

## Chapter 80 – Cooperation

Successful incident management within California requires close cooperation with a number of other fire departments, agencies, and organizations. Incident managers must be knowledgeable regarding the abilities and needs of cooperators. Copies of cooperative agreements and operating plans should be available to all incident managers. It is generally most effective to handle cooperative efforts at the local level. However, if needed assistance is not available at the local level, direct requests to the GACC.

### Compact Agreements

#### Emergency Management Assistance Compact (EMAC)

The Emergency Management Assistance Compact is a mutual aid agreement between states and territories of the United States. It enables states to share resources during natural and man-made disasters, including terrorism.

See Chapter 10, page 23, for mobilization/demobilization process.

### Cooperative Agreements

There are various Regional/State and Local Agreements and Operating Plans currently in use. A short summary of some of these agreements follows.

#### National Agreements

For all National agreements, including the NIFC and Meteorological Services, can be found at: <http://www.nifc.gov/nicc/mobguide/Chapter%2010.pdf>

#### Statewide Agreements

##### California Master Cooperative Wildland Fire Management and Stafford Act Response Agreement (CFMA)

The “California Cooperative Wildland Fire Management and Stafford Act Response Agreement” (CFMA) is an agreement between the BLM (California and Nevada), NPS (Pacific West Region), BIA (Pacific Region), US Fish and Wildlife (Pacific Southwest Region), USFS (Regions 4, 5, and 6), and CAL FIRE . The purpose of this agreement is to document the commitment of the above Agencies to improve efficiency by facilitating the coordination and exchange of personnel, equipment, supplies, services, information and funds among the above Agencies to this agreement. Only wildland fires and Presidentially-declared non-wildland fire emergencies or disasters are covered under this agreement.

Reference CFMA at: <http://gacc.nifc.gov/oscc/cwgc/docs/2013cfma/FinalCFMA2013-2018.pdf>

##### California Fire Assistance Agreement (CFAA)

Under this all risk agreement, the State of California (CAL FIRE and CAL OES) and Federal Fire Agencies (USFS, BLM, NPS, BIA, US Fish and Wildlife) may request emergency apparatus and personnel from the California Fire and Rescue Mutual Aid System (CAL OES and Local Government Agencies). The State of California and Federal Fire Agencies shall use this agreement as the primary fiscal authority for reimbursing local government agencies for the use of their resources

Reference CFAA at: <http://calfireweb.fire.ca.gov/library/handbooks/8100/8163.pdf>

1 California Fire Service and Rescue Emergency Mutual Aid Plan and the California Disaster and  
2 Civil Defense Master Mutual Aid Agreement (MMA)

3 The purpose of this plan and agreement are to provide for systematic mobilization, organization  
4 and operation of necessary fire and rescue resources of the state and its political subdivisions in  
5 mitigating the effects of disasters, whether natural or man-caused. This plan and agreement are  
6 for the voluntary expedient mobilization and response of available fire and rescue resources on a  
7 local, area, regional and statewide basis.

8 Reference MMA at: [http://www.caloes.ca.gov/FireRescueSite/Documents/CalOES%20-](http://www.caloes.ca.gov/FireRescueSite/Documents/CalOES%20-%20Fire%20and%20Rescue%20-%20Mutual%20Aid%20Plan%20-%2020141201.pdf)  
9 [%20Fire%20and%20Rescue%20-%20Mutual%20Aid%20Plan%20-%2020141201.pdf](http://www.caloes.ca.gov/FireRescueSite/Documents/CalOES%20-%20Fire%20and%20Rescue%20-%20Mutual%20Aid%20Plan%20-%2020141201.pdf)

10  
11 California Interagency Military Helicopter Firefighting Program

12 This agreement between the California National Guard, CAL FIRE, USDA Forest Service, USDI  
13 Bureau of Land Management, USDI National Park Service and CAL OES provides access to  
14 additional aircraft in times of emergency. This agreement identifies operational procedures and  
15 administrative procedures for cost and reimbursement.

16  
17 California Conservation Corps (CCC)

18 The CCC has an agreement with CAL FIRE and Federal Agencies to provide fire and support  
19 crews.

20 Refer to California Interagency Mobilization Guide Chapter 30 for ordering.

21 FAA and Forest Service Region 5

22 This agreement outlines procedures and responsibilities for temporary airport traffic control  
23 tower services for firefighting activities within the Forest Service Region 5. Each GACC will  
24 keep a copy of the agreement.

