incident, if used (example: batteries).
- 18 • Durable items have a life expectancy of more than one incident, or use (examples:  
19 sleeping bags, fire hose).
- 20 • Property items are items with a purchase price greater than \$5,000 or sensitive items  
21 valued less than \$5,000. Property items are expected to be returned to the cache without  
22 exception. If a Property Numbered item is not returned, the cache will forward a  
23 Transfer of Property form to the Unit where the incident is located, and procure for  
24 replacement of the unreturned item (examples: Regional RAWS, pumps).

25  
26 Limited Resource items are those items which have a fixed inventory in the national system.  
27 When ordering Limited Resource items, it is mandatory that all Units go through a GACC to  
28 place the request. The GACC maintains records to monitor available quantities, providing  
29 management of these items as National Resources.

30  
31 Kits have been established to provide a collection of related articles, pre-assembled to  
32 accomplish specific functions. There are over 40 national kits, with an additional six specific to  
33 California. National kits have a standard configuration throughout all of the caches in the nation.  
34 Contents of all kits may be found in the NWCG National Fire Equipment System Catalog.  
35 All supplies or equipment furnished to incidents will be considered "on loan" and should be  
36 returned as soon as practical with the exception of consumable items.

### 37 38 Ordering

39 Interagency Cache Business System (ICBS) and Resource Ordering and Status System (ROSS)  
40 are now interfacing. This interface allows ROSS users to enter Supply (S) number requests to be  
41 sent to the cache direct for processing and filling. The cache, via ICBS is allowed to input S  
42 numbers for supply orders that go directly to the cache without the request being created in  
43 ROSS. These S numbers must be assigned by the incident and be between 100000 – 199999.  
44 This interface also allows ROSS users to see fill information for all S numbers that the cache has  
45 filled, no matter which way the requests were initiated.

46  
47 Except for Limited Resource items, each Fire Cache will accept and process incident resource  
48 orders directly from Units within their area of influence once the incident is created in ROSS.

49  
50

1 Cache orders from any Unit will require incident request numbers assigned by the ordering Unit,  
2 one per line item.

3  
4 Once an incident is established, contact the local cache to establish an ordering schedule.

5  
6 The NFES Numbers and the established “unit of issue” associated with each NFES item are  
7 mandatory parts of any order placed with the caches. When placing orders through the cache, it  
8 is always necessary to provide the NFES number, corresponding “unit of issue”, quantity  
9 requested, and a written description of the item.

10  
11 For NFES numbers, descriptions, and “unit of issue” reference the National Fire Equipment  
12 System Catalog - Parts 1 and 2 PMS 449 NFES 0362 at:  
13 <http://www.nwcg.gov/catalogs-ordering-quicklinks>

#### 14 15 **Abnormal Quantities**

16 Any order exceeding 25% of the established cache stocking level for an item is subject to  
17 verification by the Assistant Director, GACC Center Manager, Incident Commander, or the  
18 Logistics Chief.

#### 19 20 **Mobile Cache Vans**

21 Mobile cache vans provide the preliminary supply essentials to establish an incident base. For  
22 this reason it is expected that one mobile cache should suffice per incident. Each mobile cache  
23 contains supplies to support 150 people working and 150 people sleeping housed in a semi-  
24 trailer. All mobile caches are sealed, and are intended to be utilized as a complete unit.

25 Component items may be ordered separately. For any mobile caches ordered provide, federal  
26 financial code, Incident Logistics contact name and phone number and delivery location in ROSS.  
27 Once the mobile cache is delivered the receiving Incident is responsible for the cost and  
28 accountability of the cache items.

29  
30 Many mobile cache vans are pre-positioned on host Units. If your unit/forest does not host a  
31 cache van, your order is to be placed directly to the respective Cache. The cache in turn will start  
32 the nearest Cache van to the location. If your Unit does host a mobile cache van, it may be  
33 utilized at the discretion of the Unit Fire Management Officer. The use of a local mobile cache  
34 van must be documented with an S number on an incident resource order and the request placed  
35 to the respective GACC. The GACC will then place the request with the cache. It is the  
36 responsibility of the host Unit to provide transportation of the van. (Per NOPS cache, S# will be  
37 created in ROSS and placed directly to the Cache and they will fill.)

