

Chapter 20 – Overhead/Teams

Overhead

Units will maintain a list of qualified personnel for assignments and keep their qualifications current in the current ordering system and/or the agency's system of record. Units will maintain a hard copy of personnel qualifications, to serve as a backup to the current ordering system.

If a request is required to be self-sufficient it means the resource will be able to provide their own food, lodging and local transportation if needed.

Name Requests

Overhead can be name requested. Prior to placing the request, the ordering Unit will receive confirmation of availability, supervisor approval, Unit ID, and verify person is qualified or trainee in the current ordering system for requested position.

The CAL OES Name Request Justification form is required for all local government overhead name requests with the exception of IMT members. IMT members rostered in the current ordering system, on the initial fill of the team, do not require a Name Request Justification form. Team members responding after the initial team roster has been filled in the current ordering system require a Name Request Justification form.

This form should be used once a resource order has been returned "Unable To Fill" at both California GACC's. This form may be used for hard to obtain or specialize resources identified as Critical Needs.

The form can be located at:

<http://www.caloes.ca.gov/FireRescueSite/Documents/CalOES%20%20Name%20Request%20Form%20-%2020140901uax.pdf>

Pre-suppression/suppression detail requests in the current ordering system must be accompanied by a Preparedness/Detail Request form. Form will be submitted to the GACC. Refer to the California Interagency Mobilization Guide, Appendix for the link to this form.

https://www.nifc.gov/nicc/logistics/coord_forms/detail_request_2014.pdf

Specialized Overhead

All specialized overhead will be ordered through normal ordering process unless otherwise specified.

Air Resource Advisor – ARA -Federal

The need for an ARA will vary based on conditions with the incident, topography, weather, population, exposure risk, dispersion and area attainment designation. An incident smoke footprint can often span multiple air quality and public health jurisdictions as well as state boundaries. The ARA involvement will range from factors encompassing incident management to community, state, and tribal coordination with agency administrators.

All ARA order requests will be placed by the appropriate GACC. Requests will often be initiated by incidents, GACC's, Agency Administrators, or agency Air Quality Program staff. All orders will be coordinated as name requests with the Washington Office (WO) FAM Smoke Coordinator. Orders are authorized to commence upon concurrence of the requesting official. GACC Predictive Service Meteorologists may be asked to help facilitate the orders. Duty locations may vary from incidents to GACC's depending on complexity and occurrence of multiple events.

1 Air Quality Monitoring equipment can be ordered through agency air quality staff and will be coordinated, as
 2 necessary, with the California Air Resources Board Office of Emergency Services, Tribes and respective Air
 3 Quality Management Districts.

4
 5 Ordered in the current ordering system as: THSPs with the special needs “Air Resource Advisor” then placed
 6 to the GACC.

7
 8 Key contacts:

9
 10 Pete Lahm - WO peter.lahm@usda.gov 602-432-2614 (cell)
 11 Pete.lahm@gmail.com 661-GET-1ARA

12
 13 Brent Wachter - NOPS brent.wachter@udsa.gov 530-226-2730 (desk)

14
 15 Trent Procter - Air Quality Program trent.procter@usda.gov 559-783-3308 (cell)

16
 17 **Archaeologists (ARCH)** – All Agencies

18 Efforts should be made to incorporate archaeologists into the fire organization. Federal - a list should
 19 be available at each Federal Unit of qualified archaeologists. Unit archaeologist should be pre
 20 identified.

21 CAL FIRE – all requests for archaeologists will placed to the appropriate GACC.

22
 23 **Blasters-** Federal

24 Blasters are highly specialized positions that meet specific agency/incident objectives.

25
 26 Ordering unit must specify type of blaster

27 Fireline Explosive Advisor (FLEA)

28 Fireline Explosive Blaster-in-Charge (FELB)

29 Fireline Explosive Crewmember (FELC)

30
 31 A blaster may request a fire suppression crew to be present at the blast site because certain types of explosives
 32 can start fires. In order to determine which blasting materials are right for a job, the blaster will communicate
 33 with local staff to discuss the job details, site conditions, and desired results.

