

FTC 2011 report

We begin the 2011 year with very little snow on the Northern Front Range low elevation areas through the winter. By mid February the zone started seeing fire activity on the PNG and In March activity picked up the lower elevations in the foothills of the ARF and private lands within the Counties. On April 1, the Crystal Fire started on private land in LRX with Summerfelts' Type 1 team being ordered for the fire where they remained for 1 ½ weeks before transitioning back to a local T3 organization.

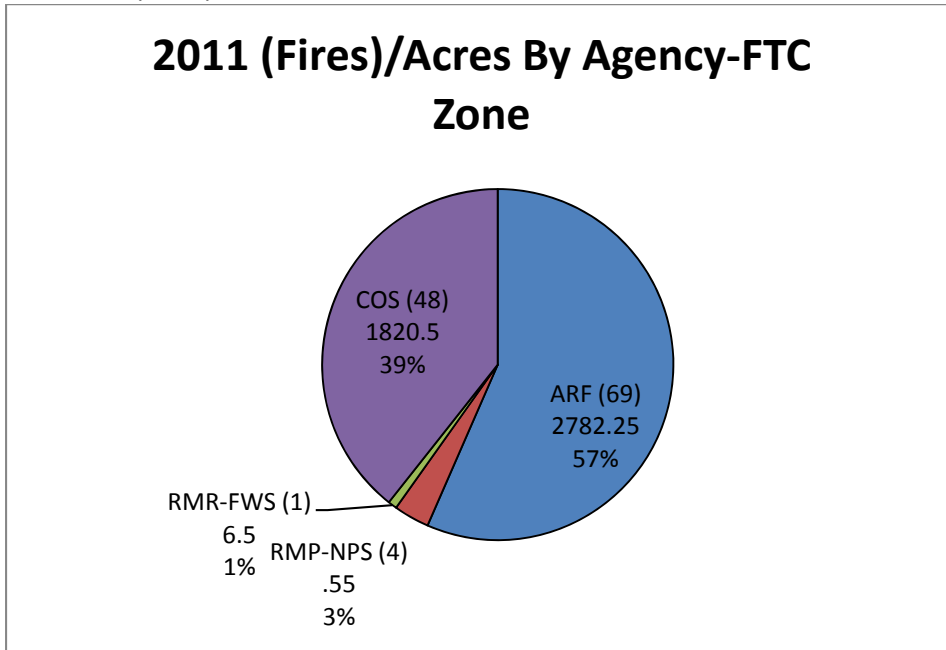

Spring into summer the zone saw more normal conditions and resource mobilization became active with Texas being the most active recipient which continued through the summer into fall. In the spring the Center Manager took a new job in training and the center saw detailers for most of the summer with the position being filled in October. Staffing remain the same with all returning seasonal and permanent staff which help with the transition of the Center Manager.

For the year 2011 fires within the FTC zone

	Human		Lightning		Total		5 yr. Avg	
	Fires	Acres	Fires	Acres	Fires	Acres	Fires	Acres
FTC Zone	84	4726.7	38	72.35	122	4798.95	108	6,671
ARF	48	2830.8	21	41.45	69	2782.25	49	1,073
RMP	3	0.45	1	0.1	4	0.55	5	249
RMR	0	0	1	6.5	1	6.5	2	22
COS*	33	1796.2	15	24.3	48	1820.5	52	5,956.2
<i>BLX</i>	<i>16</i>	<i>7.1</i>	<i>7</i>	<i>1.3</i>	<i>23</i>	<i>8.4</i>		
<i>LRX</i>	<i>11</i>	<i>1788.7</i>	<i>7</i>	<i>22.9</i>	<i>18</i>	<i>1811.6</i>		
<i>WEX</i>	<i>2</i>				<i>2</i>			
<i>CCX</i>	<i>3</i>	<i>0.3</i>	<i>0</i>	<i>0</i>	<i>3</i>	<i>0.3</i>		
<i>GLX</i>	<i>1</i>	<i>0.1</i>	<i>1</i>	<i>0.1</i>	<i>2</i>	<i>0.2</i>		

COS* includes (only fires reported to FTC) Larimer (LRX), Boulder (BLX), Gilpin (GLX), Clear Creek (CCX), and Weld (WEX)