25  
26 CAL FIRE Contract County Agreement

27 The counties of Marin, Kern, Santa Barbara, Ventura, Los Angeles, and Orange have assumed  
28 responsibility for the wildland fire protection of SRA within their counties and are collectively  
29 referred to as “Contract Counties.” This agreement allows CAL FIRE to utilize contract county  
30 wildland resources for incidents statewide.

31  
32 **Memorandums of Understanding**

33  
34 Sierra Front, Carson City Field Office to Plumas National Forest - Memorandum of  
35 Understanding: DOI, BLM Carson City Field office and USDA USFS Plumas National Forest

36 The purpose of this memorandum of understanding (MOU) among the U.S, Department of the  
37 Interior, Bureau of Land Management (BLM), Carson City Field Office and the U.S. Department  
38 of Agriculture, Forest Service, Plumas National Forest is to outline and formulate a cooperative  
39 plan to ensure the continued support efforts for wildfire preventions, pre-suppression,  
40 suppression and cohabitation thru the sharing of the BLM facility Doyle Fire House,

41  
42 Sierra Front to NorCal District, Eagle Lake Field Office and Lassen Modoc Plumas Unit CAL  
43 FIRE - Memorandum of Understanding

44 USDI Bureau of Land Management, Eagle Lake Field Office, Nor Cal District, the USDI Bureau  
45 of Land Management, Carson City District, and CAL FIRE, Lassen Modoc Plumas Unit. The  
46 purpose of this MOU is to provide efficient fire protection and suppression in the Eagle Lake  
47 Field Office’s District Protection Area in southeast Lassen County and northwestern Nevada. In  
48 addition, this MOU is intended to enhance the sharing of fire management resources and the  
49 utilization of closest forces in the completion of the agencies fire protection and suppression  
50 responsibilities.

1 Interagency Agreement between USDI, Bureau of Land Management Bishop Field Office and  
2 the USDA, Forest Service Humboldt Toiyabe

3 The purpose of this agreement is to document the cooperation between the parties to define the  
4 initial attack boundaries, suppression and dispatch responsibilities, provide engine and office  
5 space, duty officer coverage and provide maintenance for Topaz Station.  
6

7 Operating Agreement between the US Forest Service Klamath National Forest, Rogue River-  
8 Siskiyou National Forest, Modoc National Forest and Six Rivers National Forest; California  
9 Department of Forestry and Fire Protection (CAL FIRE); Oregon Department of Forestry;  
10 Southwest Oregon District, Klamath/Lake District Office, Coos Forest Protection Association;  
11 National Park Service-Redwood National Park

12 Pre-planned mutual aid initial attack response by identifying the “closest forces” to each planned  
13 response area, agreeing to which resources will be automatically dispatched and entering that  
14 planned response in their individual dispatch databases.

15 Mutual aid will be provided for specific pre-planned initial attack response areas. Only initial  
16 attack response areas that border on an agency’s DPA border will be considered for mutual aid.  
17 Resources identified for automatic initial attack for these response areas will be covered under  
18 mutual aid. All resources will be covered by CFMA and will provide mutual aid. All other  
19 resources being supplied by the supporting agency will be covered under assistance by hire.  
20

21 Four-State Mutual Assistance Operating Plan (California, Nevada, Arizona, Utah)

22 This agreement is between Bureau of Indian Affairs: Colorado River Agency and Fort Yuma  
23 Agency; Bureau of Land Management: California Desert District, Las Vegas Field Office,  
24 Arizona Strip Field Office, Phoenix District Office, Yuma Field Office, Lake Havasu Field  
25 Office and Kingman Field Office; National Park Service: Lake Mead National Recreation Area,  
26 Mojave National Preserve, Death Valley National Park and Joshua Tree National Park; US Fish  
27 and Wildlife Service: Arizona Yuma Complex; US Forest Service: Spring Mountain National  
28 Recreation Area. The purpose of this agreement is to improve intrastate and interstate utilization  
29 of closest initial attack resources. Enhance coordination of fire management objectives between  
30 federal agencies in the four adjoining states within the first 24 hours of an incident.  
31