34
 35 Certified blasters must have a “Hazard Trees” endorsement on their certification cards to fell danger trees with
 36 explosives. A commercial driver’s license and vehicle with proper placards are required when transporting
 37 blasting materials. Blaster examiners in each region are responsible for training, coordination, and management
 38 of regional blasting programs.

39
 40 **Cost Share Specialist** – All Agencies

41 Cost Share incidents (multi-jurisdictional, unified command) may require special skills to develop a cost share
 42 agreement. When determined by the incident and the incident management team, Cost Share Technical
 43 Specialists can be ordered. In most cases, the expectation is to have a Cost Share Specialist representative from
 44 each agency having jurisdiction on the incident.

1 Federal - Cost Share Specialist orders will be coordinated with the appropriate federal incident business
 2 coordinator (listed below) to ensure resource assignments are commensurate with the complexity of the
 3 incident.
 4

Agency	Contact	Office	Cell
BLM	Ann Marie Carlson	916-978-4446	916-496-0518
BIA	Julie White	916-978-6146	916-215-5653
FS	Yolie Thomas	707-562-8835	707-980-3956
FWS	Veronika Klukas	503-231-6174	
NPS	Nina Dutton	415-623-2217	208-789-7170

5
 6 Once a Cost Share Specialist is ordered, that individual shall identify and order the necessary Cost Share
 7 Analyst position(s). Both the Cost Share Specialist and Analyst can be ordered as a Name Request.
 8 Cost Share Specialists will be ordered as THSPs in the current ordering system. In special needs include “Cost
 9 Share Specialist”.

10
 11 Cost Share Analysts will be ordered as THSPs in the current ordering system. In special needs include “Cost
 12 Share Analyst”.

13 CAL FIRE - Cost Share Specialists will be ordered as Cost Apportionment Technical Specialists (CATS).
 14

15 **Hired Equipment Technical Specialist (EQTS) – CAL FIRE**

16 Assists the incident with contract administration and ensure contract compliance through technical fire contract
 17 inspection.
 18

19 **Human Resource Specialist (HRSP) – Federal**

20 Are utilized when 300 or more people are assigned to the incident, when a federal IMT is assigned, or when the
 21 Incident Commander or Agency Administrator determines it is necessary. HSRPs may be name requested.
 22

23 **Interagency Resource Representative (IARR) – Federal**

24 IARR’s are dispatched by the GACC to serve as the sending GACC’s representative to oversee the care and
 25 treatment of crews, overhead, and equipment assigned to an incident out of region. They are the point of contact
 26 for all federal agencies resources, for the hosting geographic area, and other IARRs. Usually assigned when 5
 27 or more crews are dispatched out.
 28

29 **Incident Contract Project Equipment Inspector (ICPI) – Federal**

30 Assist the incident with contract administration and ensure contract compliance through technical fire contract
 31 inspection.

32 ICPI’s can be ordered for incident or regional support needs by contacting Fire Contract Operations/VIPR,
 33 Cheryl Raines –Lead ICPI Inspector- 760-920-1107.
 34

35 **Incident Meteorologist (IMET) – All Agencies**

36 When an IMET is requested for an incident, the request will be created and placed to the appropriate GACC.
 37 The GACC will then request an IMET from the NWS National Fire Weather Operations Coordinator
 38 (NFWOC) at 1-877-323-IMET (4638). The NFWOC will advise the GACC of fill information. The GACC
 39 will advise the requesting Unit to edit the
 40
 41

request to a "Name Request" with the fill information. The IMET will be mobilized by the appropriate GACC.
NOTE: All requests for IMETs must note in Special Needs, "authorizing a rental vehicle and computer support".

The following list designates which California GACC will status and dispatch personnel for the California Weather Forecasting Offices. The current ordering system status can be maintained as Available/Local.

North Ops		South Ops	
CA-EKAW	Eureka WFO	CA-HNXW	Hanford WFO
CA-STOW	Sacramento WFO	CA-LOXW	Los Angeles/Oxnard WFO
CA-MTRW	San Francisco/Monterey WFO	CA-SGXW	San Diego WFO
HI-HFOW	Honolulu WFO		
AS-PPOW	Pago Pago/American Samoa WFO		

Interagency Incident Business Advisors (INBA) – Federal

INBAs provide oversight on administrative and financial activities and serve under the authority of the Agency Administrator, as per each agency's policy. INBA orders, including name requests will be coordinated with the appropriate federal incident business coordinator (listed below) to ensure resource assignments are commensurate with the complexity of the incident.

