

Southern California Geographic Area Coordination Center

23300 Castle St

Riverside CA 92518

TO: Agency Personnel
FROM: California Wildland Fire Coordinating Group
DATE: May 01, 2021
SUBJECT: 2021 California Interagency Mobilization Guide

Attached is the 2021 California Interagency Mobilization Guide. This Guide is written to reflect the interagency needs of the user.

The signatory agencies have directed the Southern California Geographic Area Coordination Center (OSCC), with review and oversight from the California Wildland Fire Coordinating Group (CWCG), to annually revise, publish, and distribute the California Interagency Mobilization Guide by May 1, and issue errata to this document.

The California Interagency Mobilization Guide establishes the standards for mobilization and demobilization of resources in response to wildland fire and all-hazard events. It is the foundational document instituting overarching processes for total mobility of resources.

Suggestions for modification of the publication should be sent through the Coordination Center Manager and they will bring forward change requests that have been vetted through recognized interagency groups within their respective areas.

OSCC will accept change requests from recognized interagency groups, CWCG Committees and sub-committees, and functional areas, as well as signatory agencies. The OSCC Center Manager will present recommended changes to CWCG for their final acceptance and approval.