32 Initial Attack Operating Plan Western Great Basin and California Coordination Centers.

33 This operating plan exists to document the intent of the participating agencies to provide  
34 specified fire suppression forces to each other. This plan is intended to document the agencies  
35 methods of complying with the National Interagency Mobilization Guide, Chapter 10 and  
36 provide for State of California resources which are often involved in this response. This plan in  
37 no way alters local initial attack (IA) agreements and, in fact, may enhance the execution of local  
38 IA agreements by improving the response time. Resources provided by CAL FIRE will be in  
39 accordance with CFMA, when responding to federal wildland agency incidents in Nevada.  
40

41 Airspace Boundary Management Plan

42 The requirement for increased management and coordination is due to the possibility of two or  
43 more agencies/cooperators conducting simultaneous, uncoordinated aviation operations within  
44 those areas which would unknowingly put the responding aerial operations within close  
45 proximity to another, placing aircraft and crews at risk. The purpose of this plan is to identify  
46 such boundaries and initial attack zones and provide means of communication, coordination, and  
47 airspace deconfliction within those areas. Aerial operations on, or adjacent to agency/cooperator  
48 boundaries, and areas where a neighboring agency/cooperator provides fire suppression on lands  
49 administered by the adjoining agency/cooperator (mutual aid, shared, or exchanged initial attack  
50 areas or zones) require increased management and coordination.

**1 Local Agreements**

2 Numerous local agreements exist between Units in California. Many of the border units have  
3 initial attack agreements in place to request assistance from Units across GACC borders for  
4 initial attack resources.

**6 Initial Attack Border Agreements**

7 The purpose of the following agreements is to improve efficiencies and effectiveness by  
8 facilitating the exchange of information, personnel, equipment, aircraft, supplies and services  
9 among the bordering cooperating agencies.

10  
11 Department of Interior, Bureau of Land Management: Northern California District,  
12 Winnemucca District, Lakeview District, Burns District and Vale District

13  
14 Fish and Wildlife Service: Sheldon-Hart Mountain NWR, Malheur National Wildlife Refuge

15  
16 Department of Agriculture, Forest Service: Fremont-Winema National Forest and Modoc  
17 National Forest

18 Oregon Department of Forestry-Klamath-Lake District

19  
20 Selection areas in ROSS are open or can be opened to Units who have initial attack agreements.

21  
22 Normally operational procedures are in place to return resources in a timely manner and not to  
23 utilize this process for extended needs. Contact the GACC to open these selection areas.

**25 Non-Suppression Activity Agreements****26 Reimbursement Processes for Forest Service and Department of Interior**

27 These agreements are in place for Non-Suppression activities, including fuels projects and  
28 rehabilitation of public lands.

29 Reimbursement process for non-suppression activities under Forest Service/DOI Master  
30 Interagency Agreement – extended to September 30, 2015

31  
32 Agreement Number References:

33 FS Agreement # 10-IA-11130206-032

34 BLM Agreement # L10PG00569

35 BIA Agreement # AGFIRE10K101

36 NPS Agreement # G9560100055

37 FWS Agreement #93252-A-H100

**38  
39 Reimbursement Processes for Federal Agencies and CAL FIRE (CFMA)**

40 Several provisions of the CFMA allow the Federal Agencies and CAL FIRE to jointly conduct  
41 cooperative projects and engage in certain non-suppression activities.

42 Reference the CFMA at: [http://gacc.nifc.gov/oscc/cwgc/docs/2013cfma/FinalCFMA2013-  
43 2018.pdf](http://gacc.nifc.gov/oscc/cwgc/docs/2013cfma/FinalCFMA2013-2018.pdf)

**44  
45 Reimbursement Process for Forest Service with Local Fire Departments**

46 Cooperative Fire Agreements allow for the use of local fire department resources in certain non-  
47 suppression activities, i.e. prescribed burning. Reimbursement for these activities is different  
48 from processes used to reimburse for suppression activities.