Agency	Contact	Office	Cell
BLM	Ann Marie Carlson	916-978-4446	916-496-0518
BIA	Julie White	916-978-6146	916-215-5653
FS	Yolie Thomas	707-562-8835	707-980-3956
FWS	Veronika Klukas	503-231-6174	
NPS	Nina Dutton	415-623-2217	208-789-7170

In some situations, IBA assignments are filled with an individual from the local Unit. Orders will be initiated by incident host Unit, not the Incident Management Team.

Infrared Interpreters (IRIN) – All Agencies

All national infrared flights require an Infrared Interpreter be ordered.

All requests for IRIN will be placed with the GACC. The GACC overhead desk will work with the California or National IR Coordinator to find a qualified IRIN. The GACC and the IR coordinator will determine who is going to be the IRIN and which incidents they will support; IRIN's can do multiple incidents.

For additional ordering information, refer to California Interagency Mobilization Guide, Chapter 50.

Short-Haul Boosters (SHLR) and Short-Haul Spotter (SHLS) - Federal

Booster orders will be placed on an overhead order as SHLR for Short-Hauler and SHLS for Short Haul Spotter and may be filled by individuals from multiple bases. Short-Haul bases shall coordinate with their local GACC and/or NICC on boost requests and status. At a minimum, orders shall be filled with (6) Short-Haulers and a manager to support needs documented on the aircraft order through the current ordering system. The Short-Haul spotter/manager will determine transportation needs for the additional short-haulers on the order. Aerial transport of boosters may be ordered by the requesting unit.

Smokejumper (SMKJ) – All Agencies

Refer to California Interagency Mobilization Guide, Chapter 30.

1 **Training Specialist (TNSP) – All Agencies**

2 The training specialist organizes and implements the incident’s training program, by developing individual
3 training plans and documenting individual trainee assignments.

4 All Agencies – A training specialist will be ordered, as part of an IMT activation. A TNSP may also be ordered
5 on non-team incidents, at the discretion of the incident commander. Order through normal ordering process.
6

7 FS – Upon activation of a Type 1 or Type 2 IMT on a Forest Service incident, the GACC Training Officer, in
8 concert with the host Forest, shall process a resource order requesting a minimum of 20 trainees. Forest
9 Service will have first attempt to fill these requests.

10
11 **Wildland Fire Safety Officer – Federal**

12 When a federal agency activates an IMT, the GACC will notify the appropriate agency Wildland Fire Safety
13 Officer. It is the responsibility of the Safety Officer to notify the affected Unit if there is an intended visit for
14 the purpose of review or observation. Affected Units may initiate the request on their own. Each agency will
15 set its own guidelines for protocols regarding such visits. Unless otherwise stipulated or agreed to, such visits
16 should be of an informal nature to help foster positive safety attitudes within the incident environment.

17 Informal reviews and observational visits do not require a formal entrance or exit meeting with agency
18 administrators. Written documentation will be required if further formal action or follow-up is needed by the
19 IMT, affected Unit or a higher management level. The Safety Officer will discuss the visit with the IMT and
20 with appropriate members of the Agency Administrator's staff prior to departing.
21

22 **Overhead Specialized Program**

23
24 **Logistics Accelerated Development – Federal**

25 The Logistics Accelerated Development (LAD) program is a mentoring program designed to allow for the
26 accelerated training and development of employees in the field of logistics.

27 The LAD Program Coordinator will maintain the roster of LAD trainees and their availability.
28

29 **LAD Dispatching Procedures:**

30 GACCs will notify the LAD Program Coordinator Cheryl Raines 760-920-1107, when any Forest activates a
31 Type I or II Incident Management Team.

32 The LAD Program Coordinator, in consultation with the incident Logistics Section Chief, will determine how
33 many trainees may be utilized.