38  
39 CAL FIRE has developed a CAL FIRE specific mobile cache to better meet the needs of CAL  
40 FIRE incidents. These contain supplies to support 150 people working and 150 people sleeping.  
41 These are available from the cache. See Catalog Inventory for NFES 8744 under Equipment and  
42 Supplies

43  
44 Mobile cache vans are to be returned to their respective cache after use.

45  
46 Federal Mobile caches are ordered in ROSS as Supplies, Kit – Mobile Cache Support Van NFES  
47 008646 (NCK) and NFES 008640 (LSK).

48  
49 CAL FIRE Mobile caches are ordered in ROSS as Supplies, Kit – Mobile Cache Support Van  
50 NFES 008744 (NCK).

1  
2 Federal Mobile caches are pre-positioned at each Geographic Area Cache and the following  
3 locations:

**Northern CA**

SRF Salyer  
LNF Susanville  
PNF Quincy  
LNU Konocti  
ENF Placerville  
KNF Yreka (2)  
MDF Alturas

**Southern CA**

SNF North Fork  
SQF Porterville  
SQF Kernville  
LPF King City  
LPF Los Prietos  
INF Bishop  
CNF Goose Valley  
STF Sonora

4 CAL FIRE mobile caches are pre-positioned in Redding (NCK) and Ontario (LSK).

5

**6 Demobilization**

7 All supplies being demobilized from an incident are to be documented on an OF-285 Interagency  
8 Incident Waybill, NFES 1472; one per shipment. Any supplies being retained on an incident  
9 during the demobilization process are to be documented on a waybill, and forwarded to the cache  
10 as well.

11 To help facilitate the return process, used (Not Ready for Issue) and unused (Ready for Issue),  
12 supplies being demobilized back to the cache should be divided, packaged, and packed  
13 separately. The caches will only accept rolled hose.

14

15 Sensitive or Property Numbered items requiring reconditioning prior to reissue from a cache  
16 should be returned as soon as no longer required. Seal numbers securing the shipping containers  
17 for these items are to be documented on Incident Waybills. Seals are mandatory when  
18 transporting Sensitive items to or from the caches, i.e. radios and computer equipment.  
19 An AD-112 will be prepared for any property items that are lost, stolen or found to be  
20 unserviceable. Each cache requires immediate notification when Property Numbered items are  
21 involved.

22

23 Contact the cache with intended demobilization plans.

24

25 Both California Caches will close an incident 45 days following a control status, and charge  
26 unreturned supplies and equipment to the ordering Unit. Replacement orders received after the  
27 closing process will **not** be filled. Upon incident closure, a Loss/Use Tolerance Report will be  
28 generated for all Type 1 and 2 incidents supported by the Geographic Area Caches. This is a  
29 comprehensive report, displaying totals of Loss/Use rates for all Consumable and Durable items  
30 issued from the caches. Total percentages above or below the nationally accepted standard are  
31 also displayed. This report is forwarded to the agency administrator hosting the incident.

32

33 The following percentages have been assigned nationally as potentially acceptable rates of loss  
34 for Durable items:

Water handling (valves, nozzles)	10%
Helicopter accessories (cargo nets, lead lines)	10%
Camp items (tents, heaters, tables)	10%
Tools (shovels, pulaskis)	20%

Hose	20%
Backpack pumps	20%
Sleeping equipment (sleeping bags, cots)	20%
Clothing (jeans, shirts, coveralls)	30%

## 1 **Replacement Orders**

2 Whenever possible, replacement orders are to be filled from stock on hand in Supply at the  
3 incident. If replacement orders are unable to be filled at the incident, their home Unit should  
4 place the order to the GACC cache. Incident Replacement Requisition, OF-315, (NFES 1300)  
5 shall be used when placing replacement orders to the cache.  
6

