Significant Events: Moderate to active fire behavior with continuous backing and flanking fire. Short duration group torching spotting to 1/4 mile.											
Remarks: The six fires are being managed within the complex: Wallow, Pointers, Island, Garden, Grizzly and Mary. Only two of the fires are active, Wallow and Mary. The overhead block in item 48 below includes 24 smoke jumpers and 36 members of fire use modules, all of which are on the fireline. Change in the number of injuries on the complex was reduced after better defining a "Lost Time" injury and comparing that to the reported injuries.											
Planned Actions: Crews will continue to prep the PCT ahead of burnout operations on the Wallow Fire. Burnout operations will continue late into the evening as favorable conditions persist and aerial ignition will help to strengthen control lines. Other crews will work to open old contingency lines up Snoozer Ridge towards Pointers gulch