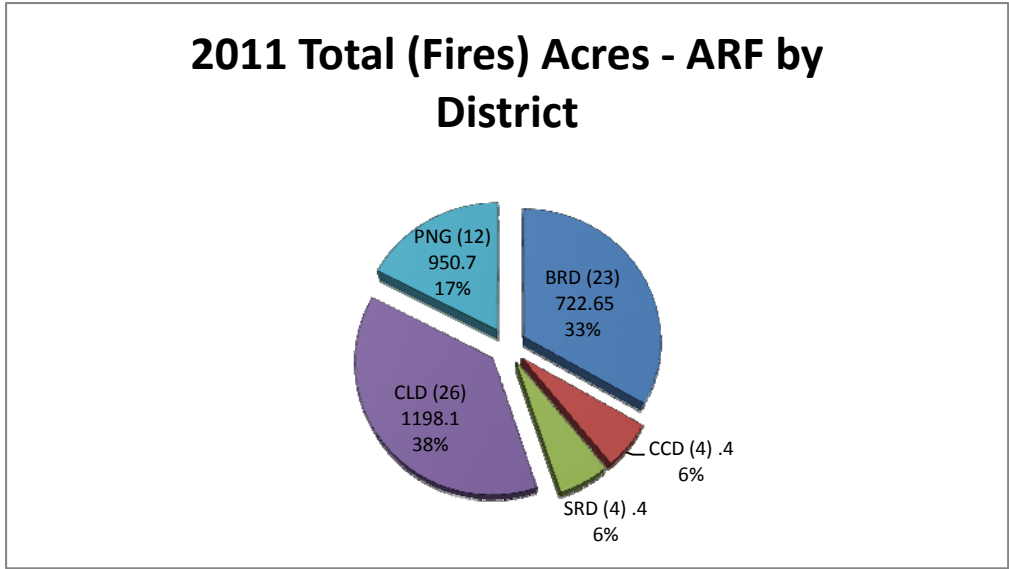

The chart below represents all of the fires & acres (reported to FTC) within the FTC Zone by agency. In this chart COS includes Larimer (LRX), Boulder (BLX), Gilpin (GLX), Clear Creek (CCX), and Weld (WEX)

In this chart the COS is broken down by County.

This chart represents all of the fires on the ARF broken down by District.

The Following Large Fires occurred during 2011 in FTC Zone

Sand Creek	CO-ARF-1050	Feb 13, 2011	H	821	T4-IC-Local
Lefthand Canyon	CO-ARF-1072	Mar 11, 2011	H	622	T-3-IMT-Local
Crystal Fire	CO-LRX-1096	Apr 01, 2011	H	2,940	T-1-IMT Summerfelt