34 The LAD Program Coordinator will have the incident place “name request” orders for available LAD trainees.
35

36 **Incident Management Teams (IMT)**

37 All Incident Management Team Rosters and Rotations are located at the end of this chapter.
38

39 **All Hazard Incident Management Teams – National Park Service**

40 The National Park Service has All Hazard Incident Management Teams for national use. The purpose of the
41 teams are to manage any incident except a wildland or prescribed fire.

42
43 These teams are ordered in the current ordering system as: Team, All Risk NPS.

44 The GACC will advise the Regional Contact listed below and then place the request to NICC. Pacific West
45 Region Contact: Regional Chief Ranger Greg Morse, 540-999-3412 or cell 510501-0459.
46
47

All-Hazard Incident Management Teams- Type 3 – Cal OES / Local Government

Purpose/Mission/Capability:

The purpose of the Type 3 All-Hazard Incident Management Team (AHIMT3) is to provide organized teams of highly trained personnel to assist local, state, and federal agencies with Complex Incident Management. AHIMT3's may be requested for an emergency incident, a planned event, or other mobilization requests.

Configuration

Participating Agencies/ Local Operating Areas:

The AHJ shall determine the size and composition of the AHIMT3 based on incident type and complexity. An AHIMT3 may deploy as a full team, a partial team ("short" team), or as single resource. Team size shall not exceed 21 in California.

California State Geographic Deployments (Full Team Configuration):

- Incident Commander (ICT3)
- Deputy Incident Commander (ICT3)
- Safety Officer (SOF3)
- Information Officer (PIO3)
- Liaison Officer (LOFR)
 - Law Enforcement Unit (LELO)
- Operations Section Chief (OSC3)
- Finance Section Chief (FSC3)
- Logistics Section Chief (LSC3)
 - Supply Unit Leader (SPUL)
 - Facilities Unit Leader (FACL)
 - Communications Unit Leader or Incident Communications Technician (COML or COMT)
 - Medical Unit Leader (MEDL)
- Plans Section Chief (PSC3)
 - Resource Unit Leader (RESL)
 - Situation Unit Leader (SITL)
 - Tech Spec. GIS
- 4 Trainees (with concurrence of the ordering agency)

Federal Emergency Management Agency (FEMA) and Emergency Management Assistance Compact (EMAC) Deployments.

Use the FEMA Team Configuration Guideline: *An order/request for an AHIMT3 (whether through EMAC or through the National Firefighting Mobilization System) shall be filled with a minimum of 14 members that comprise the following positions:*

- Incident Commander (ICT3)
- Safety Officer (SOF3)
- Information Officer (PIO3)
- Assistant PIO (PIO3)
- Liaison Officer (LOFR)

- 1 • Operations Section Chief (OSC3)
- 2 ➤ Deputy Operations Section Chief (OSC3)
- 3 ➤ Staging Area Manager (STAM)
- 4 • Finance Section Chief (FSC3)
- 5 • Logistics Section Chief Type 3 (LSC3)
- 6 ➤ Communications Unit Leader or Incident Communications Technician (COML/COMT)
- 7 • Plans Section Chief (PSC3)
- 8 ➤ Resource Unit Leader (RESL)
- 9 ➤ Situation Unit Leader (SITL)

10 Note: The 14 AHIMT3 members, and any other AHIMT3 members subsequently ordered shall be from an
 11 organized, local government fire-sponsored agency, and shall meet recognized qualifications for the positions
 12 they are filling. An order/request for an AHIMT3 is for the personnel only and does not include any
 13 communications or office equipment or supplies (this should be supplied by the AHJ). If the AHIMT3 arrives
 14 and determines that they need additional or specialized personnel, equipment, and/or supplies, those shall be
 15 ordered through the established ordering process.

16 **California AHIMT3 Status**

17 The Cal OES Fire and Rescue Division shall maintain an on-call roster of available AHIMT3 within
 18 California.

19 **Team Status Keeping:**

- 20 • Monday morning by 1000 AM teams that are available for statewide or national mobilization will
 21 update Google Sheets, and status the on-call IC.

