Chapter 10
Objectives, Policy, and Scope of Operation

Mission

The principal mission of the Pueblo Interagency Dispatch Center (PIDC) is to provide Initial Attack services and Resource Mobilization in a cost effective and timely fashion using resources identified in the PIDC CAD system and ROSS.

In addition, PIDC provides resource coordination, dispatching support to incidents in and outside of the PIDC boundary, intelligence gathering and dissemination.

The PIDC Mobilization Guide is intended to facilitate interagency dispatch coordination ensuring the timeliest and most cost effective incident support.

Scope of Operation

Initial Attack, extended attack, and resource mobilization will be done by PIDC for the PSICC, RGD and SLVI-FMU.

PIDC will assist Colorado State (Colorado Division of Fire Prevention and Control or DFPC), Colorado Local Governments (Counties and Fire Departments located in identified Counties) USFWS, NPS, BIA, State of Kansas (Kansas Forest Service or KFS), Kansas Local Governments (County and Fire Departments), and DOD as needed or requested with a proper fire code applied for billing purposes.

For a non-wildfire incident the jurisdictional agency will need to supply a valid billing code for reimbursement with a valid agreement in place before services can be rendered.
PIDC ORGANIZATION

USFS - PSICC
1-Center Manager 26/0
1-Assistant Center Manager 26/0
2-Initial Attack Dispatchers 26/0
1 -Initial Attack Dispatcher – GS-0462-7/unfunded/vacant

SLVI-FMU
1- Initial Attack Dispatcher 18/8

BLM (RGD)
1-Lead Dispatcher-WAE 13/13
Misc. office supplies

State of Colorado, DFPC
1-Seasonal Initial Attack Dispatcher or equivalent funding (6 months)
Training, misc. office supplies and services
Telecommunication support

Colorado Local Governments
None

NPS (Colorado portion of the zone)
Misc. office supplies

FWS
Telecommunication support
Dispatcher Funding – (approximately 8 weeks)

State of Kansas, KFS
Misc. office supplies – Agreement Pending

BIA
Dispatcher Funding – (approximately 8 weeks) – Agreement Pending
Organizations

PIDC supports the following directly or as needed

**Colorado Agencies**

USFS - Pike National Forest
USFS - San Isabel National Forest
USFS - Rio Grande National Forest
USFS - Comanche National Grasslands
BLM - Royal Gorge Field Office
BLM - San Luis Valley Public Lands Office
CO - Colorado Division of Fire Prevention and Control
NPS - Great Sand Dunes National Park
NPS - Florissant Fossil Beds National Historic Site
NPS - Sand Creek Massacre Site
NPS - Bents Fort National Historic Site
USFWS - Leadville National Fish Hatchery
USFWS - Baca National Wildlife Refuge
USFWS - Monte Vista National Wildlife Refuge
USFWS - Alamosa National Wildlife Refuge
USFWS – Two Ponds National Wildlife Refuge
USFWS – Rocky Flats National Wildlife Refuge
DOD - Air Force Academy
DOD - Fort Carson/Pinon Canyon
DOD - Peterson Air Force Base
DOD - Butts Field Army National Guard
USDA - Department of Agriculture-Pueblo
Colorado Counties

Kansas Counties (105)
DOD – Department of Defense
  • Fort Riley
  • Kansas Army National Guard

Cooperation

Annual Operating Plans (AOP): PIDC follows the established County AOP’s.
Arapahoe National Forest Agreement for Initial Attack.
Military Agreements

Colorado Statewide Cooperative Wildland Fire Management and Stafford Act Response
Kansa Interagency Coop Fire Management Agreement.
Refer to RMCG 10

2015 Colorado Statewide Wildland Fire Management AOP that tiers to the Agreement.
RMG 10

Colorado National Guard and USDA, Forest Service, Region 2 Agreement.
Refer to RMG 10
Neighborhood Resource Ordering
The following list defines the approved neighborhood for PIDC
FTC – Fort Collins Interagency Dispatch Center
GPC – Great Plains Interagency Dispatch Center
DRC – Durango Interagency Dispatch Center
MTC – Montrose Interagency Dispatch Center

Boundary Resource Ordering
The follow list defines the neighborhood boundary region/states for PIDC
Region 3 Dispatch Centers
TAZ – Taos Interagency Dispatch Center
ABZ – Albuquerque Interagency Dispatch Center
Region 8
AOICC – Arkansas/Oklahoma Interagency Coordination Center
Region 9
MICC – Missouri/Iowa Coordination Center

Initial Attack Definitions
All local initial attack resources will be dispatched using the WildCAD system that PIDC has primary jurisdictional responsibility for (PSICC, RGD, and SLVI-FMU).

Staffing
Normal staffing hours are 0800-1630 Monday through Friday, and can be adjusted as needed to meet workload.

