

# CALIFORNIA WILDLAND FIRE COORDINATING GROUP

**Date:** March 28, 2012

**To:** California Interagency Incident Management Teams

**From:** California Wildland Fire Coordinating Group – Safety Officer Committee

**Subject:** 2012 CA IMT Incident Emergency Response Plan (ERP)

Attached is the 2012 Incident Emergency Response Plan for use by CA Interagency Incident Management Teams. Over the past few years the CA IMT safety officers and medical unit leaders have coordinated and agreed upon this template as a minimum requirement for team protocols. Our approval formalizes the plan for use in the California Geographic Area. The intent is that each IMT will utilize this plan as the minimum incident requirement and will utilize unit emergency plans to supplement. This plan will be reviewed annually by the IMTs, ICs, Safety and Medical Unit personnel and approved by the CWCG Safety Committee.