22 **Rotation: (8)**

23 AHIMT3's that are currently recognized by Cal OES Fire and Rescue:

- 24 • Orange County - OC
- 25 • Long Beach - LB
- 26 • Santa Barbara - SB
- 27 • East Bay - EB
- 28 • North Bay - NB
- 29 • Sacramento Regional - SR
- 30 • San Diego - SD
- 31 • South Bay – So. B

33 AHIMT3 Mobilization/Ordering Process

- 34 • The mobilization for AHIMT3's outside of their local operating area and local agreements
- 35 • shall use the CalOES Fire and Rescue Division's resource ordering process.
- 36 • Teams shall use the following IROC naming convention: Team – AHIMT – T3 – CA –
- 37 • IC name, team name, or team number.

38 Duration of Assignments

39 A deployment should last no longer than 14 days (excluding travel).

40

1 CAL FIRE Incident Management Teams – Type 1

2 CAL FIRE maintains 6 statewide Type 1 All Hazard Incident Management Teams to direct large-scale complex
3 emergency incidents. CAL FIRE IMTs are available year-round for statewide response, with one team on call
4 at any given time.

5 CA IMTs are ordered through the GACC. These teams are ordered in the current ordering system as: Team,
6 Type 1 Long

8 California Federal Interagency Incident Management Teams – Type 1 and 2 – Federal

9 The California Federal Interagency Incident Management Teams (IMT) are managed by the California Wildfire
10 Coordinating Group (CWCG), which consists of a representative from each agency with wildfire suppression
11 responsibility. CWCG is responsible for selecting team members, monitoring and evaluating team
12 performance, and providing for team member development.

14 CWCG will select and manage four Type 1 IMTs, as components of a national rotation established and
15 maintained by NICC, through the National Interagency Mobilization Guide.

17 California can activate all four CA IMTs before going to the National Rotation. The four Type 1 teams are
18 available for assignments to other geographic areas that utilize the Incident Command System for managing
19 wildfires.

20 CWCG will also select and manage seven Type 2 IMTs. Type 2 IMTs may also be available for out of state
21 mobilization. During Preparedness Levels 4 or 5, out of state mobilizations may be restricted to ensure
22 adequate coverage within the state.

24 CWCG sponsored Type 1 and 2 teams may have the following team composition listed below. The California
25 Incident Commanders have the flexibility to substitute the standard positions suggested below with other
26 positions according to the team needs, as long as they stay within the standard numbers.

28 Short Team Configuration (Total of 10 positions)

29 1 ICT1
30 1 DPIC** or ICT1(trainee)
31 2 OSC1
32 1 SOF1
33 1 PIO1
34 1 PSC1 1 LSC1
35 1 FSC1
36 1 AOBD

Long Team Configuration (Total of 27 positions)*

1 ASGS, 1 ATGS,
1 SPUL, 1 FACL, 1 GSUL, 1 COML
1 SITL, 2 RESL, 1 FBAN,
4 DIVS,
1 TIME, 1 COMP, 1 PROC

37 *Long team includes the 10 positions from the Short team.

38 ** DPIC not in the current ordering system

39 In addition to the 27 positions identified on the long team configuration, teams may have a maximum of
40 seventeen (17) positions to be negotiated and concurred on by the Incident Commander and the Agency
41 Administrator from the requesting Unit. They may bring an additional six (6) trainee positions and six (6) S-
42 420/520 command and general staff mentees. These positions are identified by the teams and not by receiving
43 Unit. Unless notified otherwise, these trainees will be mobilized for incidents on Federal lands.

45 The GACC's will annually compile a rotation schedule for the teams to be included in the California
46 Interagency Mobilization Guide.

1 NICC will be advised by the GACC as soon as the current Type 1 two-hour team is committed, to enable them
2 to place an out-of-region team in 24-hour rotation.

3 Teams will be mobilized through normal dispatch channels.

4
5 CA Federal IMTs are ordered through the GACC. These teams are ordered in the current ordering system as:
6 Team, Type 1 Long; Team, Type 1 Short; Team, Type 2 Long; Team, Type 2 Short.

8 **National Area Command Teams – All Agencies**

9 Area Command (AC) is an organization established to ensure inter-incident coordination for
10 Command, Planning, Logistical and Aircraft matters. AC will work closely with the Multiagency Coordination
11 Group that establishes priorities for the GACC. AC will normally request their own support personnel to work
12 within the Area Command organization.