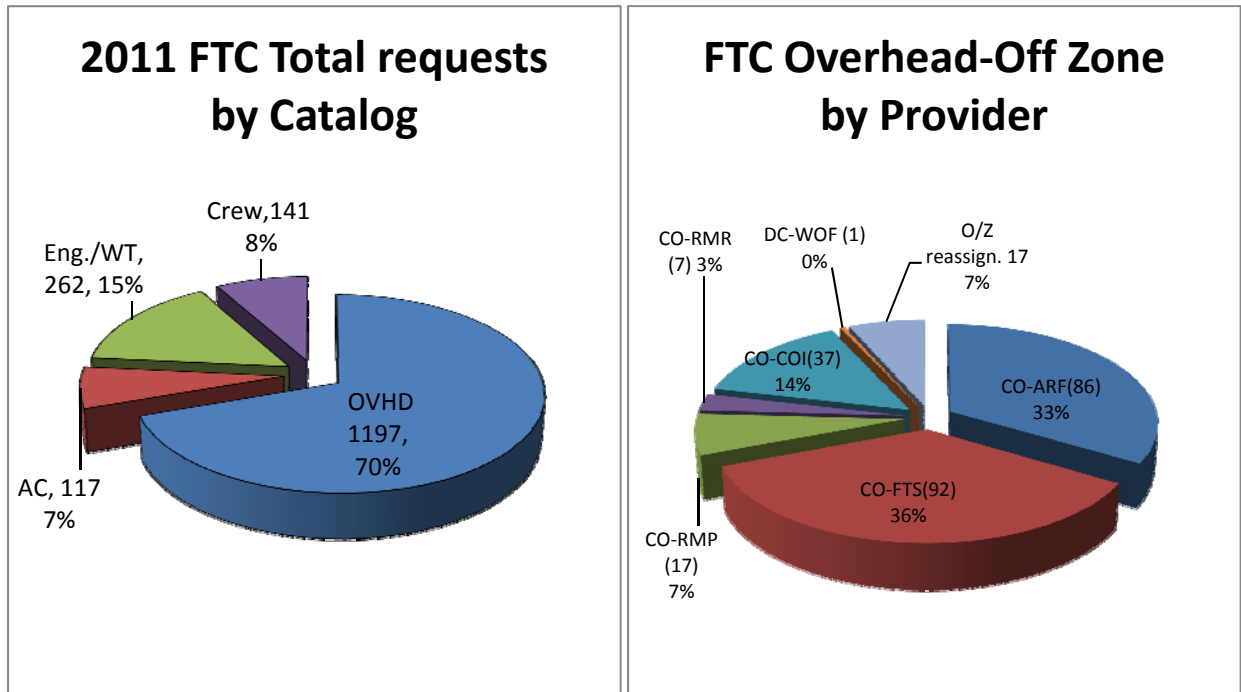

RX Activity By Agency Across FTC Zone

	Fires	Acres	Piles-Ac	Broadcast-Ac.
CO-ARF	31	2908	1908	1000
CO-RMP	17	207		
CO-RMR	6	923		
CO-COS	29	191		

Resource Order Statistics

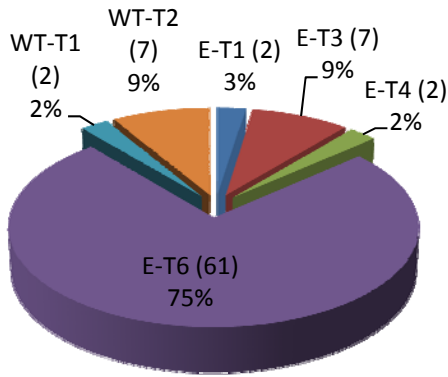

Separated by Functional Area, unit, agency--Local, RMA, National Assignments.

The charts below represent The Total Overhead requests for Off Zone assignments by Req. catalog and resource Provider.

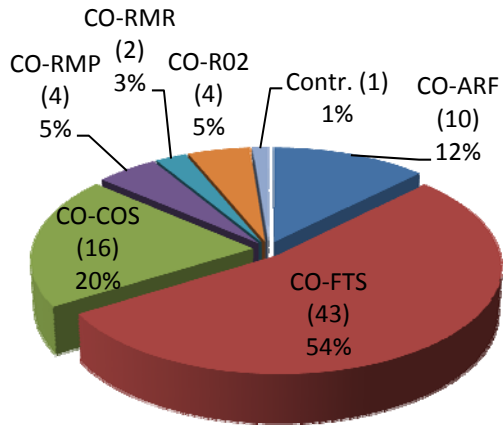

The Charts below represent the Total # Of Engines and Water Tenders sent off Zone broken down by type and by provider. COS refers to state FS agency resources while FTS refers to

