Short Briefing 209 Summary Report

Report executed at: Oct 19, 2017 09:19 AM

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:	
12 hours:	Continued impact to life, property, and commerce within Napa County. Including impacts to commercial facilities, agricultural, and private residences. Vineyards (estimated to be 1,970 acres within fire perimeter) within Napa county that have delayed harvest, or loss of crop, will have significant effect to the area, including tourism and county revenue. Also threatened are culturally sensitive sites, threatened species habitat for the Red Legged Frog, and endangered species habitat of the Foothill Yellow Legged Frog. Coordinated effort has begun to re-energize in the affected area.
24 hours:	Continued impact to life, property, and commerce within Napa County. Including impacts to commercial facilities, agricultural, and private residences. Vineyards (estimated to be 1,970 acres within fire perimeter) within Napa county that have delayed harvest, or loss of crop, will have significant effect to the area, including tourism and county revenue. Also threatened are culturally sensitive sites, threatened species habitat for the Red Legged Frog, and endangered species habitat of the Foothill Yellow Legged Frog. Coordinated effort has begun to re-energize in the affected area.
48 hours:	No expected or predicted threat.
72 hours:	No expected or predicted threat.
Anticipated after 72 hours:	

43. Anticipated Incident Containment or Completion Date: 10/23/2017	42. Projected Final Incident Size/Area: 55,000	9. Cause: Unknown
---	--	-----------------------------

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:	
12 hours:	Incident has adequate resources to satisfy objectives.
24 hours:	Incident has adequate resources to satisfy objectives.
48 hours:	Incident has adequate resources to satisfy objectives.

Area Restriction in Effect																															

Short Briefing 209 Summary Report

Report executed at: Oct 19, 2017 09:19 AM

Population affected:

Pocket: Population 59 Residence: 35

Tubbs: Population 4242 Residence: 1,776

Nuns: 420 Residence: 298

Repopulation 10-17-17 @ 1300 for the following areas:

Highway 128 North Vanoni Road outside fire perimeter

Oakmont area: Highway 12, east of Calistoga Road to Pythian Road. Northbound Highway 12 will still be under Mandatory Evacuations orders.

Incorporated areas east of Sonoma areas: East of 4th Street east Lovall Valley Rd at Thornsberry, Lovall Valley Court, South Lovall Valley Road to East Napa Street. The area east of 7th East to fire perimeter and Highway 121 and all streets South from East Napa Street Napa Road.

The Medical complex located Mendocino Ave. All areas within the Mandatory Evacuation Zone around the complex will remain in place.

10/17 @ 1700 Re-population of Partrick Road West of Browns Valley Road, to the end of Partrick Road.

10/18 @ 1500 The mandatory evacuations are lifted for the Rincon Valley/Sky Hawk/Los Alamos area of Santa Rosa. This includes all evacuated areas North of Hwy 12 and East of Calistoga Road to Melita Road outside the fire perimeter. Calistoga Rd. at Harville Rd. remains closed.

10/18 @ 1400 Rep-population of Dry Creek Road between Orchard Avenue and 4591 Dry Creek Road. Napa Zone: (Residence 395, Population - 1062).

Several Shelter Sites have been set up for displaced residents.

Firefighter safety concerns/hazards:

Collapse zones due to working in areas with compromised structural integrity. Exposed and unsecured gas

Short Briefing 209 Summary Report

Report executed at: Oct 19, 2017 09:19 AM

and power lines. Exposure to hazardous elements that at times can exceed Permissible Exposure Limits (PEL) such as Hydrogen Cyanide (HCN), Carbon Monoxide (CO), Sulfur Dioxide (SO₂) and carbon particulates such as Polychlorinated and polybrominated dioxins and furan. These above chemicals and gases are commonly released post structure fires. When working in these areas firefighters are exposed to unknown hazardous materials which have been stored by the homeowners and commercial business that have accidentally mixed when high heat and fire causes their chemical make up to be altered.

Prolonged exposure to dense smoke and low Oxygen levels. Numerous large trees and snags falling throughout fire area. Rolling rock and debris while conducting normal fireline operations. Prolong exposure to radiant heat from direct handline construction. Fatigue and dehydration from accumulative days of limited sleep and arduous work.