13 There are four National Area Command Teams. AC Teams are comprised of 6 positions: Area Commander,
14 Assistant Area Commander Planning, Assistant Area Commander Logistics, Area Command Aviation
15 Coordinator and 2 trainees identified by the Area Commander. All requests for National AC Teams will be
16 placed through established ordering channels to NICC. AC is ordered in the current ordering system as:
17 Team, Area Command.

18
19 CAL FIRE – The GACC may choose to order a National AC Team or assemble CAL FIRE personnel to form a
20 California Area Command Team. AC is ordered in the current ordering system as: Team, Area Command.

22 **National Incident Management Organization (NIMO) Team – Federal**

23 Appropriate assignments for NIMO consideration include: Wildland fire, Long Duration Incidents or Mission
24 Specific Assignments (regional and national special projects; require a completed Project Request Form on the
25 NIMO Web site:

26 <http://www.fs.usda.gov/main/nimo/projectrequests> . For details and trigger points for ordering NIMO,
27 reference the National Interagency Mobilization Guide, Chapter 20.

28 NIMO teams are ordered through the GACC.

29 Ordered in the current ordering system as: Team, NIMO.

31 **Non-IMT Teams**

33 **Burned Area Emergency Response Teams (BAER) – Federal**

34 BAER Teams are ordered to assist field units to plan for immediate post-wildland fire site stabilization. These
35 teams address post incident needs, including potential floods, mud and debris flows, watershed/municipal water
36 supplies.

37 It is the responsibility of the local Unit to select the number of team members and the skills needed by those
38 team members.

39
40 FS ordered in the current ordering system as individual overhead requests, as: BAES. In special needs, list type
41 of skills needed and level of skill.

42
43 DOI maintains two (2) National BAER Teams to assist field units plan for immediate post wildland fire site
44 stabilization. National BAER Teams are dispatched to only the most complex BAER incidents involving risks
45 to human life and critical Federal assets. Potential floods, mud and debris flows, watershed/municipal water
46 supplies, urban interface, and complex and multiple jurisdictions are the dispatch prioritization criteria issues
47 factored into the mobilization decision.

1
2 Ordered in the current ordering system as individual overhead requests, as the approved agency-specific BAER
3 mnemonic (as shown in IQCS/the current ordering system).
4

5 **Buying Unit Teams – Federal**

6 The Buying Unit will normally be assigned to and located on the Unit, and report to a designated administrative
7 staff based on location. Buying Unit Teams supplement the local Unit procurement and dispatching
8 organizations during emergencies.

9 Buying Unit Teams will be ordered through the GACC. If unable to fill regionally, the GACC will place order
10 through NICC for National Buying Unit Team. These teams are ordered in the current ordering system as:
11 Team, Buying.
12

13 **Damage Inspection Team - Federal**

14 Damage Inspection Team may be ordered by the incident through County CAL OES to assess structure damage
15 and loss.
16

17 **Damage Assessment Team – CAL FIRE**

18 Order in the current ordering system as: individual overhead requests. Damage Inspection Technical Specialist
19 (DINS) and Field Observer (FOBS) but can be scaled up or down to fit needs of the incident.
20

21 **ECC Support Teams – CAL FIRE**

22 ECC Support teams provide personnel qualified in ECC expanded functions for timely mobilization in support
23 of Emergency Command Center operations. Reference CAL FIRE Handbook 7700, section 7758.
24 Dispatch procedure in CAL FIRE Handbook 8100, procedure 372.
25

26 There is a total of 10 teams statewide, with each Region fielding 5 teams. Normal configuration is Team
27 Leader/EDSP, Deputy Team Leader/EDSP (t) or EDSD, 2 EDSDs, 2 EDRCs and 2 optional trainee positions.
28

29 Teams will be on immediate call (one-hour getaway) for one-week rotations. Order in the current
30 ordering system as: Team, ECC Support CA Only.
31

32 **Fire Behavior Assessment Team (FBAT) – Federal**

33 The primary mission of FBAT is the collection of coordinated fuels, vegetation, fire behavior, and post-fire
34 effects data during wildland fire incidents. Data can be used to validate the effectiveness of fuel treatments,
35 evaluate fire effects, support safety zone guideline development, calibrate fire behavior and emissions
36 modeling, or help incident teams and land management staff meet other goals as requested and feasible. A
37 report is prepared for each incident.

