Craig Interagency Hotshot Mobilization and Demobilization Protocol

- Craig Dispatch will notify the crew superintendent of a crew order
- Prior to departure a correct and up to date manifest will be provided to dispatch
- Prior to departure, travel will be discussed with CRC (route of travel, RON spots, vehicle ID's, etc. will be provided to CRC)
- There will be not less than 18 and no more than 25 crew members (if traveling by air the maximum number will be (20) crew members)

- Check in with the receiving dispatch while in travel status to assure that the order has not been changed, crew diverted, or there is new information concerning the reporting location. If the order is cancelled and you are returning, advise Craig Dispatch
- While on assignment if any member(s) of the crew are demobilized for whatever reason, CRC will be notified and given the specifics of the travel home. This should include reason for early demobilization (does not have to be specific, but general reason), method of travel home, route, RON areas, and ETA
- Notify CRC upon arrival back from an incident and provide for tentative availability date and number of days off being taken
- No crew members will be mobilized that cannot commit to the full 14 days, unless it is negotiated with the receiving unit through the dispatch system (needed for documentation purposes) and/or approved by the NWCFMU FMO. Communication with CRC concerning this situation is essential
- Fill-ins need to be ordered through CRC so that they can be tracked. Name requests for fill-ins will be accepted and then dispatch will place the order for them. Any non-local name requests will need to be accompanied by a detail request form. If someone is name requested, it is assumed that they have been contacted and are available. Location (home unit), name of person, and contact phone number will be provided to dispatch
- Assure time is completed/up to date prior to assignment
- Notify FMO or dispatch if there are things that could pose a possible impact to local fire operations during absence (i.e.: deliveries, the need for access to the facilities for service personnel, etc.)