7 Incident Replacement Requisitions from Type 1 or Type 2 incidents must be authorized by the  
8 Supply Unit Leader or other appropriate position. If received at the cache unauthorized, the  
9 requisition will be mailed to the appropriate FMO according to the incident location, for  
10 signature.  
11

12 Incident Replacement Requisitions from Type 1 or Type 2 incidents can be sent to the cache, the  
13 S numbers must be assigned by incident and be between 100000 – 199999. S numbers will be  
14 input in ICBS and sent to ROSS via the interface. Incident Replacement Requisitions from  
15 individual resources will be created by the incident/expanded dispatch in ROSS and sent to the  
16 cache via the ICBS ROSS interface. Replacement Requisitions require incident request numbers  
17 be included, as a continuation of the incident documentation process.  
18

19 Fire Management Officers shall forward to their respective cache, by April each year, a list of  
20 those persons authorized to approve replacement orders on their Unit. The authorized designees  
21 may then approve requisitions for incidents located on their Unit.  
22

## 23 **Recycling**

24 The recycling of plastics, cardboard, etc., is highly recommended, and is the responsibility of an  
25 incident to process. The North Zone Fire Cache now accepts a number of items through a new  
26 recycling program. Please contact the cache for additional details.  
27

- 28 • Cardboard
- 29 • Batteries
- 30 • Heavy Plastics
- 31 • Fire Shelters
- 32 • Nomex Jeans and Shirts
- 33 • Sleeping Bags
- 34 • Fire Hose
- 35 • Sleeping Pads
- 36 • Ice Chests
- 37 • Cargo Nets
- 38 • Tent Flies
- 39 • Plastic Shrink Wrap/ Plastic Strapping

40 \*Some additional items are accepted upon request; contact the cache for more details.  
41

42 Recyclables can be palletized and sent bac to the cache. In addition, battery barrels and  
43 collapsible collection bins are distributed on cache vans and can be requested through the main  
44 office of the fire cache when placing an order. When barrels, bins or pallets are full, attach a

1 copy of the salvage log to the waybill and ship back to the fire cache. When pick up is requested  
2 a new barrel or bin will be brought for replacement.  
3

#### 4 **Hazardous Materials – Ordering and Shipping**

5 Hazardous materials are identified by definition in the Department of Transportation (DOT)  
6 Emergency Response Guidebook. Hazardous materials are: Any substance or material, which  
7 has been determined by the Secretary of Transportation to be capable of posing an unreasonable  
8 risk to health, safety or property when transported in commerce, and which has been so  
9 designated. The definition includes hazardous substances, hazardous waste, marine pollutants  
10 and elevated temperature materials as defined in 49 CFR, part 106 to 180.  
11

12 If storing an identified hazardous material, refer to the DOT Emergency Response Guidebook.  
13 The guidebook lists all hazardous materials, and in the event of an accident explains precautions  
14 and actions to take.  
15

16 If intending to ship the material by highway, the material and its quantity will determine how the  
17 item is to be packaged, documented and shipped.  
18

#### 19 **\* The following directions apply to all hazardous material shipping documents:**

- 20
- 21 • All information must be printed (mechanically or manually) in English.
- 22 • Shipping documents must contain the shipper's name and address, as well as the  
23 destination name and address.
- 24 • "Hazardous materials" must be entered as the first line item on a shipping document, or  
25 be printed in a different color.
- 26 • Hazardous materials must be listed by their proper shipping name, hazard class, ID  
27 number and packaging group. No abbreviations.
- 28 • All hazardous material packages must be properly marked, labeled, and packaged. The  
29 total weight must be included.
- 30 • The following shipper's certification must be entered on each shipping document: "This  
31 is to certify that the above named materials are properly classified, described, packaged,  
32 marked and labeled, and are in proper condition for transportation according to the  
33 applicable regulations of the DOT."
- 34 • A 24 hour emergency response telephone number, with someone available while the  
35 commodity is in transit.
- 36 • Emergency response information listed in the DOT Emergency Response Guidebook is  
37 also to be included.
- 38 • For questions regarding National Fire Equipment System (NFES) stocked hazardous  
39 materials, reference the Interagency Transportation Guide for Gasoline, Mixed Gas,  
40 Drip-torch Fuel and Diesel, 06/09 PMS 442 (<http://www.nwcg.gov/pms/pubs/pubs.htm>)  
41 or the current "Hazardous Materials Haulback Guide".  
42