FTC Eng./WT's Off Zone by Type

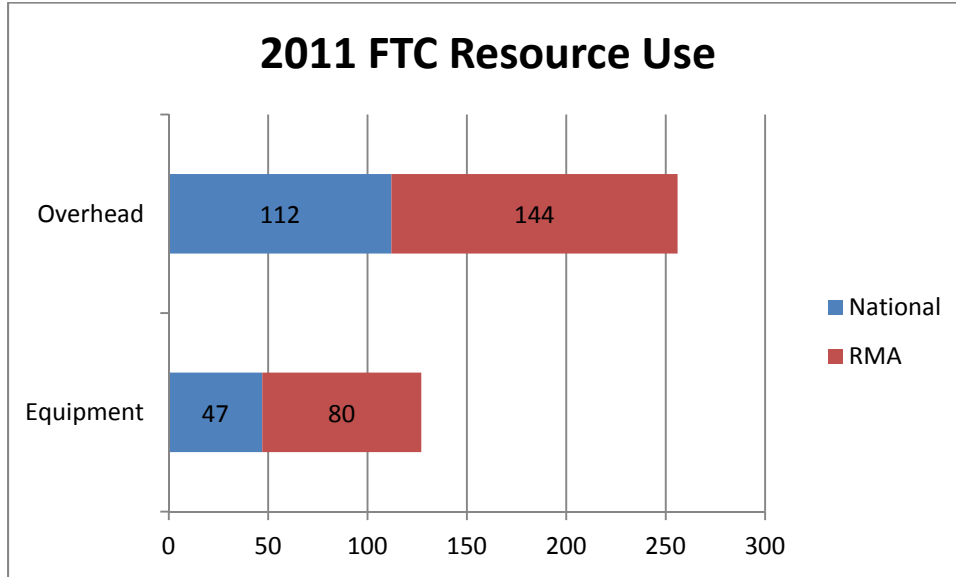

cooperator resources.