PIDC will staff seven (7) days a week when activity warrants until at least October 15th.

During non-staffed hours PIDC can be reached through the 24-hour answering service 719-553-1600 or 719-549-0540.

PIDC Priorities
Initial Attack jurisdictional responsibility (PSICC, RGD and SLVI-FMU)
Initial Attack Cooperating agencies
Extended Attack jurisdictional responsibility (PSICC, RGD and SLVI-FMU)
Extended Attack Cooperating agencies
Resource Orders Regionally
Resource Orders Nationally
PIDC ZONE PREPAREDNESS LEVELS
Each Agency is responsible for reporting their local preparedness levels to PIDC, if not reported PIDC will show a one (1) until reported.

PREPAREDNESS LEVEL 1

DESCRIPTION: Little or no fire activity in the zone.
- Few resources are committed in or out of zone.
- Conditions exist for normal prescribed fire operations.

MANAGEMENT ACTIONS: Unit(s) will determine appropriate actions.
- PIDC Normal Staffing.

PREPAREDNESS LEVEL 2

DESCRIPTION: Wildfire activity has increased with most fires remaining at low to moderate complexity.
- One or more units experiencing moderate to high fire intensity with A, B, and C fires occurring, local units and adjacent cooperators handling situation with little support through PIDC. Potential exists for mobilizing resources through PIDC.
- Resources are adequate for prescribed fire activity.

MANAGEMENT ACTIONS: Unit(s) will determine appropriate actions.
- **PIDC staffing will be extended to meet the demand.**

PREPAREDNESS LEVEL 3

DESCRIPTION: High potential exists for fires to be moderate to high complexity.
- A number of fires having potential of becoming class C or larger.
- ERC’s and BI’s from four or more weather stations in the zone are in the very high to extreme range.
- One or more units are experiencing incidents requiring commitment of zone resources.
- Additional resources are being ordered or a majority of zone resources are committed to zone and/or regional incidents.

MANAGEMENT ACTIONS: PIDC will monitor commitment of resources for competition between units or shortages and notify Unit Managers and PIFB of possible shortages.
- **PIDC staffing will be extended to meet the demand.**
- An Intelligence, Initial Attack or Support Dispatcher will be ordered as needed.
PREPAREDNESS LEVEL 4

DESCRIPTION: High complex large fire activity is occurring.
- Fires are escaping initial attack as evident by the number of C or larger fires.
- Fire severity is very high to extreme as reported by three or more units.
- One or more PIDC units are experiencing an incident requiring Type 1 or 2 Team.
- Majority of zone resources are committed.
- Priority setting is needed for critical resources.
- Additional resources are being ordered from the neighborhood and RMC.

MANAGEMENT ACTIONS: Activate PIFB MAC as per PIDC Mob Guide.
- The group will determine fire priorities within the zone.
- Request preposition of critical resources.
- Expand PIDC dispatch organization to meet current and anticipated needs.
- Extend hours to meet the demand.
- Regional and National Guidelines will determine if Prescribed Fire activity will be permitted.
- May require staffing of PIDC 24 hours/day - 7 days per/week

PREPAREDNESS LEVEL 5

DESCRIPTION: High complex large fire activity is occurring.
- Multiple large fires in Zone.
- Fire severity is extreme.
- PIDC open 24 hours/day-7 days per week.

MANAGEMENT ACTIONS: PIDC staffed to meet demand or orders placed.

MOBILIZATION

PIDC will mobilize resources in accordance with the Rocky Mountain Area Mob Guide.
(Refer to RMA 2015 Mob Guide)

PIDC will honor and process orders for initial attack 24 hours per day.

PIDC will only mobilize resources for non-initial attack during the hours of 0500-2200.

Resource requests will be filled by jurisdictional agency first.

Non- Federal Agencies will follow the established guidelines set forth in each respective County AOP.
PIDC understands that if a Resource Order is received, the proper authorization and approval has been met.

PIDC will initiate Article 28.2 of the National Federation of Federal Employees (NFFE) Master Agreement “When a staffing level 300 individuals on a Forest Service incident or 300 Forest Service employees on other than a Forest Service incident is reached and a command post has been established, the Council Vice-President (CVP) or designee will be notified within 24 hours after the staffing reaches 300. That notification will inform the CVP or designee of the location of the incident and the name of the Incident Commander (IC). The IC will be notified of the name and contact information of the CVP or designee.”
Region 2 Dispatch Centers will provide the CVP with names and contact information for the Incident Commander, Human Resources Specialist (HRSP), and Agency Administrator.

Region 2 CVP contact information is available through PIDC.