#### 43 **Hazardous Waste**

44 Regulations for hazardous waste are directed by the State. The State in turn charges the counties  
45 with enforcing their regulations. Therefore, determining the disposition of hazardous waste  
46 depends greatly upon the jurisdiction you are in. In all States, the regulations which govern the  
47 generation, containment, storage, transportation and documentation of bio-hazardous waste are  
48 very specific and well enforced.  
49

1 Use of red bio-hazardous waste bags are specifically regulated. When used, contents are to be  
2 documented *immediately* by the user, as the bag may not be re-opened under any circumstances.  
3 The bag may not be taken to a landfill until it has been properly treated. Caches do not have a  
4 method of disposal for bio-hazardous (medical waste) bags.

5 **Under NO circumstances, will any California Cache accept used bio-hazard bags.**

6

## 7 **Communications**

8

### 9 **National Fire Radio Caches (NFRC)**

10 A description of the equipment available from NIFC's, National Incident Radio Support Cache  
11 (NIRSC) is located in the ICS Communications User Guide. Dispatch of NIRSC systems will be  
12 through the GACC.

13

14 Ordered in ROSS as Supplies, with the appropriate NFES number, using the following  
15 procedure:

16

- 17 1. Ensure that the request has accurate Latitude/Longitude information.
- 18 2. In the Shipping Information block of the request, select Shipping Address from the drop  
19 down or enter Shipping Instructions.
- 20 3. In the Shipping Contact block of the request, identify the Shipping Contact and a phone  
21 number.
- 22 4. In the Incident Ordering Contact block of the request, identify the Communications  
23 Leader, specifying "on order" if not yet determined.
- 24 5. In the Special Needs block of the request, include the full "Bill to" information.
- 25 6. Specify if freight shipping is OK, or if a charter aircraft is required to meet the needed  
26 date and time.

27

28 As kits are released from the incident, they are to be returned to NIRSC at NIFC for  
29 refurbishment even if the seal is not broken. The receiving unit will check with the GACC  
30 before returning any NFRC system back to NIFC.

31

### 32 **NFES 4670 – Satellite Phone Kit**

33 The Satellite Phone Kit is a Motorola mobile phone that connects audio calls via a Low Earth  
34 Orbiting (LEO) satellite network when local cellular service is unavailable or has restricted  
35 coverage.

36

37 NIRSC has a limited supply of Motorola Satellite Phones that operate on the Iridium network.  
38 These portable handsets run on rechargeable batteries and AC/DC chargers are included.

39

40 Order in ROSS as: Supply, Kit, Satellite Phone, Motorola

41

### 42 **NFES 4390 – ICS Command Starter System**

43 The standard starter system contains sufficient equipment for Command and Logistical  
44 communications needs for a three division incident. The entire starter system will be packaged  
45 and shipped as a standard unit. California may preposition 4390 starter systems at the Cache.  
46 These systems are only pre-positioned and remain under the control of NIRSC.

47

48 Requests for individual or additional kits (boxes) will be honored. They must be ordered by their  
49 individual NFES stock numbers.

50

1 The starter system will have Air Guard located in the last channel. This frequency is **not**  
2 authorized for use by the incident for communications.