38 FBAT generally consist of 4 to 12 fireline-qualified personnel, led by overhead qualified at the Task Force
39 Leader level or above. FBAT may request a Wildland Fire Module trained in FBAT methods to be ordered in
40 conjunction with FBAT depending on the mission for that incident.

41 FBAT is most successful when ordered early during an incident, as it transitions to extended attack. FBAT
42 equipment and members are mainly located in California and can be mobilized by contacting the FBAT Team
43 Leads below. One of the Team Leads will formulate a name request list for the incident to order individuals or
44 modules based on availability of on-call members.

45 Matthew Dickinson, Lead: 614-556-2271

1 Carol Ewell, Assistant Lead: 209-283-4563

2 Ordered in the current ordering system as: individual overhead Technical Specialist (THSP) name requests.
3 Include special needs of “FBAT team member”.

4 For more information please visit: https://www.fs.fed.us/adaptivemanagement/projects_main_fbat.php

5
6 **Fuel Treatment Effectiveness Team – Federal**

7 The primary mission of the fuel treatment effectiveness teams is to provide documentation of the effectiveness
8 of fuel treatments on wildfire behavior or effects. This documentation is required by law to be provided within
9 90 days of control of the fire (FSM 5144). This team will gather GIS and observational information about the
10 fire and complete fuel treatment effectiveness reporting including required entries in the Fuel Treatment
11 Effectiveness Monitoring database (FTEM).

12
13 Team members are ordered in the current ordering system as THSP – name requests after contacting the
14 Regional Fuels Staff, Robyn Woods 530-206-6918. Include special needs of “Fuel Treatment Effectiveness
15 Team member”. One or more team members may be ordered.

16
17 **Interagency Dispatch Teams – Federal**

18 Dispatch teams provide personnel, qualified in Dispatch Center expanded functions, for timely mobilization in
19 support of wildland incidents. There are 4 federal dispatch teams in California. Normal configuration is 2
20 EDSPs, 2 EDSDs, 2 EDRCs and up to 2 trainees. Priority use of these teams is to support incidents in
21 California.

22
23 Team rotation will be based on the Forest Service pay period schedule: bi-weekly, effective at 0001 on Sunday.
24 There will be one team available during the two-week period. The available team will mobilize within 2 hours
25 of notification of the assignment.

26
27 The rotation schedule can be located at: <http://gacc.nifc.gov/oncc/logistics/overhead/index.htm>
28 <http://gacc.nifc.gov/oscc/logistics/index.htm>

29 Order in the current ordering system as: individual overhead, normally 2 EDSPs, 2 EDSDs, 2 EDRCs (plus
30 trainees). Case by case configuration. Check with the GACC for team availability and roster when ordering.

31
32 **Medical Emergency Response Teams (MERT) – CAL FIRE**

33 MERT is ordered when a significant commitment of California Department of Corrections and Rehabilitation
34 (CDCR) inmate firefighters are assigned to an incident. A MERT is typically made up of three personnel
35 consisting of a registered nurse and two medical technical assistants to provide medical assistance to inmate
36 firefighters. The CDCR MERT personnel respond from the Susanville Training Center (LMU) and Sierra
37 Training Center (TCU).

38
39 Order in the current ordering system as: MERT (California Only). Create and place a single overhead request
40 for the team. If a higher level of medical care is needed document in special needs Medical Doctor or
41 Physician’s Assistant.

42
43 Reference CAL FIRE Handbook 8100, procedure 388.

44

1 Retrograde Team – CAL FIRE

2 Upon the closure of an incident, excess items purchased through the emergency fund shall be retrograded (i.e.
3 inventoried, documented, credited) to the incident and charged off to the appropriate account(s).

4
5 The incident will order a retrograde team 72 hours before the anticipated incident closure. The team will be
6 requested to arrive at least 48 hours before the anticipated closure of the base.

7
8 A retrograde team will consist of a minimum of 3 personnel; a retrograde team leader, a representative from the
9 host Unit (Fire Logistics Officer) and one representative from the incident (Logistics Section Chief).