ROSS AVAILABILITY AND DEFINITIONS

To ensure safe and efficient mobilization of resources to incidents, resources are requested and mobilized using the Resource Ordering and Status System (ROSS). Standard interagency mobilization processes are identified within the Interagency Standards for the ROSS Operation Guide (ISROG) located at the following website: http://www.nifc.gov/nicc/logistics/references/ISROG.pdf

ROSS will be used to fill requested orders. Agencies are responsible for updating their availability in ROSS.

ROSS is swept on the first Monday of every month, Cooperator resources availability will be set to unavailable.

PIDC ROSS AVAILABILITY DEFINITIONS

Federal resources –
- Available Locally – to be used for statusing of team members and priority trainees.
- Available Regionally – to be used for mobization within RMA.
- Available Nationally – to be used for mobization throughout the Nation.

Nonfederal (State and Local Government resources) –
- Available Locally – available throughout the PIDC zone, includes team members, priority trainees, overhead, equipment and aircraft.
- Available Regionally – to be used for mobilization within the RMA.
- Available Nationally – to be used for mobilization throughout the Nation.
STATURING AVAILABILITY

PIDC will post a Twitter message “ROSS Status has been swept; please set your availability accordingly, thank you”.

Resources will need a NAP User Account to manage their availability in ROSS.

PASSWORDS

Due to security requirements PIDC can no longer reset passwords:
To reset passwords go to: NAP Password Policy at: - https://nap.nwcg.gov/NAP/

- Standard Account Passwords expire after 60 days.

- Accounts are locked after five (5) failed login attempts per session. There will be a 15 minute lockout before the user may attempt to log on again.
- Users must establish security challenge questions to reset a forgotten password.

FILL or UTF

PIDC will give the resource 30 minutes to contact PIDC to fill the order.

PIDC will move on to the next resource if confirmation is not received at the end of the 30 minutes.

BILLING/REIMBURSMENT

Resource Orders are used for billing documentation between agencies, ordered resources need to maintain copies. If at any time a resource order is needed, one can be requested from PIDC.

PROCUREMENT

Each jurisdictional agency has the responsibility to supply procurement support.

PIDC personnel are not able to purchase supplies for incidents.
Chapter 20
OVERHEAD and TEAMS

PIDC will fill overhead for assignments outside of the zone based on availability that is statused in ROSS.

PIDC does not generally fish (look for resources not statused as available).

PIDC will fill orders based on the Jurisdictional agency requesting the resources.

PIDC can only fill overhead orders with personnel listed in ROSS and shown as available.

Name Request/Suggest

If a resource is aware that a name request/suggest is coming, they need to notify PIDC so that PIDC can notify RMACC.

NOTE: A name request/suggest may not be honored.

Priority Trainee’s

When PIDC receives a name request for a priority trainee, even if status in ROSS is unavailable, PIDC will make contact with that trainee to confirm with them that they are waiting for the order, if so; PIDC will make them available in ROSS and will fill the order.

If the priority trainee is not available, PIDC will document information, advise the RMA Gator and UTF the order.

Supplemental Resources

Overhead personnel that are listed as available in ROSS and that live within the established boundary will be dispatched first and resources that live outside the established boundary that are listed as available will be dispatched after.

Team Ordering

PIDC will order Type 1, 2, 3, and NIMO teams as requested.

For Type 1 and 2 teams, a long team configuration will be the normal response, unless the requesting unit specifically requests a short team. (Total of 9 positions; C&G, Refer to NMG 10).
CHAPTER 30
Crews

PIDC CREW LISTING

Type 1 Crews
Pike IHC- Monument, Co.

Type 2 I.A.
San Isabel Regulars – Canon City, Co.
Rio Grande Regulars – Monte Vista, Co.
Mid Plains – Kansas FWS mobilize out of Denver, CO
East Divide – Kansas BIA mobilize out of Denver, CO.

Type 2
Juniper Valley – Canon City, Co.
Juniper Valley – Buena Vista, Co.

Wildland Fire Module
Platte Canyon Wildland Fire Module (Module 5) - Pending

Minimum crew standards
(Refer to NMG 30)

CREW STATUS
For Type 2 I.A. and Type 2 crews after they have been statused as available, the Crew Boss will send PIDC a roster for the crew.
When the crew has received an order the crew boss will send an updated roster to PIDC in case there are any changes in the original.

PIDC Crew Dispatch Guideline

Initial Attack
Closest crew or as requested by jurisdictional agency

Extended Attack – resource orders
First by jurisdictional agency
(Federal incident federal resources, State/County incident State/County resources)
Second by Availability date
Third (if needed) by location
*All CRWB-trainees must be approved by the ordering agency
CHAPTER 40
Equipment and Supplies

Engines

Initial Attack

PIDC will dispatch resources using the closest forces concept.

Mobilization
Engines need to be available in ROSS along with the crew members that will be on the unit.