3

4 Order in ROSS and place to the appropriate GACC as: Supply, NFES Supplies, Kit – Starter  
5 System ICS Command/Logistics Radio System

6

### 7 **NFES 4381 – HT Radio Kit**

8 NFES 4381 kits are available from the National Interagency Radio Caches. Each kit contains 16  
9 hand held radios configured with all USDA-FS and DOI tactical, command and national air  
10 frequencies. The *radio manufacturer* requested needs to be confirmed by the Communications  
11 Unit Leader and specified in the order in “Special Needs”.

12

### 13 **CAL FIRE HT Radio Cache**

14

15 CAL FIRE has 40 HT Radio Caches. There are 20 located at CNR, 20 located at CSR (10 at  
16 CSR and 10 at FKU). Each kit contains 10 BK GPH Commander Portable Radios with antenna,  
17 clamshell, leather case and T-card. Batteries are included for all 10 radios. Each radio is  
18 programmed to current CAL FIRE statewide “Group 3” on Groups 16-25. Upon release from the  
19 incident they are to be returned to their respective Unit or GACC.

20

21 Order in ROSS and place to the appropriate GACC as: Supply, Non-NFES; Cache, HT Radio  
22 The following information must be included in the ROSS request:

23 Special Needs:

24

- Bill to information
- Ship to information – include contact person with phone number
- Communications Unit Leader’s name and phone number

26

27

28 A Federal Financial code (P Code) is needed in the financial code box.

29

### 30 **CAL FIRE Portable Repeaters**

31 CAL FIRE has portable command repeater kits available throughout the state. Each Unit and  
32 Mobile Communications Center (MCC) has a portable repeater available for use within their  
33 Unit. CAL FIRE Telecom has additional repeaters that can be ordered through the Sacramento  
34 Command Center. To ensure that appropriate equipment is filled, provide the ordering contact  
35 information in the request. Upon release from the incident they are to be returned to their  
36 respective Unit.

37

38 For additional information contact CAL FIRE Telecom (916) 327-8652.

39

40 Order in ROSS as: Supply, Non-NFES; Kit, Command Repeater

41

**1 Frequencies**

2 Responders need to verify incident frequencies and tones to use when responding to or assigned  
3 to an incident. All requests for additional frequencies shall be ordered in ROSS using A  
4 numbers.

5  
6 Activation of National Fire Radio Frequencies will be controlled and coordinated by the GACC  
7 due to the complexity of Incident radio usage.

8  
9 For California Tones refer to the California Interagency Mobilization Guide Appendix.  
10 Reference the California Interagency Mobilization Guide Chapter 50 for additional information  
11 on aviation frequencies.

**12 CAL FIRE**

13  
14 All new frequency requests shall be placed in ROSS with a follow-up phone call with your  
15 respective GACC. For technical assistance you may contact the CAL FIRE Statewide Frequency  
16 Coordinator at 916-327-8652. There will be no change in frequencies without coordinating with  
17 the GACC

**18 Mobile Communications Units – All Agencies**

19  
20 Statewide there are mobile communication units available through CAL FIRE, CAL OES, and  
21 CA BLM. To check for availability, contact the GACC.

22 Order in ROSS as an Equipment request.

23 CAL FIRE order as: Telecommunications (CDF Only) Communications Unit, Mobile, Type 1.  
24 CA BLM and CAL OES order as: Trailer – Communications

**25 Remote Automated Weather Station (RAWS)****26 Federal**

27  
28  
29 When a Unit requires additional RAWS units they should be ordered using the normal dispatch  
30 procedures. They are ordered on a Supply Request and have NFES numbers. Upon release from  
31 the incident they are to be returned to NIFC. Contact the NIFC Remote Sensing/Fire Weather  
32 Support Unit RAWS Coordinator.

33 Reference National Interagency Mobilization Guide Chapter 40 for additional information.

**34 CAL FIRE**

35  
36 CAL FIRE currently has seven (7) portable RAWS assigned to Units for use on State incidents.  
37 Request RAWS through GACC. Upon release from the incident they are to be returned to their  
38 respective Unit.