10
11 Order in the current ordering system as: individual overhead requests. At least one request will be for a
12 Retrograde Team Leader (RETG) and placed to the GACC. Additional requests may be made by the team
13 leader for Retrograde Team Members (RETT).

14
15 Reference CAL FIRE Handbook 7500, section 7585.

17 Rapid Extraction Support Module (REMS)

18 Is a pre-staged rescue team assigned to provide firefighters safe egress off the fireline in the event of an
19 injury/illness during firefighting operations Unit/GACC:

20
21 Order in the current ordering system under Overhead, Groups, Module, Rapid Extraction Support (California
22 Only). Under Special Needs add documentation

23
24 “Reference REMS identification in FIREScope ICS – 223 – 12”. Under Configuration Option choose Catalog
25 Item with Configuration.

26 <http://www.firescope.org/ics-sys-org-funct/ics-223-12.pdf>

28 Situation Awareness and Collaboration Tool (SCOUT) – CAL FIRE

29 CAL FIRE, in association the California Governor’s Office of Emergency Services and through a strategic
30 partnership with the Department of Homeland Security’s Science & Technology Directorate (DHS S&T) has
31 acquired the Next-Generation Incident Command System (NICS) software for use by California’s emergency
32 services professionals. The California deployment of the NICS software is called Situation Awareness and
33 Collaboration Tool (SCOUT). SCOUT provides an information sharing environment to facilitate operational
34 and tactical collaboration among California emergency responders and interagency situational awareness for
35 local, tribal, state, and federal partners for small to extreme scale homeland security incidents, such as natural
36 disasters, technological hazards, intentional attacks, and human-caused emergencies.

37
38 Order in the current ordering system as: individual overhead requests. Decision Support System Advisor
39 (DSSA) and 2 Decision Support System Technical Specialists (DSTS) but can be scaled up or down to fit needs
40 of the incident.

42 Wildland Fire Modules – Federal (FS and NPS)

43 The primary mission and priority for these modules is to provide skilled and mobile personnel to assist with
44 prescribed fires in the areas of planning, fire behavior monitoring, ignition, and holding. Secondary priorities
45 (in order) include support of prescribed burn unit preparation, assistance with fire effects plot work, and support
46 of mechanical hazard fuel reduction projects. Some agency restrictions exist for fuels related work.

47

1 As a national interagency resource, the modules are available nationally throughout the fire season. Each
 2 module is comprised of a module leader, assistant leader, three to five module members, and a detailer during
 3 the primary burning season.

4 FS has Wildland Fire Modules on the Stanislaus NF, Klamath NF, Sequoia NF and Inyo NF.

5 NPS has Wildland Fire Modules on the Whiskeytown NRA.

6 These modules are ordered in the current ordering system as: Module, Wildland Fire.

Rotation for Type 2 IMT

- Accepted by CWCG Ops Committee after input from IMT IC’s and Deputies.
- When a team “On-Call/2 Hour” is not available due to being assigned, or is unavailable, the next team on the rotation moves up to the “On-Call” position for the remainder of the current on-call period and all additional periods until their own on-call period has expired, unless the on call team becomes available and is put back in their normal scheduled rotation.
- When a team has had an assignment, they maintain their place in the rotation. Unlike the national rotation, teams will no longer have to wait for all other teams to get an assignment. (Referred to by the Type 2 ICs as “luck of the draw”).
- GACC Intel will update “News and Notes” as soon as possible and keep rotation information consistent on both GACC websites.
- The rotation begins at 0001 on Wednesday and ends at 2400 on Tuesday.
- Once either California GACC has fully exhausted their Type 2 Team capability, they will place an order to the other California GACC who will utilize the regional rotation to fill the order.
- The specific team filling that slot is the team up on the local GACC rotation for that time period.
- For normal Southern California Type 2 IMT fills:
 - Central is primary for LPF, SNF, SQF, STF, and Interior Units dispatched from same ECCs.
 - Southern California is primary for ANF, BDF, CNF, INF, and Interior Units dispatched from same ECCs.
- Both GACCs will have final decision on management of all IMT assignments and deviation from the rotation based on commitments, PL levels, specific NICC requests, and unit commitments of Chief Officers or other unforeseen factors.