29. Primary Fuel Model, or Materials, or Hazards Involved (hazardous chemicals, fuel types, infectious agents, radiation, etc.):

Fuel Model: **Tall Grass (2.5 feet)**

38. Current Incident Threat Summary and Risk Information in 12-, 24-, 48-, and 72-hour timeframes and beyond. Summarize primary incident threats to life, property, communities and community stability, residences, health care facilities, other critical infrastructure and key resources, commercial facilities, natural and environmental resources, cultural resources, and continuity of operations and/or business. Identify corresponding incident-related potential economic or cascading impacts:

North Zone: Major power transmission lines are being impacted resulting in power outages to critical infrastructure. Mount St. Helena Communication Infrastructure, Watershed and commercial timber have been lost. Commercial/Agricultural vineyards damaged and impacted commerce in the area. Numerous historic archeological sites, tribal cultural resources and mining resources have been impacted on the Robert Louis Stevenson State Parks. Along with Federally threatened species (Northern Spotted Owl) and watershed impacts. Bale Grist Mill and Bothe-Napa Valley State Parks are threatened. Petrified Forest, Montecito, Rincon Valley, Shiloh, Middletown, Woodleaf, Chalk Hill.

12 hours: **Sonoma Nuns: Commercial/agricultural vineyards, Historic structures, barns, cultural landscape and tribal cultural resources have been impacted on both Sugarloaf and Annadel State Parks. Additionally, Federal threatened species (Northern spotted owl, CA red legged frog and steelhead) and California endanger species (Foothill yellow legged frog), watershed impacts and creeks with endangered fish have been impacted.**

Napa Zone: Continued impact to life, property, and commerce within Napa County. Including impacts to telecommunications, commercial facilities, agriculture and private residences. Vineyards within Napa county that have delayed harvest, or lost crops, will have a significant impact to the area, including tourism and county revenue. Culturally sensitive sites are threatened, along with habitat for the Foothill Yellow Legged Frog and Red Legged Frog.

24 hours: **North Zone: Major power transmission lines are being impacted resulting in power outages to critical infrastructure. Mount St. Helena Communication**

Short Briefing 209 Summary Report

Report executed at: Oct 19, 2017 09:19 AM

Infrastructure, Watershed and commercial timber have been lost. Commercial/Agricultural vineyards damage and impacted commerce in the area. Numerous historic archeological sites, tribal cultural resources and mining resources have been impacted on the Robert Louis Stevenson State Parks. Along with Federally threatened species (Northern Spotted Owl) and watershed impacts. Bale Grist Mill and Bothe-Napa Valley State Parks are threatened. Petrified Forest, Montecito, Rincon Valley, Shiloh, Middletown, Woodleaf, Chalk Hill.

Sonoma Nuns: Commercial/agricultural vineyards, Historic structures, barns, cultural landscape and tribal cultural resources have been impacted on both Sugarloaf and Annadel State Parks. Additionally, Federal threatened species (Northern spotted owl, CA red legged frog and steelhead) and California endanger species (Foothill yellow legged frog), watershed impacts and creeks with endangered fish have been impacted.

Napa Zone: Continued impact to life, property, and commerce within Napa County. Including impacts to telecommunications, commercial facilities, agriculture and private residences. Vineyards within Napa county that have delayed harvest, or lost crops, will have a significant impact to the area, including tourism and county revenue. Culturally sensitive sites are threatened, along with habitat for the Foothill Yellow Legged Frog and Red Legged Frog.

North Zone: Northwest Santa Rosa, Apple Valley, Lomita Heights, Brush Creek, Skyhawk, Shiloh. Major transmission lines and repeaters. Bale Grist Mill and Bothe-Napa State Parks are threatened.

48 hours:

Sonoma South Zone: Commercial/Agricultural vineyards, City of Napa, Wingo, Cutting Wharf. Jack Landon State Park, Sonoma Sate Park and General Vallejo's Home are threatened.

North Zone: Chianti Ompus, Commercial/agricultural vineyards.

72 hours:

Sonoma South Zone: Commercial/Agricultural vineyards, City of Napa, Wingo, Cutting Wharf.

Anticipated after 72 hours: **No threat anticipated.**

43. Anticipated Incident Containment or Completion Date:

10/24/2017

42. Projected Final Incident Size/Area:

120,000

9. Cause:

Unknown

39. Critical Resource Needs in 12-, 24-, 48-, and 72-hour timeframes and beyond to meet critical incident objectives. List resource category, kind, and/or type, and amount needed, in priority order:

12 hours: **11 HEQB, 18 FALM**

24 hours: **11 HEQB, 18 FALM**

48 hours: **11 HEQB, 18 FALM**

72 hours: **No Critical needs expected.**

Anticipated after 72 hours: **No Critical needs expected.**

49: Resources