39 Ordered in ROSS as: RAWS, Portable. Category is NON-NFES supplies.

40 Reference the CAL FIRE Handbook 8100 procedure 344.

**41 Mobile Food Service****42 National Contract Mobile Food Service – Federal**

43  
44  
45 When the determination is made that contract mobile food services are needed in support of  
46 federal wildland fire activities in the United States, the Government is obligated to order services  
47 from National Mobile Food Service Unit (MFSU) Contractors (National Caterer) when at any  
48 time:

49  
50

- 1       • The number of people to be fed is at or above 150 persons per meal,  
2       AND  
3       • The headcount is estimated to remain at those numbers, or greater, for at least 72 hours  
4       from when the headcount first reaches 150 per meal.

5 If national incident activity is high and a National Mobile Food Service Unit is unavailable,  
6 cooperator units may be used. A second E number will be generated for cooperator unit (See  
7 next section, MKU/FDU). In such case, the cooperator is guaranteed a minimum 72 hours of  
8 work, even if a National unit becomes available before then. Cooperators include state managed  
9 kitchens.

10

11 For a complete listing of the Schedule of Items and Contract Specifications for the National  
12 Mobile Food Service Contract, reference the current National Mobile Food Services publication,  
13 NFES 1276. This information can also be found at the following website:

14 <http://www.fs.fed.us/fire/contracting/>

15

16 National Food Service units are ordered as an E number and are called Food Service, Mobile in  
17 ROSS. All National Food Service unit orders are placed to the GACC and then onto NICC.  
18 NICC will determine and assign the appropriate units to all federal wildland fire incidents.

19

20 Mobile Food Service requests must be completed and faxed to the GACC at time of ROSS  
21 request. Refer to the California Interagency Mobilization Guide, Appendix, for the link to the  
22 National Mobile Food Service/Shower Unit request form.

23 All requests to reassign National Contract Mobile Food Service will be placed through  
24 established ordering channels to NICC. All reassignments of National Mobile Food Service will  
25 be done by NICC.

26

27 All release information will be documented in ROSS and relayed to NICC within 15 minutes.  
28 Contractors may take 24 hours to rest and replenish supplies within the local area after release.  
29 After 24 hours, contractors must return to the unit's designated dispatch point.

30

### 31 **Mobile Kitchen Unit (MKU) and Food Dispensing Unit (FDU) – CAL FIRE**

32

33 MKUs and FDUs are specialized resources and require certain support resources to facilitate  
34 their operations. Once a MKU/FDU is requested the goal is to get the resource to the incident by  
35 either the next morning or evening to feed the incident personnel.

36

37 Food Dispenser Units (FDU) - Food Dispenser Units or steam tables should be used, when  
38 available, when the number of meals to be served will not exceed the unit's capacity (200-300  
39 meals).

40

41 Mobile Kitchen Units (MKU) - When the needs of the incident exceed the capacity of the FDU,  
42 a FDU is not available, an incident base has been established, or an incident management team  
43 will be assigned, Mobile Kitchen Units will be the first choice for feeding of incident personnel.  
44 CAL FIRE MKUs should be used first followed by MKUs from cooperating agencies and then  
45 rented MKUs with CAL FIRE kitchen crews.

46

47 Order in ROSS as an E number as: Food Service, Mobile. In special needs, identify CAL FIRE  
48 MKU or CAL FIRE FDU, include Date and Time of first meal and number of persons served.  
49 The Unit ordering the MKU/FDU request shall contact the camp supplying the MKU/FDU to  
50 determine which MKU Support Module (A,B,C,D) is required.

1 Reference the CAL FIRE Handbook 8100 procedure 341.

2

3 If national incident activity is high and a National Mobile Food Service Unit is unavailable to  
4 federal Units, a CAL FIRE MKU may be used. In such case, CAL FIRE is guaranteed a  
5 minimum 72 hours of work, even if a National unit becomes available before then.

