Introduction

The following guide and examples have been developed to assist you in ordering and filling Supply Requests in (IROC) Interagency Resource Ordering Capability in Region 5 Communication Centers. Please take a few minutes to glance through this guide. We hope you find this guide user-friendly and informative. Feel free to share our information with your home unit.

Our goal is to create a complete document (like that produced on card stock), from the order to audit in the IROC system. By standardizing our order to fill information we can use IROC to generate any number of reports. REMEMBER this is still a work in progress. If you find areas that need correction or clarification, please bring them to our attention.

If you are an occasional IROC user or need a more in-depth explanation for entering, and filling orders refer to the IROC home page ([Wildland Fire Application Information Portal](#)) and utilize the IROC Quick Reference Cards/Videos or training materials.

Creating New Requests

In IROC, items under the Supply catalog can be orders from the following categories: **NFES Supplies, Non-NFES Supplies and Services**.

When creating an order first select the desired Catalog Category / Catalog Item.

If you need a service that is not among the selections available, for Catalog Category select: ***Service, Category Not Listed**; then for Catalog Item select: **!Service Supply – Not Listed**

Here are some factors to consider when creating a Supply request:

2026 REGION 5
DATA ENTRY STANDARD FOR SUPPLIES
(Updates 05/21/2026)

Quantity Requested / Number of Requests

When ordering various Supplies, depending on what item, IROC will determine if the item will be “Quantity Requested” or “Number of Requests”. If the option is “Quantity Requested”, you can enter the number of items you want, IROC will only generate one S#. If the option is “Number of Requests”, IROC will generate multiple S#’s.

Blocks

Supply requests are often broken out by block. For example, an incident may have a block of numbers set aside for the buying team, local purchase, incident replacement, etc. Before creating a request, make sure you know what custom block request block of numbers you should be using. Refer to the local center’s policy on block use.

Special Needs

Use the “Special Needs” field for a brief description/documentation area. Pertinent information such as model numbers, part numbers, etc. should be entered in clear and concise language.

Do not repeat information already supplied in other boxes as “Resource Requested” or “Navigation/Reporting Instructions”.

Tracking

When ordering an NFES item, IROC determines whether the item will be tracked or not. When a “Service” Category item is ordered, IROC will allow the same filling options, but you will use the “Fill with Agreement” option (see Filling Requests). This will automatically track the resource by placing it in Incident Resources. Make sure to check the Incident Resources on a regular basis for items that may need to be released. Remember that releasing the resource in IROC does not guarantee the resource leaves the incident. You need to coordinate and document vendor contacts when demobilizing resources. This will help to ensure no over payments for resources that do not get picked up by the vendor.

When a NON-NFES Supply - !Not in Catalog Supplies item is ordered, IROC gives the option to “Track” the resource. You get two chances to do this. The first is by selecting the “Trackable” button in the New Request screen. The second chance is on the info tab when you are in the manage request screen. You do not get a third chance to track an item after it has been filled.

2026 REGION 5
DATA ENTRY STANDARD FOR SUPPLIES
(Updates 05/21/2026)

If the "Track" option is not desired and/or not selected the order will be "Filled/Closed" after the fill information has been entered. This is the method to use for consumable items.

Buying Team Button

This button appears on Non-NFES and Service requests. Click it if the Buying Team will be purchasing and tracking the order. You get two chances to do this. The first is by selecting the "Buying Team" button in the New Request screen. The second chance is on the info tab when you are in the manage request screen. You do not get a third chance after it has been filled. Use this button as appropriate to the local center's protocol.

Filling A Request

Region 5 only uses the "Fill with Agreement" and "Fill with Local Purchase" selections. All items marked with an asterisk must be filled out in IROC. When using "Fill with Agreement", you must enter the resource name, fill catalog item, and provider.

When using "Fill with Local Purchase", you must enter Description, the quantity, posted date and time, time zone and vendor. Use the drop-down list under vendor or check the "Enter Vendor by Name" box to fill it in manually. To get the Vendor name to show up on the printed Resource Order you have to add the vendor's name into the Description box.

NFES requests are filled by the North Zone Cache (Northern California Service Center). Some centers may fill NFES supplies placed with a local cache, consult the local unit for their protocol. Never use "Fill with Requested Item", "Fill with New Resource" or "Fill with Substitution".

Fill with Agreement

From Manage Request, click Fill With tab, then click Fill with Agreement.

The only required fields are, Resource Name, Fill Catalog Item and Provider. No other fields print to the resource order.

For Resource Name, enter the vendor providing the service.

Fill Catalog item is a drop-down box that will be the same as that which was selected when creating the request.

The Provider is the agency who issued the credit card or established the agreement.

2026 REGION 5
DATA ENTRY STANDARD FOR SUPPLIES
(Updates 05/21/2026)

Once all the fill information is entered, you will click Save at the bottom of the screen, and then you will need then to click Complete Fill w/ Agreement.

Enter Travel as applicable. Remember this resource will mob to Incident Resources screen, don't forget to release it.

Fill with Local Purchase

From Manage Request, click Fill With tab, then click Fill with Local Purchase.

When using "Fill with Local Purchase", you must enter Description, the quantity, posted date and time, time zone and vendor.

Use the drop-down list under vendor or check the "Enter Vendor by Name" box to fill it in manually. To get the Vendor name to show up on the printed Resource Order, add the vendor's name into the Description box.

Once all the fill information is entered, you will click Save at the bottom of the screen, then you will need then to click Complete Local Purchase.

2026 REGION 5
DATA ENTRY STANDARD FOR SUPPLIES
(Updates 05/21/2026)

Examples

Creating a NON-NFES Supplies Request (Bottled Cases of Water) – Also see WATER, BOTTLE section below.

- Incident: choose the correct incident
- Catalog: Supply
- Category: Non NFES
- Catalog Item: !Not in Catalog Supplies
- Item Description: Enter the item description in concise terms.
- Enter Quantity Requested
- Financial Code: Choose the correct financial code or add a new one.
- Select Need Date/Time and Deliver To location.
- Select the “Trackable” button, if needed.
- Select Request Contact. Add New Contact as needed to the incident.
- More specific descriptions can be entered as Special Needs if needed.
- Add Documentation as needed
- Click 

Filling (Bottled Cases of Water) NON-NFES Request

- From Manage Request screen, click **FILL WITH** tab, then click **Fill w/ Local Purchase**
- Here you will fill in the required fields; Description, Quantity, Post Date/ Time, and Vendor
- The Item Description field will already be populated with what was entered as the Item Description when the order was created. That information will print on the resource Order in the Resource Requested block
- The Item Description box is what populates the Resource Assigned block on the Resource order, not the Vendor box. Here is where you will want to enter the vendor providing the service.
- For Vendor, check Enter Vendor By Name as needed otherwise use the drop down to select the correct Vendor, this box however does not populate on the Resource Order.
- The Payment Type, and Card Holder Name does not show on the Resource Order.
- Once you click Save at the bottom of the screen, you will then need to click Complete Local Purchase.

The information entered when the request was created shows up on the resource order in the blocks outlined in **red**. The information entered when the order was filled shows in the blocks outlined in **green**.

2026 REGION 5
DATA ENTRY STANDARD FOR SUPPLIES
(Updates 05/21/2026)

12. Request Number	Ordered Date/Time	From	To	Qty	Resource Requested	Needed Date/Time	Deliver To	From Unit	To Unit	Assigned Date/Time	Resource Assigned Unit ID	Resource Assigned	M/D Ind	Estimated Time Of Departure	Estimated Time Of Arrival	Released Date