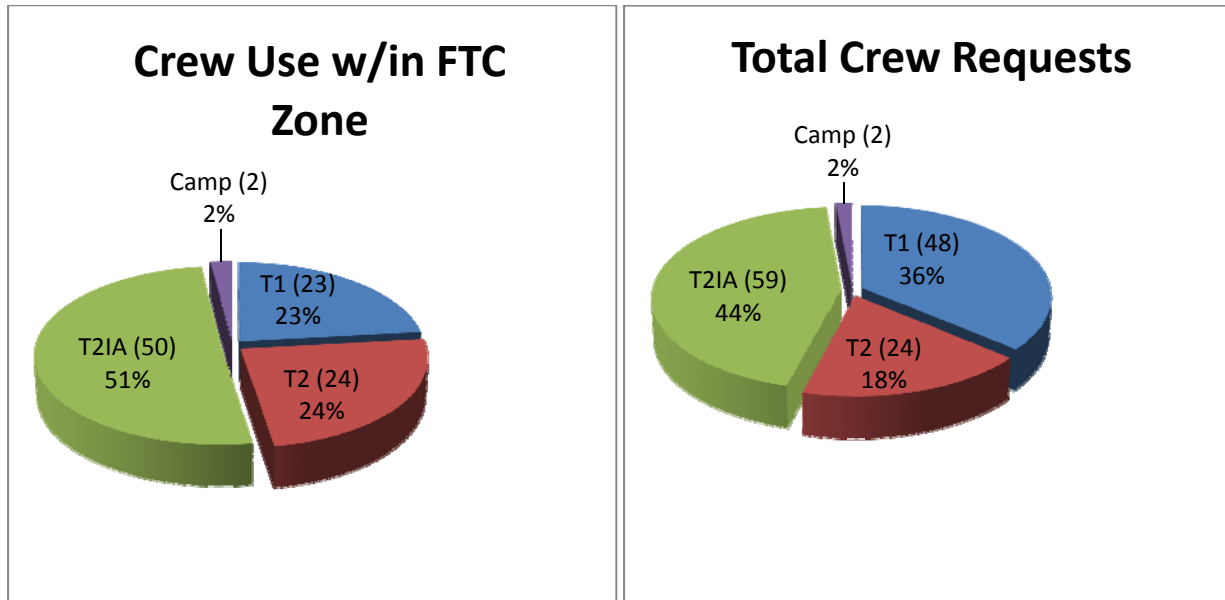

FTC Eng./WT's Off Zone by Provider

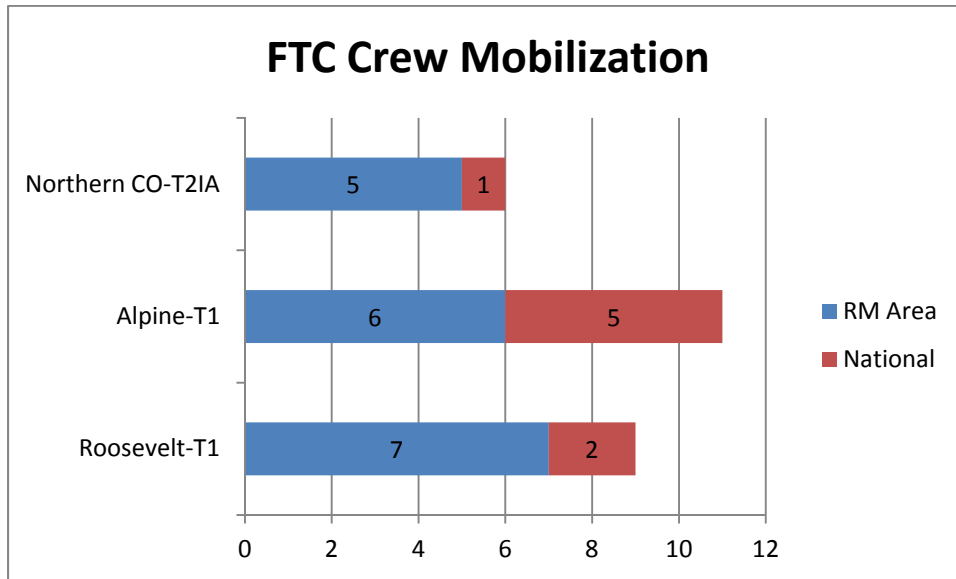

The Chart below shows the total FTC resource mobilization for out of area

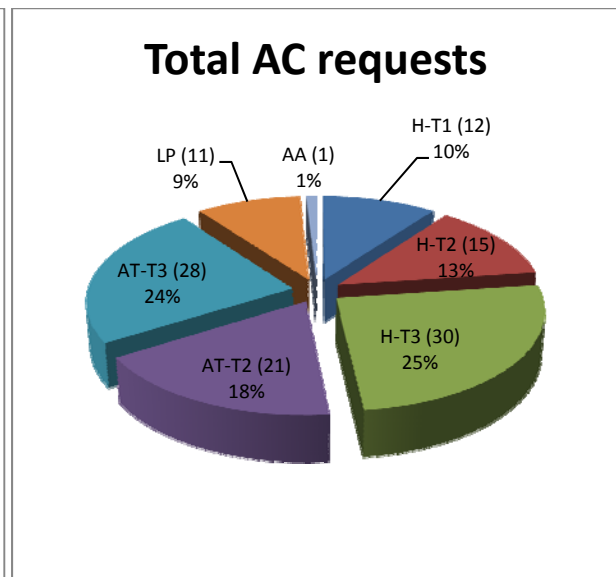

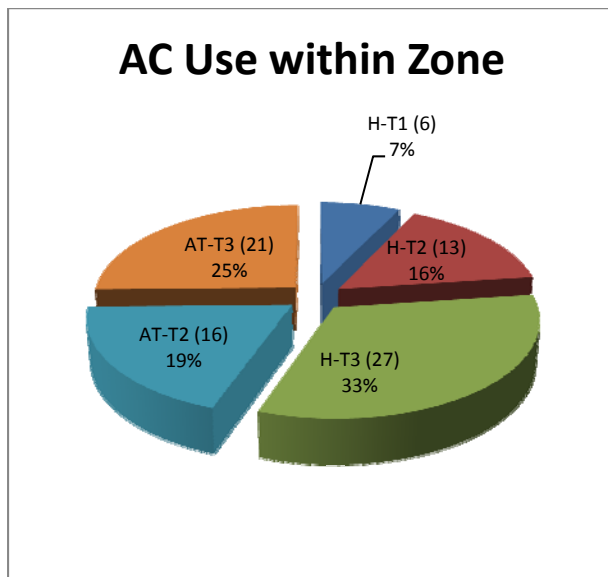

The charts below represent total crew use within the FTC Zone and total crew requests processed which includes reassigning non FTC resources to Incidents outside of the FTC Zone.

The chart below represents where our FTC crews were mobilized for Incidents either within the Rocky Mountain Area or National area.

The Charts below represent the Total AC use within the FTC Zone by type, as well as the total AC requests processed by FTC, which includes reassigning non FTC resources to Incidents outside the FTC Zone.

BJC ATB flew a total of 45 missions delivering 53,388 gallons of retardant