6

15

16 **Mobile Shower Facilities**

17

18 **Federal**

19 For a complete listing of the Schedule of Items and Contract Specifications for the National  
20 Mobile Shower Facilities Contract, refer to the current National Mobile Shower Facilities  
21 Contract publication, NFES 2729. This information can also be found at the following website:

22 <http://www.fs.fed.us/fire/contracting/>

23

24 National shower contractors may offer to bring other optional items such as hand-washing units and  
25 water tenders, in addition to the shower units. Incidents are not required to order or use these  
26 items from national contractors. Units should use local vendors to fill these needs when possible.

27

28 All requests to reassign National Contract Shower units will be placed through established ordering  
29 channels to NICC. All reassignments of National Shower units will be done by NICC.

30 All release information will be documented on the resource order and relayed to NICC within  
31 15 minutes. Contractors may take 24 hours to rest and replenish supplies within the local area  
32 after release. After 24 hours, contractors must return to the units' designated dispatch point.

33

34 National Mobile Shower Facilities are ordered as an E number and are called Shower, Mobile in  
35 ROSS. All National Mobile Shower Facilities orders are placed to the GACC and then onto  
36 NICC. NICC will determine and assign the appropriate units to all federal wildland fire  
37 incidents.

38 The National Mobile Food Service/Shower Unit request form must be completed and faxed to  
39 the GACC, at time of ROSS request. Refer to the California Interagency Mobilization Guide,  
40 Appendix, for the link to the form.

41

42 **CAL FIRE**

43 Requests for showers on CAL FIRE incidents will follow CAL FIRE Hired Equipment Guidelines.  
44 Refer to Hired Equipment in the California Interagency Mobilization Guide, Chapter 40.

45

46 **Mobile Saw Trailer – CAL FIRE**

47 CAL FIRE has a Mobile Saw Trailer available from the Mt Bullion Camp, Madera Mariposa  
48 Unit. This trailer comes equipped with enough supplies (bars, chain, filters, parts, etc.) to  
49 support an incident for 5 days. The trailer is staffed with 1 Fire Captain, 1 CDCR Officer and 2  
50 CDCR Inmates.

1 Order in ROSS as: Equipment, Trailer. In Special Needs state Mt Bullion Saw Trailer.

### 3 **Hired Equipment**

#### 5 **Forest Service Incidents – Contract/Hired Equipment (non-National Contract)**

6 Use the R-5 Expanded Dispatch Incident Guide for VIPR, DPL, IBVPA, Incident Only/EERA  
7 [https://gacc.nifc.gov/oncc/logistics/equipment\\_supplies/docs/508%20Expanded%20Dispatch%20Guide.pdf](https://gacc.nifc.gov/oncc/logistics/equipment_supplies/docs/508%20Expanded%20Dispatch%20Guide.pdf)

9 For Incident Procurement and Fire Contract Clarification/Assistance, reference:

10 <http://www.fs.usda.gov/detail/r5/fire-aviation/management/?cid=stelprdb5303034>

12 Each host dispatch center will give dispatch priority to the resource offering the greatest  
13 advantage to the Government **before** all other private resources not under Agreement with the  
14 following exceptions:

- 16 • For Immediate Need/Initial Attack, dispatchers will follow the “closest forces” concept  
17 and utilize locally available resources according to agency and incident needs.
- 18 • Tribal preference policy established within reservation jurisdiction

#### 20 **CAL FIRE Incidents – Contract/Hired Equipment**

21 The Hired Equipment Management System (HEMS) will be used for dispatching immediate  
22 need and planned need fireline dozers and water tenders, as well as, support equipment.  
23 Reference CAL FIRE Handbook 7700, Policy 7761.6.5 and CAL FIRE Handbook 8100,  
24 Procedure 345.

#### 26 **Unified Command Incidents – Contract/Hired Equipment – State and Federal**

27 The following criteria will be considered when determining which Hired Equipment system will  
28 be used at unified command incidents.

- 30 • DPA – current and threatened
- 31 • Unified Ordering Point
- 32 • Early coordination with expanded dispatch between finance and logistics functions
- 33 • Access to various agencies hired equipment programs and agency personnel to use their  
34 respective programs