Nonfederal resources will be listed and statused accordingly in ROSS in order to be mobilized and PIDC will mobilize according to current qualifications.

Resources not in ROSS will not be mobilized by PIDC.

Resource Orders

Engines need to be available in ROSS to the appropriate, desired level: Local, Regional or National. Crew members (overhead) that will be on the engine should status their availability as Local.

Nonfederal engine resources should add their point of contact in the remarks section of their ROSS web status, normally done by the Duty Officer who holds the account.

PIDC dispatchers will check the documentation tab in ROSS when filling orders for updated contact information.

SUPPLIES

It is up to each jurisdiction to order supplies as needed.
Chapter 50
Aircraft

INITIAL ATTACK RESOURCES

PIDC will fill orders from within zone and then go out of zone as needed through RMACC for assistance. PIDC will follow established guidelines and procedures to order any additional air support needed or required (Air Attack, Lead or ASM). It will always be up to the pilot to accept or decline any mission.

AIR TO GROUND FREQUENCY

Will be issued by PIDC, it is the jurisdictional agency responsibility to insure they have the needed frequency to communicate to any aircraft ordered or make arrangements with PIDC to send a liaison communication person. Without an established form of communication there could be a delay in using the requested resource or the aircraft may not be mobilized. PIDC cannot mix aircraft that cannot communicate with each other on standard frequencies assigned by PIDC.

If an Aircraft cannot communicate with the incident, the aircraft will be advised to return or orbit while PIDC attempts to establish communication with the incident. If PIDC or the aircraft cannot establish communication PIDC will recommend that the aircraft return to base. It will be the pilot’s discretion if they choose to continue without established communications.

TFR

PIDC will process request for TFR’s as needed.

FLIGHT FOLLOWING

PIDC will follow Region 2 Mobilization Guide Chapter 80.

WHO CAN ORDER AIRCRAFT

Non-Federal Agencies will follow the established guidelines set forth in each respective County AOP. It is understood that when PIDC receives an Aircraft Order that the proper authorization and approval has been met.
ORDERING AIRCRAFT

PIDC will need the following to place an order

1. Name of incident
2. Descriptive location
3. LATITUDE.
4. LONGITUDE (degree/minutes)
5. Ground Contact
6. What is being ordered (SEAT, Heavy, Helicopter)
7. Values at risk (how many structures, power lines etc…)
8. Date and Time needed
9. Ability to communicate on assigned radio frequency given by PIDC

NOTE: Without an identified location (Lat/Long, or T, S and R) PIDC cannot dispatch aircraft which can cause a delay in processing the order.

Filling an Aircraft Order

1. Once order is filled PIDC will relay the following information to the ordering agency:
   a) Air to Ground Frequency assigned
   b) Request number
   c) Resources requested
   d) Resource assigned
   e) Resource ETD and ETA

PRIORITIZING AIRCRAFT

PIDC jurisdictional agencies prioritize aircraft for their incidents. Local Government Responsibility - Local authorities are responsible for prioritizing incidents within their jurisdiction.
CHAPTER 60
Predictive Services

SPOT WEATHER REQUESTS

Each jurisdiction has the ability to submit a spot weather forecast to the appropriate NWS office. Websites are listed below.

PIDC provides this service for the PSICC, RGD, SLVI-FMU, NPS and FWS as needed.

PIDC will submit the spot weather forecast to the appropriate NWS office by website for incident personnel to be able to view. In the event of internet loss, PIDC will submit by fax or phone.

When requesting your spot weather request, please identify your local NWS office, and if you would like the spot to be returned to you by email, fax, radio, or phone.

NWS offices are listed below:

Pueblo, CO. - http://www.weather.gov/pub/
Dodge City, KS. - http://www.weather.gov/ddd/
Topeka, KS. - http://www.weather.gov/top/
Wichita, KS. - http://www.weather.gov/ict/
Hastings, NE. - http://www.weather.gov/gid/

SITUATION REPORTING

PIDC will report incidents that have been officially reported to PIDC by phone, e-mail or through the ICS-209 system.

RX ADVANCE NOTIFICATION

PSICC, RGD and the SLVI-FMU agree to use the advance notification reporting form located on the PIDC web page at:

All agencies may use the advance notification reporting form if they would like to be added to the situation report.
RED FLAG WARNINGS

Red FlagWARNings are read over the radio only to the PSF, RGD and the SLVI-FMU. Red flag information is available through the NWS office web pages.

PIDC ANNUAL REPORT

PIDC annual report will be completed by January 31st of each year and will be posted on the PIDC web page.

PIDC ZONE Multi-Agency Coordination Group (MAC)

Consist of members from the Pueblo Interagency Fire Board (PIFB). PIDC Center Manager will coordinate with the PIFB Chairperson to activate as needed or directed.