50

1 **Interagency Facilities**

2

3 **Northern Region**

4

5 Operations, Northern California Geographic Area Coordination Center (North Ops. ONCC):

6 Combines the U.S. Forest Service, the CAL FIRE Northern Region, the BLM Northern  
7 California Region, National Fish & Wildlife Service, Bureau of Indian Affairs, and the National  
8 Park Service into one cooperating unit. The facility is currently administered under a  
9 Memorandum of Understanding between these agencies. North Ops will maintain a file copy of  
10 this agreement.

11

12 Camino Interagency Command Center (CICC):

13 Combines the Eldorado National Forest, Lake Tahoe Basin Management Unit and CAL FIRE  
14 Amador- El Dorado Unit into one cooperating unit.

15

16 Fortuna Interagency Command Center (FICC):

17 Combines the Six Rivers National Forest, CAL FIRE Humboldt-Del Norte Unit, Redwood  
18 National Park, Hoopa Reservation, and the Humboldt Bay National Wildlife Refuge into one  
19 cooperating unit.

20

21 Grass Valley Emergency Command Center (GVCC):

22 Combines the Tahoe National Forest and CAL FIRE Nevada-Yuba-Placer Unit into one  
23 cooperating unit.

24

25 Mendocino Fire Center (MNFC):

26 Combines the Mendocino National Forest, Golden Gate NRA, Point Reyes National Seashore,  
27 Hawaii Volcanos National Park and Sacramento National Wildlife Refuge into one cooperating  
28 unit.

29

30 Modoc Interagency Command Center (MICC):

31 Combines Modoc National Forest, Lava Beds National Monument and the National Fish &  
32 Wildlife Lower Klamath Refuge into one cooperating unit.

33

34 Redding Interagency Command Center (RICC):

35 Combines the Shasta-Trinity National Forests, Whiskeytown National Recreational Area and  
36 CAL FIRE Shasta-Trinity Unit into one cooperating unit.

37

38

39 Susanville Interagency Fire Center (SIFC):

40 Combines the Lassen National Forest, BLM Northern California Region, Lassen Volcanic  
41 National Park, and CAL FIRE Lassen-Modoc-Plumas Unit into one cooperating unit.

42

43 Yreka Interagency Command Center (YICC):

44 Combines the Klamath National Forest and CAL FIRE Siskiyou Unit into one cooperating unit.

45

46

47

48

49

50

**1 Southern Region**

2

**3 Operations, Southern California Geographic Area Coordination Center (South Ops. OSCC):**

4 Combines the U.S Forest Service, the CAL FIRE Southern Region, the BLM Southern California  
5 Region, National Fish & Wildlife Service, Bureau of Indian Affairs, and the National Park  
6 Service Dispatch functions into one cooperating unit. The facility is currently admnistrred under  
7 a Mamorandum of Understanding between these agencies. South Ops will maintain a file of this  
8 agreement.

9

**10 Angeles Emergency Communications Center (ANCC):**

11 Combines the Angeles National Forest and Santa Monica Mountains National Recreation Area  
12 into one cooperating unit.

13

**14 Central California Interagency Communications Center (CCCC):**

15 Combines the Central California District BLM, Tule Indian Reservation, Kern National Wildlife  
16 Refuge, and Sequoia National Forest into one cooperating unit

17

**18 Los Padres Interagency Communications Center (LPCC):**

19 Combines the Los Padres National Forest and Channel Islands National Monument into one  
20 cooperating unit.

21

**22 Monte Vista Interagency Command Center (MVIC):**

23 Combines the Cleveland National Forest, Southern California Wildlife Refuge, Camp Pendelton  
24 Marine Base, Cabrillo National Monument, and CAL FIRE Monte Vista Unit into one  
25 cooperating unit.

26

**27 Owens Valley Interagency Communications Center (OVICC):**

28 Combines the Inyo National Forest and BLM Bishop Field Office into one cooperating unit.

29

**30 Sierra Interagency Communications Center (SICC):**

31 Combines the Sierra National Forest, Fish & Wildlife Service, and San Luis Wildlife Refuge into  
32 one cooperating unit.

33

**34 San Bernardino Interagency Command Center (SBCC):**

35 Combines the San Bernardino National Forest, BLM California Desert District, Death Valley  
36 National Park, Joshua Tree National Park, Mojave National Preserve and BIA-Southern  
37 California Agencies into one cooperating unit.
